**Under this we publish articles and give notes on items which could not be included in the body of the text.**

## AKHIL BHARAT HINDU MAHASABHA*

**(Hindu Mahasabha Bhawan, Mandir Marg, New Delhi.)**

*President :* Nitya Narayan Banerjee.
*Vice-Presidents :* Prof. Ram Singh, V. G. Deshpande, Mahant Digvijay Nath, Gnanendra Nath Banerjee, K. G. Gangurde.
*General Secretary :* Pt. Brijnarayan Brajesh.
*Total membership of Party :* 4,50,000.
*Strength in the Lok Sabha :* 1.

### AIMS AND OBJECTS

The aim of the Hindu Mahasabha is to establish a really democratic Hindu State in Bharat, based on the culture and tradition of Hindu Rashtra and to re-establish Akhand Bharat by all constitutional means.

The objects of the Hindu Mahasabha are 1. To remove all forms of inequalities and disabilities, and thus to establish an order in which all nationals will enjoy equal opportunities to serve the State ; 2. To assure to each national, full freedom of thought, expression, association and worship ; 3. To make Bharat militarily strong and self-reliant in defence ; 4. To promote the glorious ideals of Aryan womanhood ; 5. To make Bharat politically, economically, morally and materially strong and self-reliant ; 6. To remove gross inequalities in the distribution of wealth, to assure a decent standard of living to each national and to secure to the workers and peasants their rightful share in the economy of the country ; 7. To industrialise the country as rapidly as possible ; 8. To reclaim all those who have left the Hindu fold and welcome others into it ; 9. To promote cow-protection and to stop cow-killing ; 10. To establish Sanskritised Hindi as the national language and Devanagri as the national script, with due regard to regional languages ; 11. To cultivate friendly relations with other nations with a view to maintaining international peace and progress ; 12. To lay down from time to time suitable programmes with a view to accomplishing as soon as possible the above objects.

Hindu Mahasabha has also undertaken to hold a conference — Vishwa Hindu Dharma Sammelan — of Hindus including the Buddhists all over the world. The main objects of Vishwa Hindu Dharma Sammelan are :

1. To bring about a mutual appreciation and understanding and a sense of oneness amongst the various orders of Hindu heritage.

2. To form a permanent forum of Hindus living all over the world for exchange of information and assistance.

3. To provide means of cultural, social and spiritual contact amongst Hindus of various countries and those of their spiritual centres in Bharatvarsha.

4. To make Hinduism a dynamic force whereby world peace and co-existence can be realised.

5. To revive and reinterpret the philosophical theories of Hindu way of life and bring them up-to-date by orientation in order to answer the present day socio-cultural and economic needs of the Hindu Society and in view of the scientific progress and technological development.

## ALL INDIA FORWARD BLOC

**(Central Office, Chhindwara, Madhya Pradesh.)**

*Chairman :* Hemanta Kumar Bose, M.L.A.

*General Secretary :* R. K. Haldulkar.

The Election Manifesto was adopted by the All India Council of the Party as directed by the Delhi Session of the Party, in its meeting held at Patna (Bihar) on the 1st and 2nd of October 1961. The Party contested about 100 seats to the State Assembly and 10 seats to the Lok Sabha in the States of West Bengal, Bihar, U.P., Madhya Pradesh, Delhi and Madras. One member from Madras and one member from West Bengal have been returned to the Lok Sabha and 18 members from West Bengal and 3 members from Madras have been returned to the State Assemblies. One M.L.A. elected as an independent from Yeotmal in Maharashtra State has joined the Forward Bloc. The Party has retained its strength in the Lok Sabha and has increased its strength in the W. Bengal Assembly from 8 to 13 and lost in M.P. as both the sitting M.L.A.s in Betul District of M.P. lost their seats to the Congress.

As far as its Election Manifesto is concerned it wants nationalisation of all key industries in the country, equitable redistribution of land with special provision to allot land to the landless peasants, fair wage to the workers, right to strike and full trade union rights to the workers, appointment of a Commission to go into the economic condition of kisans and suggest means of greater production of foodgrains to meet the deficit, action to vacate aggression of China on the northern frontiers of the country, free education to the students upto the degree level and up-to-date training of our defence forces to meet any aggression from outside.

The Party is opposed to any talks with Pakistan over the Kashmir issue and wants military action to vacate the Pak-occupied portion of Jammu and Kashmir.

The invitation of the S.S.P. to merge the A.I.F.B. with it was rejected by an overwhelming majority, in a special Delegates Session, held at Patna, on the 19th and 20th December 1964, as it felt that there was a vast difference between the S.S.P. and A.I.F.B. over its ideology and programmes.

In its meeting of the Central Committee held at Chinsurah in West Bengal on 8th and 9th May 1965 the Committees has demanded of the Govt. to set up a fresh Enquiry Commission under the Chairmanship of a Supreme Court Judge to enquire into the whereabouts of Netaji Subhas Chandra Bose as the party is of opinion that he is alive.

It was decided to hold the Silver Jubilee Session of the party at Madurai in Madras State from 23rd to 26th December 1965.

---

## BHARATIYA JAN SANGH

**(Ajmere Gate, Delhi.)**

*President,* Bachraj Vyas.
*Vice-Presidents,* Pt. Premnath Dogra ; Pitamber Dass.
*General Secretary,* Deendayal Upadhyaya.
*Secretaries,* Atalbehari Vajpayee, M.P. ; Jagannathrao Joshi ; Sunder Singh Bhandari.
*Treasurer,* Jhamatmal Wadhwani.
*Office Secretary,* J. P. Mathur.
*Total membership of party in country,* 8,12,000.
*Strength in the Lok Sabha :* 13.
*Strength in Rajya Sabha :* 4
*Total strength in State Legislatures :* 120.

No. of votes polled in elections to Lok Sabha : Over 74 lakhs.

Has branches in all the States including Jammu & Kashmir.

### AIMS AND OBJECTS

The party has put forward the following programme :

Opposition to copying U.S.A. or U.S.S.R. systems.

Promotion of private enterprise with adequate checks against concentration of power.

Top priority to food, defence, unemployment.

Right to work should be a fundamental right. Unemployment benefits.

Is opposed to the mechanization of agriculture.

Economic power should be decentralized.

Spheres of small-scale and large-scale industry should be clearly demarcated. Will promote small-scale industry by reserving markets, encouraging co-operative industries, giving protection to handloom industry.

Nationalisation of basic industries and defence industries. Other industries subject to supervision and regulation. Is opposed to nationalisation of banking and road transport. The present trend

in the nationalisation of industry will destroy democracy.

Indianization of foreign-owned industries (*e.g.* tea, coffee and rubber plantations). In others, two-thirds of investment and staff should be Indian. A ceiling on the profit which can be remitted abroad.

Co-sharing and Co-partnership in industry. Adequate representation of labour on boards of management. Encouragement of labour unions and automatic recognition. A permanent Wage Board. Periodic revision of scales of pay. Rs. 125 as the minimum wage at present. Social security legislation. Special allowance for hazardous jobs. Abolition of the employees' contribution to the Employees' State Insurance scheme. Equal pay for equal work.

Rs. 2,000 as maximum expendable income for individual—to be brought about through taxation and compulsory loans and investment.

Generally opposed to indirect taxation. Abolition of Sales Tax and excise duty on the necessities of life such as cloth.

Compulsory military training. Establishment of defence industries. Abolition of untouchability and fighting caste feeling to bring about unity in Hindu society.

Stands for unitary rather than federal conceptions.

Will abolish Legislative Councils and repeal the Preventive Detention Act and the Public Safety Acts and amend Sections 107, 108, 109 and 144 of the Criminal Procedure Code and Sections 124A and 153 of the I.P.C. to protect civil liberty.

Rs. 500 a month as a Minister's salary.

Strict reciprocity towards Pakistan.

Will press for full compensation for property left by refugees in Pakistan, and no concession in the matter of loans or canal dues.

Kashmir an integral part of India.

No plebiscite in Kashmir; and no special position to Kashmir in the Indian Union: same status as other States.

Non-involvement in foreign affairs. Friendly relations with all. Opposition to colonialism and Communist expansion.

Co-operation with U.N.O. Amendment of the Charter to make U.N.O. truly representative of the people. Permanent seat for India in the Security Council. Full support for people in revolt against Western Colonialism or Russian imperialism.

Is opposed to the extension in the fifteen-year limit laid down for the replacement of English by Hindi. Will have a five-year plan for the development of Hindi and other Bharatiya languages. Stands for the inclusion of Sindhi in the list of Bharatiya languages.

Stands for giving Hindi its rightful place in the State of Jammu and Kashmir.

Stands for (1) primary education through the mother tongue, (2) secondary and higher education through the regional language and Hindi as compulsory subject, (3) making learning of one regional language compulsory for Hindi-speaking students, (4) compulsory course of Sanskrit studies, (5) recognition of graduates of Hindi and of other recognised Indian languages as on par with English, (6) autonomy of educational institutions and universities.

Free and compulsory education at the primary and secondary stages. Free education to poor but deserving students at the higher stages.

**Co-operative Farming :**—The party is opposed to co-operative farming.

The Jan Sangh stands for peasant proprietorship and supports service co-operatives which should not be manned by officials or party cadres.

It suggests the following procedure: Immediate ceiling on future acquisition; Tenants are to be given fixity of tenure and fair rents are to be fixed; A scheme is to be put in operation to assist landless peasants to buy the additional lands required for an economic holding and to acquire full rights over the land; Fair wages are to be fixed for agricultural labourers; Ceiling at thirty acres or equivalent thereof yielding a minimum of Rs. 6,000 should be fixed. Owners of land are to be allowed a period of three years to sell their surplus land to peasants. The price is to be paid in instalments. There should be a comprehensive scheme for the consolidation of landholdings and the development of agriculture.

**State Trading in Food Grain :**—This will inevitably lead to compulsory procurement and rationing which is undesirable. With a view to guaranteeing a fair price to the producer and to arresting rising prices, the State should assume partial trading, but no monopoly.

**Third Plan :**—The party feels the need for a basic change in outlook. Planning should be viewed against the background of the country's cultural, social and political objectives. The party feels that a Socialist economy, invariably leads to concentration of power in the State and is not compatible with democratic ideals. The aim of planning should be mainly to create condition for people to have more and more initiative and facilities for engaging themselves in gainful economic activities. The party proposes the Plan should aim at providing full employment. Top priority should be given to agricultural production. Stress should be laid on mechanised small-scale industries. The public sector should pay more attention to consolidation than expansion. Emphasis should be shifted from big projects to small schemes. Greater attention should be given to the education and training of personnel required for a growing economy.

As for foreign economic aid this can be accepted if there are no political conditions. But in the main we should use our own resources.

The outlay on the Third Plan is too ambitious and the burden of taxes would be crushing. Agriculture must have priority. So must small-scale industry.

**Punjabi Suba :**—The Jan Sangh is opposed to the demand of Punjabi Suba as voiced by the Akali Dal.

**China :**—China should be unequivocally declared an aggressor and dealt with accordingly.

India should withdraw her support of the Chinese case in the U.N.O.

No talks should be held with China on any level till her aggression is vacated. Demanded rejection of Colombo Proposals. Accepts independent status of Tibet as a State, advocates its liberation and that Dalai Lama should be allowed to form an Emigre Government.

Effective steps should be taken to curb Chinese espionage and fifth column activities in the country.

The Communist Party should be banned.

Effort must be made to develop communications on the border.

**Pakistan :**—

About joint defence, the party suggests that it has little meaning so long as Pakistan does not change its anti-Indian policy and remains in forcible occupation of one-third of Kashmir. The time is not ripe for joint defence.

**Minorities in East Pakistan :**—The Government of India should assume a political responsibility for their safety and security. Sanctions against Pakistan to secure equal treatment to all. Migration rules be completely relaxed in the case of minorities. Compensation for immovable property left by them be assured. Safe transit provided. Rehabilitation expenses and compensation to be claimed from Pakistan. Citizenship rights conferred on the migrants. Evacuee laws for the eastern zone be enacted. Those muslims who want to opt for Pakistan be provided all facilities to dispose of their property or compensation and safe transit. Pakistan infiltrators be immediately expelled.

**Foreign Policy :**—The Jan Sangh believes that the enlightened self-interests of India demand a policy of non-alignment with two power blocs in her foreign relations. It should, however, be considered a policy and not a dogma. Nothing should prevent us from increasing our military strength by securing the latest weapons from any possible source. Care to be taken that Asian neighbours do not continue to pass over into Chinese fold and that those who are threatened by China do not remain neutral to us but become our active associates.

**Communalism :**—Believes that there is no place for communalism, casteism and religionism in a democratic country. To meet this evil it thinks necessary that the conception of 'majority' and 'minority' based on religion should be given no quarter, no distinction in matters of services, trade and education etc. on basis of differences in the ways of worship be made.

# COMMUNIST PARTY OF INDIA

**(7/4, Asaf Ali Road, New Delhi.)**

*SECRETARIAT : Chairman :* S. A. Dange; *General Secretary :* C. Rajeswara Rao; Dr. Z. A. Ahmad, M. N. Govindan Nair, Bhupesh Gupta, Romesh Chandra, Yogindra Sharma, Dr. G. Adhikari and N. K. Krishnan.

In the 1962 general elections the Communist Party retained its position as the second party of the nation, next only to the Indian National Congress. In the elections to the Lok Sabha, the Communist Party polled 1,15,46,439 votes. In the Lok Sabha the Communist Party occupied the position of the leading Opposition Group and in the two State legislatures, viz. Andhra and West Bengal it is the recognised Opposition Party.

*The Policy :*

## DEMOCRACY

Reorganise administration and services in such a way as to make them subordinate and responsible to popularly elected State organs at all levels.

Grant universal and equal suffrage to all male and female citizens of India who have attained the age of 18 years in elections to Parliament, legislative assemblies and local bodies through secret ballot; introduce proportional representation in all elections and right of recall of elected representatives by majority of electors.

Abolish second chambers and such reactionary, out-dated institutions and practices as the post of State Governors, rule by ordinances, detention without trial and privy purses and other privileges of the princes.

Establish elected legislatures with full powers and responsible governments in centrally administered areas like Delhi, Manipur, Tripura, Himachal Pradesh on par with other States.

Enforce directive principles of the Constitution like right to work, living wage, free education, social security, etc.

Ensure inviolability of person and domicile, unhampered freedom of conscience, religious belief and worship, speech, press, assembly and organisation, strike and combination, freedom of movement and occupation.

Abolish social disabilities from which women suffer.

Abolish social and economic oppression of one caste by another. Make such oppression punishable by law. Strengthen secular basis of the State.

Separate judiciary from the executive. Ensure simpler, cheaper and speedier justice within reach of the common man. Provide free legal aid for poorer sections of population.

### Industry and Commerce

Stop further entry of foreign private capital; adopt necessary measures to bring about total elimination of existing foreign private capital from national economy.

Expand scope of State sector by vigorously developing key and heavy industries in the State sector and also by extending sphere of nationalisation to banks, general insurance, foreign trade, oil, coal and other mines and plantations.

In the case of existing largescale industries producing cotton and jute manufactures, sugar, cement, etc. impose control over prices, raw materials and rate of profit.

Give facilities to non-monopolistic private enterprises and smallscale industries. Special attention be given to help developing industries in backward regions.

Help organisation of handicrafts men into their respective cooperatives.

Reorganise taxation system and base it on principle of capacity to bear burden. Introduce ceiling on profits, and incomes and graded tax system in industry, trade and agriculture.

Introduce state-trading in essential commodities like foodgrains, cloth, etc. and supply them to people at reasonable prices.

Promote formation and development of cooperative sector in small-scale industry and distribution.

### Working Class

National minimum wage should be fixed and workers should be assisted in securing fair wages which should be above the minimum. Sliding scale of D.A., bonus, gratuity and holidays with pay.

Enlarge and liberalise social security measures, such as provision against unemployment, ill-health and old age. Provide housing facilities at cheap rent.

Guarantee full trade union and democratic rights.

### Agriculture

Break concentration of land by abolishing all forms of landlordism, by imposing effective ceilings on landholdings and distributing surplus land to agricultural labourers and poor peasants free of cost.

All types of fallow lands in the hand of the State be distributed to agricultural labourers and poor peasants. Long-term development loans be advanced for reclamation of these lands by the Government.

All land reform measures be implemented with the help of popular committees of accredited representatives of peasants and agricultural labourers. Financial and technical aid also be distributed in a similar way.

Stop payment of remaining portion of compensation to big zemindars and jagirdars. Cancel all oppressive debts of peasants and agricultural labourers owed to landlords and usurers.

Introduce graded land tax based on income, exempting all uneconomic holdings from tax.

Organise multipurpose cooperatives to provide cheap credit, seed, manure, pesticides, etc. to peasants and ensure remunerative prices for their products. Provide cheap irrigation facilities; start agro-industries in the countryside.

Ensure adequate wages and living conditions for agricultural labourers.

Establish model State farms on mechanised and modern lines (e.g. Suratgarh) where vast tracts of land are available.

Encourage cultivators to form cooperative farming societies on a voluntary basis.

### Armed Forces

Ensure decent living standards for members of the armed forces, including the police.

Ensure them all democratic rights which the citizens of the country enjoy, including the right to stand for election, consistent with the needs for maintaining the armed forces as a disciplined and efficient body. Educate and infuse armed forces with spirit of patriotism, democracy and love for people of the country.

### Language Problem

Ensure that English as medium of administration and instruction is replaced by Indian languages. Every State should use its own language for its internal administrative purposes. It should also be medium of instruction at all levels.

Gradually replace English by Hindi as the medium of communication between different State governments and between the Centre and State governments.

### International Relations

Strengthen independent foreign policy of peace, non-alignment and anti-colonialism.

Participate in common initiative of peace-loving countries for reduction of tension; fight for universal and complete disarmament, for banning of nuclear weapons and liquidation of all foreign military bases.

Build solidarity with Afro-Asian and Latin American countries fighting against colonialism and neo-colonialism. Accomplish India's withdrawal from British Commonwealth.

Work for peaceful settlement of all differences and disputes with neighbouring countries such as Pakistan, China, Nepal, Burma and Ceylon and establish friendly relations with them on the basis of Panch Sheel.

Develop relations of close cooperation with socialist countries.

### India-China Border Dispute

The Party stands for a peaceful settlement of India-China border dispute. The frontier of India in the Eastern Sector lies along the MacMahon Line, and that in the Western Sector it is the traditional frontier between the two countries that should be recognised. The Party stands for defence of the territorial integrity of the country.

### Communist Split

In April 1964, a section of the Party led by P. Sundarayya, E. M. S. Namboodiripad, Jyoti Basu and A. K. Gopalan split away from the C.P.I. Reasons for the split were political-ideological differences which had become very much sharpened particularly since the Chinese aggression of October 1962.

The split became final when those who had walked out decided to hold their own "Seventh Congress" in Calcutta, where Mr. P. Sundarayya was elected General Secretary in November 1964.

---

# DRAVIDA MUNNETRA KAZHAGAM

**(Arivaham, Suryanaryana Chetty Street, Royapuram, Madras.)**

*General Secretary :* C. N. Annadurai.

### AIMS AND OBJECTS

The attainment of a sovereign independent socialist republic of Dravidanad, comprising the four linguistic States of Tamilnad, Andhra, Karnatak and Kerala. The four linguistic units will have full internal autonomy in the federal structure and the right to secede.

This State will have an independent foreign and defence policy.

India is not a nation. It is a sub-continent consisting of many nations.

English should be retained as an official language for all-India purposes. Regional languages should be the State languages in the States.

Hindi is not a national language. It is only one of many regional languages. There should therefore be no compulsory teaching of Hindi in schools in South India.

The membership of the party is over 2,00,000 and the number of branches over 2,000, in Madras State. There are also branches in Kerala, Mysore and Andhra.

The D.M.K. stands for elections based on proportional representation with the right given to the voters to recall their representatives.

It polled more than 23 lakhs of votes in the third general elections and returned 50 members to the Madras Assembly, eight members to the Lok Sabha and one to the Rajya Sabha.

# INDIAN NATIONAL CONGRESS

**(7, Jantar Mantar Road, New Delhi.)**

*President :* K. Kamaraj.

*General Secretary :* T. Manaen.

*Treasurer :* Atulya Ghosh.

*Working Committee :* D. Sanjivayya, N. Sanjiva Reddy, Smt. Indira Gandhi, Atulya Ghosh, Morarji Desai, Jagjivan Ram, S. K. Patil, K. Kamaraj, Mohanlal Sukhadia, Y. B. Chavan, Ram Subhag Singh, Gulzarilal Nanda, S. Nijalingappa, Sadiq Ali, Fakhruddinali Ahmed, Biju Patnaik, Darbara Singh and T. Manaen.

*Presidents of Pradesh Congress Committees :* P. Thimma Reddy (Andhra), Sarat Chandra Sinha (Assam), Rajendra Mishra (Bihar), P. G. Kher (Bombay), Mushtaq Ahmed (Delhi), Tribhuvandas K. Patel (Gujarat), Satya Dang (Himachal), K. C. Abraham (Kerala), S. S. N. Mushran (Madhya Pradesh), Vinayakrao Patil (Maharashtra), Mohd. Ali (Mysore), N. Seetharama Chettiar (Pondicherry), Bhagwat Dayal Sharma (Punjab), Hardeo Joshi (Rajasthan), R. K. Naidu (Tamilnad), Bijoy Kumar Pani (Utkal), Kamalapati Tripathi (Uttar Pradesh), Vacant (West Bengal), Puroshottam Kakodkar (Goa.)

*Central Parliamentary Board :* Smt. Indira Gandhi, Jagjivan Ram, K. Kamaraj, Morarji Desai, S. K. Patil, Y. B. Chavan, Fakhruddinali Ahmed.

*Central Disciplinary Action Committee :* Morarji Desai, Jagjivan Ram, S. K. Patil, Atulya Ghosh, Gulzarilal Nanda.

*Leader, Congress Party, Parliament :* Smt. Indira Gandhi.

*Deputy Leaders, Congress Party, Parliament :* Dr. B. Gopala Reddi (Lok Sabha) ; Surendra Mohan Ghose (Rajya Sabha).

*Secretaries :* Raghunath Singh, Bibhuti Mishra, R. S. Panjhazari.

*Treasurer :* Rameshwar Tantia.

*Total membership of Party in country :* (1965): Primary : 1,73,40,000 ; Active : 332,000.

*Strength in Lok Sabha :* 374.

*Strength in Rajya Sabha :* 174.

*Total Strength in State Legislative Assemblies :* 2,096.

*Total number of votes polled in the General Election:* Lok Sabha : 5,15,09,084 ; State Assemblies : 4,65,75,920 (excluding Kerala and Orissa where mid-term elections were held previously).

The Indian National Congress includes the following bodies :

The All-India Congress Committee, the Working Committee, Pradesh or Territorial Congress Committees, District or City Congress Committees, Block Congress Committees and Committees subordinate to the Block Congress Committees to be determined by the Pradesh Congress concerned.

There are 19 Pradesh Congress Committees :

Andhra, Assam, Bihar, Bombay, Delhi, Gujarat, Himachal, Jammu & Kashmir, Kerala, Madhya Pradesh, Maharashtra, Mysore, Punjab, Rajasthan, Tamilnad, Utkal, Uttar Pradesh, West Bengal and Tripura.

There are five Territorial Congress Committees:

Goa, Manipur, Nagaland, NEFA and Pondicherry.

The Block Congress Committee, on which the organization is finally based, covers an area having a population of about 60,000 coterminus with a Development Block and is made up of active members residing or working in the Block area.

The District and Pradesh Territorial Committees are elected by the elected members of the Block Congress Committees. Also there are on them representatives of certain organizations or institutions working in the area in accordance with certain rules. These allied organizations are trade unions, kisan and youth bodies.

The A.I.C.C. also has on it representatives of allied institutions and organizations.

## AIMS AND OBJECTS

The ideology, outlook and policy may be described as follows :

The object of the Indian National Congress is the well-being and advancement of the people of India and the establishment in India by peaceful and constitutional means of a Socialist State based on Parliamentary Democracy in which there is equality of opportunity and of political, economic and social rights, aiming at world peace and fellowship.

The provision of the basic needs of food, clothing and shelter, and of opportunity for cultural growth for all people.

With a view to achieving the above objects planning should take place with a view to the establishment of a socialistic pattern of society where the principal means of production are under social ownership or control and there is equitable distribution of national wealth.

Full employment should be achieved in ten years.

The State should initiate and operate large-scale schemes, providing services such as power, transport ; have over-all control of resources, social purposes and trends ; maintain strategic controls ; prevent private trusts and cartels ; maintain standards of labour and production ; the public sector must progressively play a greater part particularly in the establishment of basic industries ; the private sector should function in terms of the national plan.

Organization of industry, commerce, agriculture on a co-operative basis.

Participation of workers in management of industry.

Perspective planning ; flexible short-term plans in the context of a long-term plan.

Backward areas and regions should be specially helped to develop themselves.

The per capita income should be doubled in fifteen years.

Belief in a secular State ; all citizens to have equal rights ; removal of barriers which divide people on the basis of religion, caste, class or region.

### Land Reform

Abolition of old and out-dated agrarian systems of tenure ; security of tenure and fair rents for tenants and tillers of the soil.

Land reform should be effected quickly, agricultural prices stabilized at a reasonable level and facilities for rural credit greatly enlarged.

There should be a ceiling on holdings.

Co-operative farming ; the village as the unit of co-operative management.

Local administration through Panchayats.

Promotion of small-scale and cottage industries as supplier of consumer goods and source of employment ; organization of cottage industries in industrial co-operatives.

State trading should be undertaken whenever the balance of advantages lies in favour of such a course.

Control of distribution is essential in times of scarcity.

Redirection of public expenditure, imposition of estate duties and of tax on wealth and spending for the removal of inequalities and the provision of resources for the Second Plan.

There should be a reasonable relationship between maximum and minimum incomes.

Better housing for workers.

Effective machinery to commend good work and condemn bad work in the public services.

Summary method to deal with corruption.

### Education

Basic education will provide the future pattern of primary as well as secondary education. Primary Schools will be converted to the Basic type in a well-planned manner within ten years.

Multi-purpose schools will be established.

Manual work as part of curriculum of higher education ; no degree or diploma without manual work.

The medium of instruction at the primary stage must be the mother tongue. Where the mother tongue of a child is not identical with the regional language instruction in the mother tongue should be made available, provided there is a reasonable number of persons demanding such instruction.

At the secondary stage instruction should ordinarily be in the regional language, though other languages could be used if there is a large enough demand.

At the university stage, the regional language should be the medium, though Hindi and even English could be used as this will facilitate inter-provincial cultural intercourse.

In the teaching of scientific and technical subjects the transition from English to Hindi or the regional language should be gradual.

Hindi should be a compulsory second language at the Secondary stage.

The study of English should be taken up at the secondary school stage and continued at the university.

Progressively, examinations for the all-India services should be held in English, Hindi and the regional languages. Candidates who have chosen Hindi or a regional language should pass separately in English.

Successful non-Hindi candidates should take a test in Hindi at an early stage.

Hindi Prachar Sabhas in the headquarters of every Taluka in the south.

It is desirable for people in Hindi-speaking areas to learn at least one regional language.

Proper representation to minorities in legislatures and other public bodies.

Social and legal disabilities hindering the progress of women should be removed and women should be placed on a footing of equality in the matter of marriage, property, inheritance and divorce through a series of Hindu law reform bills.

Formation of regions within a State may be necessary for the full development of a language or culture.

On the whole, it is best not to have relatively small units.

The Congress is committed to prohibition.

### Foreign Policy

Independent line in foreign policy ; friendly relations with all countries.

India's relations with foreign countries will be governed by the Panch Shila. They should also be the basis of the relations between all nations.

Regional military pacts which happen to serve specific interests of the Great Powers will not promote the cause of peace.

**India will not be aligned to any power bloc, and will not take part in other people's wars.**

**China must be admitted to the United Nations. Membership should, in fact, be universal.**

**In general, people under colonial rule should be free.**

**Racialism should end.**

### Disarmament

Disarmament, which has been long considered and discussed, has now become an immediate and essential necessity because of the terrible consequences of modern war and the impending threats to human survival as a result of the use of weapons of mass destruction.

### Durgapur Session

The 69th plenary session of the Indian National Congress was held at Congress Nagar, Durgapur, from 6th to 10th Jan. 1965.

### Resolutions

Condolence resolutions expressing deep sense of sorrow and grief at the deaths of Shri Jawaharlal Nehru and other prominent leaders and congressmen were moved from the chair. The resolutions were passed and all the delegates observed two-minutes' silence.

A resolution expressing sympathy to the victims of cyclone disaster at Rameswaram was also moved from the chair.

### Jawaharlal Nehru Memorial Fund

The congressmen appealed to all the countrymen to contribute generously to the Jawaharlal Nehru Memorial Fund, so that the ideals and activities which were dear to the heart of Shri Jawaharlal Nehru might be effectively furthered and his dream of a just, self-reliant, democratic and socialist India might be brought to early fruition.

*National reconstruction :* The congress considers that in the task of National reconstruction it is as important for the various Pradesh and District Committees to maintain close and living contact with the people. The youth of the country has to be infused with a sense of purpose and participation in the development of the country. Their vast energies have to be channeled in the right direction and properly utilised. This calls for a well co-ordinated youth programme.

Contacts with the farmers are of the highest importance. A good deal of assistance can be provided to the farmer in matters connected with increased agricultural production, especially food production.

The country's economic development is a matter of vital necessity. Industrial labour plays a vital role in the economic development of the country. The congressmen should render all assistance to the I.N.T.U.C. in its efforts in building up a responsible and devoted labour movement in the country. Agricultural labour forms a major portion of our weaker section of the community. They deserve all the support the congress organisation can give in respect of regeneration of rural economy.

*International Affairs :* The Indian National Congress reaffirms its determination to continue to pursue the policy of non-alignment and peaceful co-existence, which in the context of the recent charges in the international situation has an ever widening and constructive role to play in the maintenance and consolidation of international peace and security. The vast advances in science which can do much for the prosperity and well being of humanity should be exploited only for the purpose of peaceful development and progress of the mankind. The congress declares that efforts be redoubled for the development of peaceful use of atomic energy for the prosperity and well-being of the people.

The proliferation of the atom bomb has increased the menace to the people of the world. The peace loving nations should unite together in raising their voice against the increasing threat to human existence. The United Nations and the major nuclear powers should pay urgent and serious attention to this problem, so that the danger of vast devastation to mankind by any use of nuclear weapons is obviated. The congress recognises that the Moscow Partial Test Ban Treaty helped to achieve a measure of success and hopes that the countries who have not already done so should subscribe to the Moscow Test Ban Treaty which should also be extended to cover underground tests. The congress also welcomed the reaffirmation of the principles of peaceful co-existence by the Cairo Conference and hoped that General Assembly of the U.N. would adopt these principles on the occasion of its 20th anniversary.

*Democratic Socialism :* The congress resolution on 'Democracy & Socialism' adopted at the Session of the Indian National Congress at Bhubaneswar laid down the goal as well as the basis of economic policy for the nation. It also set down the broad outlines of the programmes and measures needed to fulfil the aspirations of the people of India, which found expression in the resolution. The congress reaffirms its faith in these basic concepts and programmes.

### Congress Unit in Kashmir

The Kashmir National Conference had been functioning on the same lines as that of the Congress. Many people in Kashmir and the rest of the country had expressed a strong desire that the National Conference should become an integral part of the Congress. In the plenary session this decision was adopted and moved, and initial work for the establishment of a Congress Unit in Kashmir started from January 26, 1965.

### Bangalore Session

The 70th Session of the Indian National Congress was held in Bangalore on July 23, 24 and 25, 1965.

Members of the Working Committee who had a prolonged discussion on Kutch on July 23, 1965, decided not to place any official-resolution before the AICC lest it should lead to a public expression of divergent points of view through a series of amendments.

Though many members in the committee felt that the agreement was disadvantageous in several respects, it was ultimately conceded that the Government had acted in the best interests of the country.

It was learnt that Mr. Shastri and Mr. Swaran Singh had each brought with them draft resolutions on the Kutch situation for adoption by the committee. Both of them were persuaded by the committee not to move any formal resolution but throw the subject open for a general discussion through a brief statement by the Prime Minister.

Mr. Morarji Desai and Mr. V. K. Krishna Menon were among the members who pointed out that the Indo-Pakistani cease-fire proposals were dissatisfactory. Mr. Desai felt that a better agreement could have been secured if the Government had acted more firmly. The agreement was wholly disadvantageous to India.

Mr. Menon examined the legal aspects of the accord and maintained that India should have assessed its implications more carefully before accepting it.

### Text of Resolutions

The following is the text of the resolution on inter State harmony.

"The challenge which the country faces today in the task of economic development with a view to providing adequate food, clothing, shelter and other basic necessities of life to the common man can be met successfully only by the united and determined will of the people.

"The energies of the nation have to be concentrated fully on this task and they should not be dissipated in any measure owing to the existence of disputes between one State and another in matters relating to borders, river waters, or the supply of electric power and the like. The continued existence of such disputes tends to create friction and disunity and saps the energy of our people.

"A.I.C.C. considers that it is imperative for us all to realise that in all such matters the interests of the country as a whole must receive precedence over all other considerations. It wishes to emphasise the need for the promotion of unity and harmony among the States through resolute and persistent endeavours.

"A.I.C.C. considers that all efforts must be made to settle such disputes by mutual negotiations backed by a sincere desire to find fair and equitable solutions. In cases where such efforts do not succeed, A.I.C.C. recommends that the Government of India should set up appropriate machinery for a speedy and final settlement of the disputes."

The resolution on organisational unity said :

"The people of India have continued to give their support to and repose confidence in the Indian National Congress. A.I.C.C. considers that this has cast an increasing responsibility on the organisation to keep under continuous review organisational and other matters to ensure that the party discharges its responsibilities to the satisfaction of the people.

In this context, A.I.C.C. expresses its concern over the dissensions which continue to exist among individuals and groups within the Congress, which harm and weaken the organisation. It recognises that in a democratic organisation there is room for honest differences of opinion. But it is unfortunate, however, that personal and group rivalries have developed within the organisation.

A.I.C.C., therefore, appeals to all Congressmen to realise that prolonged dissensions have an undesirable effect on the party and on the larger interests of the nation, it urges Congressmen to make a genuine and sincere endeavour to forget the past and close their ranks, inspired by the ideals of service to the nation.

A.I.C.C. recommends that, with a view to resolving such differences as exist at present or as may emerge from time to time, the Working Committee should constitute a panel out of which the president may appoint boards to settle the differences."

On July 25, 1965 the All-India Congress Committee unanimously adopted the resolution on organisational solidarity.

The next session of the A.I.C.C. was to be held at Jaipur from Feb. 9, 1966.

# PEASANTS AND WORKERS PARTY OF INDIA

**(Jyotiba Phule Road, Naigaum, Bombay 14.)**

*General Secretary :* Dajiba Desai.

### AIMS AND OBJECTS

To promote international relations on the basis of equality and mutual co-operation and strengthen the forces of peace.

To oppose imperialism and all kinds of domination by one country over another and to support the movements for national independence and against racial discrimination, all over the world.

To establish People's Democracy as a first step towards the realisation of the final goal of a socialist society in this country.

To nationalise all key and basic industries and control the industries in the private sector to ensure their management in the interests of the country.

To nationalise Banks and the remaining sectors of the insurance business.

To industrialise the country rapidly and ensure labour participation in management.

To abolish unemployment by rapid industrialisation, decentralisation of industries, balanced industrial development of different regions, provision of technical training, promotion of the growth of small-scale and village industries and by increasing the capacity of the existing industries.

To abolish all kinds of feudal relationships in agriculture and introduce co-operative farming.

To ensure reasonable prices to the farmers and to entrust the selling, purchasing, processing and warehousing functions to the co-operative societies.

To guarantee minimum wage to agricultural labour and to distribute surplus and Government lands among them.

To guarantee the right of work and a minimum wage to everybody.

To introduce free and compulsory education upto the age of 14 and to subsidise increasingly secondary and higher education. To provide free technical education.

To abolish untouchability by the economic improvement of the Scheduled Castes and Tribes and other backward communities.

Equal rights to women and the enforcement of the principle of equal pay for equal work.

To decentralise the administration and make it responsive to the people's needs and criticism.

To form unilingual States and draw the boundaries of the States on linguistic basis.

*Total Membership :* As a Marxist Party the membership of the Party is strictly restricted to those who are active workers and devote a major part of their time to party work. The rest are put in the class of sympathisers.

Both classes of members together number about 10,000.

*Strength in Lok Sabha :* 1.
*Strength in Rajya Sabha :* 1.
*Strength in State Legislatures :* 15.
*Strength in Legislative Councils :* 4.
*Percentage of votes polled in the election to the Lok Sabha and to the Assemblies respectively by P.W.P. was* 9%.

---

# PRAJA SOCIALIST PARTY

**(18, Windsor Place, New Delhi 1.)**

The National Executive of the Praja Socialist Party decided to annul the tentative merger with the Socialist Party arrived at in June, 1964.

An emergency conference of the Praja Socialist Party was held at Varanasi, on January 31, 1965, under the Chairmanship of Shri Surendranath Dwivedy, M.P.

The emergency conference was attended by 625 out of the 800 PSP delegates present at the Varanasi Samyukta Socialist Party Conference. The emergency conference passed the following resolution unanimously :

(1) This Conference of the delegates of the PSP endorses the statement submitted to the Chairman of the erstwhile SSP at its foundation conference by the PSP's representatives on the National *Ad Hoc* Committee of the SSP, and considers the merger of the PSP and SP as annulled.

(2) The conference further resolves to revive the units of the Praja Socialist Party at all levels immediately.

(3) The conference reaffirms its faith in the Policy Statement of the PSP and reiterates the policy of the PSP adopted at Bhopal, in June 1963.

(4) The Conference adopts the former Constitution of the PSP and its election symbol, the "HUT".

The Conference elected the following office-bearers :—

*Chairman :* N. G. Goray ; *Dy. Chairman :* Triloki Singh ; *General Secretary :* Prem Bhasin ; *Treasurer :* Sanat Mehta.

*Joint Secretaries :* M. R. Dandawate ; Shishir Kumar ; Bagaram Tulpule ; Surendra Mohan.

*Members of the Executive :* N. G. Goray ; Triloki Singh ; Prem Bhasin ; Sanat Mehta ; Surendranath Dwivedy ; H. V. Kamath ; Hem Barua ; Mukut Beharilal ; Basawan Sinha ; Debu Bose ; Brij Mohan Toofan ; Harbhajan Singh.

*Central Parliamentary Board : Chairman :* H.V. Kamath ; *Secretary,* K. K. Menon.

Strength in Lok Sabha 9 and in Rajya Sabha 7.

*Strength in State Assemblies :* W. Bengal 2 ; Bihar 9 ; Orissa 10 ; U.P. 5 ; Madhya Pradesh 22 ; Gujarat 2 ; Goa 2 ; Maharashtra 4 ; Mysore 22.

*Strength in Councils :* Bihar 2 ; U.P. 2 ; Maharashtra 1 ; and Mysore 2.

---

# THE REPUBLICAN PARTY OF INDIA

**(Gandhi Road, Chanda, Vidarbha.)**

*President,* B. K. Gaikwad, M.P.

***General Secretary,*** **B. D. Khobaragade, M.P.**

The main aims and objects of the Party are to realise the aims and objects set out in the preamble to the Indian Constitution, namely : The equality of all persons ; the right of self-development ; freedom of religion ; and economic and political freedom ; equality of opportunity with the proviso that those who had none in the past should have priority ; freedom from exploitation of man by man, class by class, nation by nation ; the parliamentary system of government.

The R.P.I. has three members in the Lok Sabha and 11 in the Assemblies.

---

# REVOLUTIONARY SOCIALIST PARTY

**(780, Ballimaran, Delhi 6.)**

*General Secretary*, Tridib Kumar Chaudhuri, M.P.

*Secretaries*, Pratul Chaudhuri, N. Sreekantan Nair, M.P., Makhan Paul, Keshav Prasad Sharma, Durga Bagchi and Sushil Bhattacharya.

The party is a Marxist Leninist Party and relies on mass and class action. It is organized on the principle of democratic centralism.

But it is opposed to subservience to the foreign policy of Russia or China.

It believes in the redistribution of land with ceilings, joint cooperative farming and mechanization. It supports the general ideas underlying the Third Plan but insists that the sacrifices involved in deficit financing should be shared by all equitably. It believes in the policy of heavy industrialization, nationalization of all basic industries and of all large-scale organized industries, with private sector limited to small and cottage industries only and their organization on cooperative lines. It also advocates the introduction of appropriate democratic devices for workers' and consumers' control over publicly owned industries, enterprises and financial institutions. The party also favours balanced regional economic development. On China, it condemns the Chinese aggression and in the current background of Sino-Indian armed conflict and cease-fire supports the Colombo Proposals evolved by the six non-aligned Powers in Dec. 1962 as a basis for negotiations between the two countries.

The manifesto for the 1962 Elections advocated the formation of United Front of all leftist parties including both C.P.I. and P.S.P. in order to oppose the Congress Party at the polls.

*Members in the Lok Sabha :* Two (West Bengal 1; Kerala 1).

*Total number of members in the State Assemblies :* Eight (West Bengal 8).

*Total membership of party :* 25,752.

The party has branches in Assam, West Bengal, Bihar, Uttar Pradesh, Delhi, Rajasthan, Maharashtra, Madras and Kerala.

---

# SAMYUKTA SOCIALIST PARTY

**Central Office : Kendra Karyalaya,**
**179, South Avenue, New Delhi 11.**

The new socialist party formed by the merger of the Praja-Socialist and Socialist parties, was christened Samyukta Socialist Party on June 6, 1964. Mr. S. M. Joshi was elected Chairman of the new party and Mr. Raj Narain as General Secretary at the meeting on June 8, 1964. However, at the first conference of the newly formed party called at Varanasi (Banaras) from Jan. 29 to Feb. 1, 1965, a small section of the former Praja Socialist members quit the S.S.P. to revive the P.S.P.

**Aims and Object**

To achieve, by democratic and peaceful means, a socialist society, free from social, political and economic exploitation of man by man and of nation by nation.

The Party will organise, guide and lead peaceful revolutionary class struggles, mass movements and civil disobedience; promote constructive efforts; and also use parliamentary methods to secure political power in order to eliminate all forms of injustice and feudal-capitalist exploitation.

Members of Parliament and State Legislatures and other levels as well who have been elected on P.S.P. and S.P. tickets are now members of the Samyukta Socialist Party.

The party position in the Parliament and Legislatures is : Lok Sabha 9 ; Rajya Sabha 4 ; Legislative Assemblies 167 ; Legislative Councils 13.

The Party is active on the trade union front through the Hind Mazdoor Panchayat, a central organisation of trade unions. On the youth front, it works through the Samajwadi Yuvajan Sabha, while a women's front is being organised through the Samajwadi Mahila Sabha. The Hind Kisan Panchayat organises the small farmers and agricultural labourers.

Membership of the Party stood at over 400,000 on December 31, 1965. Of these, about 75,000 were affiliated members from trade unions, kisan and youth organisations. The rest were individual members enrolled through the Constituency units. The annual membership fee for individual members is 50 paise.

*Office Bearers : Chairman :* S. M. Joshi; *General Secretary :* Ramsevak Yadav ; *Treasurer :* George Fernandes.

The Central Parliamentary Board consists of : Badrivishal Pittie, *Chairman ;* M. Samba Murthy, *Secretary ;* and Karpuri Thakur, Deven Sen, Raj Narain, A. Shreedharan, Mangaldev Visharad, Madhu Limaye and Mrs. Shanti Nayak, *Members.*

Efforts are being made for the merger of Peasants' and Workers' Party with the S. S. P. and of the All India Forward Bloc. No final decision had been taken upto the time of writing this.

---

# SHIROMANI AKALI DAL

Broadly speaking there are three groups among the Sikhs. One group is the main body of the Shiromani Akali Dal. It is in favour of maintaining the separate identity of the Sikh community and the formation of a Punjabi Suba.

Before the 1957 general elections the Akali Dal adopted by an overwhelming majority four amendments to its constitution by which members were enabled to join the Congress and exclude politics from the Dal's domain.

The Akalis and Sikhs in general accepted the new Punjab of the States Reorganization Act (Pre-reorganization Punjab and PEPSU) and the regional formula with a zonal council for the Hindi and Punjabi speaking areas. The Sikhs are in a majority in the Punjabi-speaking zone, where the court language is Punjabi in the Gurmukhi script. It is estimated that the Sikhs form about 57 per cent of the population of the Punjabi zone.

In the general elections that followed though one group led by Giani Kartar Singh supported Congress candidates, the other group led by Master Tara Singh opposed some though not all Congress candidates.

Besides the Akalis, there is a large body of Sikhs who belong to the Congress. They do not believe that Sikhs as Sikhs should have a separate political identity.

The differences between the two groups among the Akalis—that of Giani Kartar Singh who was a Minister in the Government, and of Master Tara Singh—and also between Master Tara Singh and the Congress were widening all through the latter half of 1958.

According to Tara Singh this could be ascribed to : The alleged interference in the Gurdwara affairs which led to the defeat of Master Tara Singh in the S.G.P.C. elections, the alleged encouragement given to Giani Kartar Singh to divide the Sikhs, the Congress refusal to redistribute the boundaries of the Punjab on a linguistic basis, the half-hearted implementation of the regional plan embodying the Sachar language formula, the inadequate representation of Sikhs in the services and the alleged corruption and nepotism in the administration.

In the middle of Feb. 1959 the Shiromani Akali Dal decided to abrogate the Congress-Akali Pact and revive political activity.

Akali Dal thinks that Congress Government is the only hurdle to the way of Punjabi Suba. On the initiative of Master Tara Singh, all the opposition parties in the Punjab excluding Communists, have formed a united front to fight Congress. The main demand of Akali Dal, however, remains "Punjabi Suba".

At present there are two rival groups of the Akali Dal, one the Master Tara Singh group whose president is Giani Bhupinder Singh and the Sant Fateh Singh group with Sant Fateh Singh as President.

In the Shiromani Gurdwara Prabandhak Committee Poll, on Jan. 18, 1965, the group led by Master Tara Singh could win only 45 seats while Sant Fateh Singh's group secured 91 seats.

Shiromani Akali Dal chalked out a vigorous programme to help the kisans and the mazdoors and established two sections in the organisation viz., Kisan section and Mazdoor section. Shiromani Akali Dal have mobilised public opinion for necessary amendment to the Hindu Succession Act, of 1956 and has urged upon the Government of India to make the daughter shareholder in father-in-law's property instead of father as already enacted.

*President :* Giani Bhupinder Singh.
*Gen. Secretary :* Sardar Atma Singh.

**Punjabi Suba***

The Government of India set up on Sept. 23, 1965 a Cabinet Sub-Committee consisting of Mrs. Indira Gandhi, Mr. Y. B. Chavan

---

* The Government of India has decided to divide Punjab into two States, the Punjabi Suba and Hariana. A three-man Commission has been appointed to make recommendations about the boundaries of the proposed states (April 1966).

and Mr. Mahavir Tyagi to examine afresh the Punjabi Suba question and look into the grievances of the Sikhs To assist in its work a consultative committee of both houses of Parliament was set up subsequently with the Speaker of the Lok Sabha as its Chairman. Fourteen members of the Lok Sabha were nominated by the Speaker and seven of the Rajya Sabha were nominated by the Chairman of the Rajya Sabha as members of the Parliamentary Committee. Sant Fateh Singh opposed the formation of the committees as he was of the view that the formation of such committees will only prolong issues instead of solving them. The Cabinet sub-committee was expected to finalise its report by the end of December 1965. Upto the time of writing this (Jan. 28, 1966) the report has not been finalised. The cabinet sub-committee and the parliamentary committee have been functioning independently but in mutual co-ordination to avoid duplication of work.

The Punjab Cabinet unanimously decided on Jan. 5, 1966, to oppose the Akali demand for a division of the Punjab on a linguistic basis. The Cabinet has appointed a four-man committee to place its views on the Punjabi Suba issue before the consultative committee of Parliament, the three-man Central Cabinet Subcommittee and the other Central leaders. This sub-committee is understood to have formulated an alternative proposal. Its broad outlines are understood to have been discussed by the subcommittee with Mr. G. L. Nanda. Upto the time of writing, there has been no further development.

# SWATANTRA PARTY

## ( 143, Mahatma Gandhi Road, Bombay 1. )

*President :* Prof. N. G. Ranga.

*Vice-Presidents :* K. M. Munshi, Prof. M. Ruthnaswamy, H. H. Maharani Gayatri Devi of Jaipur, Jathedar Udham Singh Nagoke.

*General Secretary :* M. R. Masani.

*Treasurers :* Sir Homi Mody, Dr. R. C. Cooper, C. Rai; *Joint Secy.*, N. Dandekar.

*Members of the National Executive :* C. Rajagopalachari, R. N. Singh Deo, Lakshman Singh, Bhailalbhai Patel, P. K. Deo, Bhanu Pratap Singh, K. B. Jinaraja Hegde, Sardar Basant Singh, G. Latchanna, B. Ramachendra Reddy, Dahyabhai V. Patel, Hari Hara Das, J. M. Lobo Prabhu, Jaideepsingh, G. K. Sundaram, Mandhata Singh, Inder Singh, K. K. Kuruvilla, Smt. Shantabai Gulabchand Doshi, Sardar Ram Singh.

The Party has 21 members in the Lok Sabha and 11 members in the Rajya Sabha, with Prof. N. G. Ranga as leader in the Lok Sabha and Dahyabhai Patel as leader in the Rajya Sabha. The Party has 205 members in the various State Assemblies. The Party is the largest opposition group in both Houses of Parliament.

The Swatantra Party was established in Bombay on August 1 and 2, 1959, at a preparatory convention which was convened for the purpose of establishing the Party and adopting a statement of principles. Earlier an informal meeting had been called in Madras on June 4 at the initiative of the All India Agriculturists' Federation at which a decision was taken to launch a new Party under this name.

The first National Convention of the Party was held in Patna on March 19 and 20, 1960. Over one thousand delegates were nominated representing over 3,36,000 members spread throughout the country.

The constitution of the party was adopted by the Convention. It was also decided that a five pointed white star on a blue background would be the flag of the Party. The Convention also adopted a 9,000 word statement of policy based on the statement of principles adopted in Bombay.

The Second National Convention which met in Agra on Nov. 25 and 26, 1961, adopted the Party's Election Manifesto for the General Elections early in 1962.

The Third National Convention of the Party met in Bangalore on February 1 and 2, 1964. Clauses 4, 5 and 6(*b*) of the Party's Constitution dealing with membership were revised resulting in a radical change in the Party's structure.

Arising out of this revision in the Party's Constitution, two categories of adherents to the Party have now come into being, namely, Workers and Members. All those persons who have completed 18 years of age, signify in writing their agreement with the Party's principles and willingness to work for the Party and pay an annual subscription of Rs. 3 per year or Rs. 100 can become Workers or Life Workers respectively of the Party. Those who express in writing their agreement with the Party's principles but do not find it possible to work for the Party can become Members by signing the Party pledge form. They need pay no subscription. While such members will be consulted from time to time, they will not possess the right to vote in Party elections.

The Party's basic policy is contained in its Statement of Principles which runs as follows :

The Swatantra Party is pledged to social justice and equality of opportunity for all people without distinction of religion, caste, occupation or political affiliation.

The Party holds that the progress, welfare, and happiness of the people depend on individual initiative, enterprise, and energy. The Party stands for the principle of maximum freedom for the individual and minimum interference by the State, consistent with the obligation to prevent and punish anti-social activities, to protect the weaker elements of society, and to create the conditions in which individual initiative will thrive and be fruitful. The Party is, therefore, opposed to increasing State interference of the kind now being pursued.

The Party holds that the State should foster and utilise the sense of moral obligation, the pride, satisfaction, and fulfilment felt by individuals in serving others, which are inherent in our tradition, instead of adopting legislative or other forms of compulsion which commence with want of faith in the people and are consummated in the serfdom of the governed under the official machine, in an omnipotent State controlled by a political party voted to power. The Party, therefore, adheres to the principle of Trusteeship adumbrated by Gandhiji.

The Party holds that the policies of Government should be founded on faith in the people and not on State compulsion and the encouragement of hatred and conflict between class and class, expropriation, repudiation of obligations, and the conferment of more and more powers on the officials of Government at the expense of the freedom of the citizens.

The Party stands for every effort being made to foster and maintain spiritual values and preserve what is good in our culture and tradition, and avoid the dominance of a purely materialist philosophy of life which thinks only in terms of a standard of life without any reference to its content or quality.

The Party holds that steps should be taken to remove the pervading sense of uncertainty that has been created by the present policies of the Government and its varying forecasts of future plans, leading to the drying up of initiative and enterprise in land, shop, and factory alike. The Party holds that a sense of stability and incentive for individual effort can be restored only by strict adherence to the Fundamental Rights and Guarantees specified in the Constitution as originally adopted in respect of freedom of property, trade, and occupation, and just compensation for any property compulsorily acquired by the State for public purposes.

The Party holds that in the policies adopted for national development, priority must be assigned to the basic needs of the people, namely, food, water, housing, and clothing.

The Party believes that every citizen has a fundamental right to educate his children according to his choice and in a free atmosphere untramelled by official directives and that the State should afford facilities for such education without discrimination.

The Party holds that the paramount need is for increasing food production and this is best attained through the self-employed peasant proprietor who is interested in obtaining the highest yield from his land.

The Party believes in an intensive programme of agricultural improvement by promoting the material and psychological inducements for greater production without disturbing the harmony of rural life. The Party holds that there should be no disturbance of ownership, management, and cultivation of land, but believes in a more effective programme than is being followed at present in respect of irrigation, and the supply of material, implements, credit and marketing facilities.

The Party believes in the need for giving every kind of help to agriculture, but is opposed to cultivation through organisations which reduce private ownership to an empty paper-title and which bring into being a loose kind of multiple ownership which is certain to sap the incentive of the farmer and his family, reduce output, and take us to a collective economy with official management. It is firmly opposed to collectivisation and bureaucratic management of the rural economy.

The Party takes note of the dissatisfaction amongst the rural population that adequate attention has not been paid to their needs. It holds that the level of life of the rural people should be improved by removing all such impediments as are likely to stand in the way of their attaining a high standard of life, and by taking all steps necessary for the purpose, in particular for maintaining a reasonable and steady price for agricultural produce, which is in parity with other prices.

In industry, the Party believes in the incentives for higher production and expansion inherent in competitive enterprise, with adequate safeguards for the protection of labour and against unreasonable profits, prices and dividends, where there is no competition or where competition does not secure the necessary corrective.

The Party stands for the restriction of State enterprise to heavy industries such as are necessary to supplement private enterprise in that field, such national services as Railways, and the starting of new enterprises which are difficult for private initiative.

The Party is opposed to the State entering the field of trade and disturbing free distribution, and introducing controls and official management with all its wastefulness and inefficiency.

The Party believes that in the field of production, the free choice of the producer and the consumer must be given basic place and importance.

The Party stands for the preservation of the freedom of the small and self-employed artisans, craftsmen, and traders, who are in danger of losing their occupational opportunities by reason of the policy of Statism. These persons perform a great, widespread, and inexpensive function in our society, and their gradual extinction will be a national misfortune and add to our unemployment problem.

The Party stands for greater thrift in public expenditure. It holds that taxation should be kept at such levels as will not interfere with reasonable living standards for the people, both rural and urban, and which, while being necessary and sufficient for the carrying on of administration and such social and economic services as are taken up by the State, is yet not so high and exacting or so ubiquitous as to prevent capital formation and private investment.

The Party is opposed to a programme of development based on crippling taxation, abnormal deficit financing, and foreign loans which are beyond the capacity of the country to repay.

The Party is opposed to all policies that lead to excessive inflation, high prices that reduce the value of savings, endowments, and fixed incomes, and which create undue hardship for the present generation in the hope of a distant gain.

The Party believes that the cost of public administration should be reduced considerably. It stands for integrity and efficiency in the services. It is against the expansion of the bureaucratic machine, with a hierarchy of officials asked to do work which is best done by citizens and private agencies, resulting in unproductive waste of national resources.

The Party believes that the State will best serve the nation by encouraging and affording facilities for a decentralised distribution of industry and by limiting its own regulatory function to the prevention and punishment of anti-social activities wherever called for.

The Party stands for the creation of opportunities for full and lasting employment in all sectors of life. It stands for a programme of all-round industrialisation with a view to developing national resources and reducing unemployment. It believes in a balanced development of capital-goods industries, organised consumer-goods industries, and rural industries that afford supplementary employment in the small scale processing of the products of agriculture.

The Party stands for a fair deal for labour whether in the field, factory or office and for correlating wages to increased productivity and for the workers' right to organise for the purpose of collective bargaining. It stands for harmonising the interests of capital and labour when they get into conflict.

The Party is opposed to any form of political pressure being put on officials to deflect them from the course of fair and just discharge of duties without discrimination. It stands for the rule of law, an independent judiciary, and for the full play of the powers of judicial review given to the Courts by the Constitution.

The Party shall, in all matters, keep before itself the cardinal teachings of Gandhiji, maintaining faith in the people and in the efficacy of truth and non-violence.

The Swatantra Party holds that democracy is best served if every political party allows freedom of opinion to its members on all matters outside the fundamental principles of the party. It, therefore, gives its members, full liberty on all questions not falling within the scope of the principles stated above.

**ELECTORAL UNDERSTANDINGS :**

The Swatantra Party will continue to try its utmost in all elections to secure the co-operation of other democratic Opposition parties to avoid multilateral contests which give undue advantage to the ruling party. Such efforts should be no reason for any slackening in building up the party's own organization, which should enjoy the highest priority.

**SWATANTRA ALTERNATIVE :**

The Party believes that Planning should aim at abundance, that this should be effective immediately and not prospectively, that it should begin with the poorer and not the richer classes, that it should not substitute State help for self-help and that it should not increase the power of Government but the prosperity of the people.

The Party is not for *laissez-faire* nor is it opposed to all planning. It reiterates its stand that all planning must be devised and carried out within the framework of the freedoms guaranteed in the Constitution and calculated to achieve the welfare of the people.

The Party's approach to the problems of economic development and planning would be to apply to each policy and measure the test suggested by Mahatma Gandhi, namely, to ask if the step contemplated is going to be of any use to the poorest and the weakest members of the community. In the light of such a test, the Party believes that the present approach to planning needs to be replaced by one which provides for the following :

A proper order of priorities starting with the increase in production and the provision of elementary necessities such as pure drinking water, food, clothing and shelter and employment.

A reallocation of the role of State and free enterprise so that the State may perform its proper function of providing the infra-structure through the provision of roads and railways, efficient communications, facilities for the peasant such as irrigation and easy credit, cheap electric power and education, both technical and general; while all other economic activity should normally be left to competitive enterprise.

The incentive of legitimate gain under conditions of competition among producers.

The elimination of monopoly in both State and free sectors so as to provide maximum efficiency and service at minimum cost to the consumer.

Reducing to a minimum governmental controls and regulation to foster economic expansion and minimizing corruption.

The maintenance of stable prices through the observance by Government of measures of monetary discipline.

The revision of policies relating to taxation including land revenue so as to foster saving, investment and employment opportunities.

Remunerative prices for agricultural producers.

---

# AUTOMOBILE INDUSTRY

THE world's automobile industry in its present form is essentially a twentieth century development. One of the first automobiles to be seen in the streets of Bombay was owned by Shri Jamshedji Tata, the pioneer industrialist of India.

It would appear that the first motor car was imported into India in 1898. The practice to the end of the first world war was to purchase complete motor vehicles directly from abroad or through agents or dealers in India.

It was in 1920 that two automobile manufacturers, one from the U.S.A. and the other from Canada, set up local companies to do business in motor cars and trucks.

General Motors India Ltd. commenced assembling trucks and cars from components and parts imported from the U.S.A. in c.k.d. condition in their factory at Bombay in 1928. The first car came out of the assembly line on Dec. 4, 1928. The Ford Motor Company of India Ltd. commenced c.k.d. assembly of automobiles at Madras in 1930, and at Bombay and Calcutta in 1931.

Addison and Co., Ltd. commenced c.k.d. assembly of cars and trucks at Madras in 1936.

In addition to the above, other firms in the field were : Standard Motor Products of India Ltd., Madras ; Automobile Products of India Ltd., Bombay ; Ashok Motors Ltd., Madras ; Dewar's Garage and Engineering Works, Calcutta ; Peninsular Motor Corporation Ltd., Calcutta ; French Motor Car Co., Ltd., Bombay ; and Mahindra and Mahindra Ltd., Bombay.

The total annual assembling capacity of the firms mentioned above was estimated around 84,014 cars and commercial vehicles.

The importance of establishing an automobile industry was recognised by the Government of India in 1945 when a Panel on Automobiles and Tractors was constituted to make recommendations on the development of manufacture of automobiles and tractors in India. However, no definite action seems to have been taken on the recommendations of this Panel which were submitted in 1947. In the statement of Industrial Policy made in the Indian Parliament in April, 1948, automobiles and tractors were classified among industries of importance, which would be subject to regulation and control by the Central Government. In 1949, Government of India decided that import of motor vehicles should be allowed only in completely knocked down condition (c.k.d.). at the same time, further increase in assembling capacity beyond what was in existence prior to 1948, was not encouraged. From April 1, 1950, customs duty on certain parts which were being manufactured in the country was raised pending enquiry into the question of grant of protection and assistance to the industry.

In 1944, two companies, Hindustan Motors Ltd., Calcutta, and Premier Automobiles Ltd., Bombay, with an authorised capital of Rs. 20 crores and Rs. 10 crores respectively, were established with a programme for progressive manufacture of complete automobiles.

Premier Automobiles Ltd. established their factory at Kurla, Bombay in March 1947. Hindustan Motors Ltd. commenced operations at Uttarpara near Calcutta in 1948.

In pursuance of an assurance given by Government during the debate in Parliament in March, 1950, an Automobile Expert Committee was appointed in June 1950 to examine the position in regard to the inclusion of particular parts of automobiles in categories bearing different rates of import duty and to make recommendations of their classification. The main recommendations of this Committee were accepted by the Government and given effect to in March 1951. Certain other measures were also taken to promote the

development of the industry. For effective standardisation of types and models of vehicles to be imported into the country, restriction was imposed on the assemblers requiring them to import only three types of cars and trucks from each of the dollar and soft currency areas. In March 1952, the Government of India referred to the Tariff Commission for enquiry and report the question of the grant of protection and assistance towards encouragement of automobile industry in India. The Commission submitted its Report in 1953.

In 1953 Government accepted the recommendations of the Tariff Commission that out of the 12 manufacturers and/or assemblers in the country only 5 who had manufacturing programmes should be allowed to assemble and progressively manufacture vehicles in the country except in the case of Jeep type vehicles. The remaining units which were pure assemblers curtailed their operations by stages and eventually closed down their assembly shops. Of the five approved manufacturers, one could not proceed with their programme of manufacture and consequently the approval was withdrawn.

Ashok Motors Ltd. one of the approved manufacturers subsequently entered into an agreement with Leyland Motors Ltd., England and converted themselves into a new company known as Ashok-Leyland Ltd. for the manufacture of commercial vehicles of G. V. W. of about 10 tons and above. Mahindra & Mahindra Ltd. submitted a programme for the manufacture of jeeps which was approved by Government. Approval was also granted to a new unit, *viz.* Tata Engineering & Locomotive Co., Ltd., for the manufacture of diesel commercial vehicles in collaboration with Daimler-Benz A.G. of West Germany. For automobile diesel engines, Government recognised Simpson & Co., Ltd., Madras, and the Automobile Products of India Ltd., Bombay, as approved manufacturers of Perkins and Meadows automobile diesel engines these two makes of engines being the power units for diesel chassis (less engines) manufactured by Hindustan Motors Ltd., and Premier Automobiles.

## MANUFACTURERS

With the additions mentioned above, the country had thus eight approved manufacturers of automobiles and/or engines by the end of 1955:

1. Hindustan Motors Ltd., Calcutta:—Hindustan Cars and Studebaker trucks now replaced by Bedford trucks.
2. Premier Automobiles Ltd., Bombay:—Fiat Cars and Dodge and/or Fargo trucks.
3. Standard Motor Products of India Ltd., Madras:—Standard Cars.
4. Ashok-Leyland Ltd., Madras:—Leyland Trucks.
5. Mahindra & Mahindra Ltd., Bombay:—Willy's jeeps (now styled as Kaiser jeeps).
6. Tata Locomotive & Eng. Co. Ltd., Bombay:—Tata-Mercedes-Benz Trucks.
7. Simpson & Co., Ltd., Madras:—Perkins Engines.
8. Automobile Products of India Ltd., Bombay:—Meadows Engines.

Though the Government had originally accepted the recommendations of the Tariff Commission (1953) for the manufacture of (*a*) Baby and Big cars as well by Hindustan Motors Ltd., (*b*) Big cars as well by Premier Automobiles Ltd., and (*c*) medium cars as well by Standard Motor Products of India Ltd., certain policy changes were later made by the Government. The difficult foreign exchange situation that developed by the end of 1956 and in the beginning of 1957 necessitated these changes with the result that the types and makes of vehicles to be developed were rationalised to only 3 passenger cars, 3 medium type trucks, one heavy truck, one jeep and one light truck.

*Cars:* Three manufacturers of cars:

1. Standard Ten, 2. Fiat 1100, 3. Hindustan Ambassador/Land Master.

*Trucks:* One manufacturer of

(a) *Trucks: Light*—1 *ton:* Dodge/Fargo (Petrol or Diesel).

Three manufacturers of:

(b) *Trucks: Medium*—3/5 *tons:* 1. Dodge/Fargo (with petrol or diesel engine), 2. Mercedes-Benz (with diesel engine), 3. Bedford.

One manufacturer of; (c) *Trucks: Heavy:* Leyland Comet. Tiger/Titan.

Three manufacturers of:

*Diesel Engines (for medium trucks):* 1. Perkins—P6, 2. Meadows. Both suitable as original fitment for Dodge and Bedford Trucks, and 3. Tata Mercedes Benz.

One manufacturer of:

*Jeeps:* Kaiser Jeeps (formerly called Willy's jeeps).

Thus the country had 3 models and 3 manufacturers for cars and medium trucks and one model and one manufacturer for light trucks, heavy trucks and jeeps in 1957.

Messrs. Automobile Products of India Ltd., discontinued the manufacture of Meadows automobile diesel engines early in 1961 and the rights for the same were acquired by Messrs. The Premier Automobiles Ltd. The latter are now manufacturing Meadows engines and a percentage of their Dodge/Fargo diesel trucks are fitted with this make of engine.

Messrs. Standard Motor Products of India Ltd., Madras are now manufacturing Standard Heralds instead of Standard '10.'

The Ministry of Defence also entered the field of manufacture through an agreement with the M.A.N. of West Germany for the manufacture of multi-fuel medium trucks by the ordnance factories. This was in Sept. 1958. The rate of output is reckoned at 2,000 per annum. It was understood that considerable saving would accrue to the Ministry.

The 'Shaktiman' truck, as the truck has been called, has advantages over other trucks which the Army have been getting like increased payload by 30 per cent, multi-fuel engine and other special features which will make it a sturdy cross-country vehicle more suitable than other kinds for military purpose.

In 1960–61, Government entered into a collaboration agreement with the manufacturers of Nissan trucks in Japan for the progressive manufacture of this make of vehicle in the ordnance establishments in India.

The manufacture of Shaktiman trucks in India commenced in June 1959. The manufacture of Nissan 1-ton trucks commenced in the year 1961–62 and the manufacture of Nissan petrol jeep type vehicles commenced in 1962–63.

Only 803 Shaktiman trucks were manufactured in 1961–62, the third year of production of these trucks, as against the planned output of 2,000 units. The indigenous content was of the order of 50 per cent against an anticipated indigenous content of 70 per cent in the third year. The total production of tracked vehicles in the Ordnance factories in India in the year 1962–63 was 2,733. Of these, 621 were 3-ton Shaktiman trucks, 1,046 Nissan 1-ton trucks and 1,066 Nissan (Jonga) Jeeps.

The reported indigenous content of the products of the Ordnance factories as at April 1963 is — Shaktiman: 73 per cent; Nissan 1-ton truck: 35 per cent; Nissan (Jonga) Jeep: 28 per cent.

The production of Shaktiman trucks in the ordnance factories averaged 80 to 100 per month in the year 1963. The average indigenous content was reported to be about 62 per cent.

The manufacture of Nissan petrol trucks and Nissan jeep type vehicles received a fillip since the declaration of emergency. Early in 1964, a project report was drawn up for increasing the manufacture of Nissan jeep type vehicles and Nissan 1-ton trucks as these vehicles were expected to be useful for high altitude operation.

The production of Shaktiman trucks in 1963–64 was 1,030 and during 1964–65 it was 1,094.

The unprovoked and flagrant aggression on India's northern and north-eastern frontiers by China in the autumn of 1962 necessarily brought in its wake a reappraisal of the transport requirements of the Defence departments.

Production of vehicles in the Ordnance establishments was stepped up. Simultaneously, a sizeable percentage of the production of the vehicles in the civilian factories commenced to be taken over by the Government for the Defence needs of the country.

The Government has since decided to augment the production capacity of the Defence vehicle 6,000 Shaktiman and 7,200 Nissan vehicles per annum. This is proposed to be achieved by setting up a self contained unit at Jabalpur.

Until the new unit is established and within the existing capacity and available facilities the target of production for the year 1965-66 is 1,350 Shaktiman 3 tonnes, 3,600 one-ton jeep type vehicles and 1,200 Nissan petrol vehicles. The indigenous content at the end of the year 1965 is reported to be 69 per cent in the case of Shaktiman, 39 per cent in the case of Nissan 1 ton jeeps and 30 per cent in the case of Nissan petrol vehicles. A sizeable portion of the indigenous content is manufactured in the private sector. Imports for Shaktiman component is from Germany and for Nissan components from Japan.

In 1959, the Government of India constituted a Development Council for Automobiles, Automobile Ancillary Industries and Transport Vehicle Industries. The Council is reconstituted once in every two years. The recently reconstituted Council has also been entrusted with the responsibility of looking after the development of tractors and earth-moving equipment industries. More recently, the road roller industry was also added to the list of industries for which this Development Council is responsible.

The authorised capital of Automoolle and Transport Vehicle Manufacturing Firms was about Rs. 65 crores with a paid-up capital of about Rs. 35 crores, early in 1961, at the end of the Second Five Year Plan period. The investment in Plant, Machinery and Buildings was over Rs. 30 crores. Of this total capital, the investment in the Ancillary Industry was about Rs. 6 crores.

The Third Five Year Plan envisages a production of 30 000 cars, 10,000 jeeps, 60,000 commercial vehicles and 60,000 two-three wheeler vehicles. The actual production in the fourth year of the Third Five Year Plan is cars 24,187; jeeps 9,835; commercial vehicles 36,870; two-three wheeler vehicles 40,054. The Development Council for Automobiles, etc., had estimated that the total investment in the industry by the end of the Third Plan period would be Rs. 130 crores, Rs. 100 crores by the Main Manufacturers and Rs. 30 crores by the Ancillary Sector. The Council had estimated the total value of production at the end of the Third Plan period at well over Rs. 260 crores.

In the beginning of the Third Plan period, emphasis was rightly placed on providing foreign exchange for the import of machinery necessary to increase the indigenous content to 90 per cent. Foreign Exchange allocations and Aid arrangements for imported plant and machinery for achieving the indigenous content of 90 per cent and for the planned expansion programme, were settled by the middle of 1964. The expansion programme for motor cars was, however, kept in abeyance. Most of the plant and machinery required by the Main Manufacturers and by the Ancillary Industry for achieving 90 per cent indigenous content have arrived and are in the course of erection. Thus, there has been a considerable increase in the authorised capital, paid-up capital, number of units in the ancillary sector and investment in plant, machinery and buildings in the automobile and ancillary industries during the last four years. By the end of the Third Plan period, the industry

should be fully geared to achieve the target laid down in the Third Five Year Plan period with an indigenous content of over 90 per cent

The order of production for the different makes of commercial vehicles at the end of the Third Five Year Plan is expected to be as follows:—Tata Mercedes Benz 24,000 Nos.; Dodge/Fargo vehicles 15,000 Nos.; Bedford vehicles 15,000 Nos.; Ashok Leyland Comets 6,000 Nos.

Messrs. Premier Automobiles Ltd. and Messrs. Hindustan Motors Ltd. have been granted licences to manufacture their own make of diesel engines while at the same time, Messrs. Simpson & Co. Ltd. have been granted a licence to manufacture a medium commercial vehicle chassis of their choice.

The difficult foreign exchange position and the border situation resulted in a drastic cut in the allocation of foreign exchange for motor cars in the year 1963. Though commercial vehicles were given a high order of priority, a token cut was imposed in the allocation of foreign exchange for these as well. Despite this token cut, the overall allocation of foreign exchange for commercial vehicles stood at a higher figure in 1963–64 consequent to the need for stepping up of the production to meet the requirements of Defence.

A World Bank Mission toured India in 1963 and inspected the major establishments in the Automobile & Ancillary Industries with a view to deciding the nature and extent of assistance which the World Bank could render for the Automobile, Road Transport and Machine Building Industries. Based on the recommendations of this team, Automobile & Ancillary Industries were given assistance by the World Bank to the tune of 47 million dollars, *i.e.* about Rs. 23·4 crores. This assistance was confined to manufacture and maintenance of commercial vehicles *i.e.*, to enable additional imports of (1) components and parts in c.k.d. and semi-finished form, (2) spare parts and (3) machinery by way of balancing equipment, all for commercial vehicles.

Similar assistance of a slightly higher order was made available by the World Bank in the second half of 1965 which should go a long way to ensure a continuous flow of production till the end of 1965-66.

## PRODUCTION

The automobile industry has progressed rapidly as a result of the efforts made both by the Government and the Industry. The production of vehicles went up steadily till 1957. This increase however was not maintained in 1958 mainly because of the lack of adequate provision of foreign exchange. The upward trend has been maintained from 1959 onwards. There was, however, a drop in production of passenger cars in the year 1963 for reasons stated earlier. The production figures were :

| Production for the year | Passenger Cars & Station Wagons | Jeeps | Commercial Vehicles |
|---|---|---|---|
| 1957 .. | 12,211 | 4,599 | 16,248 |
| 1958 .. | 8,126 | 4,118 | 14,579 |
| 1959 .. | 11,993 | 4,568 | 20,342 |
| 1960 .. | 19,096 | 5,501 | 27,512 |
| 1961 .. | 21,662 | 7,052 | 26,214 |
| 1962 .. | 23,326 | 7,597 | 26,894 |
| 1963 .. | 15,711 | 8,104 | 28,482 |
| 1964 .. | 23,227 | 10,391 | 33,157 |
| 1965 .. (anticipated) | 23,700 | 10,572 | 37,554 |

Production of Diesel Engines for fitment on Dodge/Fargo and Bedford Chassis is given hereunder :—

| | Perkins P6V | Meadows | Total |
|---|---|---|---|
| 1957 .. | 3,011 | 387 | 3,398 |
| 1958 .. | 3,819 | 436 | 4,255 |
| 1959 .. | 7,814 | 893 | 8,707 |
| 1960 .. | 9,249 | 1,317 | 10,566 |
| 1961 .. | 9,761 | 60 | 9,821 |
| 1962 .. | 7,653 | 822 | 8,475 |
| 1963 .. | 7,993 | 958 | 8,951 |
| 1964 .. | 7,625 | 604 | 8,229 |
| 1965 .. (anticipated) | 7,764 | 1,010 | 8,774 |

The value of production of the ancillary components has been continuously on the increase (Rs. crores):—1959 : 7·5 ; 1960 : 9 ; 1961 : 12·5; 1962 : 18 ; 1963 : 22·5 ; 1964 : 28 ; 1965 (anticipated) 40.

The progress of an industry could be judged by the extent of indigenous content achieved by it in a period of four to five years. In 1953 there was no manufacture, only assembly from imported components, the only indigenous material used being tyres, tubes, battery and upholstery materials. There was, however, one exception to this the Hindustan. The rate of increase is dependent upon the installation of additional machine tools which in turn is dependent upon the foreign exchange and foreign exchange has not been very favourable.

By the end of 1960, the position had completely changed.

Percentage of indigenous content as at the end of 1960 : Commercial vehicles 75 ; passenger cars 65 ; Jeeps 73·6 ; Motor Cycles 62 ; Scooter and 3 wheelers 35 to 50.

The indigenous content achieved by the end of 1961 are — Standard Ten 58 per cent ; Fiat '1100' 66 per cent ; Hindustan Ambassador 79 per cent ; Jeeps 74 per cent ; Dodge-3 ton 165" W.B. 82 per cent ; Tata Mercedes Benz 77 per cent ; Leyland Comet 61 per cent ; Perkins engines 75 per cent.

The indigenous contents achieved as at the end of 1964 were — Standard 75 per cent ; Fiat '1100' : 74 per cent ; Hindustan : 81 per cent ; Kaiser Jeep 87·65 per cent ; Dodge/Fargo : 88·48 per cent ; Tata Mercedes Benz : 86 per cent ; Leyland Comet : 81·5 per cent.

The average indigenous content of automobiles was well over 85 per cent in the middle of 1965.

The indigenous content of diesel engines has reached the 90 per cent mark in 1965.

*Satisfactory progress :* In 1959, the Government appointed an Ad Hoc Committee to review the progress of the automobile industry, to recommend the measures to be taken to reduce the cost to the consumer of the different vehicles and to examine the feasibility of producing a low cost car within the price range of Rs. 5,000 to Rs. 7,000. The Report of the Committee was received by the Government in the beginning of 1960. Reviewing the progress made by the automobile industry since the Tariff Commission's enquiry in 1956, the Committee has remarked that the decision to grant protection to the industry was a sound one, that the achievement of self-sufficiency regarding transport vehicles was of great importance to the economy and that even in regard to passenger cars the consumer would have been far worse off, if in the present difficulties regarding foreign exchange there had been no domestic industry. The Committee considered the progress of the automobile industry satisfactory on the whole and particularly in the last few years. It also observed that most of the automobile vehicles were expected to reach 80 per cent or more of indigenous content before the end of 1961. In regard to the production of the low cost car, the Committee were of the view that its production was feasible. To examine further the development of the low cost car, the Government appointed an Expert Committee, who submitted the report in May, 1961. Recently a fresh move is afoot to re-examine the feasibility of the production of a low cost car in the public sector.

The proposal to manufacture a low cost car in the public sector was reported to be kept in abeyance.

## MOTOR CYCLES, SCOOTERS, THREE-WHEELER VEHICLES

The manufacture of motor cycles, scooters and three-wheelers was established only in the year 1955. There are at present seven firms manufacturing these items. The types of vehicles under development and their production yearwise have been :—

(in Nos.)

| | 1960 | 1961 | 1962 | 1963 | 1964 | 1965 (anticipated) |
|---|---|---|---|---|---|---|
| *Motor cycles :* 150 cc, 350 cc .. | 3,998 | 8,636 | 7,640 | 9,456 | 13,858 | 20,550 |
| *Scooters :* 150 cc; *Scooterette :* 48 cc .. | 12,880 | 13,617 | 15,936 | 15,422 | 20,043 | 20,544 |
| *3-Wheelers :* 150 cc, 350 cc, 400 cc .. | 496 | 1,267 | 1,426 | 1,701 | 2,493 | 2,022 |
| TOTAL .. | 16,878 | 23,520 | 25,002 | 26,579 | 36,394 | 43,116 |

The average indigenous content of the two- and three-wheeler vehicles as well was expected to be nearing 90 per cent by the end of 1965.

Transport capacity could be augmented by using truck-trailer combination. With this end in view, the manufacture of trailers has been strongly encouraged. There are at present 14 units manufacturing trailers of 2, 4 and 8 wheel types having a carrying capacity of upto 10 tons. The production of trailers since 1960 has been as under :—

(in Nos.)

| 1960 | 1961 | 1962 | 1963 | 1964 | 1965 (anticipated) |
|---|---|---|---|---|---|
| 2,012 | 3,048 | 2,019 | 3,396 | 6,792 | 7,000 |

By 1965–66 these vehicles were expected to reach over 90 per cent indigenous content.

## ANCILLARIES

Items like tyres, tubes, battery, rubber parts, upholstery material and paints are all obtained from indigenous sources for all the vehicles in the manufacturing programme.

There were about 200 recognised units engaged in the manufacture of various ancillary items in the year 1964. This is exclusive of an equal number of establishments in the cottage and small scale industries sectors.

It can be safely stated that by the end of 1964 production capacities were established for the manufacture of all components and parts earmarked for the ancillary sector. It is,

however, true that the installed capacities for some of the ancillary items fall short of the combined requirements of the original manufacturers and the replacement market. Similar to vehicle manufacturers, the ancillary manufacturers as well, were allotted foreign exchange for the expansion programmes envisaged in the Third Five Year Plan. Plant and machinery for increasing the production in the ancillary sector were in course of erection at the end of 1964.

Some of the important ancillary items which have recorded significant progress in the year 1965 are wheels, brakes, radiators, steering wheels, tie rod ends, shock absorbers, clutch assemblies and brake linings, etc.

### Automobile Prices

The relation between quantity of output and cost of production is more pronounced in the case of mass production industries like the automobile industry than in a majority of other industries. That is the main reason why the restricted volume of production has a direct impact on the cost of production in India. The ex-factory price of a vehicle in India is inclusive of direct and indirect taxes, particularly import duties and excise duties. The customer, in addition, is called upon to pay sales tax on the vehicles. The incidence of Government duties is so high that the purchaser of an automobile contributes anything from 30 to 40 per cent of the price paid by him towards the Government Exchequer.

The Indian Automobile Manufacturer is working under another serious handicap in as much as he is called upon to pay a high price for the capital plant and machinery installed in his works. In addition, he has to buy imported raw materials at a cost 50 per cent in excess of that paid by his counter-part in foreign countries.

## EMPLOYMENT

The total employed directly in the automobile and ancillary manufacturing industries including those in the Small Scale Industry Sector is in the neighbourhood of 1,25,000. This figure, however, does not include the indirect employment this industry affords in various distribution, operation and maintenance centres, connected with it. It would not be an exaggeration to say that the indirect employment figure would be about 20 times the figure of labour directly employed by the industry.

The National Council of Applied Economic Research conducted an enquiry in 1960 on the employment potential in road transport in India and came to the conclusion that the total number of persons who find employment in the road transport industry in its broad sense is about 2·40 millions.

It can now be safely reckoned that this figure would have been increased by about 18 per cent as the vehicular population in the country between March 1960 and March 1965 has increased by 56 per cent, *i.e.* from 6,30,000 to 9,84,000. The break-up of the estimated population of motor vehicles in India as on 31-3-1965 is given hereunder :—

| | |
|---|---|
| Motor Cycles, Scooters & Three-Wheelers .. .. .. .. | 1,91,000 |
| Jeeps, Cars & Motor Cabs .. .. | 4,16,000 |
| Buses, Goods Vehicles & Miscellaneous Vehicles .. .. .. | 3,77,000 |
| TOTAL .. .. .. .. | 9,84,000 |

## THE AUTOMOBILE INDUSTRY AND THE FOURTH PLAN

The Development Council for Automobiles, etc., has estimated the target of production in the last year of the Fourth Plan as follows :—

| | |
|---|---|
| Commercial Vehicles.. .. .. | 1,55,000 |
| Cars .. .. .. .. .. | 75,000 |
| Jeeps .. .. .. .. .. | 15,000 |
| Two & Three Wheelers .. .. | 1,50,000 |
| Trailers .. .. .. .. | 8,000 |

The Council has estimated the total capital required to achieve the above rate of production at the end of Fourth Plan period at Rs. 312 crores. On the basis of a pre-Fourth Plan investment of Rs. 140 crores, an additional sum of Rs. 172 crores would have to be found during the Fourth Plan period. The Council has estimated the foreign exchange element on capital account at Rs. 88 crores. The Foreign exchange on maintenance account for the Fourth Plan period exclusive of steel and raw material, is estimated at Rs. 87·5 crores. The total steel requirement of the industry for the Fourth Plan period may amount to 2 million tonnes. It is reported that the preliminary appraisal of the Fourth Plan targets by the Planning Commission has resulted in the pruning down of the above targets of production of motor vehicles. The minimum target of production said to be receiving consideration is as under :—

| | |
|---|---|
| Commercial Vehicles .. .. | 1,20,000 |
| Cars .. .. .. .. | 60,000 |
| Jeeps .. .. .. .. | 20,000 |
| Motor Cycles and Scooters .. | 1,50,000 |
| Output of Ancillaries .. .. | 200 crores. |

### Export of Automobiles and Ancillaries

It is gratifying to record that a start has been made in the export of Indian manufactured vehicles and automobile ancillary products to neighbouring countries. Vehicles of Indian origin now run on the roads of nearby countries *viz.* U.A.R., Aden, Ceylon, Viet Nam, Cambodia, Tibet, Sikkim, Bhutan, etc.

The value of the exports for the years 1962, 1963 and 1964 is as follows : 1962 : Rs. 17·08 lakhs ; 1963 : Rs. 41·25 lakhs ; 1964 : Rs. 66·43 lakhs.

Sizeable orders for Tata Mercedes-Benz and Ashok-Leyland comet vehicles were placed on the respective Indian manufacturers by the Ceylon passenger transport board in the year 1964-65.

The Engineering Export Promotion Council has recommended an export target of Rs. 2 crores in the Fourth Plan.

STATEMENT

*Population of motor vehicles in the different States of India.*

* Provisional Figures. @ Estimated Figures. (R) Revised figures. † Includes contract carriages.

@@ The figures against the State of Rajasthan under auto-rickshaws and jeeps depict the position as on 31st March, 1962, and the additions during the year ended 31st March, 1963, are included in the figures for 'Motor Cycles' and 'Private Motor Cars' respectively.

# CAPITAL MARKET

THE Government of India has so far (up to Nov. 1965) recognised eight stock exchanges, namely, The Stock Exchange, Bombay, The Ahmedabad Share and Stock Brokers' Association, Ahmedabad, The Calcutta Stock Exchange Association Ltd., Calcutta, The Madras Stock Exchange Ltd., Madras, The Delhi Stock Exchange Association Ltd., New Delhi, The Hyderabad Stock Exchange, The Share Brokers' Association, Indore and The Bangalore Stock Exchange. The recognition for the last two mentioned has been granted for five years in the first instance. The general principles regarding grant of recognition to a stock exchange as laid down in Section 4(1) of the Securities Contracts (Regulation) Act, 1956, has been followed. The Act does not envisage amalgamation, as such, of stock exchanges either before or after recognition is granted under section 4 thereof. Nevertheless, to avoid undue hardship to members of the exchanges which have not been recognised, the Government has prescribed certain terms and conditions on which active members of the unrecognised exchanges can seek admission to the recognised exchange.

Section 13 of the Securities Contracts (Regulation) Act, 1956, has been made applicable to the Greater Bombay area in Maharashtra State with effect from 15th October 1957. The effect of the application of section 13 to the Greater Bombay area is that every contract in this area which is entered into after 15th October 1957, otherwise than between members of the recognised Stock Exchange or through or with such member, is illegal.

## SECURITIES ACT

The Securities Contracts (Regulation) Act, 1956, is the first All-India legislation seeking to control transactions on securities and to regulate stock exchange practices. Prior to this Act, there was no legislation for the purpose except in the old State of Bombay.

Broadly speaking, the Act applies to transactions other than spot delivery contracts. But power has been taken in the Act to regulate spot delivery contracts also, if the Government regards it as desirable in the interest of trade or in the public interest.

As regards contracts other than those for spot delivery, the regulation takes the form of either controlling the activities of stock exchanges in those areas or States where stock exchanges operate, or through a system of licensing of persons who deal in stocks and shares. In those areas where the stock exchanges operate and to which Section 13 of the Act will be applied, every contract which is entered into otherwise than between members of a recognised stock exchange in such State or area or through or with such members is illegal.

The Act permits only those stock exchanges to function which are recognised by the Central Government. For this purpose, each stock exchange is required to make an application in the prescribed manner to the Central Government, who will grant recognition if the Government is satisfied in regard to certain conditions. Every recognised stock exchange is required to furnish to the Central Government such periodical returns relating to its affairs as may be prescribed.

Subject to the previous approval of the Central Government, any recognised stock exchange may make bye-laws for the regulation and control of contracts. But the Government has the power to make or amend these bye-laws.

Important provisions relating to the listing of securities on a stock exchange are also contained in the Act. In regard to the licensing of dealers and brokers in securities, there are no detailed provisions.

So also no direct provisions are contained in the Act to restrict the prevalence of blank transfers, but there is a provision to discourage blank transfers indirectly.

The Securities Contracts (Regulation) Amendment Bill was passed by the Lok Sabha on 17th November 1959. As a result of the amendments, the contracts made by foreign financial investors involving options, which, by their very nature, are not of a speculative character have been exempted from some of the provisions of the Act. Convertible bonds and share warrants contracted by foreign financial investment corporations are exempted from the purview of section 20 of the Act. Further, the incorporated stock exchanges are empowered to make rules restricting voting rights to members only restricting the right to appoint proxies and introducing the principle of one member-one vote, and override the Companies Act in this respect.

The Government of India has established a Stock Exchange Directorate which functions under the Department of Economic Affairs of the Union Ministry of Finance, with headquarters in Bombay and branch offices at Calcutta and Delhi. The Directorate is composed of expert officials. It maintains close contact with Stock Exchanges and keeps a careful watch over the activities of operators.

## GILT-EDGED MARKET

The gilt-edged market, which had evinced a firm trend during 1963-64, showed a marked decline during 1964-65, mainly in a process of adjustment to the emerging higher pattern of interest rates following the reinforcement of money policy. Despite the weakness in gilt-edged prices, the Reserve Bank's open market operations in 1964-65 resulted in large net sales amounting to Rs. 98.6 crores as compared to Rs. 44.7 crores in the preceding year (excluding the purchases from the State Bank of India on account of P. L. 480 funds), which reflected mainly the increased demand from banks for Government securities in view of the new liquidity requirements which came into force in Sept. 1964.

The market ruled easy during April 1964 in sympathy with the higher yields offered on the Central loans. The first instalment of the borrowing programme of the Central Government for 1964-65 announced at end of March 1964 with an offer of the 4 per cent Loan 1970 and the 4½ per cent 1989 in conversion for the maturing 3½ per cent Loan 1964 and the 3 per cent Loan 1964 gave higher yields (4.19 and 4.75 per cent. than those on existing issues of more or less comparable maturity (4.13—4.50 per cent). During the next three months (May to July), however, with improved demand for gilt-edged following the advent of the slack season, the market tended to be steady, the yield offered under the second instalment of the borrowing programme of the Central Government, announced on July 3, with an offer of further trenches of the 4 per cent Loan 1970 and the 4½ per cent Loan 1989 being in tune with the market expectations. The steadiness, however, proved short-lived, and the market turned easy again from mid-August in a process of adjustment to the higher yields offered on the new State Loans. The yields offered on the new State Loans, namely the 4½ per cent Loans 1976, announced on August 3, were in the range of 4.75—4.81 per cent as compared to 4.52—4.62 per cent on existing issues of more or less comparable maturity. The increase in the Bank rate from 4½ per cent to 5 per cent on Sept. 25, 1964 and further to 6 per cent on Feb. 17, 1965, followed by a tightening of the Bank's credit control policy, accentuated the easiness in the gilt-edged market.

The Reserve Bank's All India index of Government and Semi-Government securities (base: 1952–53 = 100) after an initial decline from 99.7 at end-March 1964 to 99.5 by mid-April, recovered to 99.9 by end-March 1965, representing a net decline, over the year, of 1.8 per cent as against a rise of 0.7 per cent in the preceding year. Region-wise, Bombay showed the largest decline (2.7 per cent) followed by Calcutta (2.1 per cent) and Madras (0.9 per cent).

Loan-wise, the 3 per cent Conversion Loan 1986 or later showed the largest decline of Rs. 5.25 over the year. Among the long-dated, the 4 per cent Loans 1980 and 1981 declined by Rs. 4.25 each to Rs. 94. The medium-dated Loans recorded declines ranging from 50 P. in the case of the 4½ per cent Loan 1973 to Rs. 4.75 in the case of the 3½ per cent Loan 1974. In the short-dated section, the 3½ per cent Loan 1967, 1968 and 1969 declined by 10 P.—75 P. Both the new Loans floated in 1964–65 *viz.* (1) the 4 per cent Loan 1970 and (2) the 4½ per cent Loan 1989 were quoted at a discount over their issue prices, the discount as at the close of the year 1964 being 45 P. in the case of the former and 30 P. in the case of the latter.

In the State list also, prices showed widespread declines. In the medium-dated section, the decline in the 4 per cent 1971 Loans ranged upto Rs. 3. The 4½ per cent Loan 1972 of Kerala, West Bengal, Gujarat and Maharashtra recorded declines ranging upto Rs. 1.35. Among the short-dated, the 4 per cent 1968 and the 4 per cent 1969 Loans of most of the States recorded declines ranging upto Rs. 1.05. The new 4½ per cent 1976 Loans issued by 13 States in August 1964 were quoted at a discount over their issue prices, the discount as at end-march 1965 ranging between Rs. 1 and Rs. 3.75.

Reflecting the fall in gilt-edged prices, the yields recorded all-round increases, the increase being particularly marked in the case of medium long-dated securities. In the Central list, rise in yields of long-dated ranged upto 0.42 per cent and of medium-dated upto 0.69 per cent. The yield on the 3 per cent Conversion Loan advanced by 0.43 per cent to 5.19 per cent. Among short-dated, the yields on the 3½ per cent Loans 1968 and 1969 recorded rises of 0.15 per cent and 0.31 per cent respectively. In the State List, the rises in yield ranged upto 0.46 per cent in short-dated and upto 0.61 per cent in medium-dated loans.

## SHARE MARKET

*Equities:* The industrial securities market evinced a general bearish trend in 1964-65. There were occasional spells of recovery as for instance from mid-June to early September and again from end-December to early-February but these proved short-lived and the All-India index for Variable Dividend Industrial Securities closed for the year 1964 substantially lower on balance reflecting mainly the impact on the markets of (1) the disquieting developments on the Indo-Pakistan borders, (2) the two Bank rate rises and other credit control measures during the year and (3) the fact that the concessions in the 1965-66 Budget did not come up to market expectations in some respects.

The nervousness following the presentation of the 1964-65 Budget on Feb. 29, 1964 continued upto mid-June. The other adverse factors affecting sentiment were the acute stringency in the money market which was accentuated by a further tightening of credit control measures on March 11, 1964, fears of drastic Government measures to hold the price line and the statement by the Deputy Chairman of the Planning Commission on June 9, 1964 indicating the need for a quicker expansion of the public sector. The Reserve Bank's weekly All-India Index of Variable Dividend Industrial Securities (base: 1952–53 = 100) fell from the pre-budget level of 174·3 at end-February 1964 to 160·8 by mid-June.

From mid-June upto early September, 1964 there was a revival, the main factors contributing to the recovery being (1) some relaxation

in the system of margins on stock exchanges, (2) the setting up of the Industrial Development Bank, (3) reports of substantial purchases of shares by the Unit Trust of India, (4) the authorisation to the Controller of Capital Issues to relax the present-debt-equity ratio of 2 : 1 at his discretion in suitable cases and (5) the World Bank President's reassuring statement regarding flow of aid to India for economic development. The index of share prices recovered from 160·8 in mid-June to 168·6 in the week ended September 5, 1964.

Subsequently, however, the market resumed the earlier bearish trend, sentiment being affected by a number of adverse factors including reports of Chinese incursions on the Sikkim and Nepal borders, the raising of the Bank rate to 5 per cent and other credit control measures announced on Sept. 25, 1964, the statement made by the Managing Director of the I. M. F. indicating further scope for increasing taxation in India, the adoption by the A.I.C.C. in Nov. 1964 of the non-official resolution on ceiling on urban property holdings, the provision to restrict the period of currency of blank transfers contained in the Companies (Second Amendment) Bill 1964, and fears of reduction in foreign exchange allocation for imports for the half year Oct. 1964–March 1965 (which materialised on Dec. 31). The index of share prices fell from 168·6 in early September to 161·8 in the week ended Dec. 12, 1964.

There was again a temporary revival from end-December 1964 to early Feb. 1965, aided, among other things, by the announcement by the Union Finance Minister on Dec. 24, 1964, of certain tax concessions to individual investors including a scheme of tax credit for investment in a new issues upto Rs. 35,000 and renewed hopes of further substantial measures of relief to the corporate sector in the 1965-66 Budget. However, following the raising of the Bank rate to 6 per cent on Feb. 17, 1965 and the imposition on the same date of a regulatory customs duty of 10 per cent on all imports with a few exceptions, the bearish trend reasserted itself. It was further accentuated in the wake of the Central Budget, with the concessions proposed in the corporate and personal taxation and selective cuts in excise duties falling short of market expectations. In particular the market was disappointed by the absence of anticipated reliefs in the surtax, in the supertax on dividends on equity capital and in the capital gains tax on bonus issues. In the context of the new pattern of higher interest rates and the growing stringency in the money market, equities declined sharply. The index of share prices, which had recovered partially from 161·8 in mid-December 1964 to 164·2 in early Feb. 1965—the lowest level since the general down-trend started in May 1962. Over the year, the index registered a decline of 5·9 per cent as against a rise of 4·6 per cent during 1963–64 and a fall of 16·8 per cent during 1962–63.

Region-wise, Calcutta showed the largest decline over the year 1964 (8 per cent) and was followed by Delhi (6 per cent), Madras (4·5 per cent) and Bombay (4·2 per cent).

In line with the general trend, most of the sub-groups recorded declines over the year 1964. Jute textiles fell by 15·6 per cent; although the jute industry showed an increase in both production and exports, it was faced with the problem of growing costs of production resulting mainly from the rise in the prices of raw jute. Coal shares continued to remain depressed despite successive increases granted in prices of coal, the index declined by 11·1 per cent; the industry was faced with the problem of reduced demand for coal and larger accumulation of pit-head stocks. Among plantation shares, while tea showed a significant decline of 9·6 per cent, coffee and rubber shares were more or less maintained at their previous levels. Total tea production was estimated to be higher in 1964 although the average auction prices for tea realised in Calcutta were reported to be lower. Cotton textiles, cement and paper shares registered losses of around 8 per cent each. In Bombay, the Century and Standard, among the textile group, closed for 1964, lower at Rs. 541 and Rs. 431 as against the preceding year's levels of Rs. 616·50 and Rs. 664 respectively. The iron and steel group, which had shown the largest rise (26·1 per cent) in 1963–64, declined by 1·9 per cent. Tata Steel at Rs. 143 and Indian Iron at Rs. 24·38 showed net declines of Rs. 3·75 and 34 paise over the year 1964–65. The following sub-groups, however, recorded rises: electricity generation and supply (8·3 per cent), construction (7·2 per cent), trading (4·8 per cent) and banks (3·7 per cent). There was a broadening of demand in the face of shortage of floating stocks for electricity shares in view of expectations of a higher return following the increase in Bank rate. Cash scrips in general, barring a few exceptions showed widespread losses. Colour-chem fell by Rs. 73·75 to Rs. 267·50, Permanent Magnets by Rs. 45 to Rs. 70, Ceat Tyres by Rs. 39·25 to Rs. 77, Synthetics and Chemicals by Rs. 38 to Rs. 58 and Baroda Rayon by Rs. 22 to Rs. 64·50.

In view of the depressed state of ordinary shares, investors seemed to have shown preference for fixed interest industrial securities. The All-India index of preference shares moved up from 81·5 at end March 1964 to 82·8 in the week ended Sept. 26, 1964. Following the two Bank rate increases, however, the general up trend in preference shares was halted; the index, after moving around 82 till mid-Feb., dropped to 80·9 by end-March, 1965, showing a net decline of 0·7 per cent over the year as against a rise of 1·6 per cent in 1963–64 and a decline of 2·9 per cent in 1962–63. The index of debentures, after rising from 97·9 at end-March 1964 to 99 by end-Jan. 1965, receded to 97·3 towards the close of the year 1964, showing a net decline of 0·3 per cent in 1963–64 and 2·7 per cent in 1962–63.

The pattern of yields showed an upward levering in line with the structure of high interest rates prevalent in the economy. Thus, the average yield on Variable Dividend Industrial Securities moved up over the year 1964 from 4·91 per cent to 6·05 per cent. Likewise, the average yield on preference shares rose from 5·99 per cent to 6·72 per cent and that on debentures from 4·75 per cent to 5·78 per cent.

## REGULATORY MEASURES

On July 1, 1964, some relaxations in the system of margins were made in response to the representations from the Stock Exchanges in this behalf. The margins on daily outstanding purchases and sales of each security and additional carryover margin rates were substantially revised downwards through a modification of the slabs and a lowering of the rates on the highest slabs. The interim margins payable on individual scrip, whenever it rises or falls by more than 10 per cent from the last making-up price, were also reduced from 100 per cent of the difference between the interim making-up price and the last making-up price to 50 per cent. However, the margin of 2 per cent on business carried forward was retained. The newly constituted Department of Company Affairs and Insurance in the Ministry of Finance, Government of India, continued to exercise vigilance over the Stock Exchanges.

From December 1946, the Reserve Bank of India started constructing indices of security prices. These indices (all-India) reveal the following trend :—

| Average of Weeks | Government & Semi-Government Securities | Industrial Securities | | Banks | Insurance | Investment Trusts | Electricity Generation and Supply | Shipping and other Transport | Tea Plantations | Cotton Textiles | Jute Mills | Coal | Mining | Iron and Steel | Sugar and Breweries | Chemicals | Paper | Cement |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|

## CAPITAL ISSUES

New issue activity which had suffered a setback during 1963–64 as a sequel to the declaration of the Emergency in Oct. 1962 and its aftermath, showed recovery during 1964–65 with a substantial increase in the magnitude of capital issues floated. The public response to the issues, however, remained largely selective with the result that some entrepreneurs were still experiencing difficulty in raising the necessary resources, particularly risk capital, from the open market. Despite the improved performance of the corporate sector, as revealed by the generally higher profits and larger dividends declared during 1964 and despite the provisions in the 1964–65 Budget of various incentives to review the capital market, the attitude of individual investors for investment in industrial securities remained pessimistic which was attributed to the imposition in that Budget of a new 7½ per cent tax on the distribution of equity dividends by companies and the extension of capital gains tax to bonus shares in the hands of investors. The persistent weakness of the Stock markets further impaired the outlook for prospects of capital appreciation which adversely affected investment in new issues. New companies, in particular, encountered greater difficulty in raising the necessary capital. In the prevailing uncertain conditions, the tendency on the part of entrepreneurs to have their issues underwritten became more pronounced during 1964. Consequently, there was an increase in underwriting activity and both the number of issues and the amount underwritten rose substantially during 1964. In view of the generally poor response from the public, the underwriters were obliged to take up a substantial portion of the issues left unsubscribed. The underwriters, which included the specialised financial institutions, played an important part in providing the requisite finance to the corporate sector for enabling sustained investment activity through substantially greater underwriting commitments. In the context of the difficult capital market conditions for raising risk capital and in response to the market's changed psychology in favour of fixed income yielding securities, there was a growing tendency on the part of entrepreneurs to raise capital through the issue of preference shares and debentures instead of equity capital. These trends were reflected in a relatively greater increase in both the number and amount of preference shares and debentures in comparison with equities. Debenture issues showed a particularly marked rise during 1964.

The official data on consents for capital issues, which indicate broadly the investment intentions of the private sector, showed a decline in the amount of consents during 1964. Total consents (including bonus and miscellaneous issues) for non-Government companies† were lower at Rs. 224·8 crores during 1964* than Rs. 237·6 crores in 1963. Consent for the issue of shares (other than bonus) and debentures, which had dropped from the peak of Rs. 163 crores in 1962 to Rs. 141·5 crores in 1963, declined further to Rs. 138·9 crores in 1964. Security-wise, the total consents for ordinary shares fell from Rs. 114·4 crores in 1963 to Rs. 101·8 crores in 1964 while those for debentures showed a rise from Rs. 15·4 crores to Rs. 25·4 crores and those for preference shares also showed a fractional rise. The proportion of equity shares in the total consents for the issue of shares (other than bonus) and debentures declined from 80·8 per cent to 73·2 per cent during 1964 while that of debentures rose from 10·9 per cent to 18·3 per cent and that of preference shares fractionally from 8·3 per cent to 8·5 per cent. Consents for bonus issues declined steeply from Rs. 10·8 crores in 1963 to Rs. 4·1 crores in 1964. There was also a steep fall in the number of consents for initial issues, *e.g.* first issues by new companies (from 116 in 1963 to 52 in 1964) as well as in their amount (from Rs. 85 crores to Rs. 54·7 crores). As regards foreign participation, the number of consents involving foreign participation fell sharply from 161 in 1963 to 90 in 1964 while the amount involved in such consents was also slightly lower at Rs. 59·3 crores as against Rs. 61·8 crores in the previous year, although as a proportion to the total consents (including bonus and miscellaneous issues), there was a fractional increase from 26 per cent in 1963 to 26·4 per cent in 1964.

As regards capital actually raised against consents and under the Exemption Order, the total amount raised by non-Government companies through shares (other than bonus) and debentures in 1964 (Rs. 92·6 crores) was only of the same order as in 1963 (Rs. 92·7 crores), which was lower than both in 1962 (Rs. 107·3 crores) and in 1961 (Rs. 101 crores).

During 1964, the Government continued their efforts to bring about a revival of the capital market and adopted a series of further measures with a view to restoring investor confidence and stimulating private investment. A number of fiscal reliefs designed to induce a greater flow of personal savings and investments were given to individuals, while selective tax concessions were announced for a wide range of industries with a view to stimulating production and exports and encouraging their expansion and development. In order to encourage public response to issues of equity capital, the Government in Dec. 1964 announced an incentive scheme for investments in equity shares of new industrial companies in the form of tax-free tax credit certificates equivalent to 5 per cent of such investments upto Rs. 15,000, 3 per cent for the next Rs. 10,000. The tax credit certificates for a maximum amount of Rs. 1,250 on a total equity investment of Rs. 35,000 will be given to individuals and Hindu undivided families for a period of four years from the year of such investment provided these are in ordinary shares issued for the first time by the Indian public limited companies engaged in specified industries and held by them as original subscribers. The scheme is thus intended to help finance new industrial companies which find it particularly difficult to raise funds from the open market. This tax credit scheme was later incorporated as part of the 1965-66 Budget proposals and was extended to cover purchases by individuals and Hindu undivided families of eligible issues of capital also from underwriters. The Finance Bill, as finally passed by Parliament, provided for a number of other fiscal concessions and reliefs both to individuals and the corporate sector with a view to stimulating investment in desired channels. Thus, in addition to the aforementioned tax credit benefits, investments in equities of industrial companies issued for the first time have also been exempted from the levy of wealth tax for a period of five years. This exemption will apply to shares forming part of an initial issue of equity share capital made after March 31, 1964, whether subscribed directly or purchased from the market. These incentive measures have been taken to facilitate the acquisition of shares of new companies by the public from the financial institutions which have underwritten and have been obliged to hold new equity issues in terms of their underwriting obligations. Tax relief has also been given to equity shareholders in respect of capital gains tax on bonus shares allotted by a company after March 31, 1964 by way of rebate of 12½ per cent of the face value of such shares. Further, dividends received from the Unit Trust of India by individuals and Hindu undivided families have been given a concessional treatment, such dividends being deemed as earned income in the same way as interest on Central and State Government securities is treated.

Besides the above measures providing a stimulus to investment in equity issues, 1965–66 Budget also provided for fiscal concessions designed to encourage higher production and exports as well as growth and expansion of specified industries. The benefit of the tax rebate of 10 per cent of income tax and 20 per cent of surtax given in the 1964–65 Budget to companies in specified basic or priority industries was extended to include a wide range of industries while the development rebate in respect of new plant and machinery installed after March 31, 1965 by the specified industries listed in the Fifth Schedule to the Income Tax Act was also increased from the existing 20 per cent to 25 per cent. A scheme of tax credit certificates was also announced in favour of manufacturers and exporters on their increased production and exports over the specified base period. Besides these aforesaid fiscal reliefs and concessions, it was also decided, on the recommendations of the Capital Issues Advisory Committee, to relax the capital issues control. An important step taken in this direction was the decision to relax the debt equity ratio in respect of capital intensive industries by permitting a larger proportion of debt in relation to equity.

† Total consents given to Government Companies during 1964 amounted to Rs. 167·5 crores as against Rs. 306·7 crores in 1963. Their share in the total consents declined from 56·3 per cent to 42·7 per cent.

* The exemption limit for obtaining consents for the issue of capital was raised from Rs. 10 lakhs to Rs. 25 lakhs in Dec. 1963.

## PUBLIC COMPANIES

The main features of the Company Act are:

(1) Equity shares with differential rights regarding voting, dividend, participation in capital on dissolution, are prohibited.

(2) It puts restrictions on inter-company loans and investments.

(3) There is a ceiling on overall managerial remuneration.

(4) Most decisions of the management and even of the Shareholders of a Company require the approval of the Government before they are put into effect.

(5) The appointment of a managing agent or an associate as a selling or buying agent outside India requires approval by a special resolution.

### New Company Registrations in 1964-65

There were 1,366 new companies registered in the country during 1964–65 against 1,227 in 1963–64.

The total authorised capital of all the newly-registered companies of 1964–65 amounted to Rs. 330 crores against Rs. 340·4 crores during the previous year.

In the second important industrial group, commerce, trade and finance, 368 companies were registered with an aggregate authorised capital of Rs. 1,977 lakhs. The number of companies registered in the community and business services came to 56, and the authorised capital amounted to Rs. 379 lakhs, and in the transport and communication group, the number of newly-registered companies stood at 64 with an authorised capital of Rs. 611 lakhs.

During the last quarter of 1963–64, 317 new companies were formed against 353 during the third quarter, October–December 1963, 285 new companies registered during the second quarter July to September 1963 and 272 new companies registered during the first quarter of this year.

## FINANCE CORPORATIONS

Under the Industrial Finance Corporation Act, a Corporation was established on July 1, 1948 to provide medium and long-term finance to public limited companies and co-operative societies registered in India, including the acceding States, and engaged in the manufacture or processing of goods or in mining or in the generation or distribution of electricity or any other form of power. Individuals, partnership firms or private limited companies are thus excluded from the purview of the Corporation's operations. With the setting up of a number of State Financial Corporations, it was agreed that applicants for loans upto Rs. 10 lakhs or 10 per cent of the paid-up capital of the State Financial Corporation of the State in which they are situated, if that was lower than Rs. 10 lakhs, should be advised to apply not to the Industrial Finance Corporation but to the State Financial Corporation concerned.

An Act to provide for the establishment of State Financial Corporations was passed in October 1951. The Act enables the State Governments to establish a Financial Corporation for the State under a name to be specified by notification; and the State Government concerned, the Reserve Bank, scheduled banks, insurance companies, investment trusts, co-operative banks and other financial institutions will be entitled to subscribe to the share capital. Parties other than these can also be shareholders; but their aggregate holding will not exceed one-fourth of the total capital. The shares allocated will not be transferable except to the State Government, the Reserve Bank or any other recognised financial institution.

Fifteen States have established State Financial Corporations—Punjab, Madras, Maharashtra, West Bengal, Kerala, U.P., Rajasthan, Assam, Bihar, Madhya Pradesh, Andhra, Orissa, Mysore, Jammu and Kashmir and Gujarat.

Besides the State Financial Corporations, there are other State Corporations and All India Corporations. For details see under the articles "State Corporations" and "All India Corporations".

# INDUSTRIAL STRUCTURE AND POLICY

FOR particulars about industrial structure one is dependent on the data compiled under the collection of Statistics Act, 1953. The latest available data are for 1962. A general review of the Annual Survey of Industries, has recently been published by the Government. The survey has classified the industries into 63 groups and 209 subgroups.

The coverage of the survey extends to the entire factories sector, factories being those registered as such under the Factories Act, 1948. The Collection of Statistics Act, 1953, does not apply to Jammu and Kashmir but factories in that State are covered on a voluntary basis. Factories employing 50 or more workers with the aid of power, or 100 or more workers without the aid of power are completely enumerated. The remaining factories, namely, employing 10 to 49 workers with the aid of power or 20 to 99 workers without the aid of power, are covered on the basis of probability sample.

In 1962 there were 9,733 registered factories employing 50 or more workers with the aid of power and 100 or more workers without the aid of power. Returns have so far been received from 9,314 (96%). The 9,314 factories which reported data accounted for a productive capital of Rs. 3,078 crores. They employed in all 3·2 million persons. The total salaries, wages and imputed value of benefits in kind paid, were of the order of Rs. 574 crores. The value of total output (*ex*-factory) was Rs. 3,966 crores and that of input including depreciation was Rs. 2,892 crores, the net value added by manufacture was Rs. 1,074 crores.

Table below shows certain important characteristics in respect of India as a whole for the years 1961 and 1962 and also the percentage increase/decrease of these characteristics in 1962 over 1961.

| | 1961 | 1962 | Percentage increase over 1961 |
|---|---|---|---|
| 1. Number of factories | 9,161 | 9,733 | 6·24 |
| 2. Number of factories reporting | 8,930 | 9,314 | 4·30 |
| 3. Productive capital (Rs. crores) | 2,374 | 3,078 | 29·65 |
| 4. Employment ('000) | 3,050 | 3,215 | 5·41 |
| 5. Salaries, wages and benefits, total (Rs. crores) | 536 | 574 | 7·09 |
| 6. Ex-factory value of output (Rs. crores) | 3,693 | 3,966 | 7·39 |
| 7. Value at factory of input including depreciation (Rs. crores) | 2,716 | 2,892 | 6·48 |
| 8. Value added by manufacture (Rs. crores) | 987 | 1,074 | 8·81 |

Table below gives relative percentage shares of the important industry groups to the total (main items) as in the years 1961 and 1962.

| Industry Group | Returns Received | | Productive Capital | | Employment | | Gross Output | | Value added | |
|---|---|---|---|---|---|---|---|---|---|---|
| | 1961 | 1962 | 1961 | 1962 | 1961 | 1962 | 1961 | 1962 | 1961 | 1962 |
| Sugar | 2·53 | 2·49 | 5·91 | 4·38 | 4·19 | 3·93 | 6·31 | 5·44 | 4·76 | 4·04 |
| Miscellaneous food | 13·91 | 12·49 | 5·85 | 4·62 | 7·19 | 6·49 | 10·46 | 9·48 | 5·79 | 5·19 |
| Tobacco | 4·41 | | 1·24 | 0·96 | 3·49 | 2·97 | 2·40 | 2·32 | 2·02 | 1·79 |
| Textiles | 11·50 | 3·60 | 17·90 | 15·69 | 37·39 | 34·22 | 26·84 | 25·82 | 31·16 | 29·33 |
| Printing, Publishing, etc. | 3·71 | 11·34 | 1·66 | 1·50 | 2·61 | 2·67 | 1·63 | 1·81 | 2·54 | 2·80 |
| Rubber | 0·87 | 3·70 | 1·24 | 1·55 | 1·11 | 1·09 | 2·02 | 2·19 | 2·71 | 2·65 |
| Chemicals (including fertilizers) | 1·46 | 0·84<br>1·33 | 7·68 | 6·43 | 1·83 | 1·55 | 3·38 | 3·31 | 3·93 | 3·51 |
| Miscellaneous Chemicals | 3·03 | 3·38 | 3·35 | 3·27 | 2·07 | 2·26 | 3·91 | 4·74 | 4·84 | 5·62 |
| Iron and Steel | 4·04 | 4·16 | 11·91 | 21·93 | 5·63 | 8·38 | 7·40 | 9·14 | 6·32 | 7·72 |
| Metal Products (except machinery and transport equipment) | 3·72 | 4·07 | 2·00 | 1·78 | 2·01 | 2·16 | 2·21 | 2·61 | 2·20 | 2·26 |
| Machinery | 4·71 | 5·93 | 3·35 | 3·75 | 3·58 | 4·07 | 2·83 | 3·38 | 3·87 | 4·35 |
| Electrical machinery | 2·86 | 2·40 | 3·37 | 3·35 | 2·65 | 2·64 | 3·14 | 2·92 | 3·82 | 3·20 |
| Railway Equipment | 1·29 | 1·17 | 3·10 | 2·63 | 5·14 | 5·04 | 3·18 | 2·62 | 3·99 | 3·71 |
| Electricity and Gas | 1·30 | 3·94 | 8·31 | 7·56 | 1·23 | 1·94 | 2·22 | 2·00 | 2·75 | 2·44 |
| Total of 14 Groups | 59·34 | 60·84 | 76·87 | 79·40 | 80·12 | 79·41 | 77·93 | 77·78 | 80·70 | 78·61 |

## INDUSTRIAL POLICY

With the bringing together for the first time, the results of the census and sample sectors of the Annual Sample Survey for the years 1960 and 1961, the total picture of the position of the factory sector in the manufacturing industry has now been made available by the Central Statistical Organisation. Productive capital employed in 1961 increased by 20 per cent over the previous year, as against the increase in the working force by only 2 per cent. Value of gross output recorded an increase of 15·5 per cent, while value added by manufacturing industry increased by 15 per cent.

All the 42,809 factories in India in 1961 employed over Rs. 2,733 crores of productive capital and about 3·7 million persons. The value of their gross output was over Rs. 4,523 crores and the value added by manufacture was Rs. 1,172 crores. In 1960, the total number of factories increased to 40,467 and their productive capital rose to Rs. 2,277 crores, employment to over 3·64 million, value of gross (*ex*-factory) output to Rs. 3,915 crores and value added to Rs. 1,017 crores.

Table below shows the comparative picture of the two sectors:

| Items | Census Sector | | Percentage increase over 1960 | Sample Sector | | Percentage increase over 1960 |
|---|---|---|---|---|---|---|
| | 1960 | 1961 | | 1960 | 1961 | |
| 1. No. of factories (reporting) | 8,704 | 9,161 | 5·3 | 31,763 | 33,648 | 5·9 |
| 2. Productive capital (Rs. crores) | 2,000 | 2,374 | 18·7 | 277 | 359 | 29·6 |
| 3. Persons employed ('000) | 2,904 | 3,050 | 5·0 | 740 | 679 | — 8·2 |
| 4. Ex-factory value of output (Rs. crores) | 3,150 | 3,693 | 17·2 | 765 | 830 | 8·5 |
| 5. Value added (Rs. crores) | 864 | 987 | 14·4 | 153 | 184 | 20·3 |

Table below gives the percentage share of large (Census Sector) and small (Sample Sector) factories to the total in regard to the important characteristics.

| Item | Census Sector | | Sample Sector | |
|---|---|---|---|---|
| | 1960 | 1961 | 1960 | 1961 |
| 1. Number of factories .. .. .. | 21·5 | 21·4 | 78·5 | 78·6 |
| 2. Productive capital .. .. .. | 87·8 | 86·9 | 12·2 | 13·1 |
| 3. Persons employed .. .. .. | 79·7 | 81·8 | 20·3 | 18·2 |
| 4. Gross (ex-factory) output .. .. | 80·5 | 81·6 | 19·5 | 18·4 |
| 5. Value added .. .. .. .. | 84·9 | 84·3 | 15·1 | 15·7 |

The 1948 Industrial Policy Resolution, of which the text is given in the 1959 Directory, was reviewed and a new Industrial Policy Resolution was placed before Parliament by the Prime Minister on 30th April 1956.

This is now the accepted industrial policy of the Government.

The major part of Government's policy is concretised in the Five Year Plans, the first of which started in 1951 as also in a series of industrial undertakings collectively known as the public sector. These are dealt with in the article entitled "Government Industrial Undertakings".

In the First Plan the target outlay on industrial development both in the public and private sectors was Rs. 327 crores, about 8 per cent of the total target, outlay on the whole plan. The main emphasis was on agriculture, irrigation and power.

Of this the target for the public sector was Rs. 94 crores and the private Rs. 233 crores. But while the actual investment in the private sector was about the same as the target, in the public sector the actual investment was of the order of Rs. 60 crores.

The aggregate investment outlay and the combined share of industries and minerals under the 2nd and 3rd Five-Year Plans are given below:

(In crores of Rs.)

| | Second Plan | | Third Plan | |
|---|---|---|---|---|
| | Aggregate outlay | Industries and Minerals | Aggregate outlay | Industries and Minerals |
| Public sector .. .. .. | 3,650 | 870 | 6,300 | 1,520 |
| Private sector .. .. | 3,100 | 675 | 4,100 | 1,050 |
| Total .. .. | 6,750 | 1,545 | 10,400 | 2,570 |

## THREE CATEGORIES

The following is a summary of the text of the industrial policy resolution placed before Parliament by the Prime Minister on 30th April 1956:

These basic and general principles were given a more precise direction when Parliament accepted in December, 1954, the socialist pattern of society as the objective of social and economic policy. Industrial policy, as other policies, must, therefore, be governed by these principles and directions.

The Government of India have in consultation with the Planning Commission, decided to classify industries into three categories having regard to the part which the State should play in each of them. It should also be remembered that it is always open to the State to undertake any type of industrial production.

In the first category will be industries, the future development of which will be the exclusive responsibility of the State. The second category will consist of industries, which will be progressively State-owned and in which the State will, therefore, generally take the initiative in establishing new undertakings, but in which private enterprise will also be expected to supplement the efforts of the State. The third category will include all the remaining industries, and their future development will, in general, be left to the initiative and enterprise of the private sector.

Industries in the first category have been listed in Schedule A of this resolution. All new units in these industries, save where their establishment in the private sector has already been approved, will be set up only by the State. This does not preclude the expansion of the existing privately owned units, or the possibility of the State securing the co-operation of private enterprise in the establishment of new units when the national interests so require.

Railways and air transport, arms and ammunition and atomic energy will, however, be developed as Central Government monopolies. Whenever co-operation with private enterprise is necessary, the State will ensure, either through majority participation in the capital, or otherwise, that it has the requisite powers to guide the policy and control the operations of the undertakings.

Industries in the second category will be those listed in Schedule B. With a view to accelerating their future development, the State will increasingly establish new undertakings in these industries. At the same time private enterprise will also have the opportunity to develop in this field, either on its own or with State participation.

All the remaining industries will fall in the third category and it is expected that their development will be undertaken ordinarily through the initiative and enterprise of the private sector, though it will be open to the State to start any industry even in this category. It will be the policy of the State to facilitate and encourage the development of these industries in the private sector, in accordance with the programme formulated in successive Five-Year Plans, by ensuring the development of transport, power and other services, and by appropriate fiscal and other measures.

The State will continue to foster institutions to provide financial aid to these industries, and special assistance will be given to enterprises organised on co-operative lines for industrial and agricultural purposes. In suitable cases, the State may also grant financial assistance to the private sector. Such assistance, especially when the amount involved is substantial, will preferably be in the form of participation in equity capital, though it may also be in part in the form of debenture capital.

Industrial undertakings in the private sector have necessarily to fit into a framework of the social and economic policy of the State and will be subject to control and regulation in terms of the Industries (Development and Regulation) Act and other relevant legislation. The Government of India, however, recognise that it would, in general, be desirable to allow such undertakings to develop with as much freedom as possible, consistent with the targets and objectives of the national Plan. When there exist in the same industry both privately and publicly owned units, it would continue to be the policy of the State to give fair and non-discriminatory treatment to both of them.

In appropriate cases, privately owned units may be permitted to produce an item falling within Schedule A for meeting their own requirements or as by-products. There will be ordinarily no bar to small privately owned units undertaking production, such as the making of launches and other light-craft, generation of power for local needs and small-scale mining. Further, heavy industries in the public sector may obtain some of their requirements of lighter components from the private sector, while the private sector in turn would rely for many of its needs on the public sector. The same principle would apply with even greater force to the relationship between large-scale and small-scale industries.

## COTTAGE INDUSTRIES

The State has been following a policy of supporting cottage and village and small scale industries by restricting the volume of production in the large-scale sector, by differential taxation, or by direct subsidies. While such measures will continue to be taken, whenever necessary, the aim of State policy will be to ensure that the decentralised sector acquires sufficient vitality to be self-supporting and its development is integrated with that of large-scale industry.

The State will, therefore, concentrate on measures designed to improve the competitive strength of the small-scale producer. For this it is essential that the technique of production should be constantly improved and modernised, the pace of transformation being regulated so as to avoid, as far as possible, technological unemployment.

Lack of technical and financial assistance, of suitable working accommodation and inadequacy of facilities for repair and maintenance are among the serious handicaps of small-scale producers. A start has been made with the establishment of industrial estates and rural community workshops to make good these deficiencies. The extension of rural electrification and the availability of power at prices which the workers can afford will also be of considerable help.

Many of the activities relating to small-scale production will be greatly helped by the organisation of industrial co-operatives. Such co-operatives should be encouraged in every way and the State should give constant attention to the development of cottage and village and small-scale industries.

## REGIONAL DEVELOPMENT

In order that industrialisation may benefit the economy of the country as a whole, it is important that disparities in levels of development between different regions should be progressively reduced.

This programme of industrial development will make large demands on the country's resources of technical and managerial personnel. To meet these rapidly growing needs for the expansion of the public sector and for the development of village and small-scale industries, proper managerial and technical cadres in the public services are being established.

Steps are also being taken to meet shortages at supervisory levels, to organise apprenticeship schemes of training on a large-scale both in public and in private enterprises, and to extend training facilities in business management in universities and other institutions.

The living and working conditions of workers should be improved and their standard of efficiency raised. The maintenance of industrial peace is one of the prime requisites of industrial progress. In a socialist democracy labour is a partner in the common task of development and should participate in it with enthusiasm.

Some laws governing industrial relations have been enacted and a broad common approach has developed. With the growing recognition of the obligations of both management and labour there should be joint consultation and workers and technicians should, wherever possible, be associated progressively in management. Enterprises in the public sector have to set an example in this respect.

With the growing participation of the State in industry and trade, the manner in which these activities should be conducted and managed assumes considerable importance. Speedy decisions and a willingness to assume responsibility are essential if these enterprises are to succeed. For this, wherever possible, there should be decentralisation of authority and their management should be along business lines. It is to be expected that public enterprises will augment the revenues of the State and provide resources for further development in fresh fields. But such enterprises may sometimes incur losses. Public enterprises have to be judged by their total results and in their working they should have the largest possible measure of freedom.

### SCHEDULE A

The future development of the following industries will be the exclusive responsibility of the State :

1. Arms and ammunition and allied items of defence equipment. 2. Atomic energy. 3. Iron and steel. 4. Heavy castings and forgings of iron and steel. 5. Heavy plant and machinery required for iron and steel production, for mining, for machine tool manufacture and for such other basic industries as may be specified by the Central Government. 6. Heavy electrical plant including large hydraulic and steam turbines. 7. Coal and lignite. 8. Mineral oils. 9. Mining of iron ore, manganese ore, chrome ore, gypsum, sulphur, gold and diamond. 10. Mining and processing of copper, lead, zinc, tin, molybdenum and wolfram. 11. Minerals specified in the schedule to the Atomic Energy (Control of Production and Use) Order, 1953. 12. Aircraft. 13. Air transport. 14. Railway transport. 15. Shipbuilding. 16. Telephones and telephone cables, telegraph and wireless apparatus (excluding radio receiving sets). 17. Generation and distribution of electricity.

### SCHEDULE B

The following industries will be progressively State-owned. The State will generally take the initiative in establishing new undertakings but private enterprise will not be excluded.

1. All other minerals except "minor minerals" as defined in section 3 of the Minerals Concession Rules, 1949. 2. Aluminium and other non-ferrous metals not included in Schedule "A". 3. Machine tools. 4. Ferro alloys and tool steels. 5. Basic and intermediate products required by chemical industries such as the manufacture of drugs, dyestuffs and plastics. 6. Antibiotics and other essential drugs. 7. Fertilizers. 8. Synthetic rubber. 9. Carbonisation of coal. 10. Chemical pulp. 11. Road transport. 12. Sea transport.

It is from these schedules and the foregoing policy announcement that Government entered the industrial field and set on foot a large number of industrial undertakings.

A full list of these with notes on their progress is given in the chapter entitled, "Government Industrial Undertakings".

## INDUSTRIES DEVELOPMENT & REGULATION ACT

Towards the end of 1951, Parliament passed the Industries (Development and Regulation) Bill. The Act applied to 37 industries listed in the First Schedule to the Act.

The Act was amended in 1956 when new industries were added to the list.

The most important provision is the establishment of Development Councils which deal with the problem of productivity and service to the community.

At the top is the Central Advisory Council for Industries which advises Government on rules, directions to industrial undertakings and taking over the management of industrial concerns.

The Act provides for the registration of existing industrial undertakings and licensing of new ones.

It also empowers Government to investigate into the causes of any possible fall in the production of any concern or any deterioration in the quality of the product, and to take action.

The Act contains provisions for direct control by the Central Government in certain cases.

The Central Advisory Council of Industries was established in 1952 consisting of 27 representatives of industry, labour, consumers and primary producers pertaining to the scheduled industries.

A Licensing Committee was also set up consisting of representatives of the Ministries of Commerce and Industry,* Finance, Railways, Production and of the Planning Commission to examine application for licences.

The Third Plan targets for a number of industries were fully covered by licences issued under the Industries (Development and Regulation) Act, 1951. The number of licences granted during the year 1963 was 942 as compared to 1,097 in 1962. With a view to implementing speedily the schemes licensed, energetic steps were taken to render all necessary assistance to licensees. Licences issued to those parties who failed to take effective steps were revoked. The licensing procedure has been streamlined and in regard to 211 industries where further establishment of capacity is not to be allowed, Government have been authorised to reject applications without formal reference to the Licensing Committee.

The national emergency has necessitated a re-orientation of industrial pattern so as to give priority to defence needs. It is a tribute to the flexible manufacturing pattern built up in the past that in vital commodities such as steel, engineering and chemical products and other lines, it is possible to attempt this switch over without much dislocation. The highest priority is being given to industries having a direct bearing on defence efforts.

The diversification of industries into related fields of manufacture and the establishment of entirely new ranges of production were significant pointers to the broad-based industrial economy. Amongst the new items, production of which was commenced during the year, mention may be made of formaldehyde, heavy water, tyre cord yarn, polyester resins, transistors and diodes, permanent magnets, microscope slides and punch-card sorters.

An *ad hoc* committee reviewed the procedure obtaining in the Ministry of Commerce and Industry* for disposal of applications for licences under the Industries (Development and Regulation) Act and suggested several changes with a view to speeding up the disposal of these applications. It has been decided in consultation with the Licensing Committee that certain types of simple applications in which all the concerned officers had agreed to the sanction of a licence should be disposed of in the prescribed manner without prior reference to the Committee and reported to them later for information. Applications for additional capacity in regard to certain items where there is sufficient capacity in the country already are to be rejected for a specified period. Applications from undertakings for diversification of production which involve no foreign exchange implications are to be approved subject to certain conditions. In regard to certain lines of manufacture where further expansion is clearly desirable, the applications are to be placed before the Capital Goods Committee straightway for examining the question of import of plant and machinery.

There are now Development Councils for (1) Automobile, automobile ancillary industries and Transport vehicle industries, (2) Bicycles, sewing machines and instruments, (3) Heavy electrical industries, (4) Light electrical industries, (5) Internal combustion engines, power driven pumps, air compressors and blowers, (6) Non-ferrous metals, (7) Machine tools, (8) Acids and fertilizers, (9) Alkalis and allied industries, (10) Alcohol and other fermentation industries, (11) Art silk industry, (12) Drugs, dyes and Intermediates, (13) Food processing industries, (14) Oil based and plastics industries, (15) Sugar industry and (16) Woollen Industry.

Where an industry was not sufficiently developed, a number of Panels or Expert Committees for inquiring into and studying the problems were set up. The following is the list of the Panels and Committees thus set up :

(1) Panel for paper and pulp, (2) X-ray equipment, (3) Surgical instruments and appliances, (4) Electronics and wireless equipment, (5) Refractories, (6) Agricultural tractors (7) Aluminium, (8) Power alcohol, (9) Earth-moving and allied equipment, (10) Milk powder industry, (11) Scooters, motor-cycles : moped and three wheeler industry, (12) Cotton-seed oil industry, (13) Textile machinery manufacturing, (14) Salt and (15) Cement.

### REGULATED INDUSTRIES

All undertakings pertaining to the industries below, employing 50 or more workers with the aid of power, or 100 or more workers without the aid of power, fall within the purview of the Industries (Development and Regulation) Act, 1951, as amended.

1. METALLURGICAL INDUSTRIES : *Ferrous :* Iron and steel (metal) ; Ferro-alloys ; Iron and Steel castings and forgings ; Iron and Steel structurals ; Iron and Steel pipes ; Special steels ; Other products of iron and steel. *Non-ferrous :* Non-ferrous metals and alloys ; Semi-manufactures and manufactures.

2. FUELS : Coal, lignite, coke and their derivatives ; Mineral oil (crude oil), motor and aviation spirit, diesel oil, kerosene oil, fuel oil, diverse hydrocarbon oils and their blends including synthetic fuels, lubricating oils and the like; Fuel gases—(coal gas, natural gas and the like).

3. BOILERS AND STEAM GENERATING PLANTS.

4. PRIME MOVERS (OTHER THAN ELECTRICAL GENERATORS) : Steam engines and turbines; Internal combustion engines.

5. ELECTRICAL EQUIPMENT : Equipment for generation, transmission and distribution of electricity including transformers ; Electrical motors ; Electrical fans ; Electrical lamps ; Electrical furnaces ; Electrical cables and wires ; X-ray equipment ; Electronic equipment ; Household appliances such as electric irons, heaters and the like ; Storage batteries ; Dry cells.

6. TELECOMMUNICATIONS : Telephones ; Telegraph equipment ; Wireless communication apparatus ; Radio receivers, including amplifying and public address equipment ; Television sets ; Teleprinters.

7. TRANSPORTATION : Aircraft ; Ships and other vessels drawn by power ; Railway locomotives ; Railway rolling stock ; Automobiles

* Now Ministry of Commerce and Ministry of Industry.

(motor cars, buses, trucks, motor cycles, scooters and the like); Bicycles; Others, such as fork lift trucks and the like.

8. INDUSTRIAL MACHINERY: *Major items of specialised equipment used in specific industries*:—Textile machinery (such as spinning frames, carding machines, powerlooms and the like) including textile accessories; Jute machinery; Rayon machinery; Sugar machinery; Tea machinery; Mining machinery; Metallurgical machinery; Cement machinery; Chemical machinery; Pharmaceuticals machinery; Paper machinery.

*General items of machinery used in several industries, such as the equipment required for various 'unit processes'*: Size reduction equipment—crushers, ball mills and the like; Conveying equipment—bucket elevators, skip hoists, cranes, derricks and the like; Size separation units—screens, classifiers and the like; Mixers and reactors—kneading mills, turbo mixers and the like; Filtration equipment—filter presses, rotary filters and the like; Centrifugal machines; Evaporators; Distillation equipment; Crystallisers; Driers; Power driven pumps—reciprocating, centrifugal and the like; Air and gas compressors and vacuum pipes (excluding electrical furnaces); Refrigeration plants for industrial use; Fire fighting equipment and appliances including Fire engines.

*Other items of Industrial Machinery*: Ball, roller and tapered bearings; Speed reduction units; Grinding wheels and abrasives.

9. MACHINE TOOLS.

10. AGRICULTURAL MACHINERY: Tractors, Harvesters and the like; Agricultural implements.

11. EARTH-MOVING MACHINERY: Bulldozers, dumpers, scrapers, loaders, shovels, drag lines, bucket wheel excavators, road rollers and the like.

12. MISCELLANEOUS MECHANICAL AND ENGINEERING INDUSTRIES: Plastic moulded goods; Hand tools, small tools and the like; Razor blades.

13. COMMERCIAL, OFFICE AND HOUSEHOLD EQUIPMENT: Typewriters; Calculating machines; Air conditioners and refrigerators; Vacuum cleaners; Sewing and knitting machines; Hurricane lanterns.

14. MEDICAL AND SURGICAL APPLIANCES: Surgical instruments—sterilisers, incubators and the like.

15. INDUSTRIAL INSTRUMENTS: Water meters, steam meters, electricity meters and the like; Indicating, recording and regulating devices for pressure, temperature, rate of flow, weights, levels and the like; Weighing machines.

16. SCIENTIFIC INSTRUMENTS.

17. MATHEMATICAL, SURVEYING AND DRAWING INSTRUMENTS.

18. FERTILISERS: Inorganic, Organic and Mixed.

19. CHEMICALS (OTHER THAN FERTILISERS): Inorganic heavy chemicals; Organic heavy chemicals; Fine chemicals including photographic chemicals; Synthetic resins and plastics; Paints, varnishes and enamels; Synthetic rubbers; Man-made fibres including regenerated cellulose-rayon, nylon and the like; Coke oven by-products; Coal tar distillation products like naphthalene, anthracene and the like; Explosives including gun powder and safety fuses; Insecticides, fungicides, weedicides and the like; Textile auxiliaries; Sizing materials including starch; Miscellaneous chemicals.

20. PHOTOGRAPHIC RAW FILM AND PAPER: Cinema film; Photographic amateur film; Photographic printing paper.

21. DYE-STUFFS.

22. DRUGS AND PHARMACEUTICALS.

23. TEXTILES (INCLUDING THOSE DYED, PRINTED OR OTHERWISE PROCESSED): made wholly or in part of cotton, including cotton yarn, hosiery and rope; made wholly or in part of jute, including jute, twine and rope; made wholly or in part of wool, including wool tops, woollen yarn, hosiery, carpets and druggets; made wholly or in part of silk including silk yarn and hosiery; made wholly or in part of synthetic, artificial (man-made) fibres, including yarn and hosiery of such fibres.

24. PAPER AND PULP INCLUDING PAPER PRODUCTS: Paper—writing, printing and wrapping; Newsprint; Paper board and straw board; Paper for packaging (corrugated paper, kraft paper, paper bags, paper containers and the like); Pulp—wood pulp, mechanical, chemical, including dissolving pulp.

25. SUGAR.

26. FERMENTATION INDUSTRIES: Alcohol; Other products of fermentation industries.

27. FOOD PROCESSING INDUSTRIES: Canned fruits and fruit products; Milk foods; Malted foods; Flour; Other processed foods.

28. VEGETABLE OILS AND VANASPATHI: Vegetable oils, including solvent extracted oils; Vanaspathi.

29. SOAPS, COSMETICS AND TOILET PREPARATIONS: Soaps; Glycerine; Cosmetics; Perfumery; Toilet preparations.

30. RUBBER GOODS: Tyres and tubes; Surgical and medicinal products including prophylactics; Footwear; Other rubber goods.

31. LEATHER, LEATHER GOODS AND PICKERS.

32. GLUE AND GELATIN.

33. GLASS: Hollow ware; Sheet and plate glass; Optical glass; Glass wool; Laboratory ware; Miscellaneous ware.

34. CERAMICS: Fire bricks; Refractories; Furnace lining bricks—acidic, basic and neutral; China ware and pottery; Sanitary ware; Insulators; Tiles.

35. CEMENT AND GYPSUM PRODUCTS: Portland cement; Asbestos cement; Insulating boards; Gypsum boards, wall boards and the like.

36. TIMBER PRODUCTS: Plywood; Hardboard, including fibre-board, chip-board and the like; Matches; Miscellaneous (furniture components, bobbins, shuttles and the like).

37. DEFENCE INDUSTRIES: Arms and ammunition.

38. MISCELLANEOUS INDUSTRIES: Cigarettes.

The Government of India decided in January 1959 to bring within the scope of the registration and licensing provisions of the Industries (Development and Regulation) Act the following industrial gases:—

Hydrogen gas of all varieties; nitrogen gases of all varieties; carbon dioxide gas of all varieties; refrigerant gases of dichlorodifluoro methane and allied groups; rare gases like helium, argon, neonkrypton, neon, etc.; fire extinguishing gases of chlorobromo methane and allied groups; nitrous oxide propane; cyclopropane and ethylene.

*Explanation* 1.—The articles specified under each of the headings Nos. 3, 4, 5, 6, 7, 8, 10, 11 and 13 shall include their component parts and accessories.

*Explanation* 2.—The articles specified under each of the headings Nos. 18, 19, 21 and 22 shall include the intermediates required for their manufacture.

The Government of India, in September 1963, appointed a committee under the chairmanship of Mr. T. Swaminathan to examine the operation of the controls applicable to the establishment of additional industrial capacity under the Industries (Development and Regulation) Act, 1951, the import of capital goods, the issue of capital and foreign investment and collaboration; and also to suggest such modifications as would reduce delays in decision.

The Government of India accepted the recommendations contained in the interim report submitted to Government in December 1963. The committee drew up a list of 22 key industries for special treatment in regard to the effective establishment of capacities for the attainment of Plan targets and the need for speedily establishing additional capacity in certain industries which are important for the promotion of self-sustaining industrial growth. This list is not exhaustive and is intended to be of immediate practicability. The list will be revised from time to time.

According to another recommendation of the committee, a "letter of intent" would be issued to an industrialist within about a month from the date of the receipt of an application from him for starting an industry in the country. The "letter of intent" will merely indicate that the Government will be prepared to consider favourably the proposal put forward by the industrialist. It will enable the industrialist to negotiate with foreigners for collaboration or for the supply of capital goods.

The committee submitted to Government its final report towards the end of March 1964. It has recommended that Government should accord priority treatment to eight non-key industries so as to ensure that adequate manufacturing capacities are speedily established. These are: industrial chains, transformer oil, insulating paper, high tensile galvanised steel wires, laboratory glass ware, detonators and detonating fuse, synthetic fibres and caprolactum. It has also suggested that the accelerated licensing procedures recommended for the key industries in its interim report may be applied in these cases too.

## STATE AID

State aid is given in a number of ways. The various financial corporations give financial assistance.

The National Industrial Development Corporation grants loans for the modernization of plant, especially in the textile, jute and also the machine tool industry.

The Industrial Finance Corporation affords financial assistance in the form of advances and long-term loans to industrial concerns.

The State Financial Corporations assist medium and small-scale industries that fall outside the scope of the all-India Corporations.

The Refinance Corporation finances medium-scale industries.

(There are factual notes on the National Industrial Development Corporation, the Refinance Corporation, the State Financial Corporations and the Industrial Finance Corporation in the Chapter on 'Corporations'.)

The Industrial Development Bank provides risk capital and technical expertise.

Technical assistance is arranged through the Point Four Programme, the Colombo Plan and the U.N. Technical Assistance schemes.

Tariff is regulated to foster indigenous industry. Tax concessions are made (see below under 'Foreign Capital'). Foreign exchange is granted under a system of priorities, especially to facilitate the import of essential raw material and basic intermediates.

In the current policy governing the budgeting of foreign exchange, maintenance requirements in the economy have a high priority. In relation to the Plan, it has been laid down that foreign exchange allotments should be limited in the main to commitments which arise in relation to the 'core' projects, i.e., steel plants, coal mining, railways, and certain power projects.

Outside the 'core', new commitments in foreign exchange are permitted only in respect of those projects whose entire foreign exchange cost is covered by foreign credits or investment and, in certain circumstances, by appropriate deferred payment arrangements.

## NATIONAL PRODUCTIVITY COUNCIL

The National Productivity Council works to help increase general productivity. It is an autonomous organisation established by the Government of India in 1958. Representatives of Government, employers, labour and various other interests participate in its work.

(See under "Delhi State Associations" for more details).

## MANAGING AGENCY SYSTEM

Government attitude may be summed up briefly as follows: The system has filled an important role in the country's economic development. There is therefore nothing inherently objectionable in it. But it is chiefly responsible for the slow growth of institutional financing of industry, as it has itself provided the necessary funds.

Before a managing agency is abolished much formality has to be gone through. There has to be an investigation, a reference of the findings to the Company Law Advisory Commission, scrutiny of the latter's recommendations by Government. And if there is a decision to abolish the system in the industry, a resolution has to be placed before Parliament. Then there is a notice period of three years before the decision becomes effective.

Abolition or continuance of any particular managing agency will be decided on the manner in which it has discharged its duties. There is no desire to make use of the power for compulsory renewal for the purpose of abolishing the system. The ten-year term for a managing agency on its first appointment is usually extended to fifteen years in the case of certain industries like steel, for instance.

Government does not approve of overseas firms trying to come in on the managing agency system. Nor does it approve of cases in which a firm of managing agents expands its scope from a single enterprise to a number of new manufacturing plants.

The Government of India have decided that the remuneration of Managing Agents and Secretaries and Treasurers should ordinarily be fixed according to a sliding scale of commission on the net profits of managed companies. Under the Companies Act, 1956, the Government have to satisfy that the conditions of the agreement to be entered into between the managed company and the Managing Agents or Secretaries and Treasurers are fair and reasonable. While considering applications in this behalf, therefore, the Government have to determine what would be a fair and reasonable remuneration and tenure within the maxima permissible under the Act, in the circumstances of each case. This matter was given very careful consideration and the Government fixed the remuneration and tenure for Managing Agents or Secretaries and Treasurers. The scale of commission fixed is as follows:

Managing Agents: 10 per cent on the first Rs. 10 lakhs or fraction thereof, 9 per cent on the next Rs. 10 lakhs or fraction thereof, 8 per cent on the next Rs. 10 lakhs or fraction thereof, 7 per cent on the next Rs. 10 lakhs or fraction thereof, 6 per cent on the next Rs. 10 lakhs or fraction thereof, 5½ per cent on the next Rs. 25 lakhs or fraction thereof, 5 per cent on the next Rs. 25 lakhs or fraction thereof and 4 per cent on any sum over one crore of rupees.

Secretaries and Treasurers: 7½ per cent on the first Rs. 10 lakhs or fraction thereof, 6½ per cent on the next Rs. 10 lakhs or fraction thereof, 6 per cent on the next Rs. 10 lakhs or fraction thereof, 5½ per cent on the next Rs. 10 lakhs or fraction thereof, 4½ per cent on the next Rs. 10 lakhs or fraction thereof, 4½ per cent on the next Rs. 25 lakhs or fraction thereof, 3½ per cent on the next Rs. 25 lakhs or fraction thereof and 3 per cent on any sum over one crore of rupees.

The Government have also decided that the term of office should ordinarily be 10 years when a company appoints Managing Agents or Secretaries and Treasurers for the first time, and five years on reappointment or successive appointments.

## INDIAN INVESTMENT CENTRE

The Indian Investment Centre was inaugurated by the Finance Minister on February 16, 1961. It is a non-profit, semi-official organization managed by a governing body composed of ten prominent representatives of business, finance and government. It is the aim of the Centre to encourage participation of private foreign capital in all projects to which the Government of India attach a high priority.

(See under "Associations" of Delhi State for more details).

### Taxation Policy

The following are some of the important tax incentives allowed by the Government:

Profits of a new industrial undertaking are exempt from tax up to six per cent of the capital employed for a period of five years. Dividends out of such profits are also exempt from tax. A development rebate equal to 20 per cent of the cost of the plant and machinery is allowed as a deduction from the taxable income in the year of installation. This rate is being put at 25 per cent in the case of Schedule V Industries of I. T. Act.

A higher rate of development rebate is being allowed in the case of Shipping and Coal industry *i.e.*, 40 per cent and 35 per cent of the value of machinery installed after March 31, 1965.

Dividends received by a company, Indian or foreign, from an Indian company formed after 31st March 1952 and engaged in specified industries are exempt from super tax. Dividends received from Indian companies not engaged in specified industries but formed and registered after 1st April 1959, are taxable at a lower rate of super tax than the other income of the investing company, the percentage being 40. Interest on loans from approved foreign institutions on terms previously approved by the Government is exempt from tax. In computing business profits capital expenditure incurred on scientific research related to the business is allowed to be spread over five years and charged to the revenue in addition to the current expenditure which is allowed in full.

Royalties received from an Indian concern by a foreign company (which does not declare dividends in India) in pursuance of an agreement made with it on or after 1st April 1961, which has been approved by the Government are charged to super tax at a concessional rate of 50 per cent.

Technicians of foreign nationality taking up employment in India are exempt from tax on their remuneration for 365 days and where contracts are approved by the Government for 36 months. If the technician continues to remain in employment in India after the said period of 36 months and the employer pays tax on the technician's income chargeable under the head 'salaries' for a period not exceeding 24 months following the expiry of the said 36 months, such tax shall not be treated as income of the technician.

The value of periodical home leave passages provided to employees of foreign nationality is excluded from their taxable income.

Agreements for the avoidance of double taxation exist with a number of countries, *e.g.* Pakistan, Ceylon, Sweden, Norway, Japan, the Federal Republic of Germany and Denmark. These agreements ensure that the benefit of tax concessions is actually retained by the foreign investor as far as possible.

Arrangements for double taxation relief are in force with the Governments of some countries *e.g.*, Kenya, Tanzania, Uganda and Zanzibar.

*Exchange Control:* All transactions involving foreign exchange are controlled by the authorities. The general policy adopted in respect of foreign investments is briefly described below, though variations in individual cases on merits are permissible.

*Entry of Foreign Investment:* The inflow of foreign investments into India is encouraged. It is regulated so as to channel them into fields consistent with the national economic policy. Thus, foreign investment is encouraged in the field of manufacturing and in industries for which adequate capacity does not already exist in the country, but is not permitted, for instance, in purely trading or financial enterprises.

The usual forms of foreign financial participation in India are equity capital and long-term loans. Technical collaboration against payment of fees or royalties on reasonable terms is also permitted.

Repatriation of investments from sterling area countries is allowed freely.

The income earned by non-resident investors on their investments in India is allowed to be remitted freely to their country.

Persons of foreign domicile resident in India, are, in general, offered liberal remittance facilities for meeting all their current expenses including maintenance of their families abroad and for transfer of assets to their country at the time of retirement.

*Currency Convertibility Agreement with U. S. A.:* Under the agreement signed in 1957 by India and U.S.A. based on the U.S. Investment Guarantee Programme, U.S. private investors, on payment of a small premium, can obtain guarantee from their Government for the reconvertibility into U.S. dollars of the proceeds from the sale of their investments in India and/or earnings from investments in projects approved by the Government of India. In 1959, this agreement was extended so as to provide for the payment of adequate compensation to U.S. investors in the event of expropriation of their assets in India.

## COMPANY LAW

The Companies Act, 1956 (Act No. 1 of 1956) *inter alia* recognises two forms of companies *viz.*, public company and private company. A private company which is a subsidiary of a public company is for many practical purposes treated as a public company.

For the incorporation of a company, documents such as (*i*) Memorandum of Association and (*ii*) Articles of Association have to be presented for registration to the Registrar of Companies along with proposed agreements, if any, regarding the management and a declaration that all requirements under the Act have been duly complied with. In the case of a public company, a list of persons who have agreed to become directors together with their consent letters should also be filed.

On the issue of the Certificate of Registration, a private company can forthwith commence its business but a public company is further required to undergo certain formalities and to obtain a Certificate for commencement of business (Sec. 149).

A public company or a private company which is a subsidiary of a public company can issue only two kinds of share capital *viz.* (*i*) equity and (*ii*) preference (Sec. 86).

Every company must have a Board of Directors consisting of at least three directors in case of a public company and at least two directors in case of a private company (Sec. 252). Only individuals can be appointed as directors (Sec. 253). No individual at a time can hold office as a director in more than 20 companies (excluding private companies) (Secs. 275 & 278). A company may be managed by a Board of Directors directly and/or *by any one only* (Sec. 197A) out of the following four categories:— (1) Managing Director or a wholetime director (Secs. 267 to 269), (2) Managing Agent (Secs. 324 to 377), (3) Secretaries & Treasurers (Secs. 378 to 383) and (4) Manager (Secs. 384 to 388). A public company is required to obtain the approval of the Central Government for the appointment, reappointment, the remuneration and the increase in remuneration of any of these categories of personnel (Secs. 269, 311, 326, 352, 378, 379 and 388).

The term of office of a Managing Director cannot exceed 5 years at a time (Sec. 317) and he cannot act as a Managing Director in more than two companies simultaneously (Sec. 316) unless the approval of the Central Government has been obtained. The term of office of the first Managing Agent is subject to a maximum period of 15 years (subject, however, to the approval of the Central Government as regards the terms

and period of appointment, etc., etc.). This initially cannot exceed 15 years and the renewal of the term cannot at a time be for more than 10 years (Sec. 328). Ordinarily the initial appointment of a Managing Agent is approved by the Government for a maximum period of ten years only and that the period of renewal will be approved for a maximum period of 5 years only (*vide* Central Government's Press Note dated 23rd October 1959). The Managing Agents cannot have a Managing Agent for itself and the Managing Agents are prohibited from being appointed as Managing Agents of more than 10 public companies at a time (Sec. 332). The Secretaries and Treasurers must be a firm or a company and not an individual (Sec. 378) and they will not have any right to appoint directors to the Board of Directors of the Company managed by them (Sec. 382). In the case of a Manager, he must be an individual and cannot be a firm or a company and the terms of his appointment as such should not exceed 5 years at a time. He is prohibited from being appointed as a Manager in more than two companies at a time unless permitted by the Central Government (Sec. 386).

The *overall managerial remuneration* which can be paid by a public company or a private company which is a subsidiary of a public company should not exceed 11 per cent of the net profit of the company (Sec. 198). However, in case of inadequacy or lack of profits, the Central Government may approve the payment of such remuneration to the extent of Rs. 50,000 per annum. Even this ceiling may be relaxed by the Central Government (Sec. 198(4)). The remuneration of a Managing Director or a whole-time director or a manager cannot exceed 5 per cent of the net profit and if they are more than one, the same may be to the extent of 10 per cent of the net profit for all of them together. This ceiling may also be relaxed by the Central Government (Secs. 307 and 387). As regards the remuneration which can be paid to the Managing Agents or the Secretaries and Treasurers, the Act has laid down that the same should not exceed 10 per cent or 7½ per cent respectively of the net profit of the company (Secs. 348 and 381). Additional remuneration even in excess of the prescribed limits may be paid if the Central Government approves of the same as being in public interest (Secs. 352 and 379). The maximum remuneration which can be paid to a Managing Agent is ordinarily fixed by the Central Government on the basis of a sliding scale which ranges from 10 per cent on the first million rupees of net profits to 4 per cent on any sum of net profits exceeding 10 million rupees. The sliding scale in like circumstances in respect of the remuneration of the Secretaries and Treasurers ranges from 7½ per cent to 3 per cent of the net profits.

The Act requires every company to file with the Registrar of Companies certain prescribed documents in prescribed manner and within a prescribed time limit and further every company has been required to keep and maintain several prescribed Registers.

Sections 591 to 602 of the Act lay down several provisions in relation to the foreign companies. Any foreign company *i.e.* a company incorporated outside India and carrying on business in India or having a place of business in India is considered to be a foreign company. The Act does not make any discrimination as such against the foreign companies which like their counterparts in India are required to observe practically all the requirements with regard to the filing of the documents with the Registrar of Companies (a foreign company has to file all such documents with the Registrar of Companies at New Delhi as also with the Registrar of Companies in the State or States in which the company has its place or places of business). The provisions applicable to foreign companies with regard to the accounts of the company are comparably more favourable to the foreign companies. (For details about address and important officials see Delhi).

The new Companies (Amendment) Act, except the provisions of Section 8, has come into force with effect from 1st January, 1964. The enforcement of Section 8 which provides for the exercise of voting rights by the public trustee in respect of shares held in trust in excess of the limits specified in the new Section 153B, is to be notified later. The amended Act *inter alia* provides for the constitution of a tribunal for inquiring into cases against managerial personnel which may be referred to it by the Central Government, and also for transferring to the tribunal functions under certain sections of the Companies Act which were conferred on the court. The Act also empowers the Government to constitute a board to be called the Company Law Board to exercise such powers and functions as may be delegated to it by the Central Government, and to appoint a person as public trustee for the exercise of voting rights in respect of shares held in trust.

Other important changes effected in the original Act relate to sections 81, 397, 398 and 408. The scope of sections 397, 398 and 408 has been enlarged to provide for the entertainment of applications under these sections on grounds of public interest as well.

The new section 153B inserted by section 7 of the Amendment Act makes it obligatory for persons holding shares or debentures in trust, to make a declaration to the public trustee to be appointed by Government, where the trust is created by instrument in writing and the trust money invested exceeds the limits specified in sub-section (4).

In the Companies (Amendment) Act, 1965, all sections except 13 and 46 came into force with effect from October 15, 1965. The Sections 13 and 46 seeking restrictions on the conveyance of blank transfers of shares and restrictions on inter-company loans will come into force only after notification.

Besides many other minor changes, sections 1, 13, 69, 75, 76, 108, 149, 227, 233B, 240A, 370, 395, 497 and 509 of the original Act were amended with some other insertions of minor sub-sections.

# INDIA'S FRONTIER WITH CHINA

The course of the frontier may, broadly speaking, be described as follows.

India's northern frontier with China extends over 2,500 miles from north-west Kashmir to the tripartite junction of India, Burma and China near the Talu Pass. The frontier is traditional and well enough known.

In some sectors it has also been demarcated or defined. It runs along the Muztagh and the Karakoram ranges through the Karakoram pass and then along the Kuen Lun ranges to a point east of 80° longitude. Thereafter, it follows the watershed and runs through Lanak pass and along the Changchengmo range. Cutting across the Pangong Tso and the Spanggur Tso, it runs through Chang pass and along the Kailash range. It then turns south-west near Demchok and skirting the Hanle mountains cuts across the Para Chu river south of Chumar. It then follows the watershed between the Spiti and the Para Chu and the watershed between the Ganga and the Sutlej to the tri-junction of India, Nepal and China.

The boundary of Sikkim and Tibet is also a watershed, while the crest of the Himalayas forms the boundary between Bhutan and Tibet.

The north-east frontier of India, about 700 miles long, from the eastern Limits of Bhutan to a point near the Talu pass, is for the most part the northern watershed of the Brahmaputra. This is the so-called McMahon Line.

**Frontier of Kashmir with Tibet:** The frontier in this sector is about 1,100 miles long. About 300 miles of the extreme western sector is covered by the territory of Kashmir which is illegally occupied by Pakistan. The major part of Kashmir's frontier with China runs along a well-defined watershed, and the eastern section in particular has been recognised by custom for over three centuries. It was also confirmed by treaties signed between Ladakh and Tibet *circa* 1684 and in 1842. This boundary includes in India, the whole of the Aksaichin plateau, the Changchengmo valley, and the Pangong, Rupshu and Hanle areas. However, Chinese maps have been showing the boundary in this area much further west so as to include about 6,000 square miles—the greater part of Aksaichin, and parts of the Changchengmo valley, and the Pangong, Spanggur Tso and Chang La areas—in Tibet. The road constructed by the Chinese runs for about a hundred miles through the eastern part of Aksaichin. In September 1957 it was announced that this road had been completed. Indian parties have been arrested near the northern extremity of Aksaichin in 1958 and in the Spanggur area in 1959.

**The Punjab-Tibet Frontier:** This is about 70 miles in length. In the southern part of this sector, some Chinese maps show the boundary four to five miles west of the traditional boundary which is the watershed between the Spiti and Para Chu rivers. In 1956 and 1957, Chinese parties visited this area.

**Himachal Pradesh and Uttar Pradesh boundary with Tibet:** It is about 320 miles long and follows well-defined watersheds. In Himachal Pradesh it is the watershed between the eastern and western tributaries of the Sutlej, and in Uttar Pradesh that between the Sutlej on the one hand and the Kali, Alakhnanda and Jadhganga on the other. The six passes on the watershed—Shipki, Mana, Niti, Kungri Bingri Darma, and Lipu Lekh—have been mentioned in the 1954 Agreement as passes between India and China. The Great Himalayan Range in this region lies in some places thirty to forty miles south of the watershed. The Nilang-Jadhang area, about a hundred square miles in area, has always been Indian territory.

**Sikkim-Tibet Frontier:** This was defined in the Anglo-Chinese Convention of 1890, and was later, in 1895, demarcated on the ground. All Chinese maps seem to show this boundary correctly.

**Bhutan-Tibet Frontier:** This is a customary boundary and follows the crest of the Himalayan Range for about three hundred miles. Chinese maps level out Bhutan in two sectors in the north and include a considerable part of south-eastern Bhutan in Tibet.

**McMahon Line:** From the eastern border of Bhutan to a point near the Talu pass, the frontier is a customary one which was defined in detail at the Simla Conference of 1914. The line follows the northern watershed of the Brahmaputra except where the Lohit, Dihang, Subansiri and the Namjang rivers break through. This watershed is for its greater part the Himalayan Range and in other places the highest range in the area. In one place the Line departed from the watershed to leave two sacred lakes, the village of Migyitun and a pilgrimage route in Tibet.

The line shown on Chinese maps includes in Tibet nearly 32,000 square miles of our territory in this area. This piece of territory comprises

the whole of three Divisions of the North-East Frontier Agency—Kameng, Subansiri and Siang—and the major part of the fourth—the Lohit Frontier Division. In the extreme west it includes a belt of the Assam plains also.

## INDIAN CASE

Having traced the course of the customary frontier between India and China we may next describe the Indian point of view.

Briefly it is this.

India's traditional frontier with China is well known being based partly on treaty, partly on custom and partly on agreement.

The present controversy arose because, the Chinese Government laid claim for the first time to extensive areas of Indian territory in the Chinese Prime Minister's letter of 8th September 1959.

The tension on the India-China border increased in 1959 and 1960 because Chinese forces had been pushing forward to assert their claims, and this has resulted in clashes involving the death of Indian personnel.

The Government of India have stated that in spite of recent Chinese provocations they will always explore the possibilities of a peaceful settlement. But they cannot accept the Chinese contention that the entire India-China frontier is undelimited. Negotiations on this basis are unacceptable to the Government of India. But they are prepared to discuss with the Chinese Government existing disputes and such minor rectifications of the frontier as may be considered necessary by agreement.

Though this is not part of the Indian case it may be added that the precise nature of the Chinese claims have not been stated by Chinese authorities. They can only be inferred from Chinese maps published from time to time.

The entire length of this border has been either defined by treaty or recognized by custom or by both, and until the present controversy no Chinese Government had ever protested against the exercise of jurisdiction by the Government of India upto the customary border.

The Government of the People's Republic of China contend in their letters that this boundary is entirely undelimited. This is wholly incorrect. The traditional border has been well-known for centuries. It follows the geographical principle of the watershed which is in most places the crest of the Himalayan mountains.

Moreover, in most parts the boundary has the sanction of specific international agreements.

### NORTH-EASTERN FRONTIER

In the north-east, the traditional boundary was formalized at a Tripartite Conference held in Simla from October 1913 to July 1914 and attended by the Plenipotentiaries of the Governments of India, Tibet and China. The Indian, Tibetan and Chinese Plenipotentiaries had equal status. The boundary between India and Tibet in the sector east of Bhutan was confirmed by an exchange of notes between the Tibetan and Indian representatives on 24th and 25th March 1914. The boundary was delineated on two sheets of a large-scale map of the north-east frontier. Two copies of the map were signed and sealed by the Indian and Tibetan representatives. The line was drawn after full discussion and later re-affirmed by a formal exchange of notes. The Indo-Tibetan boundary line as agreed upon by the Indian and Tibetan Plenipotentiaries was incorporated on the map attached to the draft convention and was never challenged by the Chinese representative at that time or afterwards.

There is nothing to indicate that the Tibetan authorities were, in any way, dissatisfied with the delineation. On the other hand, Lonchen Shatra, the Tibetan Plenipotentiary, stated explicitly in the letters exchanged that he had received orders from Lhasa to agree to the boundary as marked on the map.

There is no doubt that the McMahon Line (so called after McMahon, the British representative at the Conference) merely confirmed the natural, traditional, ethnic and administrative boundary in the area. It runs mostly along the crest of the High Himalayan Range which forms the natural frontier between the Tibetan plateau in the north and the submontane region in the south. The Monba, Aka, Dafla, Miri, Abor and Mishmi tribes, who inhabit the area, are of the same ethnic stock as the other hill-tribes of Assam and have no kinship with the Tibetans. The Tibetans refer to these tribes as Lopas—southern barbarians beyond the pale.

It has to be appreciated however that boundaries between any two countries are not determined by ethnic affiliations of people living in frontier regions. It is also possible that people of the same racial stock live on either side of a border. India is a multi-national State in which many racial minorities enjoy rights of citizenship. In this context, it is relevant to mention that there are thousands of Indian citizens of Tibetan origin in our frontier areas. The fact is that the ethnic composition of frontier peoples is not a determining factor.

The important consideration to bear in mind is that Tibetan authorities had not exercised jurisdiction at any time in this area. On the other hand, the exercise of jurisdiction by the Government of India has been long and continuous.

Both the Simla Convention and the map attached to it were signed by Ivan Chen, the Chinese Representative. Although the Chinese Government later repudiated his signature, the objections to the Simla Convention listed in their memorandum of 25th April, 1st May and 13th June 1914 and 30th May 1919 were solely in regard to the boundary between Inner Tibet and China and between Inner Tibet and Outer Tibet. China neither protested against the boundary between India and Tibet nor did she seek modification of it after the Simla Convention. It is significant too that the Chinese Government agreed in 1956-57 to consider the eastern sector of the McMahon Line, which for about 120 miles forms the boundary between Burma and China, as the traditional boundary between the two countries.

### CENTRAL SECTOR

The central sector of the boundary between Tibet and India is the frontier of Uttar Pradesh, Himachal Pradesh and the Punjab States in north India. The boundary between Uttar Pradesh and Tibet follows the watershed between the Sutlej on the one hand and the Ganges (the Kali, the Alaknanda and the Jadhganga) on the other. In this sector, the High Himalayan Range, with passes at a height of about 17,000 feet, runs 30 miles south of the water-parting, which is a lower range easily crossed from the Tibetan plateau. However, this watershed has been the traditional and well-known boundary. Revenue records of the Garhwal district as far back as 1850 establish this. Even Chinese maps upto 1958 showed the watershed as the frontier. The Nilang-Jadhang area, Bara Hoti, Lapthal and Sangcha Malla, which according to the contention of the Chinese Government lie in Tibet, are in fact well on the Indian side of the watershed.

Nilang-Jadhang is an area of about 700 square miles north of the main Himalayan range but south of the watershed. Bara Hoti, a small area of about 1½ square miles, also lies between the highest range of the Himalayas and the main watershed. Lapthal and Sangcha Malla are south-east of Bara Hoti, in Almora district in Uttar Pradesh. The boundary between Himachal Pradesh and Tibet is the water-parting between the eastern and the western tributaries of the Sutlej; and the boundary between the Punjab and Tibet is the major watershed between the Pare Chu and the Spiti river systems.

### LADAKH

The boundary of Jammu and Kashmir with Sinkiang and Tibet is about 1,100 miles in length. Of this the frontier of Ladakh (which is part of Jammu and Kashmir) forms nearly two-thirds.

This boundary between Ladakh and Tibet, long sanctified by custom, was reaffirmed by the Treaty of 1842 signed by the representatives of Kashmir on the one hand and the Dalai Lama and the Emperor of China on the other. The Tibetan text of the treaty confirms that China was a party to it. It is true that the treaty did not define the boundary but referred merely to the "old established frontiers". This was because these frontiers were well-known and did not require any formal delimitation. In 1847 the Chinese Government informed the British Government that as the boundary was sufficiently and distinctly fixed, there was no need for additional measures for fixing them. The area was surveyed by Indian officials and, once a detailed first-hand knowledge was obtained of the region, official Indian maps began to show the boundary with precision. Even an official Chinese map of 1893 showed the boundary in this area as depicted in official Indian maps today.

For many years after 1949, when the People's Republic was established, there was no reason to believe that the Chinese authorities either were unaware of the traditional boundary or disputed its alignment. In 1950 the Chinese Government expressed their gratification over the desire of the Government of India "to stabilize the Chinese-Indian border" and the Government of India replied that "the recognized boundary between India and Tibet should remain inviolate". The Chinese Government questioned neither the location nor the recognition of this boundary, and the Government of India saw no reason to assume that there was any doubt regarding the border. On various occasions in 1951 and 1952, Indian interests in Tibet were discussed but the Chinese Government never suggested that there was any frontier issue to be negotiated.

The only cause for doubting whether the Chinese authorities accepted the traditional boundary was the fact that different alignments were being shown on Chinese maps. The alignments included about 36,000 square miles of territory on the north-eastern frontier and an area of about 15,000 square miles in north-eastern Ladakh within China.

### INDIAN BORDER POST IN LADAKH ENCIRCLED BY CHINESE TROOPS

The first major clash since India started building up its military strength in Ladakh, occurred when an Indian outpost in Galwan Valley was encircled by about 400 Chinese troops on July 10, 1962, only about 48 hours after the Chinese had accused Indian border guards of carrying out "provocations" against a small Chinese patrol.

The Govt. of India lodged an emphatic protest with the Chinese Govt. against the encirclement and the "threat posed to the post by the Chinese intruders." The Note said that "if any untoward incident should now occur, the responsibility will entirely rest on the Govt. of China".

On 11th night China however answered India's charge with the countercharge that in fact the Chinese troops in the area were being encircled by Indian troops.

India warned on July 13 that if the Chinese troops encircling the Indian post in Galwan Valley in Northern Ladakh came closer, the Indian soldiers would fire in self-defence. The Note mentioned that the Chinese had established nine new posts in recent weeks inside Indian territory in the Chip Chap river region, the Chang Chemno Valley and the Spanggur region.

Early in the morning of July 14, the Chinese troops encircling the Indian post in Galwan Valley withdrew to a distance of 200 yards after coming forward menacingly within 15 yards of it, late on the previous night. They were still surrounding the post. They withdrew further on July 15. In the Indian reply of July 14, India has mentioned that the Chinese have set up in recent months "no less than 13 new posts" in northern Ladakh.

The Chinese troops opened fire on Indian patrols on July 21 at two places in the Chip Chap river region and the Pangong Lake area in Northern Ladakh. In the Chip Chap region, the Indian patrols fired back in self-defence. The Govt. of India lodged an emphatic protest against the Chinese firings.

## UNILATERAL WITHDRAWAL BY INDIA—CHINA SUGGESTS

In a Note handed to the Indian Embassy in Peking on Aug. 7, the Chinese Govt. rejected India's suggestion that both sides withdraw in the western sector of the boundary to a line claimed by the other as a desirable prelude to negotiations. The Chinese insisted on unilateral withdrawal by India.

Mr. Nehru told the Lok Sabha during the debate on the Sino-Indian border question that negotiations with China on the basis of the officials' report on the northern border issue "cannot start unless the present tensions are removed and the boundary which has been altered by force is restored". On May 14, 1962 Mr. Nehru had renewed his old proposal for talks between India and China on the basis of each country's withdrawal to the boundaries shown in the other's maps. This suggestion applied to the Ladakh area and not to the eastern sector of the Sino-Indian border.

## CHINESE ATTEMPT TO EXTEND AREA OF CONFLICT

On Sept. 12, the Chinese troops were reported to have infiltrated into Indian territory near Tawang in the Kameng frontier division of NEFA and encircled an Indian outpost. On receipt of the report the Indian troops were instructed to open fire if necessary to repel the Chinese incursion across the McMahon Line. The Chinese were bringing in fresh reinforcements to the Bhutan and NEFA areas. Chinese troops resumed their patrols on the western sector of the border and set up new posts.

On the 20th of September the Chinese suddenly attacked an Indian patrol post two miles east of Dhola and so the Indian troops had to open fire. India lodged a strong protest.

In the Chinese Note of September 13, in reply to India's Note of Aug. 22, she rejected India's invitation to send a representative to Delhi for preliminary discussions. Instead, she proposed that discussions on the basis of the officials' report should start from Oct. 15, first in Peking and then in Delhi alternatively. India accepted their proposal but without any preconditions. China's suggestion that "the line of actual control" should be accepted was not acceptable to India. The Chinese proposal that each side should withdraw its forces by 20 kilometers "suffers from the serious defect that it leaves the aggressor who altered the *status quo* by unilateral action over the last few years in possession of the fruits of his aggression. This could hardly create that climate of confidence and goodwill—which is an essential prerequisite for fruitful discussions." India's Note regretted the threat of force indicated in the Chinese Note.

The Chinese sent a Note on Oct 3. This Note asked the Govt. of India to send a representative to Peking on Oct. 15 to begin discussions on the border dispute, but it had laid down the precondition that the proposed talks should cover not only the Western sector but also the middle and eastern sectors of the Sino-Indian border. In other words, the Chinese are now questioning the *status quo* of the eastern sector of the boundary along McMahon Line on the basis of their latest act of aggression on the NEFA border. On the same day India sent a reply making it equally clear that India is also not prepared to extend the scope of the proposed preliminary talks to include the question of the *status quo* in the eastern sector.

To cover up the Chinese aggression in NEFA they have mentioned in their note that firing took place north of the boundary line though the established fact is that they crossed the recognised boundary near the trijunction of India, Bhutan and Tibet.

After ten days of lull on the NEFA border, the Chinese attacked an Indian post on the southern side of Thagla Ridge on 10th Oct. There was lull for some time after this clash. On Oct. 19, the Chinese tried to provoke a clash by throwing a hand-grenade at one of the Indian positions in the Dhola area south of the Thagla ridge. But there was no incident.

## LARGE-SCALE OFFENSIVE BY CHINESE

On October 20, the Chinese forces mounted a large-scale and pre-meditated offensive at several points on the NEFA and Ladakh borders and attacked Indian positions in both the eastern and western sectors in successive waves, supported by heavy mortars and medium machine-guns. The attack covered a 20-mile front from Dhola to Khinzemane in the Thagla ridge area. The Dhola and Khinzemane posts fell to the Chinese. Simultaneously they attacked the forward Indian posts in the Chip Chap valley in the northern Ladakh and two of these posts fell.

They advanced further south of Namkha Chu River in the NEFA area on Oct. 21. Two more posts fell in the Chip Chap Valley.

On Oct. 23, the Chinese forces crossed the Bomdi La Pass, 12 miles east of Thagla Ridge. To the south they reached Brokenthang and Zamithang. In four days they advanced to a depth of about 8 miles. On Oct. 24, they captured Lumpu, 10 miles south of McMahon Line.

The Chinese occupied Tawang on Oct. 25 after Indians fought bitterly and evacuated on the previous evening. After capturing Tawang, they launched a heavy attack on Oct. 26, at the other end of the McMahon Line to occupy Walong in the Lohit Division near the Burmese border. In the Tawang area the Chinese reached Jang, about five miles south on the route to Bomdila and Tezpur. In the Ladakh area there has been no change in the situation since Oct. 25. The Chinese had thrown more than 30,000 troops into the invasion of NEFA upto Oct. 26, 1962.

On October 24, 1962, China put forward a three-point "peace" proposal. According to this, both parties should respect the 'line of actual control' between the two sides along the entire India–China border and the armed forces of each side should withdraw 20 kilometres (12½ miles) from this line and disengage. The Chinese Prime Minister clarified the 'line of actual control' as "basically still the line of actual control as existed between the Chinese and the Indian sides on November 7, 1959."

On October 26, 1962, a state of emergency in the country was declared by the President in a proclamation issued in New Delhi.

The Prime Minister of India rejected the Chinese proposal on 27th Oct. 1962 and urged the restoration of the position as obtaining prior to Sept. 8, 1962 before China's latest aggression, as a preliminary first step to any peaceful settlement.

Between the line separating the two forces, immediately prior to Sept. 8, 1962 and the fictitious 'line of actual control' on Nov. 7, 1959, as defined by China, there is a difference of 2,500 square miles of Indian territory which China has occupied as a result of her recent massive attack. Hence the acceptance of the Chinese proposal will give China the fruits of her recent aggression and place her in an advantageous and dominating position for further aggression in future. India, therefore, rightly rejected China's three-point proposal. On October 27, the Chinese troops attacked the Indian border posts in Damchok area in Ladakh. Chang La Pass and Jara La fell to the Chinese.

The following is a chronological review of leading events in India–China relations from October 30, 1962 :

30 *October :* India told the U.N. General Assembly that if Communist China really desired a peaceful settlement of the border issue, it should accept India's proposal and restore the *status quo* as it obtained prior to its former aggression which started on September 8, 1962.

1 *November :* Government of India took up the question of Indian prisoners of war with International and Indian Red Cross Organisations.

2 *November :* China rejected the four-point proposal made by President Nasser for the settlement of the Sino-Indian border conflict.

3 *November :* Indian troops retook three hamlets between Jang and Tawang in NEFA.

4 *November :* Mr. Chou En-lai rejected Prime Minister Nehru's peace proposal and reiterated that his three-point proposal should be accepted by India.

5 *November :* India announced the planned withdrawal by Indian troops from Daulat Beg Oldi in Ladakh. The Chinese are in occupation of practically the entire area claimed by them in Ladakh and even of one or two places beyond the 1960 claim line.

7 *November :* Indian troops repulsed Chinese attack near Walong.

9 *November :* Chinese shelled Indian forces in Walong area and Indian forces shelled enemy positions in Jang area.

14 *November :* Indian troops launched an attack on a Chinese position north-west of Walong and raided a village held by Chinese near Jang.

15 *November :* Chinese launched a massive attack at several points in Walong area. This attack was described as the biggest after the first one in October.

16 *November :* Indian troops yielded some ground in the north and north-west of Walong. The Chinese occupied Walong an air strip on the outskirts of Walong.

17 *November :* Chinese shelled Chushul area and attacked two forward Indian posts east and south-east of Chushul.

The Indian troops withdrew 7 or 8 miles in Jang area and bitter fighting was in progress within a mile or two of Sela Pass in the Jang area.

18 *November :* A second Indian forward post in Chushul area fell to the enemy after severe fighting and heavy enemy casualties. Indian troops fell back in Sela and the Chinese cut the road from Sela to Bomdi La.

19 *November :* Bomdi La fell to the Chinese.

20 *November :* The Chinese Government announced cease-fire effective midnight on November 21 withdrawal beginning from December 1, to positions 20 kilometres behind the lines of actual control which existed on November 7, 1959 and intention to set up check posts manned by civil police on their line of actual control.

22 *November :* Prime Minister Nehru replied to Mr. Chou En-lai's letter of November 4, and reiterated that Chinese troops should withdraw to the position of September 8, 1962.

24 *November :* The Government of India sought clarification of several points in the Chinese Government's statement on cease-fire. President Nkrumah of Ghana made new proposals for solving Sino-Indian dispute.

China offered 'No war' pact with Pakistan.

25 *November :* An official spokesman of the External Affairs Ministry clarified that Chinese description of the line of actual control is not the same as that which existed on November 7, 1959.

Over 1,000 Indian troops returned from forward areas of NEFA.

26 *November :* An official spokesman of the External Affairs Ministry stated that the Chinese proposal in effect sought to retain effective control over large areas of Indian territory which the Chinese had seized by force after September 8, 1962.

The Chinese Government mounted a new diplomatic offensive in Afro-Asian capitals 'to sell their point of view' on Sino-Indian dispute.

27 *November :* An official spokesman of the External Affairs Ministry characterised the Chinese Government's account of events leading

e invasion of India as a "complete travesty cts." He described as baseless the Chinese ntion that the Sino-Indian boundary dispute a long-standing one.

ri A. K. Sen, Union Law Minister, left Delhi U.A.R. and Ghana to explain India's case.

*November :* An Indian Mission headed by Laxmi Menon, Minister of State for External rs, left for Burma, Ceylon and Cambodia xplain India's case.

*November :* The clarification issued by the ese of their original proposal made it clear they want to identify the November 7, line of actual control with the position now by its troops in Ladakh.

*November :* The Government of India d the Chinese Government to give more ise information about its cease-fire proposals.

*December :* The Chinese started their uni- al withdrawal as announced on November 962.

*December :* The Chinese Foreign Ministry vered a 5,000-word memorandum to Indian assy in Peking demanding a clear and ite reply to Chinese proposals on cease-fire.

*December :* Six-nation Colombo Conference ed at Colombo.

*December :* Colombo Conference concluded. f communique said Ceylon Prime Minister ld visit New Delhi and Peking to convey proposals.

*December :* Civil administration re-estab- ed in Bomdi La, Kameng Division in NEFA.

*December :* Civil administration at Darrang ng (Kameng Division of NEFA) resumed.

*December :* Official spokesman confirmed rts of Chinese military concentration in mbi valley (Sikkim border).

*December :* Civil administration resumed at long (Lohit Division) and at Machuka (Siang ision, NEFA).

*December :* Sino-Pak joint announcement order alignment between China and Pakistan- pied Kashmir.

*December :* China formally rejected India's and for restoration of September 8 position, cease-fire is not "stable."

*December :* Ceylon Prime Minister arrived China on peace mission.

*January* 1963 *:* Peking said China had given itive response' to Colombo proposals.

1–13 *January :* Colombo proposals dis- ed between Nehru and Mrs. Bandaranaike, Sabri of UAR and Kofi Asante Ofori-Atta of ana. Joint communique issued at the end of discussions. Indian decision held in abeyance Parliament considered the proposals.

## COLOMBO CONFERENCE

fter individual countries like Ghana, Tanga- ka* and the United Arab Republic had failed heir efforts to persuade China to accept their pective proposals for a settlement of the o-Indian conflict, opinion among the Afro- an nations crystallized in favour of holding onference of non-aligned nations to promote ct negotiations between India and China. ntually, at the invitation of Mrs. Sirimavo ndaranaike, Prime Minister of Ceylon, a ference of representatives of six non-aligned ions was held in Colombo from December 10 12, 1962. The six nations were: Ceylon, A.R., Indonesia, Cambodia, Ghana and Burma.

n her opening speech, Mrs. Bandaranaike d that the purpose of the Conference was to lve "an equitable and just basis on which h sides can be persuaded to accept cease-fire angement as a preliminary to settling down the larger task of arriving at a solution of the der dispute itself. . . . We might also suggest at, in our opinion, is an equitable basis for a se-fire line."

### COLOMBO PROPOSALS

"1. The Conference considers that the existing *facto* cease fire period is a good starting point a peaceful settlement of the Indian–Chinese nflict.

"2. (*a*) With regard to the Western Sector, the Conference would like to make an appeal to the Chinese Government to carry out their 20 kilometres withdrawal of their military posts as has been proposed in the letters of Prime Minister Chou En-lai to Prime Minister Nehru on November 21 and November 28, 1962.

(*b*) The Conference would make an appeal to the Indian Government to keep their existing military position.

(*c*) Pending a final solution of the border dispute, the area vacated by the Chinese military withdrawals will be a demilitarised zone to be administered by civilian posts of both sides to be agreed upon, without prejudice to the rights of the previous presence of both India and China in that area.

"3. With regard to the Eastern Sector, the Conference considers that the line of actual control in the areas recognised by both the Governments could serve as a cease fire line to their respective positions. Remaining areas in this sector can be settled in their future discussion.

"4. With regard to the problems of the Middle Sector, the Conference suggests that they will be solved by peaceful means, without resorting to force.

"5. The Conference believes that these proposals, which could help in consolidating the cease fire, once implemented, should pave the way for discussions between representatives of both parties for the purpose of solving problems entailed in the cease fire position.

"6. This Conference would like to make it clear that a positive response for the proposed appeal will not prejudice the position of either of the two Governments as regards its conception of the final alignment of the boundaries."

### Clarifications

On a request from the Government of India, the Ceylon Prime Minister, Mrs. Bandaranaike, Mr. Ali Sabry of the U.A.R. and Mr. Ofori Atta of Ghana gave clarifications of paragraphs two, three and four of the Colombo proposals during their negotiations in New Delhi from January 10 to 15, 1963. The clarifications were also conveyed to the Chniese Government by the Ceylon Premier. Following is the text of the clarifications:

*Western Sector* (Para 2 of the proposals).

(*i*) The withdrawal of Chinese forces proposed by the Colombo Conference will be 20 kilometres as proposed by Prime Minister Chou En-lai to Prime Minister Nehru in the statement of the Chinese Government dated 21st November and in Prime Minister Chou En-lai's letter of 28th November 1962, *i.e.*, from the line of actual control between the two sides as of November 7, 1959, as defined in Maps III and V circulated by the Government of China.

(*ii*) The existing military posts which the forces of the Government of India will keep to will be on and up to the line indicated in (*i*) above.

(*iii*) The demilitarised zone of 20 kilometres created by Chinese military withdrawals will be administered by civilian posts of both sides. This is a substantive part of the Colombo Conference proposals. It is as to the location, the number of posts and their composition that there has to be an agreement between the two Governments of India and China.

*Eastern Sector* (Para 3 of the proposals).

The Indian forces can, in accordance with the Colombo Conference proposals, move right up to the south of the line of actual control, *i.e.*, the McMahon Line, except for the two areas on which there is difference of opinion between the Governments of India and China. The Chinese forces similarly can move right up to the north of the McMahon Line except for these two areas. The two areas referred to as the remaining areas in the Colombo Conference proposals, arrangements in regard to which are to be settled between the Governments of India and China according to the Colombo Conference proposals, are Che Dong or the Thagla ridge area and the Longju area, in which cases there is a difference of opinion as to the line of actual control between the two Governments.

*Middle Sector* (Para 4 of the proposals).

The Colombo Conference desires that the *status quo* in this sector should be maintained and neither side should do anything to disturb the *status quo*.

### India Accepts

On Jan. 24, 1963, Mr. Nehru announced in the Lok Sabha that India would accept *in toto* the Colombo proposals as clarified by the delegations of Ceylon, the United Arab Republic and Ghana during their talks with the Union Govt. in Delhi on Jan. 12 and 13, 1963. The proposals were thoroughly discussed in Parliament. Since they were on the whole in conformity with her own stand on the issues involved and as proof of her sincere desire to co-operate with the Colombo Conference and make its initiative a success, the Lok Sabha approved the Govt. policy on the proposals. India accepted the proposals *in toto* and the Prime Minister of Ceylon was informed accordingly.

### China Rejects

The Chinese Government, however, have rejected the essential features of the Colombo proposals. They are opposed to the proposal that the demilitarised area in the Western Sector should have civilian posts of both India and China. They insist that they alone should have the right to re-establish the seven posts that they claim they maintained in this area prior to Sept. 7, 1962 and that there should be no Indian presence of any kind in this demilitarized zone. And, in the Eastern Sector, contrary to the Colombo proposals, they insist that Indian troops should not move up to the frontier. By taking up this attitude, they are clearly flouting the Colombo Conference powers, and spurning their efforts to promote a settlement.

By January 28, 1963, Siang Division (NEFA) was reported free from Chinese occupation. Chinese forces had pulled out of Khinzemane (Kameng Division) and Kibitoo (Lohit Division). On Feb. 1, 1963, the Chinese were reported to have vacated "disputed areas" in NEFA like Thagla and Longju.

The Prime Minister said in Rajya Sabha on Feb. 17, 1963 that Colombo proposals fail unless China accepts them *in toto*. The Congress Working Committee approved on Feb. 20, 1963 the Government stand on Colombo proposals.

On March 1, 1963 the Chinese Defence Ministry claimed to have completed withdrawal to 20 kilometers behind November 7, 1959 line. They proposed to set up 26 check posts—16 in the eastern sector, 3 in the middle sector and 7 in the western sector.

Mr. Nehru told Chou En-lai that talks can be held only if China accepts the Colombo Proposals.

In a note of May 11, 1963, the Government of India protested to China against provocative troop activities in the Spanggur area of Ladakh which belie the Chinese claim of withdrawing 20 kilometres east of the so-called line of actual control. The Chinese have been reinforcing their forward positions with fresh troop concentrations in Ladakh and NEFA sectors. It was reported in May that the Chinese were secretly maintaining pockets of troops in the so-called demilitarised zones both in Ladakh and NEFA.

China rejected India's protest note of May 11 and maintained that China was "within its right to enter the 20-kilometre" demilitarised zone. By June 1963, the Chinese had set up 26 civilian posts within the 20 kilometre zone on their side of the "line of actual control" along the Sino-Indian border. Six of the above 26 civilian posts are in the Indian territory in Ladakh, occupied by China after its massive invasion in November 1962.

* Now called Tanzania.

A fresh aggression was committed by China by putting up a check-post in the vicinity of Depsang La, south-east of Daulat Beg Oldi in Ladakh. As part of their anti-Indian activities the Chinese set up on July 5, 1963 a new post for offensive against India over the Lha Pass on the McMahon Line in the Subansiri Division of NEFA. Chinese build-up was reportedly taking place in the eastern sector of India-China border, while Pakistan had rushed reinforcements to East Pakistan (July 25, 1963). According to official information on July 26, 1963, the Chinese had already violated the 20-kilometre demilitarized zone at several places. There were indications that the Chinese might attempt to reoccupy the so-called demilitarized zone in Ladakh and NEFA. On July 27, it was reported that on the northern border the Chinese troops had moved down from their battle stations to forward striking positions. In spite of these, India was not going to take any offensive measures.

Cases of Chinese air violations of Indian air space were now more frequent than 1962. Ten air violations were made between May and Aug. 1963.

The Chinese official spokesman said that China would not launch a new attack against India if India does not cross the "line of actual control of November 7, 1959". Chinese troop concentration on the Indian border had been brought to the notice of the Colombo Powers.

## DEFENCE MINISTER'S STATEMENT ON SEPTEMBER 9, 1963

The Defence Minister in his statement of Sept. 9, 1963, stated that there has not only been appreciable increase in the total quantum of Chinese forces in Tibet, all along our northern borders, but the bulk of these forces is concentrated at strategic points closer to our borders than they have ever done before. There has also been a steady and constant build-up of war-like stores and maintenance supplies and considerable activity by way of construction of barracks, gun emplacements, storage dumps, roads and airfields near our borders. It is difficult to know the Chinese intentions, but this concentration of men and material may well be for use as a spring-board for another aggressive action against India.

India has repeatedly made it clear that she has no aggressive intentions against any country and that she wants to settle differences with her neighbours in a peaceful manner. So far as our border differences with China are concerned, we have, despite the crisis forced on us by Chinese aggression and massive attacks last October/November, accepted the proposals made by the six non-aligned countries who met at Colombo as a basis for consolidation of the cease-fire so that on similar acceptance of these proposals by China, the proposals can be implemented on the ground and, in the atmosphere of peace thus restored, we can discuss the differences regarding the boundary and attempt to resolve the differences peacefully.

As the Prime Minister stated, we have also indicated to the Government of the People's Republic of China that we are prepared, in case our differences cannot be resolved by direct talks and discussions, to refer the differences for settlement to the International Court of Justice at The Hague or to mutually acceptable arbitration procedures in accordance with recognised international practice.

## CHINA'S BORDER AGREEMENT WITH OTHER COUNTRIES

China has so far concluded border agreements with Burma, Nepal, Outer Mongolia and Pakistan. All these agreements are a post-1959 feature. The manner of reaching these agreements and their timing lead strongly to the suspicion that these agreements have been concluded not out of any desire for peaceful settlement of disputes with neighbours, but as instruments in China's strategy of isolating India. It could not be without significance that China made serious moves for border agreements about the same time as she made her big territorial claims on India in September 1959.

Another noteworthy feature common to most of China's border agreements is the leisurely way China initially set about negotiating them until 1959-60, when the dispute with India came to a head. The pace of negotiations was markedly accelerated thereafter. The talks with Burma for a border pact were begun in 1956 and after dragging on for nearly four years, were concluded in January 1960, about four months after China openly laid claim to large Indian territory. With Nepal, the Sino-Nepalese Boundary Committee was set up on August 11, 1960. On October 5, 1961 the boundary treaty was concluded.

The same was the case in respect of the so-called Sino-Pakistan "border treaty". The Pakistan Government had sent the Chinese their first note on this subject on March 28, 1961. The Chinese authorities replied to this after nearly a year, that is, early in February 1962. On May 3, 1962, the two Governments announced that they had agreed to conduct negotiations. An "agreement in principle" was announced by the two Governments on December 26, 1962 on the eve of the first round of Indo-Pak talks to discuss Kashmir and other related matters. The agreement itself was signed on March 2, 1963 in Peking.

China's border pacts are but another phase of her aggressive diplomacy. The aim of this strategy is to isolate and weaken India, so that China can lord it over the smaller nations of Asia.

## PRESENT POSITION

The Government of India having received definite information that the Chinese troops in Aksai Chin area were setting up stone cairns in the region to mark the so-called Chinese "line of actual control", sent a protest note to the Chinese Government on February 26, 1964. The note said: "Under the guise of accepting the Colombo proposals "in principle", the Chinese Government have, in open and wilful contravention of the same proposals, established 7 posts in the Western Sector, 6 of which are located in the 20 kilometre demilitarised zone. As indicated in the Government of India's note dated the 6th July, 1963, these posts which China claims to be only civilian posts are largely the creation of the massive Chinese aggression on India in October/November, 1962. It is obvious that what the Chinese Government seek to do is to impose an unilateral settlement on India in the terms of the Chinese declaration of 24th October and 21st November, 1962.

"This illegal activity of attempting to mark what China calls the "line of actual control" by setting up stone cairns is a clear proof of the Chinese intention to consolidate their illegal occupation of Indian territory in the Western Sector, which they have overrun by force of arms. This action of the Chinese Government is in direct contradiction to China's acceptance in "principle" of the Colombo proposals.

On April 13, 1964 Prime Minister Nehru speaking in Lok Sabha stated that Mrs. Bandaranaike had asked in one of her recent letters that if the Chinese vacated all their posts in the demilitarised area in Ladakh, India would consider that as fulfilment of the Colombo proposals. This was first mentioned to him by two representatives of Lord Russel who visited him during the summer of 1963. He had answered to them that India would be prepared to consider the proposal if China made it. Since then no such proposal had been made by China and so the situation remained the same as before.

In the Colombo proposals it was stated that in this demilitarised area of Ladakh both parties should have by agreement an equal number of posts. It was possible to consider that this was satisfied if both parties by agreement decided to have no posts at all in this area.

Prime Minister Nehru speaking at the A.I.C.C. session at Bombay on May 17, 1964, said that India was always prepared to consider a direct offer from China for vacating her posts in Ladakh. He, however, made it clear that India stuck to the Colombo proposals as the basis for negotiations with China.

China, Shri Nehru said, had not fully accepted the Colombo proposals. In two of these matters the Chinese had their own reservations. There was a suggestion for discussion on the demilitarisation of the 12½ mile zone in Ladakh.

While India was prepared to discuss that suggestion there was no move on the part of China in that matter so far, and the *status quo* continued.

Shri Lal Bahadur Shastri, made a statement in Lok Sabha on June 1, 1964, regarding the reported news about the Chinese rejection of the proposal regarding talks on the basis of no posts in the demilitarised zone. After recalling the Late Prime Minister Shri Nehru's statement on the subject in Lok Sabha on April 13, 1964, in the course of his reply to the demand for grants, Shri Lal Bahadur Shastri said: Our position on this question remains unchanged. We have declared our willingness to solve the border question through peaceful negotiations. We have demonstrated this willingness by accepting, without reservations, the recommendations of the Colombo Conference.

Mr. Swaran Singh, Minister for External Affairs, Govt. of India said at a press conference on Aug. 21 that the withdrawal of the posts from the demilitarised zone in Ladakh by the Chinese could be considered a substantial fulfilment of the Colombo proposals, but some other proposals outlined in Colombo proposals would have to be done before real negotiations could start. In other words the External Affairs Minister had meant that China should accept the Colombo proposals *in toto*.

In a statement published on Aug. 30, 1964 the newspapers in Peking, the official New China News Agency said that there is no reason whatsoever for the Indian Government to ask China to withdraw its civilian posts" from the demilitarised zone in Ladakh. This was made as a sequel to Mr. Swaran Singh's press conference, on August 21, 1964.

Peking's response to our conciliatory gestures has always been negative and uncompromising. On October 8, 1964, at the time of the Non-aligned Nations' Conference at Cairo, the Chinese Government issued an official statement rejecting Mrs. Bandarenaike's suggestion that negotiations be held between the two Governments on the basis of there being no posts on either side in the demilitarized zone. Thus China has obstructed the policy of a peaceful settlement of the border problem and also has continued to build up its military strength along the Indian border, which was heavier at the end of 1964 than in the autumn of 1962. On Dec. 24, 1964, the late Prime Minister Mr. Lal Bahadur Shastri made it clear in the Lok Sabha that India could not go beyond the Colombo proposals and any talks with China would have to take place on the basis of these proposals. He, however, added that there was no question of any negotiations with that country now.

On December 31, 1964, the Government of India lodged a vehement protest against provocative intrusions by Chinese troops in Sikkim.

The following are some of the important events relating to Sino-Indian relations, which took place up to the time of going to press: Jan. 13, 1965: The Government of India rejects allegations that Indian planes intruded into Chinese territory in December 1964. Jan. 21: The Government accuse China of aggressive designs against Sikkim. Feb. 15: India again repudiates China's claim that the so-called line of "actual control" in the western sector of the Sino-Indian boundary has "long existed" and that it has "always exercised effective jurisdiction over the areas up to this line on its side." In a note handed over to the Chinese Embassy on 12th Feb. the Ministry of External Affairs reiterated that this line of actual control was created as a result of Chinese aggression and was the farthest line of advance reached by the Chinese forces during their massive military operations in Ladakh in the autumn of 1962.

In a note handed over to the Chinese Embassy in New Delhi on Feb. 10, 1965, the Ministry of External Affairs referred to the Peking announcement about the completion of the work of the so-called joint China-Pakistan boundary were contrary to the Bandung principles to which "China pays vociferous lip service."

March 15, 1965 : The Chinese have constructed a net-work of roads in the area bordering the Ladakh territory and have linked by feeder roads all the seven military posts which they had established in the occupied area of Ladakh.

March 26, 1965 : Official circles describe the boundary agreement between China and Pakistan as one of the "most opportunistic deals in Asian history." The new Prime Minister of Ceylon, Senanayake, backs India's stand in the Sino-Indian dispute. The territory referred to in the so-called Sino-Pakistan boundary agreement protocol signed on March 26, was part of India's Jammu and Kashmir State where the occupying forces of Pakistan had entrenched themselves in defiance of international law.

April 25, 1965 : Heavy military build-up all along the NEFA border is continuing according to official sources.

May 14, 1965 : The Chinese troops are trying to intimidate Indian patrols near the Mana Pass, one of the border passes between Uttar Pradesh and Tibet.

During the Indo-Pak conflict which started on Aug. 14, 1965 China started creating trouble in the frontier. China put up several demonstrations.

September 8, 1965 : China delivers a threatening Note to the Indian Government demanding that India should dismantle all "military structures" it has built beyond or on the China-Sikkim border, withdraw its armed forces and "stop all acts of aggression and provocation against China in the Western, middle and eastern sectors of the Sino-Indian border." Otherwise, the Note adds ominously "India must bear all responsibility, for all the consequences arising therefrom".

September 17, 1965 : China tells India in a Note to dismantle all military installations on or over the China-Sikkim boundary within three days or face "grave consequences". The Note is handed to the Indian Charge D'Affaires in Peking by the Chinese Foreign Ministry. The Note severely condemns alleged Indian troops' "incursions" and "provocations" across the Sino-Indian boundary and the China-Sikkim boundary.

September 17 : India agrees to a joint Sino-Indian inspection of those points of the Sikkim-Tibet border across which Indian troops are alleged to have set up military structures in Tibetan territory.

A fitting reply to the Chinese ultimatum is given by the Prime Minister by warning Peking that "if we are attacked, we shall fight for our freedom with grim determination".

September 18 : Soon after Peking's ultimatum, Chinese troops start moving forward in the Tibetan side to places nearer the Indian border in the Demchok area of Ladakh and the Sikkim region which are about 800 miles apart.

September 19 : Communist China extends the deadline of her ultimatum to the midnight on Wednesday, 22nd September, Peking also rejects India's proposal for joint inspection of the installations.

September 20 : The Chinese troops fire a few provocative shots at a number of places on the Ladakh border and in the Sikkim region, but the Indian troops do not return the fire.

September 21 : Indian and Chinese troops exchange fire across the Sikkim-Tibet border near the Nathu La Pass at 2 a.m. There are no casualties on either side.

India categorically denies the allegations made by China in two Notes dated 19th and 20th September that Indian personnel have intruded into Chinese territory in Ladakh and across the Sikkim border.

At 11 a.m. 60 Chinese soldiers cross the Lipu Leh Pass, on the U.P.-Tibet border, and enter Indian territory.

September 23 : China formally acknowledges that there are now no Indian troops on the Chinese side of the border with Sikkim, where the Indians were alleged to have established military installations. China tells India that it has "Yet to return the Chinese border inhabitants and the cattle seized".

The Chinese Forces pull back about 300 yards from the Nathu La, but they are still entrenched on the northern and southern shoulders of the strategic gateway from the Chumbi Valley into Sikkim. They are still in occupation of two positions on the Indian side across the Dengchuli La and Nathu La.

September 25 : Official reports say that the Chinese troops have withdrawn from all positions close to the Sikkim-Tibet border. Some of the troops which had taken up positions on either side of the Nathu La Pass till yesterday have also pulled back.

September 28 : Chinese military activity continues in the Ladakh and Sikkim border regions.

October 2 : Twenty Chinese soldiers cross the Yak La Pass on the Sikkim-Tibet border in the morning, surround a three-man Indian observation post well within Indian territory and fire on it.

October 9 : Three armed Chinese soldiers intrude into Indian territory across the Lipu Leh Pass in the middle sector of the northern boundary.

November 13 : About 70 to 100 Chinese troops open intensive fire on two of the Indian observation posts in the Dongchuli La area on the Sikkim border in the morning.

The Chinese troops withdraw to their side during the night after a heavy exchange of fire lasting the whole day. These troops have been indulging in repeated provocations.

November 15 : China has virtually re-militarised the 20 k.m. demilitarised zone in Ladakh, thus clearly violating the recommendation 2 (A) of the Colombo proposals.

November 19 : Fifty Chinese soldiers intrude into north Sikkim across Bomcho La at noon and stealthily march about a mile. An hour later they withdraw to the Tibetan side on being chased by the Indian patrol party.

Chinese troops intrude into undisputed Indian territory in the Daulat Beg Oldi area of Ladakh.

November 21 : China violates the international border.

November 22 : India sends two protest Notes against the Chinese intrusion.

November 25 : Forty Chinese soldiers cross into North Sikkim territory. North-West of Bomcho and withdraw only after being fired by an Indian patrol.

November 30 : The Defence Minister Mr. Y. B. Chavan informs the Lok Sabha that China has increased the strength of its troops all along the northern border which constitute a "real and serious" threat to India.

December 1 : About a hundred Chinese troops cross over to the southern bank of the Namkachu River south of the Thagla ridge, the international boundary near the trijunction of India, Bhutan and Tibet, and take up positions there.

December 6 : The Defence Minister informs the Lok Sabha that the Chinese troops who had crossed over to the southern bank of the Namkachu River, south of the Thagla ridge in NEFA, have withdrawn from the area.

December 11 : Nearly 300 Chinese soldiers have been concentrated for the past several days in an area of the 20-kilometre demilitarised zone in Ladakh which is near the Indian civilian checkpost at Demchok. These troops have been carrying out provocative exercises in the demilitarised zone.

December 12 : About 250 to 300 Chinese troops intrude into an area three miles north-west of Sese La and fire at an Indian patrol. The fire is returned.

The Minister for External Affairs Mr. Swaran Singh declared at Chandigarh on Dec. 18, that in spite of frequent intrusions and provocations by China, India was prepared to have direct talks with China on the basis of the suggestions put forward by the Colombo Powers.

Chinese military personnel who have intensified their provocative activity on the Sikkim-Tibet border in recent months crossed into Sikkim territory thrice on December 25 and 26. In a strong protest Note handed to the Chinese Embassy in New Delhi on Dec. 31, 1965 the Union Government said that the violations of its well-recognised border "cannot be anything but calculated aggressive moves by China."

China has always been trying to keep tension in the northern borders by frequent threats of violence and also by encouraging Pakistan in her conflict with India. The Chinese are not at all happy at the Tashkent agreement which is a step forward in bringing Pakistan and India closer.

# INDO-PAKISTAN RELATIONS

IN a way the cease-fire line in Kashmir has always been disturbed. For instance, in 1963 there were 448 cease-fire violations, in 1964 there were 1,522 and in the first seven months of 1965 about 1,800. In the Pakistan-occupied part of Kashmir the so-called Mujahids and Razakars have been constantly under training with a view to activising the cease-fire line or for possible infiltration whenever the Pakistan authorities thought that the times were propitious, or there was political gain to be had by stirring up trouble in Kashmir. It is usual to regard the action in Kutch in April 1965 as a sort of curtain-raiser or a probing operation. There was also an attempt to cut the Srinagar-Leh road which is essential to India's communications to Ladakh. The Indian Army retorted by pushing forward to occupy two Pakistani posts at Kargil, which, however, were later evacuated on a U.N. assurance that the road would not be allowed to be cut again.

But detailed preparations for some kind of assault on Indian territory went forward, as is revealed in captured documents from Pakistan armed personnel or the direct evidence of prisoners of war.

Conventionally, August 5, 1965 is cited as the date on which armed infiltration into Kashmir began. But as a matter of fact small-scale infiltration probably preceded this date. It is possible 'Operation Infiltration' was formally launched on August 1, when the cease-fire line was crossed at several points through woods and over hills. For instance, on August 4, the presence of suspicious uniformed armed men was reported to the police by a man looking after grazing cattle in the Uri-Poonch area. Another Kashmiri saw armed strangers near Galuthi in the Mendhar sector and reported his discovery to the authorities. The Government in Srinagar was immediately informed, and the Army instructed to keep a careful watch. That very day regular clashes were reported with armed intruders. The U.N. Secretary-General's report, as we know, mentions August 5 — this is based on the findings made by General Robert Nimmo, Chief U.N. Observer — as the date for major

large-scale crossings of the cease-fire line. These men were well armed and carried stores and ammunition, and were in considerable strength. The origin of the arms they carried was not in doubt; they were all from Pakistan ordnance depots, and many of the men were from the regular army, and the rest armed civilians (mujahids). The U.N. report put the strength of the infiltrators at this time August 7-8 around 1,000. It is clear there must have been many more; many kept crossing and re-crossing, while fresh parties continued to pour into Kashmir. The Pakistan Army on the cease-fire line actively helped by maintaining a barrage of fire with the double object of keeping the Indian Army engaged and diverting the Indian Army's attention from the infiltrators. But the Army and the police had been warned in advance so that not only were vital installations put under special guard but thoroughgoing combing operations were set on foot.

The infiltration tactics did not go as planned. In the first place, the authorities had been alerted. Secondly, there was no co-operation whatever from the local inhabitants on which Pakistan had counted. The Pakistani assumption was that Kashmir was simmering with revolt, and all that was needed was some encouragement from an outside power. The assumption was proved wrong. Not only was there no popular revolt, but the mass of the people were actively hostile, thus rendering mopping up operations by the authorities very much easier.

The raiders' plans had however been well laid. The idea was to converge on the valley from a number of assembly points, enter Srinagar unnoticed when the people celebrate an impending feast and join the protest demonstration planned for August 9, the anniversary of Sheikh Abdullah's arrest. The disturbances were to look like a popular revolt, when vital centres like the air field and the radio station in Srinagar were to be captured, while other armed parties cut the Jammu-Srinagar road, thus isolating the entire Indian force in Srinagar. Kashmir was to 'liberate' itself from inside; no blame would then attach to Pakistan. That was the strategy. A shadow 'Government' had already been thought of consisting partly of men in Pakistani held Kashmir and partly of hostile elements in Kashmir itself such as the Action committee and the Plebiscite Front. On its formation, such a Government was to ask for recognition and of military support. At this stage regular Pakistani units were to march in to take over. These designs, as we know, were wholly defeated by the alertness of the security forces and the hostility of the people who had no desire to come under Pakistani rule.

But scattered bands of intruders remained to do sporadic damage — there were attacks in isolated bridges and police pickets; some of them managed to reach the outskirts of Srinagar and set fire to a suburb (Aug. 14). One or two small places (Mandi, Thana Mandi) were also captured by the infiltrators, and held for a short while. Aggression on a far more serious scale started, however, on Aug. 14, when Pakistani regular armed forces in battalion strength crossed the cease-fire line in the Chhamb area and pushed forward nearly a mile. This was full-scale invasion of the traditional type, preceded by heavy artillery and mortar fire. On the following day August 15, the Pakistan Army crossed the international boundary dividing Pakistan and the Jammu and Kashmir territory of India and raided the village of Rajpur five miles inside Indian territory. This made the aggression plain and blatant. Thus either in the Kargil assault or the later Chhamb invasion, it was Pakistan that started aggressive action according to U.N. evidence itself. The Indian reply was first to occupy three Kargil posts (Aug. 15) in order to protect the Srinagar-Leh road.

Meanwhile attacks by regular Pakistani forces continued across the cease-fire line — Keran (Aug. 16), Uri (Aug. 16), Chhamb (Aug. 17 and 18), Mendhar (Aug. 21, 22, 23, 26). They were all repulsed. Then the Pakistani Air Force also intervened to drop supplies to isolated parties of infiltrators, and make air attacks in the Naushera and Gurais sectors.

The back of the infiltrators had meanwhile been broken, but more could come in and more did. To check any further intrusion the Indian Army moved across the cease-fire line in the Tithwal sector and captured three posts, and then pushed forward towards the Kishenganga river, thus blocking one possible point of entry. Then the Army took similar action to close a second route, which lies through the Haji Pir Pass and generally the Uri-Poonch bulge (Aug. 27-28). The bulge itself was straightened out when two columns which had advanced from Uri and Poonch met.

All of Pakistan's plans had thus gone awry. The infiltrators were disintegrating, while the escape routes had also been sealed. There could be no further infiltration on a big scale, while the Indian Army was astride dominating positions.

It was in the morning of September 1 that Pakistan launched its well prepared offensive in the Chhamb sector — the so-called 'Operation Grandslam'. The U.N. military observer in the area had warned the Indian authorities of what was coming. Probing operations in full strength, as we mentioned, had already been conducted (Aug. 14, 16, 17, 18). The attack began with a concentrated artillery barrage near Chhamb village. Then there were three massed infantry attacks in the neighbourhood, all of which were repulsed. At this stage Pakistan threw Patton tanks into the action, supported by an infantry of brigade strength. Faced with the heavy armour which Pakistan deployed the Indian Army undertook certain planned withdrawals. The Air Force was summoned to harass the advancing invaders; in the process 18 Pattons were put out of action. The Pakistan Air Force now joined in with its Sabre Jets. After a series of encounters between Gnats and Sabre Jets the I.A.F. came out on top. The main Pakistan Army, however, continued its advance towards Akhnoor. The plan obviously was to capture Akhnoor, and then by another lightning thrust also attack Jammu, and thus cut off the entire Indian Army in Kashmir including Ladakh and force its surrender. On this ground of Pakistan's choosing the Indian Army was at a disadvantage. If this could, therefore, be achieved at one rapid stroke, Pakistan calculated there would be dismay, despondency and confusion in Delhi, and the will to deliver a counter-blow would be smothered. If India did show any disposition to try to break through, then Pakistan had prepared counter thrusts to prevent such a move — one possibly across Dera Nanak and Gurdaspur aimed at the strategic junction of Pathankot, and another further south from Kasur to Beas and Amritsar towards the Grand Trunk Road from Delhi.

At this stage the U.N. came into the picture, when U Thant appealed for a cease-fire and presented a report on the Kashmir events to the Security Council. The Security Council made its first call for a cease-fire on September 4, Pakistan refused a cease-fire downright, while India agreed on condition that Pakistan would pull out from Chhamb, withdraw infiltrators and there was also some assurance that such aggression would not be repeated.

The following is the text of the Security Council resolution, jointly submitted by Bolivia, Ivory Coast, Jordan, Malaysia, Netherlands and Uruguay and adopted unanimously:

> "The Security Council,
>
> "Noting the report of the Secretary-General (S/6651) dated 3 September 1965,
>
> "Having heard the statements of the Representatives of India and Pakistan,
>
> "Concerned at the deteriorating situation along with the cease-fire line in Kashmir,
>
> "1. Calls upon the Governments of India and Pakistan to take forthwith all steps for an immediate cease-fire;
>
> "2. Calls upon the two Governments to respect the cease-fire line and have all armed personnel of each party withdrawn to its own side of the line;
>
> "3. Calls upon the two Governments to co-operate fully with the UNMOGIP in its task of supervising the observance of the cease-fire;
>
> "4. Requests the Secretary-General to report to the Council within three days on the implementation of the resolutions".

It was at this stage that the Chinese made their first diplomatic intervention. On September 3, the Pakistan Ambassador had a meeting with Mr. Chou En-lai in Peking, and China declared that India was stirring up tension in Kashmir. The following day on September 4, Marshal Chen Yi, the Chinese Foreign Minister came post-haste to Karachi where there were further consultations. As the plot was being hatched India had to make certain momentous decision. The fate of the whole Indian Army in Kashmir was in danger; an armed invasion of India had already occurred. If India could not meet Pakistani aggression on Kashmir soil a counter-attack must be launched elsewhere. This would partly relieve pressure at Chhamb and would also disrupt a possible second attack on India in the Gurdaspur area. Accordingly the Indian Army crossed into Punjab in strength in the Lahore sector. This happened on September 6. The I.A.F. lent powerful air support by attacking a number of military targets. In the eyes of the West, however, this was the beginning of the war, and the basis of its initial condemnation of India.

The Indian attack spread over a thirty-mile front and was directed along three lines — from Wagah, Kalra and Khem Karan (Kasur). An attack further north at Dera Nanak led to the blowing up of the bridge across the Ravi by Pakistan, and this incidentally nullified the chances of a possible invasion.

When the Indian forces reached the Ravi and the now famous Icchogil canal, there were naturally fierce counter attacks, with the battle line swaying to and fro. But the objectives had been achieved. The pressure at Akhnoor had eased, and Pakistan withdrew a large part of the armour to defend her homeland at Sialkot. Then there was news of the first air-dropping of paratroopers by Pakistan in the neighbourhood of three key airfields — Pathankot, Adampur and Halwara, three place-names which were constantly in the news throughout the period of the struggle. Paratroops in order to be effective have to be well-trained and in perfect trim — this was obviously beyond Pakistan's primitive resources. The fate of the first batch of paratroopers proved this, for they were quickly rounded up, most of them being in very poor shape.

The course of the war may now be sketched in its broad outline. It was in essence a matter of thrusts and counter-thrusts in a series of lines across the frontier from Sialkot in the Punjab to Gadra in Rajasthan, the main object of which was to ease off enemy pressure elsewhere and prevent a possible offensive. The air war started with penetrations fairly deep inside one another's territory with such names as Akwal, Peshawar, Kohat, Risalwala, Chaklala and, of course, Sargodha in Pakistan and Pathan-Adampur, Halwara, Jodhpur, Jammu, Srinagar in India appearing constantly in the papers.

Going back to ground warfare, in the Lahore sector the fighting finally settled down with the Indian Army firmly in control of the entire length of the Ichhogil canal and of fortified areas of Dograi and Burki. Some of the fiercest battles were witnessed in Kasur-Khem Karan area where a major Pakistan offensive appeared to be developing and the Indian forces had for a time to give ground, but that eventually held the onward drive. It was in one of the infantry actions here against a Pakistan armed brigade that Company Quarter Master Havlidar Abdul Hamid knocked out three Patton tanks and disabled a fourth before he himself was killed.

It was also in the final Pakistan attack in this area that the G.O.C. Pakistan 1st Armoured division, Major-General Nasir Ahmed Khan and the artillery commander, Brigadier A.R. Shamin were killed. It is reckoned that in this one offensive Pakistan lost 97 tanks and two lieutenant-colonels, six majors, six other officers and several other ranks were captured. It was one of the most impressive victories of the war. The biggest of the tank battles were, however fought in the Sialkot area, when Indian armoured columns marching towards Phillora clashed with defending Pakistani units which made a counter-attack. The fighting lasted full 15 days with the enemy committing a large force of Pattons, Shermans, Chaffes and tank destroyers. On one single day — September 11 — Pakistan lost 66 tanks against the Indian loss of only six. At the end of the war here, the Indian Army held a salient which at one end was only 4,000 yards from Sialkot.

The eastern region was largely unaffected, in spite of Pakistan's attempts to escalate the conflict. The Paskitan air force indulged in some scattered attacks ; there was also shelling of Indian border posts by Pakistani ground forces near Mughal Hat and Gitalda in Cooch Behar and Golakganj in Assam. The naval bombardment of Dwarka, where there were no military installations may also be mentioned.

An ominous development was the Chinese ultimatum issued on September 16 to the effect that certain military structures alleged to be on the Chinese side of the Tibetan border should be dismantled and some yaks and sheep alleged to have been stolen were to be returned. It was a patently cooked up charge for demonstration purposes. The first ultimatum of three days was extended to another three days and later withdrawn. The purpose of this might have been two fold — first to demonstrate China's solidarity with Pakistan, and secondly to compel the Great Powers to call a halt to the conflict by playing on their fears of involvement.

In the air though the I.A.F. cannot be said to have established complete mastery before the cease-fire came, it achieved a situation which was definitely in its favour. Several attempts made to draw the P.A.F. into battle had no success ; the P.A.F. simply refused to face up. Pakistan planes indulged in hit and run tactics, and added to poor marksmanship. All this resulted in indiscriminate bombing, even where this may not have been deliberately intended though cases of wanton attacks on civilians did occur in a number of places such as Amritsar or Ambala. Also with two exceptions Halwara (near Ludhiana) and Kalaikunda (near Calcutta) the attacks were delivered mostly by night. The Pakistan Air Force had the advantage of an effective radar net-work, widely dispersed bases from which to operate and a single-type multi-purpose fighter like F-86 Sabre and the B-57 Canberra bomber. Pakistan had also the supersonic F-104 Star-fighter but this had to be used for reconnaissance purposes because it could not operate effectively at low level at which most of the action in the air took place. The Indian anti-aircraft crew had also to work with less than modern equipment, but they acquitted themselves well in spite of the handicaps. All in all, the Air Force discharged its multifarious tasks such as reconnaissance, air defence, raids on enemy bases and support of ground operations extremely well. The superiority of I.A.F. in gunnery and flying skill was beyond question. The Gnat proved to be a great asset.

The U.N. was, of course, greatly concerned and the U.N. Secretary-General U Thant paid a visit to the sub-continent in pursuance of instructions from the Security Council to arrange a cease-fire. He visited Rawalpindi on September 9. and New Delhi on September 12. His appeal that hostilities should cease on September 14 was accepted by India but again rejected by Pakistan. He left on September 15 to report to the Security Council. At a meeting on September 20, the Security Council demanded that India and Pakistan should stop fighting by 12-30 p.m. I.S.T. September 22. The vote was 10 in favour, none against and one abstention, Jordan. The cease-fire was to be followed by a subsequent withdrawal of all armed personnel back to the positions held by them before August 5, 1965. It further requested the Secretary-General to provide the necessary assistance to ensure supervision of the cease-fire and withdrawal of all armed personnel, and called on all States to refrain from any action which might aggravate the situation in the area. The Council also decided to consider what steps should be taken to help towards a settlement of the political problem underlying the present conflict once the cease-fire had been achieved. The resolution was introduced by the Netherland's representative, Mr. J. G. de Beus.

**Security Council Resolution of 27 September 1965**

The following resolution was adopted unanimously by the Security Council at its meeting on 27 September 1965 :

The Security Council

Noting the reports of the Secretary-General (S/6710, ADD. 1 and 2),

Reaffirming its resolutions of 4, 6 and 20 September 1965 (S/RES/209, S/RES/210 and S/RES/211),

Expressing the grave concern of the Council that the cease fire agreed to unconditionally by the Governments of India and Pakistan is not holding,

Recalling that the cease fire demand in the Council's resolutions was unanimously endorsed by the Council and agreed to by the Governments of both India and Pakistan.

Demands that the parties urgently honour their commitments to the Council to observe the cease fire; and further.

Calls upon the parties promptly to withdraw all armed personnel as necessary steps in the full implementaton of the resolution of September 20.

The cease-fire, however, actually came into force at 3-30 a.m. on September 23.

What are the physical results of this 22-days long conflict ? One authoritative statement on this point was that of the Chiefs of Staff of the Indian Army and the Air Force, General J. N. Chaudhuri and Air Marshal Arjan Singh made at a press conference in New Delhi on September 24. Roughly the position was as follows :—

India was in occupation of nearly 700 square miles of enemy territory while Pakistan held only 210 square miles of Indian territory. Apart from the three Kargil posts, the Indian forces were occupying 20 square miles of enemy territory in the Tithwal sector, 200 square miles in the Uri-Poonch bulge, 180 square miles in the Sialkot region, 140 square miles in the Lahore-Kasur area, and about 150 square miles across the Rajasthan border in Sind.

The Pakistani Army was holding about 190 square miles in the Chhamb-Jaurian area and another 20 square miles at the most across the Punjab border around Khem Karan near Ferozepore. They had also captured or infiltrated towards a number of Indian posts in the Rajasthan desert on the eve of the cease-fire.

**EXTENT OF DAMAGE**

It was stressed that India had essentially fought a war of attrition in which territorial gains or losses were comparatively of little consequence. What really mattered was the extent of damage inflicted by India on Pakistan's armed forces.

According to the casualty figures given at the press conference, 4,802 Pakistani soldiers including 22 officers were killed and 457 including 20 officers captured in this conflict. The number of Indian troops killed was 1,333 including 80 officers.

Gen. Chaudhuri said a total of 471 Pakistani tanks were destroyed, including 38 captured. This included 236 Pattons destroyed and 26 captured, 60 Chaffes destroyed and one captured, and 26 Shermans destroyed and 11 captured. Another 111 were destroyed but it was not possible to identify them definitely as Pattons, Shermans or Chaffes.

Against this staggering loss sustained by the enemy, India lost only 128 tanks in all these battles. The Indian armoured units used five types of tanks ranging from the 65-ton Centurions to the light French-made AMX-13s. Some of the Indian tank regiments were still managing with pre-war shermans. But none of the Russian tanks recently acquired by India were thrown into these battles.

Gen. Chaudhuri said that he did not want to gloat over the enemy losses and jump to the conclusion that the Pakistani Army's striking power had been badly blunted.

Speaking with great humility—and with characteristic under-statement—he said that "it would be a criminal folly on my part" to imagine that the Pakistani Army had been rendered ineffective.

Air Marshal Arjan Singh said only half the Indian Air Force was used in this war with Pakistan. The IAF was organised into three operational commands—Western, Eastern and Central air commands—and that the air operations against Pakistan were conducted only from the Western Air Command without withdrawing any aircraft from the other two commands.

The Pakistan Air Force started the war with 104 F-86 Sabre jets, twelve F-104s and 24 B-57 bombers and lost more than half the total number of these aircraft. Pakistan lost in all 73 planes as against 35 lost by India.

Gen. Chaudhuri said the Indian Army never really wanted to occupy Lahore. He knew perfectly well that Lahore was well defended with a canal system and a bunker system and that a lot of Indian troops would be used up in occupying the city which by itself would have achieved little.

Both in Lahore and in Sialkot sectors, the whole country-side is interspersed with canals and there was a lot of sub-soil water in many places. It was not a suitable terrain for heavy tank attacks and plunging thrusts by fast-moving armoured formations.

Pakistan's armed forces, in short, suffered considerable reverses both on the ground and in the air and any prolongation of the fighting by another week or two would have resulted in complete disaster for Pakistan. Pakistan had thrown in its entire army with its two armoured divisions and armoured reserves. India on the contrary committed a much smaller part of the army and had not in any way reduced her strength on other fronts. The Pakistanis had superior equipment and, so many Western observers thought, more rigorous training. The two sides, therefore, started on even terms — India's slight superiority in numbers being balanced by Pakistan's more modern equipment. The fact that Pakistan had the worst of the fighting shows that Indian forces were better led and had higher morale. At the end of the hostilities the jawans were all in fine fettle. One notable fact was that the battle honours and casualty lists fully reflected the social and religious diversity of the country, with Hindus, Muslims, Sikhs, Christians, Parsis and Jews pulling their full weight.

India had a number of objectives in fighting this war. India wanted to show that Pakistan cannot annex Kashmir by force ; that India would fight if provoked beyond a certain degree to make clear that if Kashmir was important to Pakistan it was no less important to India. Militarily, the objective was not to gain territory or subjugate the people of Pakistan but to emasculate the Pakistani war machine to an extent that Pakistan would not launch out on another attack. The war also proved a number of things. It became clear that while Pakistan cannot fight at all without American aid, it cannot fight hard enough without Chinese support. It showed the Western Powers that

when they give military aid they cannot always be sure of controlling the use of the arms that are gifted away. It also proved the folly and the impracticability of any policy which tried to maintain a military balance within the subcontinent between two nations one of whom was far bigger than the other and therefore potentially much more powerful. In addition, the war proved that the defence potential of underdeveloped countries cannot be strengthened by military alliances—this was a triumphant vindication of India's belief in the efficacy of nonalignment, the conviction that the benefits of a military alliance between unequal Powers could often be of a dubious nature. In the domestic field, specially in perspective planning it showed that India was essentially right in placing her emphasis on heavy industry. If she had done otherwise she would have been completely at the mercy of a foreign Power for arms at a critical hour in its destiny as Pakistan was.

The war, of course, cannot be regarded as being over. What we have is a cease-fire and a very uneasy and precarious cease-fire at that. Pakistan is trying to recoup her losses, restore her prestige by continuous infiltration, encroachment and attempts to seize tracts of Indian territory, more especially in the desert of Rajasthan. Pakistan is also in a war-like mood, threatening to fight for a thousand years, to leave the U.N. unless she gets satisfaction, and foreign arms. She is intent on maintaining tension in order to put pressure on the Security Council to adopt a resolution on Kashmir favourable to herself.

In this respect there is one basic difference between India and Pakistan. The Security Council resolution of September 20 envisaged a three-stage procedure — cease-fire, withdrawal of all armed personnel to the position of Aug. 5 and a consideration of the political factors underlying the conflict. Pakistan would like political discussions to go forward simultaneously with cease-fire and withdrawal processes, while India would like the procedure to follow the chronological order as laid down in the Security Council Resolution. The cease-fire and the withdrawals must be fully accomplished, while withdrawals include the withdrawal of the armed infiltrations. There should also be firm guarantees against a recurrence of armed attacks from across the cease-fire line of whatever nature. Only after all this is secured can India go forward to the third stage. If the three stages were telescoped and political discussions synchronised with withdrawal, it would be tantamount to rewarding the aggressor instead of punishing him. We would also be setting a bad precedent. There are also basic differences between India and Pakistan on the nature of the political factors underlying the recent conflict. Briefly, in Pakistani eyes, what is responsible for the conflict, is the fact that no plebiscite has been held in Kashmir. To India the cause of the trouble is simply Pakistani aggression against what is indubitable Indian territory and the general animus, that Pakistan has nurtured against India through the years. There was also another difference between India and Pakistan and this was about the supervision of the cease-fire. India regarded the war on the Punjab front as an extension of the Kashmir conflict since both are Indian territory. Hence all that was needed was that the U.N. Observer team in Kashmir should be expanded to include the group supervising the cease-fire on the Lahore front, the whole to work under General Nimmo. After an initial argument this was accepted and it was decided that there was to be a single team and General Nimmo was to coordinate the work of both observer groups.

In pursuit of her aim to get political talks started simultaneously with cease-fire and withdrawal Pakistan proposed a four-man committee, of the Security Council to take the initiative in the matter. On India's firm opposition however, the proposal was dropped. Another move for talks by face to face encounter under the auspices of the President of the Security Council of the time also proved abortive since India was opposed to it on the same grounds.

With Pakistan holding out for no cease-fire or withdrawal without talks, and India standing firmly by the Security Council resolution of September 20, there was no progress until eventually the Security Council after protracted private consultations passed another resolution at a meeting on November 5, with Jordan and Russia abstaining. In essence this resolution asked for prompt and unconditional execution of the resolution of September 20, and went on to say that there should be a meeting of the representatives of Pakistan and India with a suitable representative of the Secretary General appointed in consultation with the two parties. These representatives should then formulate an agreed plan and a schedule for the withdrawal of armed personnel, and a time-limit shoud be set for implementation. The Secretary-General was to report in three weeks' time.

**Security Council Resolution of 5 November**

The Security Council,

Regretting the delay in the full achievement of a complete and effective cease-fire and a prompt withdrawal of armed personnel to 5 August positions as called for in its resolutions 209, 210, 211 and 214 of 4, 6, 20 and 27 September 1965.

1. Reaffirms its resolution 211 of 20 September 1965 in all its parts.

2. Requests India and Pakistan to co-operate towards a full implementation of paragraph 1 of the resolution of 20 September 1965, calls upon them to instruct their armed personnel to co-operate with the United Nations and cease all military activity, and insists that there be an end to violations of the cease-fire ;

3. Demands the prompt and unconditional execution of the proposal already agreed to in principle by the Governments of India and Pakistan, for a meeting of their representatives with a suitable representative of the Secretary-General appointed without delay after consultation with both parties, for the formulation of an agreed plan and schedule for the withdrawals by both parties, urges that such a meeting shall take place as soon as possible and that such a plan contain a time-limit on its implementation, and requests the Secretary-General to report on the progress in this respect within three weeks of the adoption of this resolution ;

4. Requests the Secretary-General to submit for its consideration as soon as possible a report on compliance with this resolution.

India was satisfied with the resolution since it did not go much beyond the resolution of Sept. 20 and no special emphasis was laid on political discussions, and no link was indicated between the cease-fire and withdrawal on the one hand and political talks on the other. Pakistan also appeared to be satisfied and Mr. Bhutto declared Pakistan's readiness to co-operate in the implementation of cease-fire and withdrawal. This appeared to be a retreat on the part of Pakistan from the original stand to the effect that there would be no withdrawal unless steps for a political settlement were clearly chalked out. Thus India and Pakistan both agreed to U Thant's suggestion that he should send a military representative to assist in working out a schedule for withdrawal. U Thant's original proposal was that Lt. Gen. Sarmento of Brazil, Commander of the U.N. Emergency Force in the Middle East should be his representative, and that he would arrange the discussions to be held. But later it was agreed that General Morambio of Chile should be the Secretary-General's representative. He would arrange a meeting to formulate a plan of withdrawal.

Another development which must be mentioned is Pakistan's acceptance of the Soviet suggestion that India and Pakistan should have summit talks in a Russian City — later Tashkent was fixed as site—under Soviet auspices. Pakistan had earlier rejected the Soviet offer. The acceptance by Pakistan was followed by a visit to Moscow by Mr. Bhutto. Other political moves followed. President Ayub journeyed to the United States and addressed the U.N. Assembly on December 14 ; in his speech he declared that he was prepared to sign a no-war declaration on condition, as he put it, the Kashmir people were given an opportunity to settle their future. He then went on to Washington, where he had a meeting with President Johnson. Mr. Shastri himself was to go to the United States where he was to meet President Johnson on February 1.

The Tashkent summit meeting started on January 4, 1966. Mr. Kosygin played a prominent part in the meeting.

The purpose of the meeting as mentioned in the Moscow communique which announced the date was to secure an improvement in the relations between India and Pakistan. It was clear that President Ayub had agreed to the meeting without conditions. There was a tacit agreement that Mr. Shastri and President Ayub would deal with the totality of Indo-Pak relations. India has made it clear that it wishes to restore normal relations with Pakistan as quickly as possible. If friendly relations cannot be brought about immediately India hopes that the two countries would at least be on peaceful terms so that there is no danger of a resumption of hostilities. One expects that in this context the Tashkent meeting would discuss Mr. Shastri's offer of a no-war declaration. Then there is the cease-fire which must be stabilised. So far as other outstanding problems are concerned India has indicated her desire that they should be tackled step by step. India envisages a series of Indo-Pak summit meetings after the initial talks at Tashkent. In making a statement on the impending Tashkent talks in the Lok Sabha on December 10, Mr. Shastri said that there was no question of parting with any of our territory.

## TASHKENT AGREEMENT

Indo-Pakistani relations took a new turn—so it was hoped—by the agreement signed in Tashkent on January 10 by Mr. Lal Bahadur Shastri, the late Prime Minister of India and Mr. Ayub Khan, the President of Pakistan.

The agreement is essentially a compromise—it could not be anything else if the willing assent of both sides was to be obtained—and there would undoubtedly be details to which either side could take exception. The Tashkent agreement is important because of the spirit that inspired it, namely, the ardent desire to improve relations, the anxiety to liquidate the problems thrown up by the armed conflict and to solve other problems by peaceful means over a length of time. Both sides made compromises, as was inevitable, but the declaration itself, it was widely recognised, had to be judged as a whole and by the frame of mind that inspired it. It was also realised that if the improvement for which the signatories hoped was to come about, the same spirit must continue to inspire the policies and actions of both countries.

Some of the points that may give rise to controversy may be mentioned here. For instance, it is possible to argue that the renunciation of force by Pakistan is conditional and not absolute. Second, the agreement to withdraw to August 5, position carries no explicit guarantees except what is offered under the U.N. Charter where it refers to non-interference in the internal affairs of other countries. Also, Pakistan continues to cast doubts on the precise meaning of 'armed personnel'—the question whether this term includes the armed infiltrators into Kashmir. Moreover, it was claimed by Pakistan that the Soviet good offices at Tashkent virtually meant mediation and there were clauses in the agreement which implied the creation of self-executing machinery for the settlement of what Pakistan calls the 'Kashmir dispute.'

The belief is widely expressed in India, however, that in spite of these difficulties Tashkent provides the means for putting Indo-Pakistan relations on a friendly and durable footing.

The following is the text of the Tashkent declaration signed today by Prime Minister Shastri and President Ayub Khan :

The Prime Minister of India and the President of Pakistan, having met at Tashkent and having discussed the existing relations between India and Pakistan, hereby declare their firm resolve to restore normal and peaceful relations between their countries and to promote understanding and friendly relations between their peoples. They consider the attainment of these objectives of vital importance for the welfare of the 600 million people of India and Pakistan.

(*I*) The Prime Minister of India and the President of Pakistan agree that both sides will exert all efforts to create good neighbourly relation between India and Pakistan in accordance with the United Nations Charter. They reaffirm their obligation under the Charter not to have recourse to force and to settle their disputes through peaceful means.

They considered that the interests of peace in their region and particularly in the Indo-Pakistani sub-continent and, indeed, the interests of the peoples of India and Pakistan were not served by the continuance of tension between the two countries. It was against this background that Jammu & Kashmir was discussed, and each of the sides set forth its respective position.

**Troops Withdrawal**

(*II*) The Prime Minister of India and the President of Pakistan have agreed that all armed personnel of the two countries shall be withdrawn not later than February 25, 1966, to the position they held prior to August 5, 1965, and both sides shall observe the cease-fire terms on the cease-fire line.

(*III*) The Prime Minister of India and the President of Pakistan have agreed that relations between India and Pakistan shall be based on the principle of non-interference in the internal affairs of each other.

(*IV*) The Prime Minister of India and the President of Pakistan have agreed that both sides will discourage any propaganda directed against the other country, and will encourage propaganda which promotes the development of friendly relations between the two countries.

(*V*) The Prime Minister of India and the President of Pakistan have agreed that the High Commissioner of India to Pakistan and the High Commissioner of Pakistan to India will return to their posts and that the normal functioning of diplomatic missions of both countries will be restored. Both Governments shall observe the Vienna Convention of 1961 on diplomatic intercourse.

**Trade Relations**

(*VI*) The Prime Minister of India and the President of Pakistan have agreed to consider measures towards the restoration of economic and trade relations, communications, as well as cultural exchanges between India and Pakistan, and to take measures to implement the existing agreements between India and Pakistan.

(*VII*) The Prime Minister of India and the President of Pakistan have agreed that they give instructions to their respective authorities to carry out the repatriation of the prisoners of war.

(*VIII*) The Prime Minister of India and the President of Pakistan have agreed that both sides will continue the discussions of questions relating to the problems of refugees and eviction of illegal immigration. They also agreed that both sides will create conditions which will prevent the exodus of people. They further agreed to discuss the return of the property and assets taken over by either side in connection with the conflict.

**Soviet Leaders Thanked**

(*IX*) The Prime Minister of India and the President of Pakistan have agreed that both sides will continue meetings both at the highest and at other levels on matters of direct concern to both countries. Both sides have recognised the need to set up joint Indo-Pakistani bodies which will report to their Governments in order to decide what further steps should be taken.

(*X*) The Prime Minister of India and the President of Pakistan record their feelings of deep appreciation and gratitude to the leaders of the Soviet Union, the Soviet Government and personally to the Chairman of the Council of Ministers of the USSR for their constructive, friendly and noble part in bringing about the present meeting which has resulted in mutually satisfactory results. They also express to the Government and friendly people of Uzbekistan their sincere thankfulness for their overwhelming reception and generous hospitality. They invite the Chairman of the Council of Ministers of the USSR to witness this declaration.

**Accord on Operation Disengagement**

The Commander-in-Chief of the Pakistan Army General Mohammad Musa and the Chief of the Army Staff, Indian Army General J.N. Chaudhuri formulated on Jan. 22 at New Delhi an agreed plan for military disengagement in all sectors in accordance with the Tashkent declaration. They discussed the principles and procedures for the proposed withdrawal, by both sides of all armed personnel to their August 5 positions. A joint statement issued at the conclusion of these talks referred significantly to the proposed withdrawals as "disengagement" since the primary purpose of restoring the status *quo ante* is to prevent the recurrence of an armed conflict. The two chiefs, therefore, agreed to take suitable steps to reduce tension in both western and eastern sectors to help consolidate the new atmosphere of peace between India and Pakistan. The withdrawals are to be completed by February 25 as provided in the Tashkent agreement.

The next meeting between the two Army chiefs is likely to be held in Pakistan about the second week of February. An Indo-Pakistani conference at the ministerial level is also likely to be held soon to initiate measures for the normalisation of commercial and diplomatic relations between the two countries in accordance with the Tashkent declaration. Up to the time of writing (Feb. 7, 1966) the meetings have not taken place.

# THIRD AND FOURTH FIVE-YEAR PLANS

An account of the First and Second Plans was given in the previous editions of the book.

Parliament gave its general approval to the Third Plan Draft Outline in August 1960.

The Draft Outline was discussed throughout the country and served as the basis for the preparation of the plans of States. These were considered with the Chief Ministers of States between September and November, 1960.

In January, 1961, the National Development Council made its recommendations concerning the overall size of the Third Plan, the Council also set up a Committee on Savings to suggest ways of securing the maximum mobilisation of resources for the Third Plan. Finally, on May 31 and June 1, 1961 the National Development Council considered the Draft Report on the Third Plan and generally approved it.

The final draft of the Plan was placed before the Parliament on August 7, 1961.

The Planning Commission in the final draft proposes additional taxation of Rs. 1,710 crores as against Rs. 1,650 crores in the draft outline. The investment outlays of both the public and private sectors have been raised from those of the draft outline.

The Rs. 10,400-crore Plan covering the period 1960-61 to 1965-66 aims at increasing national income from Rs. 14,500 crores to Rs. 19,000 or by 30 per cent and per capita income of the people from Rs. 330 to Rs. 385 or by 17 per cent, the pattern of investment being designed also to sustain this rate of growth during subsequent Plan periods. Other principal aims are :—

(1) to achieve self-sufficiency in foodgrains, and increase agricultural production to meet the requirements of industry and export;

(2) to expand basic industries like steel, chemical industries, fuel, and power and establish machine-building capacity, so that the requirements of further industrialisation can be met within a period of 10 years or so mainly from the country's own resources;

(3) to utilise to the fullest extent possible the manpower resources of the country and to ensure a substantial expansion in employment opportunities; and

(4) to establish progressively greater equality of opportunity and to bring about reduction in disparities in income and wealth and a more even distribution of economic power.

To achieve these aims, a certain minimum development must take place in different sectors of the economy during the next five years.

**THIRD PLAN TARGETS**

| | Unit | 1960-61 | 1965-66 | Percentage Increase |
|---|---|---|---|---|
| Foodgrains production | million tons | 76 | 100 | 32 |
| Area Irrigated (net total) | million acres | 70 | 90 | 29 |
| Co-operative movement advances to farmers | Rs. crores | 200 | 530 | 165 |
| Steel ingots | million tons | 3·5 | 9·2 | 163 |
| Aluminium | 000 tons | 18·5 | 80 | 332 |
| Machine tools | value Rs. in crores | 5·5 | 30·0 | 445 |
| Sulphuric acid | 000 tons | 363 | 1,500 | 313 |
| Petroleum products | million tons | 5·7 | 9·9 | 70 |

## THIRD PLAN TARGETS—*Continued.*

| | Unit | 1960-61 | 1965-66 | Percentage Increase |
|---|---|---|---|---|
| *Cloth :* | | | | |
| Mill-made | million yards | 5,127 | 5,800 | 13 |
| Handloom, powerloom and Khadi | million yards | 2,349 | 3,500 | 49 |
| Total | million yards | 7,476 | 9,300 | 24 |
| Iron ore | million tons | 10·7 | 30·0 | 180 |
| Coal | million tons | 54·6 | 97·0 | 76 |
| Exports | Rs. in crores | 645 | 850 | 32 |
| Power : Installed capacity | million kW. | 5·7 | 12·7 | 123 |
| Rail freight carried | million tons | 154 | 245 | 59 |
| Com. vehicles | in 000 | 210 | 365 | 74 |
| Shipping | lakh g.r.t. | 9·0 | 10·9 | 21 |
| Students in Schools | in millions | 43·5 | 63·0 | 47 |
| Engineering and technology (degree level intake) | in 000 | 13·9 | 19·1 | 37 |
| Hospital beds | in 000 | 186 | 240 | 29 |
| Doctors (practising) | in 000 | 70 | 81 | 16 |
| Cloth | yards per capita per annum | 15·5 | 17·2 | 11 |
| *Consumption levels :* | | | | |
| Food | Calories per capita per day | 2,100 | 2,300 | 10 |

The Plan envisages a 30 per cent increase in agricultural production whose index (base: 1949-50 = 100) is expected to go up from 135 to 176 and a 70 per cent increase in industrial output whose index (base: 1950-51 = 100) will move up from 194 to 329.

The increase in population, the growing expectations of the people and the urgent need for attaining the stage of self-sustained growth over the next two or three Plan periods make it essential that there should be every effort to achieve the targets during the next five years, says the Commission.

In addition, certain measures must be taken during the Plan period itself in preparation for the Fourth Plan. The physical pogrammes included in the Third Plan have been formulated with both these objectives in view.

The estimated financial resources have been placed for the present at Rs. 7,500 crores and are distributed as follows :

## RESOURCES FOR THE THIRD PLAN

(Rs. crores)

| Head | Second Plan | | States | Union Territories | Centre | Total | Percentage |
|---|---|---|---|---|---|---|---|
| | Total expenditure | Percentage | | | | | |
| Agriculture and community development | 530 | 11 | 919 | 24 | 125 | 1,068 | 14 |
| Major and medium irrigation | 420 | 9 | 630 | 2 | 18 | 650 | 9 |
| Power | 445 | 10 | 880 | 23 | 109 | 1,012 | 13 |
| Village and small industries | 175 | 4 | 137 | 4 | 123 | 264 | 4 |
| Organised industry and minerals | 900 | 20 | 70 | neg. | 1,450 | 1,520 | 20 |
| Transport and communications | 1,300 | 28 | 226 | 35 | 1,225 | 1,486 | 20 |
| Social services and miscellaneous | 830 | 18 | 863 | 87 | 350 | 1,300 | 17 |
| Inventories | .. | .. | .. | .. | 200 | 200 | 3 |
| Total | 4,600 | 100 | 3,725 | 175 | 3,600 | 7,500 | 100 |

Out of this, investment is estimated to be Rs. 6,300 crores and current outlay, representing expenditure on staff, subsidies, etc., Rs. 1,200 crores. Investment in the private sector is placed at Rs. 4,100 crores (exclusive of Rs. 200 crores to be transferred from public revenues to this sector by way of loans and other assistance). Thus the total investment will be Rs. 10,400 crores.

The scheme of financing the public sector plan that is now envisaged is indicated in the Table below. The last two columns indicate the estimates separately for the Centre and the States :

## FINANCIAL RESOURCES

(Estimates for the Second and the Third Plans)

(Rs. crores)

| | Second Plan | | Third Plan | | |
|---|---|---|---|---|---|
| | As initially estimated | As estimated now | Total | Centre | States |
| 1. Balance from current revenues (excluding additional taxation) | 350 | (−) 50 | 550 | 410 | 140 |
| 2. Contribution of Railways | 150 | 150†† | 100 | 100 | — |
| 3. Surpluses of other public enterprises | •• | •• | 450 | 300 | 150 |
| 4. Loans from the public (net) | 700 | 780• | 800 | 475 | 325 |
| 5. Small savings (net) | 500 | 400 | 600 | 213 | 387 |
| 6. Provident funds (net) | | 170 | 265 | 183 | 82 |
| 7. Steel equalisation fund (net) | 250 | 38 | 105 | 105 | — |
| 8. Balance of miscellaneous capital receipts over non-plan disbursements | | 22 | 170 | 428 | (−) 258 |
| 9. Total 1 to 8 | 1,950 | 1,510 | 3,040 | 2,214 | 826 |
| 10. Additional taxation including measures to increase the surpluses of public enterprises | 4,50† | 1,052 | 1,710 | 1,100 | 610 |
| 11. Budgetary receipts corresponding to external assistance | 800 | 1,090‡ | 2,200 | 2,200 | — |
| 12. Deficit financing | 1,200 | 948 | 550 | 524 | 26 |
| Total | 4,800 | 4,600 | 7,500 | 6,038 | 1,462 |

† In addition there was a gap of Rs. 400 crores to be covered by additional domestic effort.
†† Inclusive of increased fares and freights.
• Includes investments by the State Bank out of PL 480 funds.
•• Included in items 1 and 8 in the Table.
‡ This includes investment of PL 480 funds by the Reserve Bank in special securities in 1960-61.

## INVESTMENT AND FOREIGN EXCHANGE REQUIREMENT

(Rs. in Crores)

| | Total investment | Foreign exchange |
|---|---|---|
| A *Public Sector* | | |
| 1. Agriculture and community development | 610 | 30 |
| 2. Major and medium irrigation | 650 | 50 |
| 3. Power | 1,012 | 320 |
| 4. Village and small industries | 100 | 20 |
| 5. Large and medium industries and minerals (including oil) | 1,470 | 690 |
| 6. Transport and communications | 1,486 | 320 |
| 7. Social services and miscellaneous | 572 | 90 |
| 8. Inventories | 200 | † |
| Total (Public Sector) | 6,100 | 1,520 |
| B *Private Sector* | | |
| 1. Large and medium industries, minerals and transport | 1,350 | 495 |
| 2. Villages and small industries | 325 | 15 |
| 3. Others | 2,625 | Neg. |
| Total (Private Sector) | 4,300 | 510 |
| C *Grand Total* (A + B) | 10,400 | 2,030 |

† Included under other heads.

## OUTLAYS IN II AND III PLANS

(Rs. in Crores)

| | Second Plan | | | Percentage | Third Plan | | | Percentage |
|---|---|---|---|---|---|---|---|---|
| | Public | Private | Total | | Public | Private | Total | |
| Agriculture and Community Development | 210 | 625 | 835 | 12 | 660 | 800 | 1,460 | 14 |
| Major and Medium Irrigation | 420 | .. | 420 | 6 | 650 | 275 | 650 | 6 |
| Power | 445 | 40 | 485 | 7 | 1,012 | .. | 1,026 | 10 |
| Village and Small Industries | 90 | 175 | 265 | 4 | 150 | 50 | 425 | 4 |
| Organised Industry and Minerals | 870 | 675 | 1,545 | 23 | 1,520 | 1,050 | 2,570 | 25 |
| Transport | 1,275 | 135 | 1,410 | 21 | 1,486 | 250 | 1,736 | 17 |
| Social Services | 340 | 950 | 1,290 | 19 | 622 | 1,075 | 1,697 | 16 |
| Inventories | .. | 500 | 500 | 8 | 200 | 600 | 800 | 8 |
| Total | 3,650 | 3,100 | 6,750 | 100 | 6,300 | 4,100* | 10,400 | 100 |

* Excludes transfers from public to private sector.

### STATES' PLANS

Among the States, Uttar Pradesh has the single largest plan accounting for Rs. 497 crores. This is followed by Maharashtra whose outlay is Rs. 390 crores and Bihar with an outlay of Rs. 337 crores. The Third Plan outlays for different States with figures in brackets representing the estimated outlay in the Second Plan are : (Rs. in crores.)

Andhra Pradesh—305 (175); Assam—120 (51); Bihar—337 (166); Gujarat—235 (143); Jammu and Kashmir—75 (25); Kerala—170 (76); Madhya Pradesh—300 (145); Madras—290·9 (167); Maharashtra—390 ( ); Mysore—250 (122); Orissa—160 (85); Punjab—231·4 (148); Rajasthan—236 (99); Uttar Pradesh—497 (227); West Bengal—250(†) (145); Total—States—3847·3 (1981).

Of the total investment of over Rs. 4,300 crores in the private sector, Rs. 200 crores will be provided by way of transfer of resources from the public sector. The assistance by the Reserve Bank to agriculture, small-scale industries and co-operatives will also be on a larger scale. External assistance to the private sector may be of the order of Rs. 300 crores.

Investment in the private sector during the Second Plan has been at high levels and there is evidence of a greater readiness on the part of private enterprise to avail itself of the opportunities being created by the development process. Investment in the private sector of the order of Rs. 4,300 crores does not appear to be difficult of achievement.

### ADDITIONAL TAXATION

For financing the Rs. 7,500-crore outlay in the public sector heavy reliance is placed on additional taxation and external assistance which will account for Rs. 1,710 crores and Rs. 2,200 crores respectively.

The credit of Rs. 2,200 crores taken for external assistance is part of the total of such assistance envisaged in the Plan, namely Rs. 3,200 crores.

The entire amount of Rs. 3,200 crores does not come to the public exchequer. About Rs. 450-500 crores of the total receipts of external

† Provisional.

assistance will go towards repayments of loans maturing during the Third Plan while about Rs 300 crores might go directly to the private sector by way of private capital inflows or loans from agencies like the I.B.R.D., the International Finance Corporation and the U.S. Export-Import Bank.

Another Rs. 200 crores may represent agreed retentions of rupee resources by the U.S. authorities and additions to buffer stocks from P.L. 480 imports.

Thus, about Rs. 1,000 crores in all would not be available for the budget.

The resources for the Plan are sought to be raised as follows:

## 15-YEAR OUTLOOK

Taking a broad view of the development of the Indian economy, it is reckoned that, at 1960-61 prices, the national income should rise from about Rs. 14,500 crores at the end of the Second Plan to about Rs. 19,000 crores at the end of the Third Plan, about Rs. 25,000 crores at the end of the Fourth and about Rs. 33,000 to Rs. 34,000 crores at the end of the Fifth Plan.

Allowing for the estimated annual increase in population of about two per cent., on these estimates, income per head should go up from around Rs. 330 at the end of 1960-61 to about Rs. 385, Rs. 450 and Rs. 530 in 1966, 1971 and 1976.

This will require net investment as a proportion of national income to rise from about 11 per cent. at present to 14-15, 17-18 and 19-20 per cent, per annum by the end of the Third Fourth and Fifth Plans respectively.

In other words, as compared to about Rs. 10,500 crores postulated for the Third Plan, net investment over the Fourth and the Fifth Plan periods should be of the order of Rs. 17,000 crores and Rs. 25,000 crores.

Domestic savings would have to rise in corresponding measure from about 8·5 per cent. at present to about 11·5, 15 to 16, and 18 to 19 per cent of the national income at the end of the Third, Fourth and Fifth Plans.

By the end of the Fifth Plan the economy will be strong enough to develop at a satisfactory pace without being dependent on external assistance outside of the normal inflow of foreign capital.

In the course of preliminary studies on the Third Plan the following tentative targets of capacity have been suggested for some important items for 1970-71.

| | | |
|---|---|---|
| Steel ingots | million tons | 18–19 |
| Pig iron | million tons | 3–4 |
| Aluminium | thousand tons | 230–250 |
| Electric power | million kW | 21–23 |
| Coal | million tons | 170–180 |
| Oil refining | million tons | 18–30 |
| Nitrogenous fertilisers | million tons (N) | 2·0–2·2 |
| Cement | million tons | 24–26 |
| Machine building | Rs. crore of output | 1,600 |
| Railway freight transport—long distance (originating traffic) | million tons | 380–420 |
| Food Grains | million tons | 135 |
| Exports | Rs. crores | 1,300–1,400 |

These targets indicate the order of effort called for as a basis for further studies.

The Plan says that for working out a long-term plan on these lines there is need for close and continuous collaboration between various Government agencies at the Centre and in the States and with leading institutions engaged in scientific, economic and social research.

*Foreign Exchange:*

The following Table sets forth the balance of payments estimates for the Third Plan.

**Financing of foreign exchange requirements for the Third Plan**

(Rs. crores)

| | Total Second Plan | Total Third Plan | 1961-62 | Annual average Third Plan |
|---|---|---|---|---|
| **A. RECEIPTS** | | | | |
| 1. Exports | 3,053 | 3,700 | 667 | 740 |
| 2. Invisibles (net) (excluding official donations) | 420* | nil | 28 | nil |
| 3. Capital transactions (net) (excluding receipts of official loans and private foreign investment) | (−) 172 | (−) 550 | (−) 133 | (−) 110 |
| 4. External assistance | 927† | 2,600 | 575** | 520 |
| 5. Draft on foreign exchange reserves | 598 | nil | nil | nil |
| Total (1 to 5)‡ | 4,826 | 5,750 | 1,131 | 1,150 |
| **B. PAYMENTS** | | | | |
| 1. Imports of machinery and equipment for Plan projects | 4,826 | 1,900 | 825 | 380 |
| 2. Components, intermediate products etc., for raising production of capital goods | | 200 | 60 | 40 |
| 3. Maintenance imports | | 3,650 | 746 | 730 |
| Total (1 to 3)‡ | 4,826 | 5,750 | 1,131 | 1,150 |

* Includes reimbursements from the U.S.A. for freight expenses on P.L. 480 imports initially incurred by India.

** Represents external assistance required for financing imports as shown below.

† Including net drawing on the I.M.F.

‡ P.L. 480 imports are excluded from both sides — about Rs. 534 crores for the Second Plan and Rs. 600 crores for the Third Plan.

## PRICE POLICY

The Plan postulates a price policy which will ensure that movements of relative prices are in keeping with its priorities and targets and that prices of essential goods which enter into the consumption of low-income groups do not rise unduly.

In the Third Plan stress is being placed on the careful phasing of projects in relation to one another. Prices fluctuated widely in the First Plan period and they have shown a rising trend through the Second Plan period. At the commencement of the Third Plan, the levels of wholesale prices and cost of living are already high and it is essential to ensure that there is no accentuation of inflationary pressures in the course of the Third Plan and that the levels of living of the more vulnerable classes in society are safeguarded.

† Provisional.

## TARGETS

**The following table shows the targets set. It also shows the progress and development over the period 1950-51 to 1960-61.**

| Item | Unit | 1950-51 | 1955-56 | 1960-61 (estimated) | 1965-66 Targets | Increase in 1960-61 over 1950-51 (percentage) | Increase in 1965-66 over 1960-61 (percentage) |
|---|---|---|---|---|---|---|---|
| 1. *Agriculture & Community Development* | | | | | | | |
| **Agricultural Production :—** | | | | | | | |
| Foodgrains | million tons | 52·2(*a*) | 65·8(*a*) | 76·0 | 100·0 | 46 | 32 |
| Cotton | million bales | 2·9 | 4·0 | 5·1 | 7·0 | 76 | 37 |
| Sugarcane-gur | million tons | 5·6 | 6·0 | 8·0 | 10·0 | 43 | 25 |
| Oilseeds | million tons | 5·1 | 5·6 | 7·1 | 9·8 | 39 | 38 |
| Jute | million bales | 3·3 | 4·2 | 4·0 | 6·2(*b*) | 21 | 55 |
| Tea | million lbs. | 613 | 678 | 725 | 900 | 18 | 24 |
| Tobacco | '000 tons | 257 | 298 | 300 | 325 | 17 | 8 |
| Fish | million tons | 0·7 | 1·0 | 1·4 | 1·8 | 100 | 29 |
| Milk | million tons | 17·1 | 19·3 | 22·0 | 25·3 | 29 | 15 |
| Wool | million lbs. | 60 | 65 | 72 | 90 | 20 | 25 |
| **Agricultural Services :—** | | | | | | | |
| Area Irrigated (net total) | million acres | 51·5 | 56·2 | 70·0 | 90·0 | 36 | 29 |
| Land reclamation (additional area) (*d*) | million acres | .. | 2·7 | 1·2 | 3·6 | .. | 200 |
| Soil Conservation (Additional area benefited) (*d*) | million acres | .. | 0·7 | 2·0 | 11·0 | .. | 450 |
| Nitrogenous Fertilisers consumed | '000 tons of N | 55 | 105 | 230 | 1,000 | 318 | 335 |
| Phosphatic Fertilisers consumed | '000 tons of $P_2O_5$ | 7 | 13 | 70 | 400 | 900 | 471 |
| Seed farms (*d*) | number | .. | .. | 4,000 | 4,800 | .. | 20 |
| **Community Development :—** | | | | | | | |
| Blocks | number | .. | 1,069 | 3,110 | 5,223 | .. | 68 |
| Villages covered | thousands | .. | 106 | 368 | 550 | .. | 49 |
| Population served | million number | .. | 69 | 204 | 359 | .. | 76 |
| **Cooperation :—** | | | | | | | |
| Primary agricultural credit societies | '000 numbers | 105 | 160 | 210 | 230 | 100 | 10 |
| Short and medium term Loans advanced | Rs. crores | 22·9 | 49·6 | 200·0 | 530·0 | 773 | 165 |
| 2. *Power* | | | | | | | |
| Electricity (installed capacity) | million kW | 2·3(*c*) | 3·4(*c*) | 5·7 | 12·7 | 148 | 123 |
| Electricity generated | million kWh | 6,575 (*c*) | 10,777 (*c*) | 19,850 | 45,000 | 202 | 127 |
| Towns and villages electrified | thousands | 3·7 | 7·4 | 23·0 | 43·0 | 523 | 87 |
| 3. *Minerals* | | | | | | | |
| Iron ore | million tons | 3·2 | 4·3 | 10·7 | 30·0 | 234 | 180 |
| Coal | million tons | 32·3 | 38·4 | 54·6 | 97·0 | 69 | 76 |
| 4. *Large-scale Industries* | | | | | | | |
| **Metallurgical Industries :—** | | | | | | | |
| Steel ingots | million tons | 1·4 | 1·7 | 3·5 | 9·2 | 150 | 163 |
| Finished steel | million tons | 1·0 | 1·3 | 2·2 | 6·8 | 120 | 209 |
| Pig Iron (for sale) | million tons | 0·35 | 0·38 | 0·90 | 1·50 | 157 | 67 |
| Alloy, tool and special steels (finished) | '000 tons | .. | .. | 40 | 200 | .. | 400 |
| Aluminium | '000 tons | 3·7 | 7·3 | 18·5 | 80·0 | 400 | 332 |
| Copper | '000 tons | 6·6 | 7·5 | 8·9 | 20·0 | 35 | 125 |
| **Mechanical and Electrical Engineering :—** | | | | | | | |
| Cement machinery | value in Rs. lakhs | .. | 34 (*c*) | 60 | 450 | .. | 650 |
| Sugar machinery | value in Rs. lakhs | .. | 19 | 330 | 1,000 | .. | 203 |
| Industrial boilers | value in Rs. lakhs | .. | .. | 40 | 2,500 | .. | 6,150 |
| Machine tools (graded) | value in Rs. lakhs | 34 | 78 | 550 | 3,000 | 1,518 | 445 |
| Ball and roller bearings | million number | 0·1 | 0·9 | 2·9 | 14·0 (*e*) | 2,800 | 383 |
| Diesel engines | thousands | 5·5 | 10·0 | 40·0 | 66·0 | 627 | 65 |
| Tractors | number | .. | .. | 2,000 | 10,000 | .. | 400 |
| Electric motors (200 b.h.p. and below) | '000 h.p. | 100 | 272 | 700 | 2,500 (*f*) | 600 | 257 |
| Electric transformers (33 kV and below) | '000 kva | 179 | 625 | 1,200 | 3,500 | 570 | 192 |
| Electric cables (ACSR) conductors | '000 tons | 1·7 | 8·7 | 22·0 | 44·0 | 1,194 | 100 |
| **Railway Locomotives :—** | | | | | | | |
| Steam | number | 7 | 179 | 295 | 1,175 (*d*) | 3,214 | |
| Diesel | number | .. | .. | .. | 434 (*d*) | .. | .. |
| Electric | number | .. | .. | .. | 232 (*d*) | .. | .. |
| **Rubber manufactures :—** | | | | | | | |
| Automobile tyres | million numbers | .. | 0·9 | 1·85 | 3·0 | .. | 122 |
| Bicycle tyres | million numbers | .. | 5·8 | 11·0 | 31·0 | .. | 182 |

(*a*) Estimates of production adjusted for changes in statistical coverage and methods of estimation upto 1956-57.
(*b*) Excludes mesta which may provide an additional 1·3 million bales in the Third Plan.
(*c*) Relates to calendar year
(*d*) Relates to five-year period.
(*e*) By working the capacity on three shifts.
(*f*) 300 h.p. and below.

| Kerala | 977 | 2,201 | 439 | 209 | 904 | 28 | 4,758 |
| Madhya Pradesh | 1,977 | 2,613 | 209 | 302 | 1,538 | 141 | 6,780 |
| Madras | 1,807* | 3,430 | 540 | 184 | 1,999 | 25 | 7,985 |
| Maharashtra | 3,395 | 4,024 | 428 | 1,100 | 3,118 | 20 | 12,085 |
| Mysore | 1,765 | 2,450 | 190 | 283 | 1,256 | 12 | 5,956 |
| Orissa | 1,198 | 2,376 | 330 | 439 | 917 | 29 | 5,289 |
| Punjab | 1,236 | 3,203 | 311 | 317 | 1,202 | 117 | 6,386 |
| Rajasthan | 958 | 2,565 | 65 | 194 | 995 | 23 | 4,800 |
| Uttar Pradesh | 4,498 | 5,880 | 685 | 707 | 2,877 | 769 | 15,416 |
| West Bengal | 1,787 | 2,011 | 562 | 611 | 2,100 | 360 | 7,431 |

* Includes Rs. 523 lakhs for Minor Irrigation outside the State Plan.

## MID-TERM PLAN REVIEW

A mid-term appraisal of industrial programmes in the Third Plan has shown that there will be a sizable spill-over into the fourth Plan and that the production in many sectors will fall short of targets. It has been found that delays have marred industrial plans : there has been delay even in the implementation of public sector projects for which foreign exchange credit was available.

A detailed examination of the project reports of three important Third Plan projects has cast doubts about their viability. These three projects, namely the phyto-chemical project, organic intermediate chemical plant and the ophthalmic glass project, have not yet been taken up.

In respect of most of the projects included in the category C of the list of the public sector projects such as ball and roller bearings, heavy compressors, second heavy plate and vessels works, even preliminary details are yet to be worked out. The Commission is of the view that their construction is most unlikely to commence in the Third Plan.

The appraisal has shown that industrial production in the first two years of the Plan has recorded only a modest increase over the preceding years. There has been an increase of 6·7 per cent and 8·9 per cent in the first two years of the Plan as against the average increase of 11·1 per cent envisaged in the Third Plan. The Commission is of the view that the increase in the producer and basic industries has not been insignificant considering the strains experienced in the economy during these two years. The industries in which considerable increase in production has been achieved during the first half of the Plan are : steel, aluminium, machine tools, electric transformers, fertilisers, caustic soda and rayon staple fibre.

The Commission feels that considering the investment targets envisaged in the Third Plan, the progress of the private sector has been satisfactory. But the progress in specific industries in this sector has been below expectation.

The following are some of the points believed to have been made in the mid-term appraisal in respect of specific industries:

*Electrical Transformers and Electric Motors :* These industries are progressing more or less according to the planned programme and it is expected that the targets laid down for these industries will be achieved by 1965-66. In the case of electric motors, production of flame proof motors and multispeed motors has started while in the case of transformers the range of manufacture of many private sector projects has been extended.

A committee was set up under the chairmanship of Mr. S. S. Kumar to assess the demand for various types of heavy electrical equipment such

as generators, transformers, switchgear and control gear etc. The Committee submitted its report in July, 1962. Based on its findings, to bridge the gap between requirements and the capacity that has already been planned in the public sector projects, licences have been granted to existing private sector units to manufacture heavy transformers and high voltage switchgear.

*A.C.S.R. Conductors :* The capacity and production targets of 55,000 tons and 44,000 tons originally fixed for 1965-66 for A.C.S.R. conductors have been revised to 68,000 tons and 55,000 tons respectively. The present installed capacity is 31,400 tons. Production during 1962-63 is estimated at 28,000 tons. On the basis of present estimates it is expected that the revised targets for this industry would be achieved by 1965-66.

*Fertilisers Nitrogenous :* The capacity and production targets indicated in the Third Plan for nitrogenous fertiliser industry in terms of nitrogen are 1 million tons and 800,000 tons, respectively. The present capacity is of the order of 358,000 tons. In order to ensure the fulfilment of plan targets, several schemes which will increase the total capacity of the industry to 1·388 million tons have been licensed or approved in the public and private sectors.

There will be significant shortfall in the capacity and production targets of nitrogenous fertilisers. It is estimated by the Department of Heavy Industries that by the end of 1965-66, capacity of about 640,000 tons only would materialise and production would be of the order of 500,000 tons. The break-up of anticipated capacity and production by 1965-66 factorywise as estimated by the Department of Heavy Industries is given below :

| Name of the Project | Annual Capacity (Tons '000) | Anticipated production by 1965-66 (Tons '000) |
|---|---|---|
| Sindri .. | 117·0 | 110·0 |
| Nangal .. | 80·0 | 75·0 |
| FACT .. | 70·0 | 60·0 |
| Varanasi .. | 20·0 | 15·0 |
| Rourkela .. | 120·0 | 90·0 |
| Ennore .. | 16·5 | 8·0 |
| Trombay .. | 90·0 | 85·0 |
| Neyveli .. | 70·0 | 30·0 |
| Namrup .. | 45·0 | 15·0 |
| Other by-products .. | 12·0 | 12·0 |
| Total .. | 640·5 | 500·0 |

The shortfall is largely on account of the delay in the implementation of private sector projects. Out of a capacity of about 400,000 tons licensed in the private sector, no major scheme is expected to materialise in the Third Plan. The contribution of the private sector is thus of a negligible order. Most of the private sector projects are held up as it has not been possible to arrange suitable foreign collaboration terms.

*Phosphatic Fertilisers :* As against the capacity and production targets of 500,000 tons and 400,000 tons of P205 respectively by 1965-66, the present capacity of phosphatic fertilisers is of the order of 129,000 tons and production about 80,000 tons. A number of schemes have been licensed or approved under the Industries Act which on their implementation are expected to increase the capacity for phosphatic fertilisers to 530,000 tons. However, in relation to the targets considerable shortfall in production is expected in the phosphatic fertilisers. This would not be so much on account of inadequate capacity as on account of the poor offtake of the phosphatic fertilisers. The anticipated production in 1965-66 is not expected to be more than 200,000 tons.

*Heavy Chemicals :* A review of the progress made by the heavy chemical industry indicates that though the targets for caustic soda may be nearly achieved, there will be considerable shortfall in the case of sulphuric acid and soda ash. As against the capacity target of 1·75 million tons of sulphuric acid, the capacity likely to be achieved in 1965-66 is estimated to be of the order of only 1·5 million tons. This shortfall is expected to be mainly on account of anticipated shortfall in the production of phosphatic fertilisers for which sulphuric acid is an important raw material. In the case of soda ash, one of the licensed schemes viz. Bhiwandiwalla, is not expected to fructify by the end of the Third Plan period.

*Automobile tyres :* The capacity and production targets for automobile tyres originally fixed at 3·7 and 3·0 million have subsequently been revised to 5·2 and 4·5 million respectively. The present capacity of the industry is 2·4 million. A number of schemes have been licensed which would increase the capacity to 4·6 million. It is anticipated that a capacity of only this order would materialise by the end of the Third Plan period and it would not be possible to achieve the revised targets.

The main raw materials required by the Industry are natural rubber, synthetic rubber, rayon tyre cord, carbon black etc. At present 50 per cent of the total requirements of natural rubber are being met from indigenous sources, while balance of rubber and other raw materials have to be imported. To put the industry on a sound footing, steps have been taken to establish projects for the manufacture of these raw materials. The Synthetic Rubber project at Bareilly in U.P. has gone into production. The plant when in full production will have a capacity of 30,000 tons of synthetic rubber per annum. The plant of National Rayons for the manufacture of rayon tyre cord with 4 million lb. per annum capacity has also gone into production and licences for additional capacity to the extent of 29 million lbs. have been granted. Similarly, licences for a capacity of 37,000 tons have been given for the production of carbon black.

*Paper and Paper Board :* There are at present 36 paper and paper board factories with an installed capacity of 483,000 tons. It has been estimated that the demand for paper and paper board will show an annual progressive increase of 12½ per cent during the Third Plan period and would increase to 700,000 tons by the end of the Third Plan period. To achieve this target a capacity target of 820,000 tons has been fixed for 1965-66.

As against this target, schemes have been licensed under the Industries Act, which, if all of them were to be implemented, will increase the capacity of the industry to about 1·07 million tons per annum. Out of this, schemes covered by import licences, cleared by C.G./HEP Committee and based on indigenous machinery amount to 900,000 tons. However, though licensing has been done in the paper industry substantially in excess of the target, the progress made so far on the implementation of the schemes has been slow. It is estimated that at the present rate of progress, capacity of the order of 680,000 tons and production of about 580,000 tons only will materialise by the end of the Third Plan period.

*Newsprint industry :* The Third Plan aims to meet the supplies of newsprint to the maximum extent possible from within the country so as to keep down imports and consequent drain on foreign exchange. With this end in view, a capacity target of 150,000 tons and production target of 120,000 tons had been provisionally set for the Third Plan.

As against the above targets, there is at present only one factory namely Nepa Mills manufacturing newsprint with an annual capacity of 30,000 tons. The production of newsprint in 1962-63 is estimated at 25,000 tons. With a view to increasing the capacity of the industry during the Third Plan period a number of schemes have been approved or licensed in the private sector. These schemes when implemented will increase the newsprint capacity to 210,000 tons.

Not much progress has, however, been made on the implementation of these licensed or approved projects and it is doubtful if any one of them will materialise during the Third Plan period. However, with a view to expediting the implementation of the doubling of the Nepa Mills it has suggested to the C. & I. Ministry that a programme based on imported pulp may be drawn up. A programme on this basis is being worked out.

*Cement :* There are at present 35 cement factories with a total annual installed capacity of 9·7 million tons. Production during 1962-63 is estimated at 8·8 million tons. The Third Plan targets of capacity and production are 15·0 million tons and 13·0 million tons respectively.

The demand for cement in the last few years exceeded the supply and this imbalance has been further accentuated by the national emergency. Further restrictions have, therefore, been imposed on supply and works unconnected with defence efforts. It is estimated that due to the increased requirements of defence, on account of present emergency, demand for cement may turn out to be higher than 13 million tons envisaged by 1965-66.

Several schemes have been licensed or approved for increasing the capacity of this industry. If all the schemes were to materialise the capacity of the industry would increase to about 18·8 million tons. The indigenous machinery industry is, however, not in a position to supply plant and equipment according to requirements and as a result the achievement of the targets by 1965-66 is doubtful. It is estimated that the production by the end of the Third Plan period would be only 12 million tons as against the production target of 13 million tons. In order to expedite the installation of further capacity, it has been decided that two plants of 400 tons per day capacity each may be allowed to be imported under Polish or Yugoslav credit for the public sector cement projects in U.P. and Andhra Pradesh.

Steps are also being taken for the implementation of the slag cement schemes with a total capacity of about 2 million tons based on granulated slag from Bhilai, Durgapur and Rourkela plants. The granulation plant at Bhilai will be installed shortly and the project will go into production in 1964. Steps are also being taken for the implementation of the slag cement scheme at Durgapur. Regarding Rourkela slag scheme, however, there are some difficulties with regard to the quality of Rourkela slag. Experimentation is going on to test the suitability of the slag.

*Refractories :* The capacity and production targets for refractories indicated in the Third Plan are 2 million tons and 1·5 million tons respectively. As against these targets, the present installed capacity of the industry is about 8·4 lakh tons. Production in 1962-63 has been estimated at about 6·7 lakh tons.

Several schemes which would increase the total capacity to 25 lakh tons have been licensed or approved. These include the refractory plant of the U.P. Government with a capacity of 34,000 tons which is being set up at Churk and the basic refractory plant with a capacity of about 80,000 tons of fire clay, bricks and 45,000 tons of basic bricks proposed to be set up at Bhilai by the Hindustan Steel.

An appraisal of the progress made so far in the implementation of the licensed schemes indicates that it would not be possible to achieve the capacity and production targets and there will be shortfall to the extent of 0·6 million tons in the capacity target and 0·4 million tons in the case of production target. This shortfall is, however, not of serious consequences since the latest demand estimates indicate the requirements at a lower level than indicated in the Plan.

*Cotton Textiles :* The target of production fixed for the Third Plan for cotton textiles is 5,800 million yards of cloth and 2,250 million lbs. of yarn for the mill sector to be achieved by increasing the spindleage to 16·5 million and loomage to 2·25 lakhs. As against this, at present there are 490 mills with a total installed capacity of 13·9 million spindles and 2·0 lakh looms. The production of cloth and yarn in 1962-63 is estimated to be of the order of 5,200 million yards and 1,900 million pounds respectively. Though the targets for cotton yarn and cloth are expected to materialise, it is doubtful if it will be possible to achieve the export target. It was visualised in the Plan that 850 million yards of cloth would be exported by 1965-66. The export of cloth has shown a declining trend and it may not perhaps be possible to achieve the export target of 850 million yards. Steps are, however, being taken to boost exports. Government have formulated an incentive scheme for all textile items including non-fabrics. The procedure for grant of import entitlements has been further simplified. It has also been decided to replace plain looms by automatic looms (7,500) provided the mills undertake to export 50 per cent of their production at the rate of 13,333 yards per loom per year and give a bank guarantee for the fulfilment of the obligation.

*Jute :* A capacity target of 1·2 million tons on single shift and production target of 1·3 million tons have been set for the jute industry for 1965-66. The present production of jute manufactures is 1·1 million tons. Due to a record jute and mesta crop of the order of 79·74 lakh bales in 1961-62, the production and export of jute went up in 1962-63. With the return to normal conditions and availability of plentiful supplies of raw materials, the jute industry has been able to dispense with restrictive measures of production and to utilise all its looms without compulsory ceiling.

A Committee was set up in 1962 to recommend steps necessary to enable the jute industry to fulfil its export target of 900,000 tons per annum. The Committee has submitted its report which is under the consideration of the Government.

*Rayon Filament and Staple Fibre :* The present installed capacity of rayon filament is 76·7 million pounds and that of staple fibre 56 million pounds. The demand for rayon filament by the end of the Third Plan is estimated at 140 million pounds and for staple fibre at 75 million pounds. On the assumption of 100 per cent utilisation of capacity, the capacity targets have been placed at 140 million pounds of filament and 75 million pounds of staple fibre for 1965-66. As against the targets mentioned above, schemes have been licensed to increase the capacity for rayon filament to 156·4 million pounds and for staple fibre to 62·2 million pounds. However, on the basis of the progress made in the implementation of schemes, capacity of 148·4 million pounds for rayon filament and 70·2 million pounds for staple fibre may be expected by the end of the Third Plan period.

In view of the likelihood of a shortfall in cotton target, the Ministry of C. &. I proposed that the target for staple fibre should be increased from 75 million pounds to 136 million pounds. The proposal of the Ministry has been agreed to in principle by the Planning Commission subject to certain conditions.

*Rayon Grade pulp :* The requirements of rayon grade pulp are at present entirely met by imports. To meet the requirements of the rayon and cellulose film industry it was estimated that capacity of the order of 100,000 tons would be established by 1965-66. However, though a number of schemes with a total capacity of the order of 300,000 tons has been licensed, progress on the implementation of these schemes has been very slow. It is estimated that capacity of 61,000 tons only is likely to materialise by the end of the Third Plan period and that there would be substantial shortfall in the targets.

*Sugar :* The existing capacity of the sugar industry is placed at 2·67 million tons of sugar per annum. In addition, schemes have been licensed which will increase the capacity of the industry to 3·35 million tons. The target for the sugar industry is 3·5 million tons. There is, therefore, a gap of 0·15 million tons still to be filled in for achieving the target. This gap is expected to be higher as some of the licensed schemes may not fructify.

A record production of about 3 million tons of sugar was achieved in 1960-61. This was possible because of an abundant availability of sugar-cane and longer crushing season that year. As this resulted in fairly heavy stocks of sugar, further licensing of sugar was suspended. Since then however, sugar production has gone down and was 2·7 million tons in 1961-62. The production in 1962-63 is estimated at 2·3 million tons. The export outlook has meanwhile considerably improved and stocks at the end of the current season are expected to be slow. In view of this, the licensing of further capacity is under consideration. With the licensing of additional capacity, the target in the Third Plan is expected to be achieved.

In view of the shortage of conventional raw materials, the expansion of the paper and newsprint industry has to be based on utilisation of bagasse. Schemes have already been licensed for the manufacture of newsprint and paper based on bagasse. The sugar factories are, however, not interested in the supply of bagasse to outside agencies due to uncertainty of availability of coal and its higher price compared to bagasse. Ways and means are under consideration to facilitate the release of bagasse for manufacture of paper and newsprint by providing alternative fuel *i.e.* furnace oil to the sugar factories at competitive price.

*Machine-building :* The programme for machine-building included in the Third Plan covers the establishment of projects for the fabrication of steel plants, fertiliser plants chemical plant equipment, heavy electrical equipment, mining machinery, machine tools and a variety of machinery for industries like cement, sugar, paper and textiles.

The heavy machinery project under construction at Hathia in collaboration with the Soviet Government is designed to produce 45,000 tons of machinery items in the first stage and 80,000 tons of machinery in the second stage. The plant is intended to produce machinery and equipment primarily for the iron and steel industry but it would also have the capacity to meet the requirements of other industries like mineral oil, coal mining chemicals, fertilisers, cement cranes and excavators. Considerable progress has been made in the civil construction work in regard to this project and installation of equipment has already started. It is proposed to start initially production of items like overhead electric cranes, oil drilling rigs from the latter half of 1963-64. The full output of this project is expected to be reached only by the middle of the Fourth Plan.

As regards the coal mining machinery project which was initially designed to produce 30,000 tons of coal mining machinery, the capacity is proposed to be expanded to 45,000 tons per annum in the second stage. Full output from this project is, however, expected to be reached only by the middle of the Fourth Plan, though the unit is expected to go into production in 1964-65.

Another important public sector project in the machinery field is the heavy structural, heavy plates and vessels works. This scheme is of crucial importance because it has to provide facilities for the fabrication of plant and equipment for chemical and fertiliser factories. No progress has, however, been made on this scheme and it is not likel to be completed by the Third Plan. Early efforts have to be made to define the scope of the project and to arrange credit for its implementation.

The Government is currently examining a proposal to expand the capacity of the Heavy Electrical Plant at Bhopal to an output of Rs. 50 crores. It has been proposed that the manufacture of steam turbines should be undertaken under this expansion programme initially. The Bhopal factory is expected to reach its full rated capacity by the end of the Fourth Plan. The detailed project report on the Ranipur heavy electrical plant is being examined by the Government. It envisages the manufacture of steam turbines and generators for an annual output of 1·5 million Kw hydro turbines and generators for a total output of 1·2 million Kw and medium and large-sized industrial motors for an annual output of 0·52 million Kw. The construction of the project is expected to be completed by 1966.

The Heavy Electrical Project at Ramachandrapuram was originally planned for the production of steam turbines of lower ratings. The project report was received in September, 1962. It has, however, been decided to modify the production programme with emphasis on the production of higher ratings. The project report is accordingly being revised. Because of this delay this project may not be completed in the Third Plan period.

The high pressure boiler project at Tiruchirapalli is planned for the production of high pressure boilers for a total capacity of 0·75 million Kw. The project report has been accepted by the Government in principle subject to certain modifications in regard to the scope of the project. A formal agreement for the supply of plant and equipment is expected to be reached with Czechoslovakia shortly. Initial production is to start in 1965.

*Cotton Textile Machinery :* The capacity and production target of Rs. 22 crores and Rs. 20 crores respectively are expected to be realised. The actual production of the industry currently is Rs. 13 crores.

*Sugar Mill Machinery:* The present capacity in the industry is equivalent to 14 new standard plants per annum. The manufacture of most of the components, including the manufacture of centrifugal and heavy duty gears for the milling plant has been undertaken. The imported component of complete machinery is less than 20 per cent. The target in this industry will be fully achieved.

*Cement Machinery :* The capacity and production target for cement machinery have been placed at Rs. 4·5 crores each to be achieved by 1965-66. Four manufacturers are at present equipped to take orders for the supply of complete cement plants of 600 tons capacity per day by the end of the Third Plan. Capacity for fabricating complete plants, 9 plants per year, would be available. On this basis, it is estimated that the capacity available by 1965-66 would be about Rs. 8 crores per annum.

There has also been improvement in the indigenous content of the cement plants produced in the country. Until recently foreign exchange of the order of Rs. 60 lakhs was released per standard plant. This has now been brought down to Rs. 45 lakhs and is expected to be further brought down by 1965-66.

*Paper Machinery:* Twenty-three firms with an aggregate capacity of about Rs. 25 crores per annum have been licensed for the manufacture of paper machinery. Some of these schemes are not expected to materialise. Even so, the production target of Rs. 65 crores is expected to be realised by 1965-66.

In respect of other items of industrial machinery like rayon machinery cranes, structural fabrication, the capacity targets are not likely to be reached and there will be shortfalls.

*Machine Tools :* The development programme of this industry under the Third Plan envisages capacity and production valued at Rs. 30 crores by 1965-66 (exclusive of the contribution from

the small sector valued at Rs. 5 crores for that year). The output from the public sector was envisaged at Rs. 16 crores and the private sector was expected to contribute Rs. 14 crores.

The projects included in the public sector are: the expansion of the Hindustan Machine Tools Factory, the establishment of a second machine tool factory at Pinjore in Punjab and at the heavy machine tool factory at Ranchi. It was also envisaged that one or two more machine tool factories would be set up—details were still to be worked out—during the Third Plan.

The expansion of the Hindustan Machine Tool was completed in 1961-62. The Pinjore factory is under construction and is expected to be ready for production by the end of 1963.* It has been decided to set up under the aegis of the Hindustan Machine Tools a fourth factory in Kerala with an annual output of Rs. 3 crores. This factory is also expected to go into production in the Third Plan period. The establishment of a fifth machine tool factory at Secunderabad has been accepted in principle. The detailed time schedule for this factory is being worked out.

As regards the heavy machine tool factory at Ranchi which is being planned for a capacity of 10,000 tons, the detailed project report has been received. A formal agreement with the Czech Government for the supply of plant and machinery is expected to be entered into shortly. The plant is expected to go into trial production in 1965-66.

The progress in the private sector has, however not been satisfactory. It is unlikely that the output of Rs. 14 crores envisaged under the private sector would be forthcoming by 1965-66.

Against the target of Rs. 30 crores the output of machine tools by 1965-66 is now expected to be about Rs. 25 crores.

*Shipbuilding:* The programme under shipbuilding envisages the expansion of the Hindustan Shipyard and the construction of a dry dock at Visakhapatnam. It was expected that with the completion of these, the Visakhapatnam shipyard would be capable of producing ships of a total tonnage of 50,000 to 60,000 dwt per year. A second shipyard at Cochin at an estimated cost of Rs. 20 crores was also included in the Third Plan.

The expansion of the Hindustan Shipyard is in progress. Its annual capacity is at present of the order of 30,000 to 35,000 dwt. It is expected that the expansion programme would be completed by the end of the Third Plan period.

As regards the second shipyard, part of the land to be required has been acquired. A project report submitted by the Mitsubishi Shipbuilding and Engineering Company is under examination. The technical and financial details concerning the project are expected to be settled shortly. The shipyard is expected to be completed early in the Fourth Plan.

*The Automobile Industry:* The production target for passenger cars, commercial vehicles, jeeps and station wagons is 30,000, 60,000 and 10,000 respectively. The expansion of commercial vehicle capacity is of high priority in the context of expanding transport facilities. The expansion of the existing units to about 60,000 has recently been approved. Foreign exchange release to the extent of Rs. 23·8 crores has been made to the main automobile manufacturers. Further release of foreign exchange to complete the expansion programme already approved is under consideration. It is expected that World Bank assistance may be available for this purpose.

On the basis of the progress made so far, it is unlikely that the production of more than 54,000 commercial vehicles will be possible by 1965-66. As regards the increase in indigenous content, it is expected that with the foreign exchange release already made, the target of 90 per cent indigenous content by 1965-66 would be achieved. In the case of passenger cars on account of the low priority of the industry for foreign exchange release, it may not be possible to increase production beyond 25,000 as against the target of 30,000.

*Ball and Roller Bearings:* A production target of 15 million has been fixed for 1965-66. As against this there are at present only two units with an installed capacity of 3·5 million. The industry has been assigned priority in the release of foreign exchange. It is expected that a capacity of the order of 12 million would be available by 1965-66.

No progress has, however, been made so far in the public sector project included in the Third Plan for the manufacture of ball bearings. Russian credit is now likely to be available for this project. The project can, however, materialise only in the Fourth Plan.

*Bicycles:* The production target for bicycles to be achieved by 1965-66 is 2 million. The production of bicycles has not shown any appreciable increase in the last three years. At the present price level the current production seems to be meeting the demand. It is felt that unless the prices of bicycles are brought down it would not be possible to achieve the production target.

### PLAN SPENDING IN STATES IN 1964-65

The pace of Plan spending during 1964–65 in the States will be considerably stepped up, to take it to 78 per cent of the total outlay, compared with nearly 54 per cent in the first three years.

The Planning Commission has approved of accelerated expenditure because of the lag in the initial years. The total Plan outlay for States is Rs. 3,847·5 crores, of which Rs. 2,071 crores would have been spent by the end of the current financial year.

The improvement in the overall spending in four years covers a varied pattern in the individual States, with one State exceeding the total Plan outlay, two States spending over 90 per cent, six States over 75 per cent, but less than 90 per cent, and six other States 75 per cent or less.

Orissa would have spent 103 per cent by 1964–65. West Bengal and Madras would have done well, with an expenditure of 95 per cent and 91 per cent, respectively. The expenditure in Andhra Pradesh would have been 77 per cent, Assam 84 per cent, Gujarat 79 per cent, Kerala 77 per cent, Mysore 77 per cent, and Maharashtra 76 per cent. States spending 75 per cent or less would be Punjab (75 per cent), U.P. (73 per cent), Madhya Pradesh (72 per cent), Jammu and Kashmir (71 per cent), Bihar (70 per cent) and Rajasthan (65 per cent).

The financial assistance from the Centre to the States next year is placed at Rs. 558·5 crores. Additionally, a special allocation of Rs. 15 crores for agriculture and Rs. 1·5 crores for social services are being made. The total assistance in the first three years was Rs. 1,221 crores, leaving a balance of Rs. 595·5 crores for the last year of the Plan. The original assistance ceiling was Rs. 2,431 crores but it was subsequently scaled down to Rs. 2,375 crores.

# FOURTH PLAN

## INTRODUCTION

The Memorandum on the Fourth Five Year Plan prepared by the Planning Commission in October 1964 was considered by the National Development Council on Oct. 27 and 28, 1964. While generally endorsing the proposals of the Planning Commission regarding the size and objectives of the Fourth Five Year Plan, the Council laid special emphasis on according top priority to agricultural development and providing resources and inputs sufficient to achieve a rate of growth of not less than five per cent per annum in regard to agricultural production. The Council also decided that in the field of social services, priority should be given to family planning, technical education and supply of drinking water in both rural and urban areas.

The National Development Council, while recognising the need for a development effort of the dimensions indicated in the Memorandum, also noted that the tentative estimate of resources available at that time did not seem adequate to finance a total outlay of the order of Rs. 22,500 crores. It was felt that if a total outlay of the order of Rs. 22,500 crores was to be made feasible, a careful study of the scope for raising additional resources for the Plan should be made and total size of the Plan effort should be determined on the basis of non-inflationary sources of finance likely to be available to the public and private sectors.

In pursuance of these suggestions, the National Development Council constituted Five sub-Committees to consider respectively—(*a*) Agriculture and Irrigation, (*b*) Industry, Power and Transport, (*c*) Social Service, (*d*) Resources (*e*) Development of Hill areas.

The Council further suggested that the Central Government should indicate the directions in which additional resources might be raised by States in the Fourth Plan so that a broadly uniform all-India approach to resource mobilization might be evolved.

Subsequently, the various sub-Committees set up by the Council, have, along with the Planning Commission and the concerned Central Ministries, re-examined the sectoral programmes of development as well as questions relating to aggregate resources for the Plan.

The preliminary memoranda of the States together with the tentative estimates of States' resources were discussed by the Planning Commission with each State in a series of meetings held during June/July 1965. With the assistance of the members of the National Planning Council, Central Ministries and various other agencies in the public and private sectors, the Commission has examined in considerable detail the physical contents of the sectoral programmes which could be undertaken in the Fourth Plan period, keeping in mind the administrative and financial constraints that may be relevant to the Plan as a whole.

These discussions and deliberations have led to certain alterations in the total outlay in the sectoral allocations which had been set out in the Memorandum.

## SIZE OF THE PLAN OUTLAY

The Planning Commission is of the view that a firm decision on aggregate Plan outlay should now be taken so that a Draft Outline of the Plan can be drawn up in greater details and on the basis of closer estimates. The Planning Commission considers that with necessary effort it would be possible to mobilize adequate resources for a total Plan outlay of Rs. 14,500 crores in the public sector and Plan investment of Rs. 7,000 crores in the private sector over the five year period.

If the total Plan outlay is to be contained within the ceiling of Rs. 21,500 crores, it will obviously be necessary to adjust downwards some of the physical target set out in the Plan Memorandum. It is proposed to make these adjustments in such a way that two essential conditions are satisfied; firstly, requisite financial resources are fully provided for activities like agricultural development, family planning, export promotion, drinking water supply, etc., for which very high priority has to be accorded, and secondly emphasis is laid in all sectors on securing the largest possible increase in output from investments already made or from investments to be undertaken in the initial years of the Fourth Plan. In other words, the larger part of the impact of bringing down Plan outlay from the Memorandum-aggregate of Rs. 22,500 crores to the level of Rs. 21,500 crores now considered feasible, is likely to fall on programmes and activities the benefits from which will accrue in the Fifth Plan period.

* Has since gone into production.

The size and pattern of outlays proposed for the Fourth Plan in the public and private sectors are given below :

**TABLE A**

(Rs. crores)

| | Public Sector | | | Private sector investment | Total investment | Total Plan outlay (public and private sectors) |
|---|---|---|---|---|---|---|
| | Total | Current outlay | Investment | | | |

| Rehabilitation | 69 | 15 | 54 | .. | 54 | 69 |
| Miscellaneous | 79 | 25 | 54 | .. | 54 | 79 |
| Inventories | * | * | * | 1,200 | 1,438 | 1,496 |
| | 296 | 58 | 238 | 1,200 | 1,438 | 1,496 |
| Grand total | 14,500 | 2,466 | 12,034 | 6,980 | 17,014 | 21,480 |

* Part of the inventories under the public sector is caused in sectoral outlays and part will also be financed through the banking system.

The total outlay indicated above may be compared with the provision in the Memorandum of Rs. 22,600 crores (Rs. 15,620 crores public sector and Rs. 6,980 crores private sector). It may also be compared with the Third Plan provision of Rs. 11,600 crores (Rs. 7,500 crores public sector and Rs. 4,100 crores private sector). Investment in the private sector has been kept at the same figure as indicated in the Memorandum. A technical committee has been set up to examine this investment.

A table showing the comparative provisions in the Third Plan, the Memorandum and the proposals now made under each head of development, together with the percentage distribution is given below :

**Public Sector Outlay**

**TABLE B**

(Rs. crores)

(a) Part of the inventories is covered in sectoral outlays and part will also be financed through the banking system.

It is proposed that in the Fourth Plan maximum efforts be made to secure a large growth in the agricultural sector, with a view to reducing and even obviating the need for the import of foodgrains at the end of the Plan period and also to give necessary support for larger exports of commercial crops. A new head has been suggested—Rural Manpower Programmes, Hill Areas and Special Areas. A provision of Rs. 148 crores is being made under this head and is intended to utilise rural manpower resources for productive activities and for building community assets in the rural areas, providing at the same time employment opportunities for some of the increased labour force in the countryside. Steps will also be taken to accelerate the economic development of Hill Areas and Special Areas.

The distribution of outlays between the Centre, the States and the Union Territories under different heads of development can be estimated with precision after the Plans have been examined and accepted in consultation with the Central Ministries and Governments of States and Union Territories.

On the existing basis of classification of Centrally sponsored, Centrally aided and State Plan schemes, a very tentative distribution of Plan Outlays under the Centre, States and Union Territories is indicated in the table below:

FOURTH PLAN OUTLAY—CENTRE, STATES AND UNION TERRITORIES

(Rs. crores)

| | Centre | States | Territories | Total |
|---|---|---|---|---|
| Agriculture | 325@ | 1,987@ | 60@ | 2,372 |

| Total | 1,123 | 1,751 | 177 | 3,051 |
| Rural Works, Hill Areas Backward regions and Special Areas Programmes | 70 | 64 | 14 | 14 |
| Rehabilitation | 69 | .. | .. | 69 |
| Miscellaneous | 45 | 33* | 1 | 79 |
| Total | 184 | 97 | 15 | 296 |
| Grand Total | 7,157 | 6,966 | 37 | 14,500 |

@ Certain proposals which have been received from the Central Ministry of Food and Agriculture for the allocation of Central and Centrally sponsored sectors of the Plan, are still under discussion. Consequently, this distribution of outlays is liable to be altered. * Includes outlay on State Capital Projects.

**Third Plan Targets, Likely Achievement, Fourth Plan Targets as in Memorandum and Target as Now Proposed.**

The following is the selected targets of production and development (in the order of head of development, unit, 1965-66 target, likely achievement, 1970-71 target as in Memorandum and target as now proposed).

*Agriculture:* Foodgrains—m. tonnes; 100; 92; 120; 120; cotton—lakh bales; 70·55; 63·40; 65; 85; sugarcane (gur)—lakh tonnes; 100; 110; 135; 135; oil seeds—lakh tonnes; 98·2; 75; 100; 100; Jute—lakh bales; 62; 22; 80; 80; nitrogenous fertilisers consumed—m. tonnes; 1·00; 0·65; 2·00; 2·00; phosphatic Fertilisers consumed—m. tonnes; 0·50; 0·25; 1·00; 1·00; potassic fertilisers consumed—m. tonnes; 0·20; 0·15; 0·35; 0·35; irrigation (additional utilization) (gross)—m. acres; 25·60; 21·50; 28·00; 26·00; soil conservation—m. acres; 11·00; 11·80; 20·00; 20·00; land reclamation—m. acres; 3·60; 3·00; 2·50; 2·50; extension of area through double cropping—m. acres; ..; ..; 22·50; 22·50; area under improved seeds-foodgrains—m. acres; 204·00; 164·00; 274·00; 274·00; organic and green manures (*a*) green compost—mln. tonnes; 5·00; 4·42; 5·40; 5·40; (*b*) green manures—mln. acres; 41·00; 27·90; 64·00; 64·00; plant protection—mln. acres; 50·00; 40·00; 160·00; 160·00.

*Irrigation and Power:* Electricity: (*a*) installed capacity—m.k.w.; 12·7; 10·3; 22; 21; (*b*) generated—m.k.h.; 45,000; 39,000; 88,000; 82,000; Irrigation: (*a*) cumulative potential at outlet (gross)—mln. acres; 29·5; 11·84; 14 (addl.); 13·0 (addl.); (*b*) cumulative utilisation (gross)—mln. acres; 22·8; 15·0; 11 (addl.); 9·0 (addl.).

*Small Industries:* Handlooms, powerlooms and khadi—Production (mln. yds.); 3,500; 3,500; 5,000; 5,000; exports (Rs. crores); ..; 12·0*; ..; 20·00*; sericulture—production (lakh kgms.); 23·0; 21·5; ..; 31·0; exports (Rs. crores); ..; 3·0; ..; 4·5; Coir—exports (Rs. crores); 9·5; 12·0; ..; 16·0; handicrafts—exports (Rs. crores); ..; 24·0; ..; 32·0; industrial estates—no. of new estates; 300; 200; ..; 300**.

*Transport and Communications:* Railways—Freight traffic; mln. tonnes; 249; 206; 355; 320; roads—surfaced roads; ooo kms.; 270; 281; 331; 331; road transport—Commercial vehicles on the road; buses; 000 Nos.; 80; 73; 126; 110; trucks; 000 Nos.; 365; 328; 596; 570; major ports: handling capacity; mln. tonnes; 50; 60; 86 to 89; 79 to 80; shipping: tonnes; 50; 60; 86 to 89; 79 to 80; shipping: coastal; lakh grt; 3·2; 4·0; 4·5; 4·5; oversees; lakh grt; 10·4; 15·0; 30·0; 30·0; Civil air transport: Air India—available capacity; mln. tonnes km.; N.S.; 348; 594; 594; Indian Airlines Corporation—available capacity; mln. tonnes km.; N.S.; 185; 270; 342; communications: post offices; 000 Nos. (addl.); 17; ..; 15; 12; telephone connections; 000 Nos. (addl.); 300; 350; 700; 650; public call offices; 000 Nos. (addl.); 2; 2; 3; 2.

*Education:* A. Elementary Stage: (*i*) enrolment in classes I-V; lakhs; 502·9; 515; 150; 705; (*ii*) percentage of age group (6-11); 76·4; 78·5; ..; 93·5; (*iii*) enrolment in classes VI-VIII; lakhs; 101·6; 110; 65; 190; percentage of age group (11-14); 29·8; 32·2; ..; 47·4; B. Secondary Education: (*i*) enrolment IX-XI; lakhs; 46·1; 52·4; 38; 90; (*ii*) percentage of the age-group (14-17); 15·7; 17·8; ..; 22·1; C. University Education: (*i*) enrolment in arts, science and commerce; lakhs; 10·82; 11; 4; 16*; (*ii*) percentage of the age-group (17-23); 1·9; 1·9; ..; 2·5‡; D. Technical Education (admission capacity)† (*i*) diploma courses; No.; 37,390 (no targets were laid down); 51,450 (2,500); 17,900 (7,100); 71,700 (18,500); degree courses; No.; 19,140 (no targets were laid down); 27,850 (3,000); 11,700 (1,400); 34, 650 (6,500).

*Health:* Hospital beds (including beds for PHCS); 000 Nos.; 240·1; 240·1; 240·0; 300·0; 300·0; doctors; 000 Nos.; 81·0; 86·4; 131·4; 131·4; nurses; 000 Nos.; 45·0; 45·0; 87 to 90; 87 to 90; aux. nurse midwives and midwives; 000 Nos.; 48·5; 35·0; 95·0; 95·0; dais/nurse dais; 000 Nos.; 40·0; 30·0; 280·0; 280·0; health visitors; Nos.; 3,500; 3,500; 3,700; 3,700.

*Housing:* Subsidised industrial housing; no. of houses; 73,000; 56,000; 1,50,000; 1,50,000 slum clearance; no. of houses; 1,26,000; 90,000; 4,00,000; 3,50,000; low income group housing; no. of houses; 75,000; 45,000; 2,50,000; 2,25,000; village housing; no. of houses; 1,25,000; 30,000; 3,50,000; 3,25,000; plantation labour housing; no. of houses; 3,200; 1,400; 75,000; 50,000.

**Targets of Capacity and Production for Selected Industries**

Selected targets of capacity and production for selected industries in the order of item, unit, capacity, likely achievement of production, capacity target as in Memorandum, capacity as now proposed and production as now proposed:

*Metals:* Iron and steel: (*a*) steel ingot—000 tonnes; 8,900; 7,100; 16,500; 14,600; 13,000; (*b*) finished steel—000 tonnes; 6,600; 5,300; ..; 11,000; 10,000; (*c*) pig iron for sale—000 tonnes; 1,200; 1,200; 4,000; 3,200; 3,200; Alloy, tool and stainless steel (finished)—000 tonnes; 50; 35; 500; 500; 400; Aluminium—000 tonnes; 73; 80; 240; 263; 260.

*Mining:* Iron ore mln. tonnes; ..; 22; 54; ..; 56; Coal—mln. tonnes; ..; 67; 125; ..; 113.

*Machinery:* Commercial vehicles—000 Nos.; 44; 40; 100; 100; 100; generators—thermal—000 kw; 600; ..; 2,900; 3,000; 1,500; generators—hydro—000 kw.; 500; ..; 1,700; 1,700; 1,200; turbines—steam—000 kw.; 600; ....; 2,900; 3,000; 1,500; turbines—hydro—000 kw.; 500; ..; 1,700; 1,700; 1,200; transformers 33 kv and below—'000 KVA; 3,000; 3,500; 8,500; 6,000; 5,000; machine tools (organised sector)—Rs. mln.; 376; 300; 900; 1,100; 1,000; metallurgical and other equipment—'000 tonnes; 30,; 15; 106; 100; 60; Coal and other mining machinery—'000 tonnes; 45; 12·5; 45; 60; 45; cotton textile machinery—Rs. mln.; 400; 280; 500; 500; 450; paper machinery—Rs. mln.; 73; 22; 250; 400; 300; sugar machinery—Rs. mln.; 175; 90; 250; 250; 220; cement machinery—Rs. mln.; 178; 45; 200; 300; 280; agricultural machinery: (*a*) agricultural tractors—'000 nos.; 15; 6; 25; 40; 40; (*b*) power driven pumps—'000 nos.; 180; 180; 300; 350; 350; (*c*) diesel engines (stationary)—'000 nos.; 150; 80; 140; 200; 200; fertilisers: (*a*) nitrogenous (in terms of N)—'000 tonnes; 586·5; 300; 2,200; 2,300; 2,000; (*b*) phosphatics (in terms of $P_2O_5$)—'000 tonnes; 270; 200; 1,000; 1,000; 1,000; drugs and pharmaceuticals—Rs. mln.; 1,750; 1,000; 3,000; 2,500; 2,500; paper and paper board—'000 tonnes; 680; 530; 1,350; 1,250; 1,100; newsprint—'000 tonnes; 30; 30; 165; 165; 150; cement—mln. tonnes; 13·0; 11·5; 30·0; 25·0; 23·0; Cotton textiles; Cotton fabrics (mill-made)—mln. metres; 2·18@;

* Figures of exports pertain to handloom cloth only. ** Including cooperative industrial estates.

N.S.—Not specified. ‡ Including 1·5 lakh students to be educated through correspondence Courses. † The admission capacity includes facilities for correspondence and part-time courses. These are shown in brackets. @ Lakh looms.

## FINANCIAL RESOURCES FOR THE PLAN

In their report to the Planning Commission, the Resources Working Group have indicated that the size of the Fourth Plan could be Rs. 21,500 crores provided an effort is made to mobilize internal resources of Rs. 3,000 crores through additional taxation and other measures and provided foreign assistance of the order of Rs. 4,000 crores is available. They have also assumed, on the basis of the studies made by the Reserve Bank of India, that private savings of the order of Rs. 7,000 crores would be directly available for private investment. As visualised by the Group, the total resources of the Fourth Plan are as follows (Rs. crores): Public sector resources at existing rate of taxation 11,500 ; additional taxation 3,000 ; total public sector 14,500 ; private investment 7,000 ; total Plan outlay 21,500.

A small technical committee of officers from the Ministry of Finance, Planning Commission and the Reserve Bank of India, has been set up to work out proper estimates of private savings and investment in the Third Plan period as well as likely sources of finance for private investment envisaged for the Fourth Plan period. In the meantime, the Commission has maintained Plan investment in the private sector as in the Memorandum, viz. at Rs. 7,000 crores.

Concentrating on the public sector, the summary picture with regard to the availability of internal resources during the Fourth Plan period as indicated by the Resources Working Group is as follows :

*Resources available for the Fourth Plan (Rs. crores) :* Balance from current revenues at existing rates of taxation 2,755 ; surpluses of public enterprises at present prices of products : Railways 405 ; Central undertakings other than railways 720 ; State undertakings 250 ; total 1,375 ; Capital receipts : (*i*) Market loans (net) 1,500 ; (*ii*) Small savings (net) 1,000 ; (*iii*) Annuity deposits (net) 200 ; (*iv*) Provident Funds (net) 540 ; (*v*) Miscellaneous capital receipts (net) 860 ; (*vi*) Additional mobilization under each of the above heads for Reserve Bank support to Government loans 500 ; total 4,600 ; Budgetary receipts corresponding to external assistance 2,750 ; Total resources (without additional taxation) Rs. 11,480 or say 11,500.

The Planning Commission has considered it necessary to allow for the possibility of a reduction in the balance from current revenues at the Centre as a result of the Fourth Finance Commission's award, while keeping the rest of the Resources Working Group's estimates unaltered. For this reason the Commission has taken the view that the resources likely to be available to the public sector at the base level (that is to say, apart from additional taxation) may be Rs. 10,850 crores or Rs. 650 crores less than the Rs. 11,500 crores estimated by the Resources Working Group.

As regards additional resource mobilization, the Resources Working Group has suggested a figure of Rs. 3,000 crores over the five year period. The National Development Council Sub-Committee on Resources has also recommended that an additional resource mobilization of this order should be undertaken in the Fourth Plan period. Because of the adjustment that has to be made to provide for the Finance Commission's award additional resource mobilization of Rs. 3,000 crores by the public sector will not fully cover the public sector's Plan outlay of Rs. 14,500 crores. The Planning Commission considered this matter most carefully and is of the view that through more intensive effort at economy in public expenditure, better administration of taxes and public enterprises and, if necessary, additional measures of resources mobilization, a further amount of Rs. 650 crores may be made available for Plan purposes and the anticipated Plan expenditure in the public sector be taken at Rs. 14,500 crores for working out the final details of the Plan.

The major question to be decided on the resources for the Fourth Plan relates to the task of additional mobilization. The performance of this task requires the taking of hard decisions at the political and administrative levels. It is therefore of the utmost importance that a firm view is taken on this matter by the National Development Council. In general terms, the Plan, if implemented with speed and determination, should result in national income growth of the order of 6·5 per cent per annum. Even if a cautious view is taken and the likely increase in national income over the Fourth Plan period is projected at a rate of 6 per cent per annum, the level of national income would rise from an estimated Rs. 21,000 crores in 1965-66 to Rs. 28,000 crores in 1970-71 (both at 1965-66 prices). To ensure non-inflationary financing of the Plan, it will be necessary to aim at securing about 27 per cent of these additional incomes for purposes of investment, leaving the other 73 per cent or so to add to consumption standards within the country.

It will be necessary in the Fourth Plan period to raise the proportion of total investment to total national income to about 17 per cent by the end of the Fourth Plan as compared to about 14 per cent at present. Correspondingly, domestic savings as a proportion of national income has been raised from around 10·5 per cent at the end of the Third Plan to about 15 per cent at the end of the Fourth Plan. A good part of the increase in domestic savings has to be secured through additional taxation going into public savings. Tax receipts as a proportion of national income have risen steadily to nearly 13 per cent in 1965-66. Without additional taxation, this percentage would rise to about 15 by the end of the Fourth Plan as receipts from income and corporation taxes, excise duties, sales tax, electricity duties, etc. are likely to grow at a more rapid rate than national income. The additional tax effort visualised would require the raising of tax receipts as a percentage of national income further, to around 18 per cent by the end of the Fourth Plan. It may be pointed out that, for achieving a cumulative total of Rs. 3,000 crores over the five-year period, measures yielding new revenues of the order of Rs. 200 to Rs. 230 crores will have to be introduced in each of the five years.

The problem of external resources is likely to be a difficult one during the Fourth Plan period. Detailed studies relating to exports indicate that export earnings during the Fourth Plan period may aggregate to Rs. 5,100 crores, rising to a level of Rs. 1,100 crores in 1970-71 from an estimated level of a little over Rs. 840 crores in 1965-66. Requirements of maintenance imports, including imports of components needed for the manufacture of industrial machinery and transport equipment, have been estimated at a total of Rs. 5,300 crores for the Fourth Plan period. These calculations are based on the assumption that a strict import policy will continue to be followed during the Plan period, and that imports of consumer goods and of raw materials for the manufacture of a number of consumer items will be held down at restricted levels.

Our external debt servicing obligations by way of interest payments and repayment of capital are estimated at Rs. 1,350 crores during the Fourth Plan period. While the great bulk of these payments will be on account of external loans already contracted, some provision has been made in the calculations for interest charges to be paid on new loans to be obtained during the Fourth Plan period. Of the total, interest payments are estimated to account for Rs. 650 crores and capital repayments of Rs. 750 crores. Other items on invisible and Capital account are expected to be more or less in balance during the Fourth Plan period.

It will be seen from the above that there is not only a gap of Rs. 200 crores on the maintenance account but also a Foreign exchange outflow of Rs. 1,350 crores to meet debt servicing obligations. Foreign exchange resources by way of external assistance have thus to be found not only to meet these payments, but also to finance the imports required for the projects and programmes included in the Plan. Firm indications are not yet available of the total quantum of external assistance, including private foreign capital, likely to be forthcoming during the Fourth Plan period. Our present assumption in drawing up the Fourth Plan, however, is that an aggregate amount of Rs. 4,000 crores of gross external assistance may be available. While this assumed figure of gross external assistance is substantially larger than the amount of Rs. 2,600 crores of gross assistance received during the Third Plan, the requirements of net assistance after allowing for interest payments and repayments of capital are not very much larger as compared to the Third Plan. The corresponding figures of net assistance are Rs. 2,100 crores for the Third Plan and Rs. 2,650 crores for the Fourth Plan — a step-up of Rs. 550 crores from the Third to the Fourth Plan period. This moderate increase in net external assistance may be viewed against the much larger step-up in aggregate investment from the Third to the Fourth Plan period —from a level of Rs. 10,000 crores to Rs. 19,000 crores.

## PLAN GAPS

The Planning Commission is reported to be of the view that whatever be the prospects at the moment, net external aid of the order of Rs. 2,500 crores is essential during the Fourth Plan to fill gaps in the production structure.

The planners also feel that adequate non-project assistance should be available for maintenance imports to utilise the existing capacity both productive and fabricating.

Imports of special and alloy steels and other raw materials covered by united aid would help push through some of the key projects and produce engineering and chemical goods without adversely affecting the Fifth Plan, according to them.

The external assistance requirements for the Fourth Plan are broadly assumed at Rs. 4,000 crores covering the Aid India Consortium countries, the communist bloc and the World Bank. Of this, Rs. 1,500 crores are required for debt servicing during the Fourth Plan.

## POLICY QUESTION

While negotiations have taken place with the Soviet Union and Czechoslovakia on aid for the Plan, the position on aid from the Western countries is not yet clear. No discussion is likely to take place until the suspension of aid by some of them, notably the U.S., comes to an end.

One major policy question that is receiving attention at present is whether India should go in for more of bilateral aid or the consortium type assistance. No firm conclusions are yet available.

The then Finance Minister, who visited Czechoslovakia and the Soviet Union, had plans to visit Japan early in January 1966. It is likely that the present Finance Minister may visit Japan, France and West Germany. Even if the existing consortium arrangement is to be continued, bilateral efforts are considered necessary for a proper appraisal of India's needs and performance.

The Soviet and Czech aid for the Fourth Plan covers both project and non-project assistance and trade. The Soviet assistance will also cover defence hardware and the provision of components and spares for industries set up with its collaboration, it is learnt.

The formulation of the Fourth Plan has to some extent been tied up with the prospects of foreign aid. If external assistance of the assumed level is not forthcoming, the Plan would undergo changes. The Commission is already engaged in

several exercises on import substitution and indigenous know-how as part of the efforts to reduce external assistance.

Normally, a World Bank team should have visited India in September-October for discussions on the progress of the Third Plan followed by another team before the end of the year to assess the requirements of aid for the Fourth Plan.

If economic aid is resumed by countries like the U.S., it is expected these teams might come to India in the next three or four months.

## PLAN OUTLINE

Meanwhile, the Planning Commission hopes to bring out the outline of the Plan in April and the final Plan document in July/August. The original schedule to publish the final Plan in April has been upset by the Indo-Pakistani conflict.

A clearer picture of external assistance is likely to emerge early in 1966. The U. S. Government is likely to invite India's new Prime Minister soon after the election on January 19.* Economic development is expected to figure in the talks between the new Prime Minister of India and President Johnson during the former's visit to the U.S.

One of the matters which is likely to be considered in the context of external assistance is in the area of debt servicing, such as the portion of interest that might be paid and the part that might be capitalised.

But, according to Commission sources, it would be necessary to ensure that the net aid available fulfils the Plan assumption and that an adequate share of maintenance imports is provided for. In the latter event, industrial production is expected to go up by Rs. 500 crores, according to one estimate.

If the assistance turns out to be of the same order as in the Third Plan (Rs. 2,600 crores), the net aid for the Fourth Plan projects after repayment of obligations might be approximately Rs. 1,200 crores. The Plan would then have to be adjusted to this scale of new assistance and Rs. 1,400 crores of project assistance for the Third Plan in the pipeline.

Non-project aid from the U.S. formerly was of the order of $260 million (about Rs. 120 crores). The absence of maintenance imports, it is feared, would have a detrimental effect on the utilisation of the existing capacity.

The Commission sources hope that in the next two months, some of the problems of external assistance would be sorted out.

The U.S. recently sanctioned $50 million (about Rs. 24 crores) for fertiliser imports.

Meanwhile, consultations have been continuously taking place between the Commission on the one hand and the Defence Ministry, scientists and technologists on the other hand for making the Plan more defence-oriented and attaining self-reliance in as many fields as possible.

## PLAN OUTLAY FOR 1966-67

The annual Plan outlay for 1966-67, the first year of the Fourth Plan period, is likely to be of the order of Rs. 2,050 crores, according to the latest indications.

A sum of Rs. 1,150 crores will be in the Central sector including outlays in Union Territories totalling between Rs. 80 and Rs. 85 crores.

Of the States' sector accounting for nearly Rs. 900 crores, the Central assistance would be Rs. 500 crores.

The States' own contribution, according to resources in sight, is calculated at Rs. 250 crores, to which would be added additional resources of the order of Rs. 120 crores to be raised by them during the coming year.

A gap of about Rs. 30 crores still left is expected to be covered from the States' share of additional taxation at the Centre.

## STATEWISE PLAN OUTLAYS FOR 1966-67.

| State | Approved Outlay (Rs. Crores) | Central Assistance (Rs. Crores) |
|---|---|---|
| Andhra Pradesh .. | 79·25 | 50·00 |
| Assam .. .. .. | 26·45 | 23·40 |
| Bihar .. .. .. | 71·83 | 42·50 |
| Gujarat .. .. | 49·69 | 19·40 |
| Jammu & Kashmir .. | 19·04 | * |
| Kerala .. .. | 40·55 | 28·30 |
| Madhya Pradesh .. | 58·10 | 33·60 |
| Madras .. .. | 75·33 | 33·30 |
| Maharashtra .. .. | 120·34 | 23·00 |
| Mysore .. .. | 50·72 | 34·00 |
| Nagaland .. .. | 5·11 | 4·40 |
| Orissa .. .. .. | 45·77 | 24·70 |
| Punjab .... .. | 59·93 | 33·00 |
| U.P. .. .. .. | 133·95 | 79·50 |
| Andaman Islands .. | 1·58 | * |
| Delhi .. .. .. | 26·17 | * |
| Goa .. .. .. | 8·60 | * |
| Himachal Pradesh .. | 9·20 | * |
| Laccadive Islands .. | 0·62 | * |
| Manipur .. .. | 3·86 | * |
| NEFA .. .. .. | 2·67 | * |
| Pondicherry .. .. | 3·50 | * |
| Tripura .. .. | 5·02 | * |
| Total .. .. | 897·28 | 429·10 |

* The outlay will be financed by the Centre.

Discussions on the Plans for Rajasthan and West Bengal were inconclusive. Rajasthan has proposed an outlay of Rs. 48 crores, while its resources including Central assistance of Rs. 26 crores amount to Rs. 38 crores. In the case of West Bengal, the outlay proposed by the State is Rs. 76·47 crores as against the estimated resources of Rs. 57·30 crores including Central assistance of Rs. 27·50 crores. Both the States have been asked by the Planning Commission to revise their proposals or to find additional resources.

## TALKS WITH STATES

The Planning Commission has had discussions with over 12 State Governments so far on their annual Plans though some of the State plans are yet to be finalised.

Some gaps in the annual plans of States like Maharashtra (Rs. 9·6 crores) and Madras (Rs. 2·5 crores) are yet to be covered though the size of their Plans has been determined.

But as these States have reserves and there is a possibility of improved tax receipt with a brightening up of the economy, not much difficulty is anticipated in overcoming these gaps. In the case of Maharashtra, the resources position will be reviewed in July.

The Commission will complete the finalisation of the annual Plans of both the States and the Centre including the Union Territories before the end of January.

The following is a summary of the Statewise Plan allotments for 1966-67 as approved by the Planning Commission :

**Andhra Pradesh :** The Planning Commission approved a total outlay of Rs. 79·25 crores for the annual plan of Andhra Pradesh for 1966-67.

The Central assistance is likely to be of the order of Rs. 50 crores. The State's resources have been estimated at Rs. 29·25 crores inclusive of Rs. 4 crores to be raised by additional taxation in 1966-67 besides Rs. 2 crores already raised in the current year.

The outlay under various sectors (which are subject to marginal adjustments) for 1966-67 are :

Agriculture—Rs. 15 crores ; power—Rs. 32 crores ; the Nagarjunasagar irrigation project—Rs. 8·5 crores ; major and medium irrigation schemes—Rs. 4·9 crores : social services—Rs. 9 crores ; co-operation and C. D. —Rs. 2·81 crores ; transport—Rs. 4 crores and industry—Rs. 2·90 crores.

**Bihar :** An outlay of Rs. 75·83 crores has been approved by the Planning Commission for the annual plan of Bihar for 1966-67.

The Central assistance to the State for 1966-67 was estimated at Rs. 42·5 crores.

The tentative sectoral allocations, subject to adjustments, are as follows (in crores of rupees) : agricultural programmes 15·75, co-operation and community development 3·59, irrigation and power 36·71, industry and mining 2·66, transport and communications 3·3, and social services 10·67. In the allocation for social services a provision of Rs. 2·2 crores has been made for Getalsud project.

**Gujarat :** An investment of just under Rs. 50 crores has been approved by the Planning Commission for Gujarat's Plan for 1966-67. This includes nearly Rs. 30 crores for agriculture and related programmes.

A feature is the token allocation of Rs. 2 lakhs for development schemes in the border areas suggested by the late Mr. Balvantray Mehta. These include small-scale and village industries and training schemes.

Central assistance will aggregate Rs. 19·4 crores, the State itself having to raise the balance of Rs. 30 crores. In addition, Rs. 1 crore will have to be found by the State for the energisation of tube-wells and pumping sets.

The sectoral allocations are : agriculture Rs. 14·14 crores, co-operation and community development Rs. 2·78 crores, irrigation Rs. 10·28 crores, energisation of tube-wells Rs. 2·70 crores, transport and communications Rs. 4·20 crores, power Rs. 6·45 crores, industry and mining Rs. 2·50 crores, and social services Rs. 6·48 crores.

In addition, nearly Rs. 18·6 lakhs will be reserved for the welfare of backward classes, Rs. 3·3 lakhs for social welfare and Rs. 30 lakhs for labour welfare.

**Jammu and Kashmir :** An outlay of Rs. 19·05 crores has been fixed by the Planning Commission for the annual plan of Jammu and Kashmir for 1966-67. This will be in addition to Rs. 4 crores for development schemes undertaken in the Third Plan, which will be treated as next year's " committed expenditure ".

The effective total investment in the Jammu and Kashmir State during 1966-67 will thus be around Rs. 23 crores, against the anticipated investment of about Rs. 16 crores in the current year.

The main emphasis in the State programme for the next year will be on food production, including a crash programme to bring under intensive cultivation an area of 15,000 acres. The tentative allocations for the main sectors of development for 1966-67 are (in lakhs of rupees) : agricultural programmes 313·53, community development and co-operation 93,43, irrigation and power 555·80, industry and mining 186·92, transport and communications 292·00, social services 365·17, development of Ladakh 65, and miscellaneous 31·55.

**Madhya Pradesh :** The Planning Commission has approved a total outlay of Rs. 58·10 crores for the annual plan for Madhya Pradesh for 1966-67. The Centre's contribution to the State will be of the order of Rs. 39·6 crores.

The tentative allocations approved for various sectors of development are : agriculture programme Rs. 17·98 crores, community development and co-operation Rs. 4·11 crores, irrigation and power Rs. 20·54 crores, industry and mining Rs. 2·10 crores, transport and communication Rs. 3·49 crores, social services Rs. 8·31 crores and miscellaneous Rs. 1·47 crores.

**Madras :** The Planning Commission has approved an outlay of Rs. 75·30 crores for the annual Plan of Madras for 1966-67. The Central assistance to the State next year has been fixed at Rs. 33·3 crores.

* Prime Minister Mrs. Indira Gandhi has visited the U.S.A. in March 1966 ; had discussions with President Johnson about aid.

The State's Third Plan expenditure for the five-year period as a whole is expected to be Rs. 341 crores against the outlay of Rs. 291 crores. This was made possible by the State contributing an additional Rs. 45 crores for the Plan.

According to official sources, Madras is likely to fulfil, and in some cases, exceed the physical targets except in the case of agriculture production potential, improved seeds and power where the performance rate is at 70 to 80 per cent. of the targets.

The sectoral allocations for 1966-67 are (in crores of rupees): Agricultural programmes 16·51, c.d. and co-operation 5·22, irrigation and power 29·30, industry and mining 5·55, transport and communications 2·25, social services 16·27 and miscellaneous 0·11.

With the State's resources inclusive of Central Assistance estimated at Rs. 72 crores, Madras may have to find some additional resources to finance the Rs. 75-crore plan.

Besides the two major irrigation schemes, the Plan also provides for the completion in 1966 of Gomukhi medium project to irrigate 5,000 acres. Rs. 6 crores have been set apart for rural electrification, particularly energisation of wells.

In industries, the Plan includes proposals for the setting up of the Madras Industrial Development Corporation and an agro-industries corporation for which a provision of Rs. 25 lakhs and Rs. 5 lakhs respectively has been made. The provision for mineral development is Rs. 15 lakhs.

**Maharashtra:** An investment of Rs. 120·34 crores in Maharashtra's Plan for 1966-67 has been approved by the Planning Commission.

The Centre's contribution to the Plan will aggregate Rs. 23 crores, the understanding being that the balance will be made up by the State.

The following is the sectorwise breakdown of the Plan: Agriculture Rs. 33·04 crores, Co-operation and Community Development Rs. 7·07 crores. Irrigation and Power Rs. 45·78 crores. Industry and Mines Rs. 3·95 crores. Transport and Communications Rs. 13·14 crores, and Social Services Rs. 17·25 crores.

**Mysore:** A Rs. 50·72 crore Plan for 1966-67 for Mysore has been approved by the Planning Commission. Central assistance will be Rs. 34 crores.

Allocations under the various heads are as follows: agriculture Rs. 13·94 crores, community development and co-operation Rs. 3·37 crores, irrigation and power Rs. 19·21 crores, mining Rs. 1·81 crores, transport and communications Rs. 4·65 crores, social services Rs. 7·50 crores and miscellaneous Rs. 0·24 crore.

**Nagaland:** A total outlay of Rs. 5·11 crores has been fixed for Nagaland's annual plan for 1966-67 by the Planning Commission.

Of the outlay, a sum of Rs. 1·10 crores will go to the development of communications and Rs. 60 to 65 lakhs each to education, electricity and medical services.

**Punjab:** A total outlay of Rs. 59·92 crores has been approved by the Planning Commission for the annual Plan of the Punjab for 1966-67.

The Centre's contribution to the State will be Rs. 33 crores. The State's resources have been estimated at Rs. 22·50 crores. The State will raise an extra amount of Rs. 2·2 crores through additional levies on irrigation rates, land revenue, electricity rates and urban immovable property on the lines agreed to between the neighbouring States of the Punjab, Rajasthan and Uttar Pradesh during the next year. The Central assistance wil thereafter be correspondingly raised by Rs. 2·2 crores.

The tentative allocations for main sectors of development will be as follows: agricultural programmes Rs. 1·40 crores, community development and co-operation Rs. 2·67 crores, irrigation and power Rs. 31·45 crores, industry and mining Rs. 2·5 crores, transport and communications Rs. 2·79 crores, social services Rs. 7·95 crores and miscellaneous Rs. 1·11 crores.

**Andamans:** An outlay of Rs. 158·30 lakhs has been approved by the Planning Commission for the annual plan of Andaman and Nicobar islands for 1966–67.

In addition to the normal Plan, Andamans will have a special area development plan, controlled by the Union Ministry of Rehabilitation. Details of the special area programme will be worked out by the Ministry of Rehabilitation and the scheme will be co-ordinated with the rural development plan.

The tentative outlays for the main sectors of development in the annual Plan of the Union Territory will be as follows (in lakhs of rupees):—

Agricultural programmes 32·75, community development and co-operation 11·26, power 9·10, village and small industries 2·17, transport and communications 65·34, social services 34·53, and miscellaneous 3·15.

**Goa:** A total outlay of Rs. 8·6 crores has been approved by the Planning Commission for the annual Plan of the Union territory of Goa, Daman and Diu for 1966-67.

The tentative outlays for main sectors of development will be as follows (in lakhs of rupees): agricultural programmes 172·88; community development and co-operation 42·30; irrigation and power 160·20; industry and mining 26·30; transport and communications 91·35: general and technical education 79·00, health 142·71, housing 20·00; welfare of backward classes, social welfare, labour and labour welfare 22·88; public co-operation 2·27; buildings 70·00; and miscellaneous 33·49.

**Laccadives:** The Planning Commission has approved an outlay of Rs. 61·76 lakhs for the annual plan of Laccadive, Minicoy and Amindivi Islands for 1966-67.

The tentative outlays for the main sectors of development for next year's plan of the Union Territory will be as follows (in lakhs of rupees):

Agricultural programmes 16·82; co-operation 2·43; power 4·36; industry 0·87; transport 25·67; social services 11·46; and miscellaneous 0·21.

**NEFA:** A total outlay of Rs. 2·67 crores has been fixed by the Planning Commission for the Annual Plan of the NEFA for 1966-67. A high priority has been given for agricultural programmes and roads, followed by social services, including education and health.

The tentative outlay for agricultural programmes will be Rs. 50·94 lakhs, in addition to Rs. 21·48 lakhs for community development and Rs. 15·31 lakhs for co-operation.

The allocation for transport and communications including roads, will be Rs. 70 lakhs, including provision for development of roads to link up administrative centres and villages, thereby facilitating fuller exploitation of resources of the Territory.

For social services, an allocation of Rs. 77·83 lakhs has been made in the next year's Plan of which Rs. 45 lakhs will be for health services and the remaining amount for educational schemes.

An additional amount of Rs. 50,000 will be available to the Administration for schemes such as visits of technical experts, including doctors, engineers, etc., from other areas, to render social service to the people.

Other important allocations will be as follows: Power Rs. 15 lakhs, village and small industries Rs. 9 lakhs, and miscellaneous Rs. 3·1 lakhs.

**Tripura:** An outlay of Rs. 5·02 crores has been fixed by the Planning Commission for the annual plan of the Union Territory of Tripura for 1966-67.

The outlays for main sectors of development (in lakhs of rupees) are: Agricultural programmes 100, co-operation and community development 38, irrigation and power 64, industry and mining 40, transport and communications 116, social services 128·81, and miscellaneous 15·70.

The outlay for power, fixed at Rs. 56 lakhs, will meet the needs of the Gumti hydro-electric project, the installation of the main transmission line from Assam, and the 500 k.w. unit to be set up in Agartala. It is expected that, with the completion of these schemes. Tripura will have no power problems by the end of 1966-67.

Among industrial schemes, allocations have been made in the next year's plans for a spinning mill with 51 per cent. government participation, extension of Tripura Small Industries' Corporation and a private plywood factory. Other projects under consideration are a jute mill and a paper plant, both of which are in the preliminary stage.

# IMPORTANT EVENTS OF THE YEAR 1965

## JANUARY

4 : Increase in dearness allowances for Central Government employees announced.

8 : The All-India Congress Committee at Durgapur endorses the Government's policy of not making nuclear weapons.

15 : A cabinet panel finds Mr. B. Patnaik and Mr. Biren Mitra guilty of impropriety.

22 : Prime Minister Lal Bahadur Shastri inaugurates the country's first plutonium extraction plant at the Atomic Energy Establishment at Trombay.

24 : The first unit of the Sharavathi Valley Project, the biggest hydro-electric project in Asia, is commissioned.

25 : Violent anti-Hindi riots break out in Madurai, Madras and several other South Indian cities.

An agreement for the construction of the Bokaro Steel Plant and for the grant of Rs. 100 crore credit for the foreign exchange cost of its first stage is signed between India and U.S.S.R.

30 : Mr. Biren Mitra, Chief Minister of Orissa resigns following the findings of "impropriety" against him by a Central Cabinet panel.

## FEBRUARY

1 : Two corporations are set up in the Public Sector—India Tourism Hotel Corporation and India Tourism Corporation.

An agreement for the construction of a shipyard at Cochin is signed between the Government of India and Mitsubishi Heavy Industries of Japan.

5 : General Ne Win of Burma arrives in Delhi on an 8-day State visit.

6 : Mr. Pratap Singh Kairon, former Chief Minister of Punjab is shot dead in his car by four masked gunmen 20 miles out of Delhi.

12 : Police and troops fire on violent anti-Hindi agitators in Madras.

18 : The railway budget for 1965-66, providing for increased fares and freight is presented to Parliament.

25 : Prime Minister Shastri reaffirms the basic decision that "Hindi is the official language of the Union and English is to continue as an associate language."

27 : The Union Budget for 1965-66 is presented to Parliament promising tax relief at all levels of personal incomes.

## MARCH

3 : Mr. H. V. Kamath places on the table of the Lok Sabha the secret report of the Central Bureau of Investigation on corruption charges on Mr. Patnaik and Mr. Biren Mitra along with the Cabinet sub-committee's findings thereon.

5 : At the general election in Kerala the leftist communists emerge as the largest single party getting 44 out of the 130 seats.

6. The 25 crore rupees Dhuvaran thermal power project is commissioned by Prime Minister Lal Bahadur Shastri near Baroda.

7 : The Kandla Free Trade Zone is inaugurated.

20 : Mr. E. M. S. Namboodripad threatens to launch direct action in Kerala, if his party is not allowed to form a Government.

24 : President's rule is proclaimed in Kerala, dissolving the newly elected Legislative Assembly.

## APRIL

1 : Sheikh Abdullah sees Mr. Chou En-lai at Algiers to seek support for "self-determination" for Kashmiris.

5 : The Union Government cancels all endorsements of Sheikh Abdullah's passport except those necessary for his Haj pilgrimage.

10 : Units of the Indian Army take over the Kutch border following attacks by the Pakistani Army.

14 : Prime Minister Shastri indicates his intention of setting up a panel to investigate charges of corruption against Ministers.

16 : The proposed visit to the United States in June by Prime Minister Shastri is cancelled.

22 : The Aid India Consortium pledges 1027 million dollars to India for the final year of the Third Plan.

23 : In a speech in the Lok Sabha Prime Minister Shastri gives an ultimatum to Pakistan to stop aggressive actions against India.

24 : Pakistan mounts a massive assault on India at the Kutch border.

## MAY

1 : President Ayub Khan threatens a total war against India.

8 : Sheikh Abdullah is interned at Ooty under the Defence of India Regulations.

12 : Prime Minister Shastri arrives in Moscow on a seven-day visit.

20 : Two members of the Indian expedition led by Lt. Commander M. S. Kohli reach the top of Mount Everest.

28 : About 400 miners are feared dead in an underground explosion in a Bihar coal mine, the worst-ever blast in India's mining industry.

31 : An ordinance is promulgated by the President making it compulsory for employers having 20 or more workers to pay a minimum bonus even if the concern did not make any profit.

## JUNE

7 : A conference of Home Ministers decides to set up a central command to guard the nation's far-flung borders.

9 : Prime Minister Shastri leaves on an extended trip to U.A.R., Canada, U.K., and Algeria.

10 : The Union Government assumes special powers under the Defence of India Rules to regulate the distribution of petroleum products.

17 : India receives a non-project loan of 190 million dollars from the United States for financing commodity imports during 1965-66.

25 : India and Pakistan agree on a three-member arbitration tribunal on Kutch.

29 : India and Pakistan sign an agreement for a formal cease-fire in the Rann of Kutch.

## JULY

4 : Chinese light tanks and armoured trucks roll into occupied Ladakh in a massive effort to reinforce the Communist troops menacing India.

7 : Prime Minister Shastri renews the offer to sign a "no-war" pact with Pakistan.

25 : Mr. K. Kamraj is elected President of the Congress Party for a second term.

28 : Prime Minister Shastri arrives in Belgrade on a four-day state visit.

## AUGUST

1 : Dr. Milton Obote, the Prime Minister of Uganda arrives in Bombay on a ten-day visit to India.

7: Heavily armed Pakistani sabotage parties infiltrate two sectors of the cease-fire line in Jammu and Kashmir.

16 : Indian forces retake the three Pakistani posts in Kargil in the face of attempts to cut the Srinagar-Leh lifeline.

A mammoth protest demonstration before Parliament House by an estimated two lakh Jan Sangh volunteers demand that the "ignoble" Kutch agreement be revoked.

19 : India cancels the August 20 talks with Pakistan Foreign Minister Bhutto on the Kutch issue.

Finance Minister Krishnamachari's supplementary budget on the Lok Sabha proposes extra indirect taxes to the tune of Rs. 3,000 crores for the Fourth Five Year Plan period.

25 : Indian security forces cross the cease-fire line in Kashmir at two points and establish new positions.

30 : The Indian Army clears the Uri-Poonch bulge on the Pakistan side of the cease-fire line of Pakistani raiders' bases and occupies Haji Pir Pass.

## SEPTEMBER

1 : A huge column of Pakistani troops backed by 70 medium tanks makes an unsuccessful attempt to break through the Indian lines in the Chhamb sector.

5 : The Indian Army begins to march on Lahore against stiff resistance by Pakistani armoured columns.

8 : Armoured columns of the Indian Army advance into West Pakistan in the direction of Hyderabad (Sind).

13 : A major clash in the Sialkot sector as the Indian Army storms its way towards the town.

17 : China issues a 72-hour ultimatum to India to dismantle military installations on the Sikkim border and Prime Minister Shastri promptly warns China against trying to intervene militarily in the India-Pakistan conflict.

19 : Mr. Balwantray Mehta, Chief Minister of Gujarat is shot down by a Pakistani Air Force plane.

22 : Communist China claims that Indian troops have dismantled their "illegal military structures" on the Sikkim border.

India and Pakistan accept the cease-fire proposals of the Security Council.

23 : The Union Government sets up a Cabinet sub-committee to go into the question of Punjabi Suba.

30 : President Radhakrishnan arrives in Yugoslavia on a State visit.

## OCTOBER

1 : The new 15-member Gujarat Ministry headed by Mr. Hitendra Desai is sworn in .

6 : China again warns India to stop incursions "along the Sikkim border" or "bear the responsibility for all the grave consequences."

11 : The first phase of the three-million tonne Gujarat refinery at Koyali is commissioned.

17 : Prime Minister Shastri visits Bombay to be greeted by the biggest-ever crowds seen in the city.

19 : In a nation-wide broadcast to the nation, Prime Minister Shastri announces the introduction of various schemes for economic mobilisation including a 15-year Gold Bond scheme.

24 : Prime Minister Shastri lays down India's minimum conditions for the U.N. Security Council's immediate consideration to ensure peace in the sub-continent.

30 : Pakistan seizes Indian jute and tea worth more than Rs. 5 crores from ships carrying the cargo.

## NOVEMBER

4 : The Mysore Cabinet decides to relax prohibition immediately more or less on the pattern of Maharashtra.

6 : The 39·50-crore Trombay Fertiliser factory is formally opened.

8 : President's rule is extended in Kerala for another six months.

16 : Prime Minister Shastri declares his willingness to have talks with President Ayub Khan of Pakistan in Tashkent on any issue except Kashmir.

17 : India pledges unqualified support to Khan Abdul Gaffar Khan in his fight for Paktoonistan.

23 : Prime Minister Shastri accepts in principle, Soviet Prime Minister Kosygin's invitation for talks with President Ayub Khan in Tashkent.

**DECEMBER**

2 : The Maharajkumar of Vizianagaram, who was awarded Padma Bhushan in 1958 for his contribution to cricket, dies of a heart attack.

8. The Monopolies Inquiry Commission submits its report.

9 : The Union Cabinet decides to make ex-gratia payments to the employees of all non-competing public sector undertakings, equivalent to the bonus amount under the payment of Bonus Act.

18 : 950 Indian nationals interned in Pakistan during the hostilities are returned to India in exchange for 998 Pakistanis.

Prime Minister Shastri arrives in Rangoon on a three-day official visit.

# CEMENT INDUSTRY

**THE first venture in the manufacture of Portland Cement in India took place in 1904, in a small factory just outside Madras, but it quickly went out of business.**

The cement industry in India occupies a position of basic and strategic importance in the economy. At the beginning of the 1st Plan, there were 21 cement factories. At present there are 36 cement factories with a total installed capacity of 10·12 million tonnes.

Between 1948 and 1959, the total world production of cement nearly doubled to 292 million tonnes. In 1948, the total production of cement in India was 1,578 thousand tonnes constituting about 1·5 per cent of total world production in that year. Production in India in 1959 was nearly three and a half times that of 1948. With a production of 6·9 million tonnes, India contributed some 2·4 per cent of the total world production in 1959. In that year, India was the ninth biggest producer of cement in the world in quantitative terms after U.S.A., U.S.S.R., West Germany, Japan, France, Italy, Britain and Mainland China in that order.

In 1950–51, there were 21 factories in India with a total installed capacity of 3·3 million tonnes per annum. At the end of the First Five Year Plan, there were 27 units with a total capacity of 5·0 million tonnes. The Second Five Year Plan placed the provisional target for the cement industry at a capacity of 16·0 million tonnes per annum and production at 13·0 million tonnes by 1960–61. Subsequently, however, the target of capacity was revised to 11·0 million tonnes per annum. At the end of the Second Five Year Plan, the units engaged in the production of cement numbered 34, and the total installed capacity reached the level of about 9·2 million tonnes per annum. The largest number of units were located in Bihar (7). The distribution of the rest was : Andhra Pradesh (5), Gujarat (5), Madras (4), Madhya Pradesh (3), Mysore (3), the Punjab (2), Rajasthan (2), Orissa (1), Uttar Pradesh (1) and Kerala (1). The actual production of cement rose from 4·7 million tonnes in 1955–56 to about 7·9 million tonnes in 1960–61.

On account of the vast construction programmes taken up in the country, the indigenous consumption of cement has gone up considerably during the last few years. Consumption of cement is currently expected to increase by 10 per cent per year. To meet the estimated requirements for domestic consumption and for exports the targets for capacity and production of the cement industry have been fixed at 15 million tonnes and 13·50 million tonnes per annum, respectively, to be achieved by 1965–66. During the first year of the Third Five Year Plan, schemes for expansion of capacity of three existing units (inclusive of a capacity for 170 thousand tonnes of slag cement) and setting up of a new unit (in Mysore) were nearing completion. Of the newly licensed units, two are projected to be located in Andhra Pradesh, one each in Jammu and Kashmir, Madras, Assam, Madhya Pradesh, Maharashtra and Gujarat. Schemes for expansion of 14 existing units have also been licensed or approved for licence. The new schemes which are not yet covered by import licence inclued projects for establishing units in West Bengal, Gujarat, Rajasthan, Madras and the Punjab.

*Slag cement* :—The initial growth of the cement industry in India was helped by the plentiful supply of raw materials. The principal raw materials required for the manufacture of portland cement are limestone, clay, gypsum and coal. Coal is used both as fuel and as raw material. As the reserve of good quality limestone is rather limited in the country and as the demands of other industries have increased in recent times attempts have been made to utilize new kinds of raw materials such as blast furnace slag and pozzolanic materials. Blast furnace slag available from the iron and steel plants has, however, to be suitably granulated according to actual requirements. It has been estimated that the foreign exchange needed for slag cement plant and machinery is less than that for portland cement equipment.

In the First Five Year Plan no capacity was developed for the manufacture of slag cement in the country but at the end of the Second Five Year Plan period, a total annual installed capacity of 18 thousand tonnes of slag cement was developed. Subsequently, a scheme was implemented for the expansion of a cement factory in Bihar for the production of 170 thousand tonnes of slag cement per year. Schemes not yet covered by import licence or which are expected to be implemented with indigenous machinery include a further capacity of 1·2 million tonnes per annum for production of slag cement by two new factories in West Bengal and Madhya Pradesh and by four existing factories in Bihar and Orissa.

Two units located at Kottayam in Kerala and Porbandar in Gujarat have commenced production of white cement. The additional capacity planned for creation during the Third Plan period includes a capacity of 0·4 lakh tonnes of white and coloured cement by a new unit in Madras and an existing unit in Madhya Pradesh.

Decorative waterproof cement coating, cement waterproofing compound and coloured portland cement of various shades are also now manufactured in India.

At present asbestos cement products including roofing materials and pipes are made by seven units with an installed capacity of 279,000 tonnes a year. Actual production of these products during 1960, 1961 and 1962 were placed at 211,270 tonnes, 214,000 tonnes and 234,030 tonnes, respectively.

It is a growing industry, for the demand for cement is expected to rise by 12·5 per cent a year to 12·8 million tonnes in 1964. If the schemes which had already been licensed for substantial expansion of existing units and for establishment of new units materialised as scheduled, the industry would have 42 factories by the end of 1964 and be represented in all the States, except West Bengal.

Despite the marked expansion of the cement industry, *per capita* consumption is not more than 20 kg., which is among the lowest in the world.

The trend of capacity and actual production in the past three years is indicated below :

(in thousand metric tons)

| | 1964 | 1963 | 1962 |
|---|---|---|---|
| Capacity .. | 10,800 | 9,684 | 9,728 |
| Production .. | 9,696 | 9,360 | 8,587 |

The annual capacity of the cement industry has continued to show a steady rise from 9·47 million tonnes at the end of 1961 to 10·8 million tonnes at the end of 1964. The production of cement during 1963 was of the order of 9·36 million tonnes which is about 9·40 per cent more than the production in 1962.

The cement production capacity is expected to be raised by 1,750,000 tonnes in 1965-66 bringing the industry's total capacity to 13,000,000 tonnes by the end of the Third Plan. The present production (Feb. 1965) is of the order of 10,000,000 tonnes against an estimated demand of about 12,500,000 tonnes. The cement production in the Fourth Plan is likely to be 15 to 16 million tonnes. Out of this, about five million tonnes are likely to be produced in the public sector.

The production of asbestos cement sheets and pipes increased from 3·02 lakhs tonnes in 1963 to 3·72 lakh tonnes in 1964 despite shortage of foreign exchange for import of raw asbestos fibre. The annual capacity of the industry during 1964 was 3·84 lakh tonnes.

The total investment required for the achievement of a production capacity of 15 million tonnes of cement by 1965-66 is estimated at Rs. 55 to Rs. 60 crores during the Third Plan. The foreign exchange requirements for the implementation of the schemes envisaged in the Third Plan are estimated at Rs. 15 crores.

The Union Government has set up a State-owned public limited company called the Cement Corporation of India with a view to bolstering up the development of the cement industry.

The establishment of the corporation is one of the steps designed to accelerate the development of basic and producer goods industries according to the pattern visualised in the Plan.

The corporation will not only direct its efforts towards facilitating private investment in the private sector, especially in its expansion programmes, but will also assist the growth of the public sector in this vital industry.

The need for such a corporation has arisen because of the expected phenomenal increase in the demand for cement during the Fourth Plan.

According to the Fourth Plan projections made by the Planning Commission, the likely growth in demand for cement in the next Plan would call for the creation of fresh capacity of at least 10 million tons per annum.

The principal raw material of the industry is limestone. But inadequate knowledge of the country's limestone reserves has been one of the factors retarding the development of the industry in recent years.

The survey, prospecting and providing of cement grade limestone in the country is thus one of the two principal objectives of the corporation.

Its other objective would be the installation of sufficient capacity for the manufacture of cement in the public sector to help achieve the cement production target of the Fourth Plan. (*For more details see under "All India Corporations."*)

There are already two State Governments *viz.*, U.P. and Mysore who are in the field of cement manufacture. Large quantities of blast furnace slag are lying unutilised in the steel plants in the public sector. About six to seven lakh tons of slag are produced per million tons of ingot steel and the expansion of public sector steel production from six million tons in 1966 to 13 million tons by 1971 is going to mean a very sizable slag by-product.

### PRICE

On 31st October 1961, the Government of India announced its decisions on the recommendations of the Tariff Commission in respect of the fair prices payable to producers of cement. The Government made two major departures from the recommendations of the Commission. They were (1) it rejected the Commission's suggestion for continuance of the system of differential ex-works prices and instead preferred a uniform ex-works price of Rs. 69·50 per tonne for naked cement with certain minor adjustments to cover the varying cost of some units. Secondly, it raised the ex-factory price by less than what the Commission had recommended—by Rs. 13 per tonne, including selling and distribution charges of Rs. 3 per tonne, as against Rs. 16 per tonne recommended by the Commission.

In the Government resolution it was stated that the prices then fixed would be in force till March 31, 1966, subject to adjustments, whenever called for, for variations consequent on governmental action, including escalation for fuel and power.

Since then there have been increases in the cost of coal, power and limestone and railway freight on raw materials. After the declaration of emergency, the cement industry was also brought under the emergency risk insurance scheme.

The Government, on a representation by the cement industry, has examined the incidence of these increases on the cost of production of cement and has decided that with effect from June 1, 1963, the *ex*-works price to be paid to the industry should generally be increased by Rs. 2·75 per tonne.

It has been stated that besides the *ex*-works cost, distribution cost of cement has also risen on account of increases in railway freight since November 1961. With a view to minimising the increase payable by the consumer, the Government has restricted the increase on this account and has also advised the State Trading Corporation to effect all possible economy in the movement and distribution of cement by the Corporation and the selling agents. Consequently, the selling price was raised by Rs. 3·75 per tonne.

The prices of indigenous and imported cement are pooled and its distribution has been taken over by the State Trading Corporation in order to provide for substantial import of cement in the interests of consumers and to rationalise properly and regulate the use of cement when its demand has gone up so high.

The excise duty on cement was raised from Rs. 20 to Rs. 24 per ton with effect from 1st March 1958.

Cement distribution has been decontrolled with effect from Jan. 1, 1966. A mutually agreed quota of 50 per cent of overall production is to be supplied to the Government.

### EXPANSION

The Third Plan contains large scale programmes for these projects, which means that the demand for cement will rise markedly in the coming years. The aggregate requirements in the last year of the Third Plan, that is, 1965-66, are expected to be of the order of 13·50 million tons, whereas the capacity at the end of the Second Plan is put at 8·93 million tons on the basis of three shifts working 300 days in a year. The capacity target to be achieved by 1965–66 is 15·00 million tons. The total fixed investment is put at Rs. 60 crores, of which the foreign exchange component is Rs. 12 crores.

By the end of the Third Plan six to seven cement plants with a daily production capacity of 500 tons will be manufactured annually. The total value of the plants is estimated at Rs. 4·5 crores, with indigenous content of 90 per cent. The investment outlay is estimated at Rs. 3 crores, including foreign exchange expenditure of Rs. 2 crores.

One of the cement factories in South India has already switched over from coal to oil in one of its three kilns. This is on the lines of the Government decision that cement factories in Western and Southern India should switch over to furnace oil in view of the difficulties experienced in moving coal from collieries in north India.

Six firms have been registered or licensed for the manufacture of cement machinery. Much of this will be manufactured in India by the end of the Plan.

In 1964-65 India exported Rs. 30 lakhs worth of cement and imported Rs. 7 lakhs worth of cement.

# CHEMICAL & PHARMACEUTICAL INDUSTRY

FOR purposes of industrial production, chemicals fall easily into one of two major groups: (*a*) Heavy Chemicals; and (*b*) Fine Chemicals.

According to the latest data, there are over 474 factories with a productive capital of nearly Rs. 306 crores and providing employment for about 1,29,730 workers.

### SULPHURIC ACID

The installed capacity and production of sulphuric acid since 1954 are shown below:

(Metric tons)
(Monthly averages or calendar months)

| | Installed capacity | Production |
|---|---|---|
| 1954 .. .. | 16,699 | 12,775 |
| 1955 .. .. | 17,606 | 14,072 |
| 1956 .. .. | 20,756 | 13,989 |
| 1957 .. .. | 23,123 | 16,601 |
| 1958 .. .. | 24,560 | 19,185 |
| 1959 .. .. | 31,673 | 24,738 |
| 1960 .. .. | 39,622 | 29,495 |
| 1961 .. .. | 46,989 | 35,208 |
| 1962 .. .. | 58,189 | 39,122 |
| 1963 .. .. | 68,410 | 47,346 |
| 1964 .. .. | 84,263 | 56,553 |
| 1965 .. .. | 87,339 | 57,369 |

The overall demand for sulphuric acid is expected to go up to about 1·5 million tonnes by 1965–66 representing an increase of 325 per cent over the level which obtained in 1960–61. The following picture shows the programme of development for sulphuric acid during the Five-Year Plans.

(In '000 tonnes)

| 1950-51 Production | 1955-56 Production | 1960-61 Production | Targets for 1965-66 | |
|---|---|---|---|---|
| | | | Capacity | Production |
| 107 | 168 | 423 | 1,778 | 1,524 |

Orders have been placed with a British Firm for setting up, on a turnkey job, a pyrites based sulphuric acid plant with a capacity of 400 tonnes per day. The plant is proposed to be located at Durgapur.

Whereas the production of sulphuric acid has so far been based on sulphur, a part of the capacity set up in the Third Plan period is linked with by-product smelter gases (zinc and copper smelters) and with pyrites from the Amjor Deposits in Bihar.

The overall consumption of the acid by 1965-66 is expected to be about 15,24,000 tonnes as against a capacity of 526,000 tonnes at the end of the Second Plan.

India imported sulphuric acid of the value of Rs. 21,034 in 1960-61, Rs. 68,144 in 1961-62, Rs. 51,002 in 1962-63, Rs. 90,165 in 1963-64 and Rs. 1,21,690 in 1964-65. The main items under imports are concentrated fuming and Battery sulphuric acid. The main suppliers are Canada, W. Germany, U.K. and U.S.A.

Some exports are also taking place. India exported sulphuric acid worth Rs. 132,295 in 1960-61, Rs. 78,559 in 1961-62, Rs. 1·40 lakhs in 1962-63, Rs. 1,90,281 in 1963-64 and Rs. 84,054 in 1964-65.

### ALKALI INDUSTRY

The alkali industry comprises the manufacture of soda ash and caustic soda, sodium bicarbonate, bleaching powder, benzene hexachloride, liquid chlorine and zinc chloride.

At the beginning of the Second Plan production of soda ash was about 176,638 tonnes. In the current plan period, the demand has been estimated at 4,57,200 tonnes a year by 1965-66. The total investment planned for the current plan is Rs. 12 crores, including Rs. 6 crores in foreign exchange.

The trend of production of soda ash in tons is as under:—

1956, 84,240; 1957, 91,925; 1958, 90,862; 1959, 95,972 metric tonnes; 1960, 145,284 tonnes; 1961, 176,664 tonnes; 1962, 222,660 tonnes; 1963, 266,964 tonnes; 1964, 282,408 tonnes.

On the basis of the Tariff Board's report in 1951 the estimated consumption of soda ash was placed at 115,000 tons. This was expected to rise to 155,000 tons by 1955–56 and to 230,000 tons by 1960–61.

The import policy and the high prices since 1951 gave an impetus to this nascent industry though the heavy imports allowed in the first two years of the First Plan caused some tempo-

rary difficulties to indigenous producers owing to accumulation of stocks. The figures of imports of soda ash during the last few years are given below :

| Year | Q | V |
|---|---|---|
| 1960-61 .. .. .. .. .. .. .. .. | 99·65 | 180·22 |
| 1961-62 .. .. .. .. .. .. .. .. | 33·99 | 67·41 |
| 1962-63 .. .. .. .. .. .. .. .. | 40·54 | 74·25 |
| 1963-64 .. .. .. .. .. .. .. .. | 23·11 | 41·57 |
| 1964-65 .. .. .. .. .. .. .. .. | 33·47 | 60·01 |

*Q :* Quantity in million kilograms.
*V :* Value in Rs. lakhs.

The tariff protection to this industry was extended up to the end of 1964.

The following table summarises the programme of development of the soda ash industry :—

('000 tons)

| 1950-51 Production | 1955-56 Production | 1960-61 | | Targets for 1965-66 | |
|---|---|---|---|---|---|
| | | Estimated Capacity | Estimated Production | Capacity | Production |
| 45 | 81 | 268 | 145 | 530 | 450 |

It is estimated that about Rs. 17 crores were invested in the expansion of soda ash industry during the Second Plan period, the foreign exchange component being Rs. 9 crores. A further investment of Rs. 12 crores is planned during the Third Plan.

In 1963 the production in tonnes of hydrogen peroxide was 2,175 as against 1,815 tonnes in 1962. The overall targets of production of hydrogen peroxide in 1965-66 is placed at 8,198 tonnes. Imports of 30 kilolitres of hydrogen peroxide were valued at Rs. 46,726. Netherland and U.S.A. were the main suppliers.

**Caustic Soda.**—There were at the end of 1961 18 units manufacturing caustic soda and the production of caustic soda amounted to 1,19,856 tonnes in 1961, 1,26,624 tonnes in 1962, 1,52,280 tonnes in 1963 and 1,84,032 tonnes in 1964.

Actual indigenous production of caustic soda and the associated chemicals has been as under :—

| Year | Caustic soda in Tonnes | Liquid chlorine in Tonnes | Bleaching powder in Tonnes |
|---|---|---|---|
| 1959 .. | 69,876 | 24,780 | 5,184 |
| 1960 .. | 100,000 | 31,000 | 5,700 |
| 1961 .. | 119,854 | 33,922 | 7,129 |
| 1962 .. | 126,420 | 36,972 | 6,828 |
| 1963 .. | 152,280 | 44,232 | 6,972 |
| 1964 .. | 184,032 | 50,580 | 7,932 |

Imports of caustic soda in tons were : 1957 : 66,042 ; 1958 : 61,734 ; 1959 : 147,162 ; 1960-61 : 38·75 million kgs. ; 1961-62 : 26·80 million kgs. ; 1962-63 : 86·98 million kgs. ; 1963-64 : 65·25 million kgs ; 1964-65 : 67·12 million kgs.

During the Second Five-Year Plan the installed capacity of the industry rose from 44,300 tons in 1955–56 to 124,300 tons in 1960–61 and actual production from 36,000 tons to 100,000 tons. A production target of 340,000 tons was envisaged by the end of the Third Plan.

The table below summarises the programme of caustic soda industry during the Third Plan :

(Tons)

| | 1960–61 | 1965–66 |
|---|---|---|
| Installed capacity .. | 124,440 | 400,000 |
| Actual production .. | 97,000 | 340,000 |

Based on the requirements related to the targets of the various industries consuming caustic soda, the demand for caustic soda for 1965–66 is estimated to be roughly 340,000 tons.

A new factory of Dhrangadhra Chemical Works went into production in 1959 with an initial capacity of 30,000 tons per annum which is to be increased to 55,000 tons. The expansion scheme of Tata Chemicals, will further increase the production.

## MISCELLANEOUS CHEMICALS

The progress of production of important miscellaneous chemicals during 1960 to 1964 is given below :

(Metric Tonnes)

| Name of Product | 1960 | 1961 | 1962 | 1963 | 1964 |
|---|---|---|---|---|---|
| Bleaching Powder .. | 5,928 | 7,128 | 6,720 | 7,344 | 7,932 |
| Bichromates .. .. | 5,016 | 5,244 | 7,044 | 6,924 | 6,984 |
| Copper Sulphate .. | 3,840 | 4,344 | 3,888 | 3,672 | 4,764 |
| Sodium Sulphate .. | 2,305 | 2,604 | 2,292 | 2,340 | 3,132 |
| Hydrogen Peroxide .. | 1,188 | 1,620 | 1,812 | 2,280 | 2,700 |
| Potassium Chlorate .. | 3,480 | 3,780 | 4,116 | 4,512 | 3,672 |
| Sodium Bicarbonate .. | 7,704 | 8,676 | 10,680 | 7,824 | 10,752 |
| Hydrochloric Acid .. | 10,056 | 15,384 | 15,732 | 16,968 | 23,136 |
| Nitric Acid .. .. | 5,424 | 36,468 | 7,032 | 200,724 | 11,688 |
| Sodium Sulphide .. | 15,516 | 21,564 | 23,004 | 28,908 | 32,976 |
| Sodium Aluminate .. | 496 | 408 | 727 | 905 | 965 |
| Nickel Sulphate .. | 60 | 32 | 112 | 326 | 497 |

The production of hydro-sulphite of soda, an important chemical for the textile industry, which has now to be imported at the cost of Rs. 1 crore per year, began for the first time in 1958. Two units which went into production had a capacity of 2,300 tonnes at the end of 1961. This would meet about 60 per cent of the total requirements by the end of the Plan.

**Third Five Year Plan targets for some of the Chemicals :—**

The Third Five Year Plan target for caustic soda is 3·4 lakh m/tons ; soda ash 4·5 lakh m/tons ; bleaching powder 15,000 m/tons ; Hydrogen peroxide 8,000 m/tons ; alum/aluminium sulphate 1·2 lakh m/tons ; ammonium chloride 1·05 lakh m/tons ; copper sulphate 6,000 m/tons ; sulphuric acid 1·5 lakh m/tons ; and ammonium sulphate and superphosphate 10 lakh and 4 lakh m/tons respectively.

Protection for bichromates has been withdrawn with effect from 1st January 1959, while that for calcium carbide was extended up to the end of December 1964.

There are six units producing bichromates reporting a total capacity of about 8,300 tonnes and a production of 6,923 tonnes in 1963. For ammonium chloride, the present installed capacity is about 50,000 metric tonnes and production in 1962 was 16,896 tonnes.

Potassium chlorate forms an important raw material for industries like matches, ammunitions and explosives. The capacity target for this industry has been fixed at 9,600 thousand tonnes per year.

## FERTILISERS

### NITROGENOUS FERTILISERS

The total installed capacity of nitrogenous fertiliser factories as on 30-9-1964 was as follows :

(Tonnes of nitrogen)

| | |
|---|---|
| Sindri .. .. .. .. | 120,040 |
| FACT .. .. .. .. | 28,320 |
| Mysore .. .. .. .. | 1,380 |
| By-product ammonium sulphate .. | 14,840 |
| Sahu Chemicals .. .. .. | 10,160 |
| Nangal .. .. .. .. | 79,540 |
| Rourkela .. .. .. .. | 60,880 |
| TOTAL .. .. .. .. | 312,960 |

*Source :* Fertiliser Statistics, 1963-64.

The year-wise production of nitrogenous fertilisers and the capacity at the beginning of each year are as under :

(Tonnes)

| Year | Capacity | Production |
|---|---|---|
| 1959 .. .. | 89,952 | 78,252 |
| 1960 .. .. | 93,576 | 80,100 |
| 1961 .. .. | 164,808 | 108,336 |
| 1962 .. .. | 175,104 | 114,216 |
| 1963 .. .. | 193,968 | 123,396 |
| 1964 .. .. | 193,968 | 125,796 |

The Government proposes to enter into long-term contracts with foreign countries for the supply of fertilisers. The total input of nitrogenous fertilisers in 1965-66 is fixed at 350,000 tonnes, of which the import from the U.S. is 134,290 tonnes. The internal output is placed at about three lakh tonnes.

The total investment in the nitrogenous fertilizer industry during the Second Plan period amounted to Rs. 47 crores including a foreign exchange component of nearly Rs. 17·5 crores. Out of this total investment, the public sector outlay accounted for Rs. 44 crores. This industry employed nearly 16,000 persons. The Second Plan envisaged the expansion of capacity from 85,000 tons of nitrogen in 1955-56 to 382,000 tons in 1960-61.

*Development programme in the Third Plan :* It was estimated that the demand for nitrogenous fertilisers in the country would be met if one million tons of nitrogen were available by 1965-66. Apart from expansion of capacity in the existing plants, the Third Plan envisaged the setting up of three new units in the public sector to be located at Trombay (Maharashtra), Kamrup (Assam) and Gorakhpur (Uttar Pradesh).

*Public Sector projects :* Trombay fertiliser project will have a capacity of nearly 90,000 tons of nitrogen and 45,000 tons of phosphate per

year. The factory will produce 3,30,000 tons of nitrophosphate. Total cost of the project is estimated to be Rs. 33·40 crores. It will make use of refinery gases and naphtha.

*Assam fertiliser project :* The factory will be located at Kamrup in Assam. The overall capacity of the plant will be 32,500 tons of nitrogen based on the production of 50,000 tons of urea and 50,000 tons of ammonium sulphate by the acid neutralisation process, the acid being produced from imported sulphur.

*Gorakhpur fertiliser project :* The end-product of the factory would be urea by the total recycle process. The capacity of the factory would be 80,000 tons.

In addition to the above public sector projects, there is a scheme for further expansion of Messrs. Fertilisers and Chemicals, Travancore, by 30,000 tons of nitrogen to manufacture ammonium sulphate/ammonium phosphate and ammonium chloride.

Private sector schemes include Kothagudium Fertiliser Project, Visakhapatnam Fertiliser Project, Madhya Pradesh Fertiliser Project, and Rajasthan Fertiliser Project. Besides, private enterprise in partnership with the West Bengal Government will set up a fertiliser factory at Durgapur with a capacity of 58,000 tons of nitrogen. In collaboration with private sector, the Government of Gujarat proposes to put up a factory with a capacity of 96,000 tons of nitrogen.

The following table summarises the position in regard to nitrogenous fertilisers in the Third Plan :

(Quantity in '000 tons of nitrogen)

| | Total requirement | Installed capacity | Indigenous production |
|---|---|---|---|
| 1961–62 | 400 | 242 | 140 |
| 1962–63 | 525 | 300 | 200 |
| 1963–64 | 650 | 400 | 300 |
| 1964–65 | 800 | 600 | 500 |
| 1965–66 | 1,000 | 1,000 | 800 |

## PHOSPHATIC FERTILISERS

The rise in the capacity of the phosphatic fertilizer industry in India was almost entirely due to the expansion of the manufacture of single superphosphate. The progress made by the superphosphate industry is given below :

(Figures in tonnes of single superphosphate)

| | Capacity | Production |
|---|---|---|
| 1959 .. | 55,992 | 41,940 |
| 1960 .. | 57,276 | 53,028 |
| 1961 .. | 70,740 | 62,040 |
| 1962 .. | 1,06,296 | 74,616 |
| 1963 .. | 1,25,088 | 96,672 |
| 1964 .. | 1,41,672 | 117,948 |

Imported raw materials, rock phosphate and sulphur are used for the manufacture of single superphosphate. The following are the quantities and value of imported rock phosphate during the last few years :

| | Quantity ('000 tons) | Value (Rs. crores) |
|---|---|---|
| 1960-61 .. .. | 253.8 | 2.17 |
| 1961-62 .. .. | 253.9 | 2.29 |
| 1962-63 .. .. | 305.9 | 2.59 |
| 1963-64 .. .. | 336.8 | 2.76 |
| 1964-65 .. .. | 426·3 | 3·74 |

The total estimated investment in the phosphatic fertilisers industry (excluding sulphuric acid and complex nitrogen-phosphorus fertilisers) during the Second Plan was Rs. 2·1 crores of which the foreign exchange component is about Rs. 30 lakhs. This industry employed about 1,800 persons.

The total investment required for achieving the target production is estimated to be about Rs. 10 crores. The additional employment created by the achievement of this target would be for about 4,000 persons.

*Potassic Fertilisers :* No systematic attempt has been made to develop the manufacture of potassic fertilisers in India. It is produced indigenously in the small scale sector and the annual production is estimated to be around 2,000 tons as muriate of potash. The figures of imports of potassic fertilisers during the last few years :

Q = Quantity in tonnes.
V = Value in Rs. lakhs.

| | 1961-62 | | 1962-63 | | 1963-64 | | 1964-65 | |
|---|---|---|---|---|---|---|---|---|
| | Q | V | Q | V | Q | V | Q | V |
| Muriate of Potash | 44,518 | 110.6 | 77,891 | 193.6 | 70,802 | 169.0 | 76,524 | 178.6 |
| Sulphate of Potash | 8,942 | 28.6 | 3,265 | 10.5 | 4,281 | 12.9 | 10,240 | 32.3 |

The main supplying countries are East Germany, West Germany and France.

Three Companies have been granted licences for the manufacture of muriate of potash from salbitterns for a capacity of about 3,000 tons per annum but practically no progress has been made by them. The total availability in 1959 amounted to about 36,000 tons of $K_2O$ which exceeded the originally estimated requirement of 30,000 tons of $K_2O$ by 1960–61.

*Third Plan Requirements :* The demand for Potassic Fertilisers is estimated by the Ministry of Food and Agriculture to be 200,000 tons of $K_2O$ by 1965–66. From the present trends it appears that the requirement would have to be met mainly by imports.

If phosphates are not used while applying nitrogenous fertilisers, it may result in rapid drain of the mineral content of the soil. During the Second Plan period a ratio of $N:P_2O_5$ : : 3 :1 was envisaged. During the Third Plan period a ratio of $N : P_2O_5$ : : 2 : 1 was proposed. The targets of capacity and production to be attained by the end of the Third Plan had been fixed between 400 and 500 thousand tons of $P_2O_5$.

So far in India the inorganic nitrogenous fertiliser almost universally employed has been ammonium sulphate. There are at present eight units in West Bengal and Bihar with a rated capacity of about 425,900 tons of ammonium sulphate per annum. The Sindri factory went into production in November 1951.

The production of ammonium sulphate was 78,084 tonnes in 1958. During 1959 and 1960 there was a fall in production and in 1961 it rose to 79,080 tonnes and to 88,512 tonnes in 1964.

In spite of the full utilisation of the capacity of the Sindri Factory, it has been necessary to import large quantities of nitrogenous fertilizers because of increasing demand. India imported Rs. 10.67 crores worth of fertilisers in 1960-61, Rs. 11.89 crores in 1961-62, Rs. 27.26 crores in 1962-63, Rs. 24·6 crores in 1963-64 and Rs. 20·5 crores in 1964-65.

At present there are nine units with an annual installed capacity of 110,410 tonnes. The annual installed capacity of Sindri is 73,260 tonnes.

Imports of ammonium sulphate were : 1960-61: 25,278 tonnes ; 1961-62 : 242,066 tonnes ; 1962-63 : 573,292 tonnes ; 1963-64 : 451,865 tonnes ; 1964-65 : 453,140 tonnes.

The expert committee appointed to go into under-production in the Sindri Fertilizer Factory has submitted its report. The committee is reported to have recommended that, in the first instance, the factory should change over to the direct sulphuric acid process for part of its production, thus reducing to some extent dependence on gypsum. One of the handicaps faced by the factory was stated to be shortage of good quality gypsum. The committee has recommended that out of the daily rated capacity of 1,240 tons, 240 tons may be produced from the direct acid process.

The Fertilizer Production Committee submitted its report in 1955 and suggested suitable location for the establishment of new plants.

On 15th May 1957, the Government of India brought into force the Fertilizers (Control) Order 1957, with a view to regulating supply of chemical fertilisers of the prescribed standard to cultivators at fair prices. The order empowers the Central Government to fix the maximum price at which any fertiliser may be sold by a manufacturer or a dealer in a particular area and for a specific class of consumer with due regard to local conditions and other circumstances prevalent in that area.

| Chemical | Production | | | | | Main uses |
|---|---|---|---|---|---|---|
| | 1960 | 1961 | 1962 | 1963 | 1964 | |
| Acetic acid (thousand kgs.) .. .. | 3,096 | 3,660 | 5,256 | 7,488 | 7,068 | Rayon, white lead, lead, acetates, dyeing, rubber |
| Acetone (tonnes) .. .. .. | — | 756 | 540 | 900 | 624 | Solvent explosives |
| Benzene (thousand litres) .. .. | 4,764 | 8,220 | 10,284 | 21,168 | 20,040 | Solvent |

The Government is planning to provide one fertiliser factory for each State, though the new plants would be smaller than that at Sindri or Nangal, the cost being about Rs. 5 crores, as against Rs. 25 crores for the existing factories and those already approved.

## FINE CHEMICALS

The term "fine chemicals" is applied usually to substances such as photographic materials, drugs and pharmaceutical products, paints, pigments and varnishes, and dyestuffs. All the figures given below are in tons per annum except where otherwise stated.

The average annual demand has been estimated at 60 tons for calcium lactate, 80 tons for iron-ammonium citrate, 200 tons for potassium citrate and 50 tons for sodium citrate. Government has, on the Board's recommendation, converted the 36 per cent. standard and 26 per cent. preferential revenue duty on calcium lactate into a protective duty.

Production of bromine and bromides at one of the alkali works has been attempted and an annual output of 144 thousand kgs. bromine, and 144 thousand kgs. bromide has been recorded. The total installed capacity of bromides in 1964 was 456 thousand kgs. and the actual production was 144 thousand kgs. tonnes as compared to 276 thousand kgs. in 1963.

Coal, tar and wood distillation products are not sufficiently exploited to manufacture fine chemicals and even the war-time production of methanol and formaldehyde has been recently curtailed. Synthetic fine chemicals are yet to be turned out in India on a commercial scale.

**Photographic Materials.**—The basic chemical required for the photographic industry are: (*i*) gelatin, silver halides and sensitizers in the coating of film, plate and paper base, and (*ii*) hypo-sodium sulphite metal, hydroquinone and chrome alum in the processing stages.

Borax, boric acid, acetic acid and metal and photographic-grade sodium sulphite are still imported. The capacity of sodium sulphite in 1960 was 856 tonnes and the production was 750 tonnes. There are four units producing sodium sulphite. Their production in 1961 amounted to 678 tonnes. The production for 1963 was 771 tonnes against 618 tonnes in 1962. The installed capacity stood at 870 tonnes in 1964. Production capacity of 30 tons for potash chrome alum has been established.

Pre-war imports of raw film base into India were enormous, the film industry alone consuming some 80 million ft. per annum. Hindustan Photo Films Manufacturing Co., Ltd., was incorporated in Nov. 1960, with an authorized capital of Rupees three crores to implement the project for the manufacture of raw films, photographic films, X-ray films and other sensitized materials in collaboration with Messrs. Ets Banchet & Co., France.

## PAINTS AND VARNISHES

There are at least 200 factories manufacturing paints and varnishes, but nearly 150 of them are very small in size. The bigger ones are concentrated in Bombay and Calcutta. Eighteen units with a capacity of 36,360 tons are in Calcutta, and 16 with an annual capacity of 18,360 tons are in Bombay. Manufacture of ship bottom paints has been commenced by a unit in Calcutta. Another unit in Bombay has been allowed technical collaboration for marine paints.

The annual national loss due to corrosion of iron and steel is estimated at Rs. 60 crores. The prevention of corrosion occupies prime importance where the valuable and costly plants are concerned.

A wide variety of products including different kinds of paints, varnishes, enamels, lacquers, and other types of surface coating materials are manufactured by the Industry which uses mainly indigenous and some imported raw materials. The important raw materials used are zinc oxide, white lead, titanium dioxide, red lead, yellow and green chrome pigments, carbon black, linseed oil, etc. The industry contributes substantially to the national exchequer in the form of taxes, excise duty, customs duty, etc.

The capacity of the paints, varnishes and enamels industry has recently been reassessed by the Development Wing of the Ministry of Industry at about 85,000 tons. The State-wise distribution of the reassessed capacity is as follows:

| State | No. of factories | Annual capacity (tons) |
|---|---|---|
| Maharashtra .. .. | 23 | 34,000 |
| West Bengal .. .. | 19 | 39,500 |
| Uttar Pradesh .. .. | 5 | 8,100 |
| Madras .. .. .. | 3 | 2,000 |
| Delhi .. .. .. | 2 | 1,000 |
| Andhra Pradesh .. | 1 | 300 |
| TOTAL .. .. | 53 | 84,900 |

The production of paints, varnishes, zinc oxide, white lead, red lead and nitrocellulose lacquers including ancillaries from 1959 onwards is given below:

| Year | Paints & Varnishes (*a*) | White Lead (*b*) | Zinc Oxide (*a*) | Red Lead (*a*) | Nitrocellulose Lacquers (*c*) |
|---|---|---|---|---|---|
| 1959.. .. .. .. | 4,593 | 1,010 (*i*) | 579 | 372 | 113 |
| 1960.. .. .. .. | 4,318 | 866 (*i*) | 724 | 289 | 132 |
| 1961.. .. .. .. | 4,924 | 902 | 662 | 287 | 148 |
| 1962.. .. .. .. | 5,450 | 1,050 | 865 | 436 | 147 |
| 1963.. .. .. .. | 6,198 | 1,096 | 883 | 387 | 164 |
| 1964.. .. .. .. | 6,314 | 907 | 795 | 341 | 181 |

*Note:* Figures are monthly averages.
(*a*) Thousand kg. (*b*) Tonnes. (*c*) Thousand Litres. (*i*) Tons.

Manufacture of new products like super-synthetic enamels for coating of copper wire, finishes for bakelite, luminous paints, anti-pest finishes, cold curved epikote finishes, hot dip protective coatings, etc, was taken during the Second Plan period.

To attain a production of the order of 140,000 tons in 1965–66, a capacity target of 160,000 tons is considered adequate for the Third Plan. A capital investment of Rs. 2·0 crores is estimated to be required during the Third Plan period to achieve the capacity target of 160,000 tons. The foreign exchange component is placed at Rs. 20 lakhs.

The table given below summarises the development programme for the paints and varnishes industry in the Third Five-Year Plan:

| | 1960–61 | 1965–66 |
|---|---|---|
| Capacity ('000 tons) .. | 88* | 160 |
| Production ('000 tons).. | 52·5* | 140 |

* Figures relate to the organised sector only.

There has been a marked improvement in exports of Indian paints to Middle East and African countries. India, exported paints, enamels, lacquers, varnishes, and related products worth Rs. 26·5 lakhs in 1964-65, Rs. 21·5 lakhs in 1963-64, Rs. 23·93 lakhs in 1962-63, Rs. 33·06 lakhs and Rs. 35·75 lakhs in 1961-62 and 1960-61 respectively.

## DRUGS AND PHARMACEUTICALS

Drugs and pharmaceuticals cover a large variety of products from simple extracts of vegetable drugs and glandular preparations to highly complex synthetic drugs and antibiotics.

The pharmaceutical industry in India can be said to have registered phenomenal growth. There is evidence that the industry will attain its Third Plan target of Rs. 175 crores. In the sphere of exports it has made a fair beginning despite severe world competition. The Pharmaceutical Enquiry Committee in 1954 assessed the capital investment at 23.64 crores. There are nearly 2,800 production units producing pharmaceuticals and drugs, licensed under the Drugs Act. Out of these, only 125 large-scale units are licensed under the Industrial Development and Regulation Act.

Annual exports amount to Rs. 8·2 million which are progressively increasing. Dependence on imported chemicals and substances has also progressively fallen though the volume of finished goods has rapidly increased, thus keeping foreign exchange expenditure to the minimum. The following are the principal fields in which progress has been remarkable: Penicillin, Streptomycin and Dihydrostreptomycin, Tetracycline, Chloramphenicol, synthetic drugs, vitamins, synthetic hormones, glandular products and vaccines and sera.

Most manufacturers in the organised sector have collaboration arrangements with well-known pharmaceutical firms in England, America, Switzerland, Germany, Italy, the U.S.S.R., etc. This collaboration is not only financial, but also extends to the scientific, technological, and training fields. The research findings and the technological know-how of these foreign firms are freely available to their Indian counterparts.

The total capital investment in this sector is about Rs. 560 million, out of which Rs. 174 million represents investment of foreign capital. These units employ about 40,000 workers, out of whom about 4,000 are technically trained. The products they manufacture are equal in quality and purity to those manufactured in best advanced countries of the world.

Development programme in the Third Plan:

The following targets for production of some of the important essential drugs, broadly at par with the demand estimates for the Third Plan were envisaged.

| Name of the drug | Unit | Target |
|---|---|---|
| 1. Penicillin .. | Million mega | 120 |
| 2. Streptomycin .. | Tons | 150 |
| 3. Chloramphenicol .. | ,, | 50 |
| 4. Tetracylines .. | ,, | 50 |
| 5. Sulpha drugs .. | ,, | 1,000 |
| 6. P.A.S. .. .. | ,, | 400 |
| 7. I.N.H. .. .. | ,, | 100 |
| 8. Procainehydro-chloride .. | ,, | 75 |
| 9. D.D.T. .. .. | ,, | 6,000 |
| 10. B.H.C. .. .. | ,, | 15,000 |

**Developments in the public sector :**

The Third Plan visualises one big manufacturing unit in public sector, *viz.*, the Antibiotic Factory at Rishikesh under Russian collaboration. It will manufacture 300 tons of streptomycin sulphate, 140 M.M.U. penicillin, chlorotetracycline and other antibiotic drugs every year. Costing Rs. 22 crores, this project will save foreign exchange of Rs. 3 crores a year and is expected to earn an annual revenue of Rs. 25 crores. This factory will employ over 4,000 skilled and unskilled workers. Four insecticide and pesticides factories are already licensed in Bihar. These, costing about Rs. 20 lakhs, will be set up at Ranchi, Bhagalpur, Muzaffarpur and Patna. The Government of India has also approved of the scheme of Hindustan Antibiotics Ltd., Pimpri for setting up the plant for the manufacture of hamycin.

Besides meeting the domestic demands, India is also exporting drugs and pharmaceuticals. An export target of Rs. 8 crores had been set up for the year 1965-66. The value of exports is given in the accompanying table.

| Year | Value (Rs. lakhs) |
|---|---|
| 1960–61 .. .. .. | 98·72 |
| 1961–62 .. .. .. | 98·23 |
| 1962–63 .. .. .. | 106·71 |
| 1963-64 .. .. .. | 98·18 |
| 1964-65 .. .. .. | 115·03 |

During 1964-65 there was considerable increase in the production of antibiotics (penicillin, streptomycin and chloramphenicol) Vitamin C, Vitamin $B_6$ and Vitamin A, Antihistaminic drug (buclizine), tranquiliser (hydroxyzine) and the anaesthetic drug procainehydrochloride. Notable rise in production has also been registered in respect of anti TB (PAS and its salts and INH), antipyretic (Aspirin) and antidiabetic (Tolbutamide) drugs, and other items like niketham ide.

Synthetic production of prednisolone, an important cortecosteroid hormone has been established from indigenous dioscorea deltoida roots. Production has commenced for the first time of items like hydroxocobalamin (vitamin B-12) promethazine, an antihistamin drug, while additional capacity has been established for the production of streptomycin with the commencement of production by one unit in Gujarat State. Additional capacity has also been established for the antidiabetic drug (tolbutamide) Vitamin $B_{12}$ and thiacetazone. One unit for the production of the antidiabetic drug insulin starting from pancreas glands has been established in Maharashtra State. Another unit which has so far been manufacturing sulpha drugs based on imported intermediates has set up a basic manufacturing plant for the purpose. A new undertaking has been established very recently for the manufacture of PAS and its salts particularly its benzoyl derivative.

Before the close of 1959, the Central Government took decisions on the locations for the drugs projects as under :

1. Synthetic drug project, Sanatnagar (Hyderabad), Andhra Pradesh; 2. Antibiotics project, Rishikesh (U.P.); 3. Phyto-chemicals project, Neriamangalam (Kerala); 4. Surgical Instruments project, Guindy (near Madras).

***Production :*** The important items of production in the public sector, *e.g.*, penicillin and D.D.T. recorded increased output as shown below :

| Year | Penicillin million mega units | D.D.T. (tons) |
|---|---|---|
| 1956 .. .. | 14·09 | 814 |
| 1957 .. .. | 17·50 | 623 |
| 1958 .. .. | 26·93 | 1,755 |
| 1959 .. .. | 28·71 | 2,199 |
| 1960 .. .. | 39·70 | 2,786 |
| 1963 .. .. | 71.88 | 2,569 |
| 1964 .. .. | 84·26 | 2,593 |

**Progress in the private sector :**

Major schemes for the manufacture of bulk drugs were implemented in the private sector between 1956–61. The particulars regarding major schemes implemented in the Second Plan period are given below:

| Firm (1) | Drug (2) | Annual Capacity—installed (3) |
|---|---|---|
| Messrs. Alembic Chemicals, Baroda .. .. .. .. | Penicillin | 10 million mega units |
| | Calcium lactate | 60 tons |
| Messrs. MaC Laboratories .. | Chloramphenicol | 0·8 ton |
| Messrs. Parke Davis .. .. | —do.— | Expansion from 3·60 to 10 tons |
| Messrs. Dumex .. .. .. | Tetracycline | 2 tons |
| | Oxytetracycline | 5 tons |
| Messrs. Glaxo Laboratories .. | Vitamin 'A' | 10 million mega units |
| Messrs. Roche Products .. | —do.— | —do.— |
| Messrs. Sarabhai-Merck .. .. | Vitamin 'C' | 60 tons |
| Messrs. Merck Sharp and Dohme | Vitamin $B_{12}$ | 25 kilograms |
| Messrs. Sarabhai Chemicals .. | Nicotinic acid | 15 tons |
| | Calciumlactate | 132 tons |
| Messrs. Ciba Pharma .. .. | Reserpine | 12 kilograms |
| Messrs. May & Baker .. .. | Ephedrine | 1·0 ton |
| Messrs. British Drug House, Messrs. Ciba Pharma .., Messrs. Glaxo Laboratories, Messrs. Merck Sharp & Dohme | Synthetic hormones | 398 kilograms |
| Messrs. Geoffrey Manners .. | Phenacetin | 20 tons |
| Messrs. Alta Laboratories .. | Aspirin | 196 tons |
| Messrs. Atul Products .. .. | Niketham ide | 4·8 tons |
| Messrs. Hoechst Pharmaceuticals | Procaine Hydrochloride | 6·4 tons |

Establishments such as Sarabhai Chemicals, May & Baker, Parke-Davis, Dumex, Glaxo Laboratories, Sarabhai-Merck, Alembic Chemicals are already producing quality goods.

Monthly average production of drugs from 1960 to 1964 is given below:

| | Unit | 1960 | 1961 | 1962 | 1963 | 1964 |
|---|---|---|---|---|---|---|
| 1. Liver Extract: | | | | | | |
| (*i*) Injection .. .. | '000 cc. | 3408·2 | 3780·0 | 3662·0 | 3582·0 | 3221·0 |
| (*ii*) Oral .. .. | '000 kg. | 13·4 | 12·9 | 13·9 | 13·9 | 14·2 |
| 2. Anti-dysentery drugs | kg. | 1,725·0 | 3,003·0 | 3,681·0 | 4,921·0 | 5,855·0 |
| 3. Niketham ide .. .. | kg. | 259·0 | 492·0 | 553·0 | 577·0 | 652·0 |
| 4. I. N. H. .. .. | '000 kg. | 2·3 | 3·3 | 3·9 | 4·7 | 5·2 |
| 5. P. A. S. .. .. | '000 kg. | 7·0 | 8·6 | 12·0 | 19·1 | 19·0 |
| 6. Vitamin A .. .. | MMV | 1·2 | 1·2 | 1·5 | 1·5 | 1·7 |

**The following statement shows the year-wise value of important categories of drugs and pharmaceuticals imported during the last few years :**

Rs. in lakhs.

| Item | 1961–62 | 1962–63 | 1963-64 | 1964-65 |
|---|---|---|---|---|
| Antibiotics Aureomycin .. | 20·94 | 0·52 | — | — |
| Chloromycetin .. .. | 42·56 | 30·04 | 29·82 | 25·60 |
| Penicillin and its preparations | 63·45 | 57·96 | 37·96 | 20·24 |
| Streptomycin and its preparations .. .. .. | 122·51 | 159·97 | 79·09 | 28·15 |

| Proprietary and patent medicine .. .. .. .. | 99·66 | 75·87 | 90·01 | 50·04 |
| Other drugs and pharmaceuticals .. .. .. | 422·42 | 329·18 | 385·84 | 202·71 |
| GRAND TOTAL .. .. | 1,117·42 | 924·30 | 834·37 | 548·36 |

*Programme of development in the Third Five-Year Plan :* The demand for drugs and pharmaceuticals falls under the category of an essential requirement which will impose a heavy strain on foreign exchange resources if it has to be met from imports. The rate of expansion of demand for drugs is very much influenced by the price level as well as the programmes for expansion of medical facilities envisaged by the public authorities.

D.D.T. and B.H.C. are the two of the most important insecticides. Hindustan Insecticides Ltd., a public sector undertaking went into production in March 1955. The Second Five Year Plan envisaged the expansion of H. I. Ltd. from an annual capacity of 700 to 1,400 tons and establishment by the undertaking of a second D.D.T. plant at Alwaye in Kerala.

The production targets for 1965-66 as accepted by the Planning Commission are summarised below :

| Item | Unit | Production |
|---|---|---|
| Sulpha drugs .. | Tonnes | 1,016 |
| Penicillin .. | Million mega units | 120 |
| Streptomycin .. | Tonnes | 152 |
| P.A.S. .. | ,, | 406 |
| Anti-dysentery drugs .. | ,, | 76 |
| I.N.H. .. | ,, | 102 |
| Phyto-chemicals | ,, | 77·6 |
| D.D.T. .. | ,, | 6,096 |
| B.H.C. .. | ,, | 15,240 |

# BIHAR STATE

**Area :67,196 sq. miles.**

**Total Population : 46,455,610 (1961 census). Density 691 ; Literacy 18·23 per cent.**

**Capital : Patna.**

**Administrative Divisions :—Patna, Bhagalpur, Tirhut and Chota Nagpur.**

**Districts with names of District Headquarters in brackets in each Division :**

***Patna Division :*** **Patna (Patna) ; Gaya (Gaya); Shahabad (Arrah).**

***Tirhut Division :*** **Muzaffarpur (Muzaffarpur); Saran (Chapra) ; Champaran (Motihari) ; Darbhanga (Laheriasarai).**

***Bhagalpur Division :*** **Bhagalpur (Bhagalpur); Monghyr (Monghyr) ; Purnea (Purnea); Santal Parganas (Dumka) ; Saharsa (Saharsa).**

***Chota Nagpur Division :*** **Ranchi (Ranchi); Hazaribagh (Hazaribagh) ; Palamau (Daltenganj) ; Singhbhum (Chaibassa); Dhanbad (Dhanbad).**

**Number of Districts : 17 ; Number of District Boards : 17; Number of Municipalities (including Patna Municipal Corporation): 49 ; Improvement Trusts : 4 ; Notified Area Committees 41.**

**Number of Notified Area Committees : 28 ; Number of notified Panchayats : 10,761 (1962) ; Names of towns with a population of over 50,000 : Patna, Monghyr, Jamshedpur, Muzaffarpur, Gaya, Chapra, Bhagalpur, Arrah, Ranchi, Darbhanga and Gaya.**

*(For names, area and population of taluks see under Population.)*

**Complete switch-over to Hindi in all Govt. departments was to take effect from June 1, 1960.**

**Separation of judiciary from the executive has been implemented in all the districts of the State with effect from June, 1, 1964.**

## GEOGRAPHY

**Bihar is more thickly populated than Germany. Hindus form an overwhelming majority of the population. Though Muslims form about one-tenth of the total population they constitute more than one-fifth of the urban population of the State. The scheduled tribes account for 9·1 per cent as ascertained from 1961 census. These are inhabitants of the Chota Nagpur plateau and the Santal Parganas, the latter district being a continuation of the plateau in a north-easterly direction.**

**Although there is a great deal of mineral wealth in Chota Nagpur and important industries are developing in connection with it, still for the bulk of the population of the State agriculture continues to be the basic occupation. Over 81·5 per cent of the population depends wholly on agriculture, while only 7·8 per cent depends on industries.**

**The soil throughout the whole of that portion of the Indo-Gangetic plain lying within the State boundaries is extremely fertile, particularly in North Bihar, in parts of which the density of the population is more than 900 people to the square mile. The State occupies a transitional position between Ganges delta with its damp climate so suitable for the paddy crop and the States to the north and west where large irrigation schemes have had to be provided to enable the soil to produce its bounty. As in the delta of the Ganga, rice is by far the most important crop as it occupies normally an area of approximately 12 million acres or over 50 per cent of the net cropped area of the State. In the circumstances, the importance of the south-west monsoon to the State of Bihar cannot be overestimated.**

**In addition to the rice crop, however, other grain crops are grown on a tolerably large scale. Of the monsoon cereals, maize, wheat and barley are extensively grown. The cultivation of oilseeds like castor, mustard and linseed forms a large and important part of the agriculture of Bihar.**

**After Uttar Pradesh, Bihar is the most important white sugar area in India, some one-sixth of the total production of white sugar in the country being turned out in Bihar factories.**

**Jute has been an important crop and is confined almost entirely to the Purnea District part of which has gone to West Bengal after reorganization.**

**Tobacco is a crop of increasing importance in the State and one which is likely to expand in importance.**

## LARGE AND MEDIUM INDUSTRIES

**Heavy Engineering Corporation Ltd. :** The Heavy Engineering Corporation Ltd. was incorporated in Bihar on the 31st December 1958 with its headquarters at Ranchi, as a full-owned Government of India Undertaking to meet the country's growing requirements of heavy capital equipments.

2. The Corporation is now engaged in establishing the following projects :—

(*a*) *Heavy Machine Building Project :* Estimated capital outlay on the project excluding township is likely to be of the order of Rs. 106 crores.

The Plant is expected to achieve full capacity production by 1970-71 by which times it will be able to supply 80 per cent of the machinery required for a one-million ton steel plant. See note under '*Govt. Industrial Undertakings.*'

**Foundry Forge Project.**—See note under '*Govt. Industrial Undertakings*'.

**Heavy Machine Tools Project—**

Capital outlay on the project excluding the cost of township is expected to be approximately Rs. 15 crores. At full production, it will provide employment to more than 2,000 staff and workers.

See note under '*Govt. Ind. Undertakings*'.

**Indian Refineries Limited.**

The company was incorporated in August, 1958, for the purpose of constructing and operating two oil refineries at Gauhati in Assam and Baarauni in Bihar to process crude oil to be made available from the oil-fields in Upper Assam by the Oil India Limited.

The Refinery at Barauni which is the biggest in the country, has a processing capacity of 2 million tons of crude oil per year. It has been set up with technical and financial assistance of the USSR.

The first one-million stage of the Refinery went into production in July, 1964. The second million stage is nearing completion. It is expected to reach three million ton capacity, through further expansion, by the middle of 1966. It produces a number of products ranging from liquified petroleum gas (LPG) and aviation gasoline to lubricants, bitumen and coke.

**National Coal Development Corporation Limited**

The National Coal Development Corporation was incorporated in September, 1956, with its headquarters at Ranchi, with an authorised capital of Rs. 1·50 crores. The total investment in this corporation today stands at over Rs. 110 crores.

Please see "*All India Corporation*" for further details.

**Sindri Fertilizers and Chemicals Ltd.**

The Sindri Fertilizers and Chemicals Ltd. was incorporated in December, 1951, with its headquarters at Sindri in the district of Dhanbad. The object of the Company mainly is to carry on the business of manufacturing, storing, and its distribution of fertilizers.

It employs nearly 10,000 persons both skilled and unskilled.

Further details are given under '*Govt. Ind. Undertakings*'.

**Pyrites and Chemicals Development Company Ltd.**

Please see P. 143 under '*Govt. India Undertakings*'.

**Uranium Processing Plant**

The Government of India are also setting up a plant for processing uranium ore at an estimated cost of Rs. 4·3 crores at Jadugudda in the Singhbhum district. The Plant will exploit large deposities of atomic minerals in the State and supply uranium fuel for the four atomic reactors being set up in the country.

## STATE PUBLIC SECTOR PROJECTS

For the development of industries in the State, some of the major steps taken by the State Government include the establishment (*a*) Bihar State Financial Corporation, a statutory body and (*b*) the Bihar State Industrial Development Corporation as well as (*c*) the Bihar State Small Industries Corporation, both companies entirely owned and financed by the State Govt.

**Bihar State Financial Corporation.**

Pl. see p. 108 under '*State Corporations*'.

**Bihar State Industrial Development Corporation Ltd.**

Pl. see p. 109 under '*State Corporations*'.

**Bihar State Superphosphate Factory, Sindri (Dhanbad).**

Pl. see p. 144 under '*Govt. Industrial Undertakings*'.

**High Tension Insulator Factory, Ranchi:** The High Tension Insulator Factory, Ranchi, has been set up in technical collaboration with Czechoslovakia. Construction of the factory and erection of the plant were completed in 1963. The factory produces high tension electric insulators upto 132 KV and a small quantity of low tension post and telegraph insulators.

**Electric Equipment Factory, Tatisilwai Ranchi :** An Electric Equipment Factory is being established at Tatisilwai (Ranchi) in collaboration with the General Electric Co., at an estimated capital cost of Rs. 1·38 crores for manufacture of electric motors, transformers and switch gears. The total capacity of the factory will be 1,62,000 KVA of transformers and 63,000 H.P. motors per year. 137 acres of land has already been acquired for this purpose and preliminary works like preparation of project development of site, construction of site offices completed.

The erection of the factory is likely to be completed by 1967-68. The factory will employ about 700 persons when in full production, and produce goods worth Rs. 1·30 crores per year.

**Bihar State Small Industries Corporation :** The Bihar State Small Industries Corporation was registered in August, 1961, with an authorised capital of Rs. 1,50 crores, for execution of commercial schemes and carry the pace of industrial expansion forward, mainly in the small industries sector. Pl. see P. 109 for further details.

**Industrial Estates and Workshop Sheds :** Two Urban, two Semi-urban and twentyseven Rural Industrial Estates had been sanctioned during the Third Plan period. The two urban estates are being located at Bhagalpur and Muzaffarpur, where construction work is nearing completion. The two Semi-urban Industrial Estates are coming up at Purnea and Daltonganj. Progress of work at Purnea has already been

achieved to about 45 per cent but in case of Daltonganj, construction work has started only recently. Out of 27 Rural Industrial Estates, six are of 'A' type, four of 'B' type and seventeen of 'C' type at an estimated cost of Rs. 3·00 lakhs, Rs. 2·00 lakhs and Rs. 1·00 lakh respectively.

## KHADI AND VILLAGE INDUSTRIES

The area of Bihar has been divided into 588 anchal-cum-development Blocks, out of these 440, which come to about 76 per cent, have been covered by some kind of development activity under the Khadi and Village Industries. As regard's Khadi production, Bihar has a place of pride in the whole of country. Last year Khadi and Village Industries in Bihar produced articles worth Rs. 8 crores, 53 lakhs and 31 thousands. The sale effected was 8 crores 34 lakh and 90 thousands. The total number of persons finding part time or whole time employment was 31 lakhs and 80 thousands and the sum of Rs. 2 crores, 61 lakhs and 58 thousands was distributed among them as wages. The number of Khadi Bhawans in the State is 497.

Industries other than the Khadi, which are being organised in Bihar are as follows:—

Ghani Oil, Hand processing of cereals and pulses, leather, Gur Khandsari, Palmgur, Non-Edible Oil and Soap, Handmade Paper, Bee-Keeping, Pottery, Fibre Cottage Match, Carpentary and Black-Smithy, Gobar Gas and Gram Ekai.

The Industries which have made considerable progress are Ghani Oil, Hand processing of cereals and pulse and Bee-Keeping. The Ghani Oil Industry has 1,100 Co-operatives which have produced Oil worth Rs. 4,61,12,477 and given employment to 7,844 persons. The Hand processing of Cereals and pulses has 507 Cooperative, which have produced rice worth Rs. 42,69,923 and given employment to 13, 706 persons. The Bee-Keeping Industry made a remarkable progress. This year (1964-65) 4,226 Bee-Keepers produced 1,04,150 Kilogram of Honey—57 per cent more than the production in year 1963-64.

## SMALL-SCALE INDUSTRIES

Common Facility Service Centres, Rural Workshop Production Centres, Model Workshops and Raw Materials Depots are some of the important schemes which are being implemented for the development of small-scale industries. Production Centres consist of a Footwear Unit at Bhagalpur and Shoe-lace Factory at Hajipur. Under Model Workshop, 4 Tanneries one Footwear unit and 3 Carpentry Units are being started. Ten Rural Workshop Sheds have been sanctioned and they are under various stages of implementation.

With a view to ensuring efficient management of commercial and semi-commercial schemes and of industrial estates and other small industrial units the State Government registered a Company in October 1961 known as "The Bihar State Small Industries Corporation Ltd.", which has an authorised capital of Rs. 50 lakhs The Corporation has taken effective steps to orient the working of the schemes transferred to it, so as to meet the defence needs. All the leather schemes have also been transferred to the Corporation for manufacture of army boots.

*Handloom:* Handloom is the most organised cottage industry in the State employing nearly 10 lakhs of persons annually on two lakh looms.

*Handicrafts:* During the Third Five Year Plan two production centres, in cane and bamboo, one each in paper machie and one centre for bell and brass metal have been set up. A Craft Museum has been located in Patna for display of handicrafts products. For supply of raw materials to handicrafts workers at reasonable prices, a Raw Materials Depot has been located in Patna. An Institute of Industrial Designs is functioning at Digha which besides making research in designs, also conducts training courses for artisans and instructional staff of training centres.

*Sericulture:* Bihar is the largest producer of tassar in India and about one lakh persons in this State are engaged in different branches of this industry, from the rearing of silk worm to the finishing of silk fabrics. Incidentally, this industry provides large-scale employment to the Adivasis of Chhotanagpur and Santhal Parganas.

## KHADI AND VILLAGE INDUSTRIES

The schemes of Khadi and Village Industries are implemented by the Bihar State Khadi Village Industries Board which receives funds from the Khadi and Village Industries Commission.

*Technical Education:* At present six Engineering Colleges and 12 Engineering Schools and Polytechnics are functioning in the State. These institutions now have an annual intake capacity of 1,196 at the degree level and 1,475 at the diploma level. During the Third Five Year Plan the above training capacity was proposed to be expanded further for meeting longer requirements of trained manpower in industry.

In the field of mining education, it is proposed to introduce Co-operative Courses in Mining Engineering at the Bihar Institute of Technology, Sindri. Evening Mining Classes for training out skilled operators for mining industry are also proposed to be set up in Bokaro—Barkakana area.

During 1961-62, three industrial pilot projects and three women's industrial schools have been established for small industries. Four industrial estates at Patna, Ranchi, Biharsharif and Darbhanga were expected to be completed by 1962-63. Also, locations have been finalised for setting up eight rural and six urban estates.

### MINERALS (1964)

| Mineral | Unit of quantity | Quantity | Value Rs. '000 |
|---|---|---|---|
| Apatite .. | Tonnes | 3.402 | 102 |
| Asbestos .. | ,, | 417 | 51 |
| Bauxite .. | ,, | 336,762 | 2,869 |
| Chinaclay (Non-saleable crude) .. | ,, | 108,573 | N.A. |
| Chinaclay (saleable crude) .. | ,, | 9,754 | 98 |
| Chinaclay (Processed) | ,, | 30,522 | 2,053 |
| Chromite .. | ,, | 2,243 | 101 |
| Coal .. | '000 Tonnes | 29,580 | 695,160 |
| Copper Ore .. | Tonnes | 472,963 | 24,121 |
| Dolomite .. | ,, | 4,956 | 39 |
| Felspar .. | ,, | 328 | 4 |
| Fireclay .. | ,, | 80,105 | 781 |
| Iron Ore .. | ,, | 3,531,651 | 33,116 |
| Kyanite .. | ,, | 33,475 | 6,252 |
| Limestone .. | ,, | 2,128,646 | 14,314 |
| Manganese ore .. | ,, | 24,637 | 687 |
| Mica (crude) | ,, | 10,402 | 11,659 |
| Quartz and Silica .. | ,, | 21,140 | 353 |
| Steatite .. | ,, | 4,202 | 22 |
| Total value | | | 791,782 |

The districtwise distribution of the minerals (names of districts in brackets) is as follows:—

Apatite (Singhbhum); Asbestos (Singhbhum); Bauxite (Ranchi, Palamau & Monghyr); Chinaclay (Singhbhum, Bhagalpur, Santhalpargana, Ranchi); Chromite (Singhbhum); Coal (Dhanbad, Hazaribagh, Palamau & Santhalpargana); Copper Ore (Singhbhum); Crude Mica (Hazaribagh, Gaya, Monghyr); Dolomite (Singhbhum, Palamau, Shahabad, Hazaribagh); Felspar (Hazaribagh, Gaya, Monghyr); Fire-Clay (Dhanbad, Hazaribagh, Palamau & Santhal Pargana); Iron-Ore (Singhbhum, Palamau); Kyanite (Singhbhum); Limestone (Shahabad, Palamau, Hazaribagh, Singhbhum, Ranchi) Manganese Ore (Singhbhum); Pyrite (Shahabad) Quartz & Silica (Singhbhum, Dhanbad); Steatite (Singhbhum).

The State Government has formed a body known as the Mica Syndicate to improve the mica industry in Bihar. The State Government is also taking steps to set up cement factories, and investigations are in progress for the search of fresh lime stone deposits to feed these proposed factories. The site of the proposed sulphuric acid plant has been shifted to Sindri from Shahabad.

## AGRICULTURE

The population of Bihar, according to the 1961 census, is estimated at 46·46 millions. Bihar, with 5·71 per cent of the Union's land area, has 10·59 per cent of her population. It is the second most populous State in the country coming next only to Uttar Pradesh. In terms of area, however, Bihar's rank is eight. The rural population is estimated to be 91·56 per cent of the total population of the State. The proportion of total population depending on agriculture is estimated to be nearly 86 per cent.

The total geographical area of the State is estimated to be 42·82 million acres out of which nearly 20·63 million acres are cultivated. Including double cropping, the total gross cropped area of the State is estimated at 27·43 million acres. The areas under culturable waste and fallow lands are 1·39 and 5·04 million acres respectively. The gross irrigated area of the State was nearly 5·40 million acres.

The acreages (in million acres) under principal crops during 1961-62 are estimated to be:—

Rice 13·05; Wheat 1·63; Barley 0·91; Maize 1·86; Arhar 0·45; Sugarcane 0·41; Tobacco 0·04; Potato 0·20; Jute 0·42; Chillies 0·07.

The productions of important crops during 1961-62 are as shown below (in million tons):—

Rice 4·90; Wheat 0·39; Barley 0·20; Maize 0·59; Arhar 0·12; Sugarcane 6·75; Tobacco 0·01; Potato 0·63; Jute 0·93 (in million bales); Chillies 0·02.

Sugarcane is mostly grown in the districts of Champaran, Saran, Darbhanga and Muzaffarpur. Jute is cultivated in the districts of Purnea and Saharsa. Tobacco is grown in Muzaffarpur, Monghyr, Purnea and Darbhanga.

Various types of inland fishes are produced in the State. These are mainly carps, cat-fishes, feather backs, murrells etc. The estimated average annual production of fish is nearly 10 lakh mds. which is mostly exported outside the State. The estimated fishing population is a little more than two millions.

There were 358 Blocks in June 1960. Of these 286 were C. D. Blocks of stage I, 46 of stage II and 24 C. D. Blocks of the old pattern.

They covered 42,000 villages with an area of approximately 43,000 square miles and a population of 23·5 millions.

As at end of June 1960, the money value of the peoples' contribution was estimated at Rs. 13·15 crores as against Government expenditure of Rs. 8·94 crores.

Under the Community Development Programme 6,000 villages have been provided with radio sets uptill Dec. 1961.

The Government sanctioned a loan of Rs. 16,25,000 to farmers for purchasing potato seeds (July 1963). In the districts of Bhagalpur, Saharsha and Purnea about 10,000 acres were expected to be brought under potato cultivation.

### FORESTS (1965-66)

| Main forest produce | Quantity |
|---|---|
| Timber .. .. .. | 1,26,00,000 cft. |
| Fuel .. .. .. | 1,70,00,000 ,, |
| Bamboo .. .. .. | 1,70,000 tons |
| Sabaigrass .. .. | 2,39,600 mds. |

The total area of reserved, protected and unclassed forests in Bihar is 12,147 sq. miles. There are two national parks, 17 games sanctuaries and 227 shooting blocks in the State.

Revenue and expenditure of the forests in Bihar for 1965-66 are expected to be Rs. 2,65,54,300 and Rs. 1,84,78,000 respectively.

The Second Plan allotment of Rs. 293·00 lakhs was fully utilised for improvement of forests on all fronts such as afforestation, roads, development of lac, opening of saw mills, seasoning kilns and timber treating plants.

1,36,200 acres of land had been afforested in the first four years of the Third Plan. It was proposed to afforest over 35,000 acres of denuded forest lands during the final year of the Third Plan.

Special emphasis has been laid on the plantation of industrial species such as teak, shishum, bamboo and eucalyptus.

An exclusive scheme for bamboo plantation in 15,000 acres to meet the needs of the paper industry is a special feature o ithe Third Plan.

Upto 1964-65, bamboo had been planted over 12,000 acres and eucalyptus over 6,300 acres. During 1965-66, it was proposed to plant bamboo over 3,000 acres and eucalyptus over 3,700 acres.

It was also proposed to rehabilitate Sabai Baris of the Rajmahal Hills during the Third Plan. The scheme is likely to assure 3·5 lakh maunds of Sabai grass in the Third Plan.

(See also under 'Forests' for other particulars).

## ROAD TRANSPORT CORPORATION

"Sultan Palace", Patna

The Corporation operated 835 schedules on different routes at the end of the year 1964-65. The total fleet strength on the last day of the year was 1,120. The fare was 5 Paise per passenger mile inclusive of 12·5 per cent passenger tax.

The Corporation serves 14 districts, 3 in North Bihar and 11 in South Bihar. Patna, the Headquarters of the Corporation, is connected by direct bus services with some important towns such as Darbhanga & Jainagar in North Bihar and Arrah, Gaya, Rajgir, Bhagalpur, Hazaribagh, Dhanbad, Ranchi, Daltonganj, Jamshedpur, and Giridih in South Bihar.

The Corporation has 6 operating divisions as below. 1. Patna, 2. Gaya, 3. Ranchi, 4. Bhagalpur, 5. Jamshedpur and 6. Muzaffarpur. Under these divisions there are 23 depots. The Corporation has also its Central Workshop located in Phulwarisharif with divisional and depot workshops to cater to the field requirements.

## IRRIGATION

The water resources available and the present possibilities of utilising the same through various assured irrigation schemes in the three natural divisions of this State, (*i*) South Bihar Plains; (*ii*) Chotanagpur and Santhal Parganas; and (*iii*) North Bihar, have been assessed on the basis of the rain-fall pattern and failure of crops and a master-plan of irrigation in Bihar has been prepared. The irrigation schemes of this department proposed under this Master Plan aim at bringing 104 lakh acres of culturable land under assured irrigation at a cost of Rs. 184 crores.

Irrigation Schemes are under the control of the Irrigation Department and the River Valley Projects Department.

Before the beginning of the First Five Year Plan, 10·37 lakh acres of land only were under assured irrigation in this State. As a result of execution of the various irrigation schemes during the First Plan period, an irrigation potential of 5·13 lakh acres was created, but out of this increased irrigation potential, only 3·16 lakh acres of land were actually irrigated by the end of the First Plan period. By the end of the Second Five Year Plan period a total irrigation potential of 23·60 lakh acres was created by the various medium and minor irrigation and the flood control schemes executed by the Irrigation Department. Out of this total irrigation potential of 23·60 lakh acres, only 20·35 lakh acres of irrigation potential could be utilised by the end of the Second Plan period.

Before the inception of the First Five Year Plan only 5·4 *per cent* of the total culturable land in the State had been brought under assured irrigation. But due to the execution of the various irrigation schemes during the First and the Second Five Year Plan, 11 *per cent* of the total culturable land had been brought under assured irrigation.

By drainage of chaurs only 37,000 acres of land had been reclaimed before the beginning of the First Five Year Plan. During the First and Second Five Year Plan 2,28,000 acres and 1,82,000 acres of land respectively were reclaimed. By the end of the Second Five Year Plan period, 4,47,000 acres of such land had been reclaimed.

The Third Five Year Plan envisaged a total outlay of Rs. 12·82 crores over medium irrigation schemes besides major projects like the Kosi, the Gandak and the Sone Barrage. Eleven new medium irrigation schemes were approved for execution out of which nine schemes are already under execution and the remaining two schemes are to be taken up shortly, (June 1964). During the first three years of the Third Plan, a sum of Rs. 7·70 crores had been spent and the programme for 1964-65 and 1965-66 is to spend more than Rs. seven crores, thus exceeding the Third Plan ceiling. The total benefit during the Third Plan is expected to be an additional irrigation potential of 5·90 lakh acres and utilisation of 5·51 lakh acres. Big projects like Badua Reservoir (Bhagalpur), Kanchi Weir (Ranchi), Roro (Singhbhum), Kamla Weir (Darbhanga) are nearing completion (June 1964).

In the flood control section, the Third Plan ceiling was to spend Rs. 2·20 crores over Flood Control Schemes excluding the Kosi Project and to protect an additional area of 3·50 lakh acres from ravages of floods. A sum of Rs. 1·85 crores had been spent during the first three years of Third Plan and nearly Rs. 1·5 crores was expected to be spent during the last two years of the Third Plan.

**Badua Dam :** The Rs. 4·26 crore Badua Dam project in Bhagalpur district was expected to be completed by the end of June 1963.

The catchment area of the dam would be a little over 185 sq. miles. Its reservoir would have a gross storage capacity of 1,04,000-acre feet of flood and rain water.

## POWER

During the First Five Year Plan period, the Electricity Department spent Rs. 8·27 crores and during the Second Plan period Rs. 20·55 crores on electricity development in the State.

A provision of Rs. 79·55 crores, including a contribution of Rs. 20·04 crores for the Power programme of the D.V.C., had been envisaged in the Third Plan.

The Electricity Board has taken up the installation of two big Power generating stations, one at Barauni of 145 MW and other at Patratu of 400 MW at an estimated cost of Rs. 1,347·35 lakhs and Rs. 4,600 lakhs respectively. The expenditure incurred during 1962-63 was Rs. 923 lakhs on various power projects.

**The Bihar State Electricity Board :** The Bihar State Electricity Board was formed on 1st April, 1958, in pursuance of the provisions of the Electricity (Supply) Act 1948.

The progress of electrification in the State is given below :—

| Item | Achievement at the beginning of the First Plan | Achievement at the end of the First Plan | Achievement upto 31-3-1958 | Achievement at the end of the Second Plan | Achievement during 1961-63 (upto December) | Progressive total |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| Diesel Stations .. .. | •630 KW | 7,000 KW | 9,400 KW | 11,000KW | — | 13,276KW |
| H. T. Line Miles .. | 200 | 2,928 | 5,249 | 7,814 | 1,041 | 8,855 |
| L. T. Line (Miles) .. | 50 | 853 | 1,995 | 3,536 | 352·5 | 3,889 |
| Sub-Station (Nos.) .. | 75 | 1,532 | 2,289 | 3,733 | 383 | 4,116 |
| Tubewells and Surface Wells .. .. .. | 110 | 1,653 | 2,402 | 4,527 | 1,051 | 5,578 |
| Towns and Villages Electrified .. .. .. | 10 | 363 | 790 | 1,758 | 748 | 3,240 |

During the Second Plan period, a few private electricity undertakings were acquired by the Government.

The tube-wells and surface wells provided assured irrigation to about 4·5 lakh acres of land in the State by the end of the Second Plan. The per capita consumption rose from 6-7 units at the beginning of the Plan to 24 units at the end of the Plan as compared to the All India figure of 45 units.

**Third Five Year Plan.** The important schemes taken up during the Third Five Year Plan are the following :—

An outlay of about Rs. 77·58 crores had been approved for the annual plan of Bihar for 1965-66.

The tentative allocations for the main sectors are : agricultural programmes : Rs. 10·65 crores ; community development and co-operation : Rs. 7·45 crores ; irrigation and power : Rs. 37·48 crores ; industry and mining : Rs. 2·67 crores ; transport and communications : Rs. 3·71 crores ; social service : Rs. 15·36 crores ; and miscellaneous : Rs. 0·26 crores .

The Third Plan outlay for Bihar is of the order of Rs. 337·04 crores, of which the total expenditure up to the end of the 1965-66 is estimated at Rs. 241·32 crores.

The draft Fourth Plan for Bihar envisages an outlay of Rs. 939·52 crores.

*Barauni Thermal Station :*—Two sets of 15 MW each were sanctioned during the Second Plan and a third 15 MW set during the Third Plan. These first two 15 MW sets have been commissioned and most of the erection of equipments for the Third 15 MW set is complete. The revised estimated cost of the Barauni Thermal Power Station is now about Rs. 15 crores.

*Patratu Thermal Power Station :*—Its estimated cost is Rs. 46·20 crores. The work on the scheme was started in 1960-61. The total installation will consist of four 50 MW sets and two 100 MW sets.

Construction of a Dam on Nalkar Nala was also taken up for supply of water to the township and power station. The details of supply of plants, equipment, etc. were finalised by the U.S.S.R. authorities. The first 50 MW set is scheduled to be commissioned by June, 1965 and the other unit at successive five months interval.

*Gandak Hydel Project :*—It is proposed to construct a power house with 3 sets of 5 MW. each on the Western Canal of the Gandak Project. The estimated plan provision is Rs. 2·02 crores. The Generating Station is however expected to go into commission during the beginning of the 4th Five Year Plan.

*Kosi Project :*—A multi-purpose project with emphasis on irrigation and flood control, it is

estimated to cost Rs. 63·46 crores (revised) on the old schemes comprising (*a*) barrage and headworks (*b*) flood banks and protective measures (*c*) Eastern Kosi canal system (including Phulkaha distributary) with annual irrigation of 14·34 lakh acres and the cost of village channels upto two cusecs capacity. Barrage and headworks were completed during 1963. Flood embankments on both sides were completed in 1958-59 thereby affording protection to an area of 6·55 lakh acres from annual spill. The Eastern Kosi canal is almost complete. The expenditure incurred on the project upto the end of Dec. 1964 was Rs. 53·54 crores.

New schemes under the project that have been sanctioned in the Third Plan period are (*a*) extension of eastern and western levels (*b*) Rajpur canal system for irrigating 3·97 lakh acres (*c*) Western Kosi canal system for irrigating eight lakh acres and (*d*) investigation of Kothar Dam. They are estimated to cost Rs. 19·19 crores.

Steady progress is being maintained on the project.

The work on Kosi Hydel Power Station is also in progress. This has a potential of generating 20,000 KW of power in the main Eastern Kosi canal, half of which has been earmarked for use in Nepal.

*Railway Track Electrification :*—The scheme was taken up during the latter period of the Second Five Year Plan for giving supply to the Railway for track electrification at the following points:—(*i*) Chandil (*ii*) Rajkharswan (*iii*) Goelkera (*iv*) Kendposi (*v*) Dalbhumgarh (*vi*) Karmanasa (*vii*) Sonenagar and (*viii*) Gaya, by availing bulk supply at 132 KV. from Rihand, D.V.C. and Hirakud. The total estimated cost of the scheme is Rs. 3·99 crores out of which a sum of Rs. 2·70 crores had been spent during the Second Plan period. The supply has already been commenced at Chandil, Goelkera, Khandposi, Dalbhumgarh, Sone Sagar, Gaya, Rajkharswan and Khandposi to the Railways.

The work has now been completed in all respects.

*Maithon-Sultanganj lines :*—To cater to the demand for power in East Bihar area (Monghyr, Bhagalpur and Santhal Parganas), a 120 mile long 132 K.V. transmission line from Maithon to Sultanjganj has been constructed. The total estimated cost of the scheme is Rs. 267·69 lakhs, out of which Rs. 241·86 lakhs had already been spent by the end of March, 1963 and a further sum of Rs. 29·50 lakhs has been spent during 1964-65.

*Transmission :*—For transmitting the power generated at Barauni, Gandak, Kosi and Patratu stations, it is proposed to have a big net-work of 132 K.V. transmission lines together with 132/33 K.V. grid substations at various load centres all over the State. The total estimated cost of this work is Rs. 17·44 crores against which a provision of Rs. 8·31 crores has been made in the 3rd Plan.

*Distribution :*—For distributing the power available from the D.V.C. as well as from the Board's generating stations, eight distribution schemes have been prepared. A provision of Rs. 4·73 crores had been made in the 3rd Plan. However, the expenditure against these schemes upto March, 1964 was Rs. 6·93 crores and the proposed outlay during 1964-65 was Rs. 2·5 crores. It is estimated that the total expenditure against these scheme during the Third Plan will be about Rs. 14·81 crores. It was proposed to make arrangements for supplying energy to about 2,000 surface pump wells in this area during the Plan period.

*Rural Electrification :*—Upto March, 1962, 2,757 towns and villages were electrified. The provision for rural electrification in the Third Plan was Rs. three crores for extension of supply to 1,250 villages. It was expected that at the end of the Third Plan about 4,000 towns and villages would have been electrified.

It is estimated that the total requirement of power at the end of the Third Five Year Plan will be 104 MW. in North Bihar. Barauni Thermal power station will have a firm capacity of 95 MW. by the end of the Third Five Year Plan. The saleable capacity will be 83 MW. and the nett deficit 21 MW. The estimated requirement of power in South Bihar to be met by the Board at the end of the Third Five Year Plan is 510 MWs. The D.V.C. have already agreed to supply 143 MW. from their existing plants. It is expected that they will supply 57 MWs. more from their new plants. 258 MWs. will be produced at Patratu and 23 MW. will be received from Rihand. There will be a deficit of 29 MW at the end of the Third Plan.

It was expected that by the end of this Plan, the per capita consumption in the State will increase from 24 units to 67·5 units (excluding self generating units), while the corresponding figure for the whole country will be 79 units.

**Financial Position of the Board:** The Electricity Department of the Government had incurred a capital expenditure of Rs. 14·94 crores upto 31st March 1958, when the Board was formed. Subsequently, the Board has incurred a capital expenditure of Rs. 14·91 crores upto 31-3-61 the total capital investments on the electricity schemes up to this date being about Rs. 30·0 crores. The expected capital investment during the Third Plan is Rs. 59·91 crores, exclusive of the State Government's contribution of Rs. 20·0 crores to the D.V.C.

## LAND TENURE

The land tenure system in Bihar is governed by the following Tenancy Acts: The Bihar Tenancy Act, 1885, The Chota Nagpur Tenancy Act, 1908; the Santal Parganas Tenancy (Supplementary Provision) Act, 1949 ; The Kosi Area (Restoration of Lands to Raiyats) Act, 1951 ; The Bihar Privileged Persons Homestead Tenancy Act, 1947 ; The Bihar Bakast Dispute Settlement Act, 1947 ; and the Ranchi District Tana Bhagat Raiyats Agricultural Land Restoration Act, 1947. The above Acts protect all types of raiyats against eviction and ensure special privileges to scheduled castes and scheduled tribes against alienation.

The Raiyats in Bihar may be classified into the following classes:—(*i*) Occupancy raiyats (*i.e.* raiyats having right of occupancy in the land held by them), (*ii*) Non-occupancy raiyats (*i.e.* raiyats not having the right of occupancy); (*iii*) Under raiyats (*i.e.* tenants holding immediately or mediately under raiyats). In the Chota Nagpur Division there are two more classes of raiyats *viz.* (*i*) Raiyats having Khuntkatti Rights ; (*ii*) Mundari Khurtkattidaris.

The Government of Bihar enacted the Bihar Land Reforms Act, 1950 which provides for the liquidation of Zamindari system in the State.

The Bihar Land Reforms Act, 1950 was put into force with effect from 25th September 1950, and now all intermediary interests have been acquired by the Government. Actually the vesting of the estates started from May 1952. The Zamindari system in Bihar now stands completely abolished.

The Government has laid down a sliding scale for the assessment of compensation. Where the net income does not exceed Rs. 500, the compensation payable is twenty times the net income, and where the net income computed exceeds Rs. 1,00,000 it is payable at three times the amount subject to a minimum of Rs. 4 lakhs.

The total compensation is estimated at about Rs. 100 crores except the interest payable on bonds. Of this, a sum of Rs. 13·14 crores has already been paid in bonds upto 1964-1965 and another sum of Rs. 6·69 crores has also been paid otherwise, either in cash or by adjustment of arrears of various Government dues.

Provision has also been made for ad-interim payment. A total sum of Rs. 15·59 crores has also been paid upto the period ending 31st March 1965 on this account.

The assessment of compensation for mines and minerals has either to be fixed by agreement or by a tribunal appointed for the purpose.

As for funds to finance compensation, the proposal for Zamindari abolition in Bihar has been drawn up as a self-liquidating scheme.

The gross rental from the agricultural land, forests, royalty from mines and other miscellaneous sources in the State is about Rs. 10 crores, which is likely to increase further as a result of reclamation of waste lands, the development as well as expansion of the forests, mines, sairats, etc.

The amount of compensation will be paid in cash or in bonds or partly in cash and partly in bonds. The bonds will be either negotiable and transferable, and will be payable in forty equal instalments, and carry interest at two and a half per cent per annum with effect from the date of issue.

The tenant in Bihar has to pay rent in cash.

A ceiling on land holdings has been imposed under the Bihar Land Reforms (fixation of ceiling area and acquisition of surplus land) Act, 1961, which was brought into force with effect from April 19, 1962. This Act is being implemented in the State.

### Waste Land Reclamation

During the Second Plan period, 21,000 acres of waste land were reclaimed through manual labour with the help of subsidy at the rate of Rs. 100 per acre in the lateretic region of South Bihar.

26,591 acres of waste land were reclaimed in the hilly areas of South Bihar through the heavy tractors of private contractors. For this the scale of subsidy admissible is Rs. 400 per acre out of which Rs. 325 per acre is paid to the tractor company and Rs. 75 per acre is spent on ploughing and post reclamation measures.

During 1962-63, 15,734 acres and during 1963-64, 4,701 acres were reclaimed both by tractors and by manual labour.

The programme for 1964-65 was to reclaim 20,700 acres both by manual labour and tractors with Rs. 30·24 lakhs.

During the Third Plan, 75,000 acres were expected to be reclaimed by manual labour and by tractors.

## BHOODAN MOVEMENT

*Grant-in-Aid to the Bihar Bhoodan Yagna Committee :* A sum of Rs. 14·46 lakhs has been sanctioned by the Government of Bihar to the Committee from 1955-56 to 1964-65.

The execution of ten pilot projects for the resettlement of 250 families of landless agricultural workers on Bhoodan lands in Bihar had been sanctioned during 1957-58 at a total cost of Rs. 2,50,000. The schemes have been taken up for execution through Co-operative Societies known as Sarvodaya Sahayog Samities which have been constituted by the Bihar Bhoodan Yagna Committee. A sum of Rs. 1,70,109 as subsidy and Rs. 50,057 as loan have been spent. 186 Bhoodan families have been settled and 900 acres of land have been reclaimed.

A scheme for resettlement of 10,000 landless agricultural workers on Bhoodan lands had been sanctioned by the Government of India during 1957-58 at a cost of Rs. 30 lakhs, 75 per cent of which was given as subsidy and the balance of 25 per cent as loan. The entire expenditure has been borne by the Government of India and accordingly they have sanctioned Rs. 22,50,000 as subsidy and Rs. 7,50,000 as loan.

In addition to the above schemes, the Bihar Bhoodan Yagna Committee has sponsored another scheme of twenty pilot projects for the resettlement of 500 families of landless agricultural workers on Bhoodan lands at an estimated cost of Rs. five lakhs out of which Rs. 1·25 lakhs will be in the shape of loan and Rs. 3·75 lakhs as subsidy. The scheme is under the consideration of the Government of Bihar.

## RELIEF-MEASURES

During 1964-65, an expenditure of Rs. 22·88 lakhs was incurred due to famine, drought or other natural calamities.

Under "Loans and Advances" an amount of Rs. 37·08 lakhs was spent during 1964-65. Break-up (in Rs.): Land Improvement Loans Act 2,21,534; Agriculturists Loans Act 33,44,148; Natural Calamity Loans Act 1,42,290.

## COMMUNITY DEVELOPMENT AND PANCHAYATS

The whole State of Bihar has now been covered by Community Development Blocks. In April, 1965, 575 Blocks were in operation, twelve of which were further delimited to facilitate intensive development of tribal areas. Out of the total of these 587 Blocks, 248 Blocks are functioning in C.D. stage I, 292 in C.D. stage II and 47 in post stage II phases. This includes 59 C.D. Blocks.

As in other States, the Panchayat Raj scheme in the State has also three tiers of local administration—Village Panchayats at the Block level, Panchayat Samities at the Block level and Zila Parishads at the district level.

The Panchayat Raj scheme has been introduced in the four divisional headquarter districts, namely, Patna, Muzaffarpur, Bhagalpur and Ranchi in the first instance. Various provisions of Zila Parishad and Panchayat Samities Act 1961, have accordingly been made applicable to these districts. The scheme was inaugurated in the districts of Bhagalpur and Ranchi in Oct., 1964. The scheme was expected to be inaugurated in 1965 at Patna and Muzaffarpur.

## CO-OPERATION

Figures as of June 1964.

Number of Cooperative Societies of all types—37,822; Membership—23·14 lakhs; Working capital Rs. 3,958·40 lakhs.

Share Capital—Rs. 715·80 lakhs; Reserve fund—Rs. 300·76 lakhs.

Types of Cooperative Societies and number of each type as on 30th June 1964.

Provincial and Central Cooperative Banks 36; other central societies 80; Cooperative Farming Societies 300; Primary Agricultural Credit Societies 19,568; Weavers' Cooperative Societies 1,077; Oilmen's Cooperative Societies 1,494; Fishermen Cooperative Societies 219; Cooperative Stores 403; Cane Marketing Unions 72; Canegrowers Cooperative Societies 9,098; Milk Societies 113; Industrial Societies 1,544; Marketing Societies 245; Other types of societies 3,573.

*Bihar State Cooperative Bank:* Paid-up Share capital Rs. 57·63 lakhs; Deposits Rs. 298·42 lakhs; Loans from other sources Rs. 173·36 lakhs; Reserves Rs. 41·37 lakhs; Loans advanced to Central Co-operative Banks and others Rs. 474·62 lakhs.

*Central Cooperative Bank:* Number of Banks 28; The percentage of recovery rose from 39 per cent in 1957-58 to 68 per cent in 1963-64.

*Bihar State Cooperative Land Mortgage Bank:* 17 branches of the bank are working in the State. Out of a share capital of Rs. 14 lakhs by the State Government, the bank has already advanced Rs. 9·62 lakhs.

*Bihar State Marketing Union:* The Union sold goods worth Rs. 438·40 lakhs; Fertilisers sold Rs. 434·40 lakhs.

*Weavers' Societies:* No. of societies as on 30th June, 1964—1,077; value of goods produced Rs. 338·44 lakhs.

## LIVESTOCK

According to the Livestock Census 1961, Bihar possesses the following livestock (in million): Cattle 16·18; Buffaloes 3·69; Sheep 1·15; Goat 8·67; Pig 0·80; Poultry 12·35.

*Cattle Development:* At present seven Govt. Cattle breeding farms are functioning in the State to produce improved bulls. In addition, 43 key village blocks, 10 large town A.1 centres, 107 artificial insemination centres, three semen banks and two intensive cattle development blocks under crash Programme are functioning in the State for upgrading the local cattle, more milk yield and better draught performance. 7,330 improved bulls have been distributed in the Community Development Blocks for natural mating till 1964-65.

*Piggery Development:* There are now 13 Piggery Development Blocks and four Piggery Development Units functioning in the State. Under the crash Programme, a pig breeding farm cum bacon factory has been started at Ranchi with ten piggery development blocks around it. 4,030 pigs have been distributed in the C.D. Blocks till 1964-65.

*Sheep & Goat Development:* Two sheep and goat breeding farms are functioning in the State. Besides, 20 Sheep and Wool Extension Centres have been established for the production of quality wool and mutton. 1,363 rams and 2,380 ducks have been distributed in C. D. Blocks till 1964-65 for grading up the local sheep and goat population.

*Poultry Development:* For the development of poultry, birds of improved breeds are being introduced in the State through four range poultry farms, 21 poultry extension centres, 12 poultry development centres, 11 poultry farms at C. D. Block headquarters in the industrial belt, 92 poultry hatching and rearing centres, two intensive poultry development blocks and two intensive egg and poultry production cum marketing centres. A small poultry dressing plant has been started at Patna under the Crash Programme to meet the demand of dressed poultry meat; 2,76,775 improved birds, 3,04,423 eggs, 1,71,326 day old chicks have been distributed in the State during the Third Plan till the end of 1964-65.

A Duck Extension Centre is also functioning in the State.

*Disease control:* 632 veterinary hospitals and dispensaries including 18 mobile veterinary dispensaries are functioning in the State.

*Other Institutions:* Bihar Veterinary College, Patna; Veterinary College, Ranchi; Livestock Research Station, Patna; Animal Production Research Institute, Pusa; Stockman Training Centre, Dumraon; Stockman Training Centre, Gauriakarma; Extension Training Centre, Bhagalpur.

## HEALTH SERVICES

The following particulars are for 1962-63:

Allopathic hospitals 116; Allopathic dispensaries 778; Primary health centres 490; Beds in allopathic hospitals 10,161; Ayurvedic and Unani dispensaries 125; T.B. Hospitals 1; Mental Hospitals 2; Beds in T.B. hospitals 1,200 and in Mental hospitals 1,794.

Allopathic doctors 7,452; Nurses 396; Student Nurses 245; Trained dais in urban and rural areas 846; Compounders 4,575; Ayurvedic and Unani doctors 125; Compounders in Government employment 691.

Number of Medical Colleges (Allopathic) 2, Government Ayurvedic 1; Private 3; Government Unani 1.

There is one Govt. sanatorium at Itki, two T.B. Demonstration Centres one at Patna and the other at Darbhanga, one Govt. Hospital at Koilwar, three private sanatoria, two at Ranchi and one at Dehri-on-Sone (Shahabad).

There is a leprosarium at Brahmbe near Ranchi with a provision of 150 beds. Two leper asylums one at Gaya and the other at Deoghar with bed capacity of 150 and 100 respectively are also functioning.

A separate infectious diseases hospital has been opened in Patna city with a capacity of 50 beds.

Under health schemes the programmes for the eradication of malaria and small-pox, and family planning have been intensified during the year 1962-63. During 1962-63, 490 primary health centres were functioning in the State.

Small-pox eradication programme had started at a cost of Rs. 42 lakhs. 450 vaccinators were working in a mass vaccination scheme to vaccinate the entire population.

## LABOUR

Number of registered factories as on Dec. 31, 1963: 9,791; number of workers employed: 2,14,878.

Number of employees covered by the Employees State Insurance Scheme as on March 31, 1965: 55,000.

Industries in which minimum wage is fixed: Agricultural employment; Woollen carpet making and shawl making; Rice, flour, dal and oil milling; Bidi making; Lac manufacturing; Road construction and building operation; Stone breaking and stone crushing; Employment in public motor transport; Tanneries and leather manufacturing; Mica works; Tea plantations; Employment in local bodies; Printing press; Automobile engineering shop; Dam construction; Irrigation works and brick laying employment, Cinema industries and Cold storage.

Important State laws affecting industrial labour: Bihar Workmen's Protection Act, 1948; Bihar Shops and Establishment Act, 1953.

Number of registered trade unions as on 31st March 1965: 660.

Number of Employment Exchanges during 1964: 25; Employment information and assistance Bureaux 6; University employment information and guidance bureax 2; Vacancies notified 54,637.

25 welfare centres opened till March, 1965 by the State Government. Provide opportunities for cultural activities and sports and training in crafts for supplementing the industrial income.

Number of factories covered under Apprenticeship Act 1961: 250 (Feb. 1965); Number of trainees: 2,000.

## HOUSING SCHEME

The progress of the various Housing Schemes since the inception of the Housing Department is given below:

Name of the scheme, provision, expenditure and physical achievement respectively are as follows. The provision and expenditure are given in rupees lakhs.

Subsidised Industrial Housing Scheme 145·27; 144·52; 3,307; Low-Income Group Housing Scheme 247·48; 245·59; 3,204*; Slum Clearance Scheme 31·01; 25·56; 64; Middle-Income Group Housing Scheme 72·15; 54·80; 270*; Land Acquisition and Development Scheme 38·65; 38·65; 250 acres of land acquired; Housing Scheme for Scheduled Castes 24·51; 21·34; 2,319; Rental Housing Scheme† 12·20; 0·50; Housing Scheme‡ for Scheduled Castes engaged in sweeping and scavenging etc. 0·57; 0·45; 48.

In the Third Five Year Plan, Housing Department was to execute the following schemes: 1. (*a*) Low-Income Group Housing Scheme (Loans), (*b*) Low Income Group Housing Scheme (Direct construction); 2. (*a*) Subsidised Industrial Housing Scheme for the industrial workers (Direct construction), (*b*) Subsidised Industrial Housing Scheme for the industrial workers (Loans and Subsidy to the employers); 3. Slum Clearance and Improvement Scheme; 4. Village Housing Projects Scheme; 5. (*a*) Middle-Income Group Housing Scheme (Loans), (*b*) Middle-Income Group Housing Scheme (Direct construction); 6. Land Acquisition and Development Scheme; 7. Rental Housing Scheme for the State Government employees; 8. Housing Scheme for the Scheduled Castes who are landless; 9. Housing Schemes for the Scheduled Castes

* This figure is true upto 31-3-1962. † Started from 1961-62. ‡ Introduced from 1961-62.

engaged in scavenging and other unclean occupation.

*Low Income Group Housing Scheme.*—150 Houses have been constructed at Shrikrishangar, Patna. Another 300 houses will be constructed at Kankarbagh near Patna Jn. at an estimated cost of Rs. 38·50 lakhs. 250 houses are being constructed at Bariatu in Ranchi.

*Subsidised Industrial Housing Scheme.*—Name of the centre, number of houses in each centre and the expenditure are as follows under different schemes:

Bagbera—1,100: Rs. 42 lakhs; Adityapur—2,152: Rs. 81·59 lakhs; Kumardhubi—575: Rs. 22·961 lakhs.

*Houses under construction:* Dalmianagar—500—Rs. 18·15 lakhs; Katihar 200—Rs. 7·45 lakhs.

Administrative approval has been given to construct 1,000 more houses at Jamshedpur.

*Rental Housing Scheme:* 150 houses at Ranchi and 100 houses at Adityapur near Jamshedpur will be constructed. Rs. 38 per month will be the rent per house.

Name of the scheme and the total outlay for the Third Plan period respectively are given below. (Figures in lakhs of rupees).

Subsidised Industrial Housing Scheme 225·00; Low-Income Group Housing Scheme 225·00; Village Housing Project Scheme 100·00; Slum Clearance Scheme 100·00; Land Acquisition and Development Scheme 150·00; Middle Income Group Housing Scheme 100·00; Housing Scheme for Scheduled Castes, engaged in sweeping, scavenging etc. in Central Sector 17·25; Rental Housing Scheme for State Government employees 100·00; Housing Scheme for Scheduled Castes in Central Sector 5·00; Total 1,022·25.

Under the subsidised industrial housing schemes, two projects of 1,500 and three projects of 2,644 houses have been taken up during 1962.

## EDUCATION

On March 31, 1963 there were 40,866 primary and junior basic schools with 66,573 teachers and 28,42,835 pupils (including 6,74,397 girls). The State Government provides free and compulsory primary education for all children of the age-group 6-11.

The percentage of pupils of the age-group 6-11 would be about 4·7 in 1962-63 and age-group 11-14, 32·6 per cent.

During 1962-63 there were 4 research institutions *viz.*: (*i*) Mithila Institute of Post-Graduate studies and Research in Sanskrit Learning at Darbhanga, (*ii*) Nava Nalanda Mahavihara at Nalanda, Patna, for research and Post-Graduate studies in Pali and allied subjects and Budhistic learning, (*iii*) Institute of Post-Graduate studies and Research in Arabic and Persian, Patna, and (*iv*) Prakrit and Jain Research Institute, Vaishali, Muzaffarpur for research and Post-Graduate Studies in Prakrit Ardh Magadhi, with a total number of 152 students (including 2 women) in them. During the same year, there were in this State 117 Colleges for general education (including 13 for women) with 84,971 pupils (including 6,466 women), 35 Colleges for professional education (including 1 for women) with 16,360 pupils (including 633 women), 27 Colleges for special education with 1,749 pupils (including 53 women), 1,790 High/Higher Secondary Multipurpose/Post Basic Schools (including 113 for girls) with 6,23,640 pupils (including 48,593 girls), 5,507 Middle and Senior Basic Schools (including 377 for girls) with 10,44,126 pupils (including 1,97,424 girls), 40,866 Primary and Junior Basic Schools (including 4,565 for girls) with 28,42,835 pupils (including 6,74,397 girls), 33 Nursery Schools (including 3 for girls) with 2,044 pupils (including 817 girls), 220 Schools for professional education (including 47 for girls) with 33,881 pupils (including 3,980 girls), 7,034 Schools for special education (including 919 for girls), with 2,54,511 pupils (including 33,213 girls) and 413 un-recognised schools of different categories (including 64 for girls) with 31,709 pupils (including 4,294 girls).

There are six universities, namely (1) the Patna University, a purely teaching university, its jurisdiction comprising the area of the Patna Municipal Corporation, (2) the Bihar University, a teaching-cum-affiliating University for the Tirhut division having its headquarters at Muzaffarpur, (3) Bhagalpur University, a teaching-cum-affiliating University for the Bhagalpur division, having its headquarters at Bhagalpur, (4) Ranchi University, a teaching-cum-affiliating University for Chotanagpur division, having its headquarters at Ranchi, (5) Kameshwar Sanskrit University, having its headquarters at Darbhanga and (6) Magadh University, a teaching-cum-affiliating University for Patna Division having its headquarters at Bodh Gaya.

The control over High Schools is exercised through the Board of Secondary Education which accords recognition to schools and also distributes the grants sanctioned by Government.

The conduct of the Secondary School Examination (the final public examination after the completion of secondary stage) as a qualifying examination for admission to the pre-university course and the Higher Secondary School examination for admission to the Three-year degree course or to similar other courses is in the hands of an autonomous body, namely the Bihar School Examination Board.

A University Service Commission was set up from March 1, 1962 to assist in the selection of candidates for appointment as teachers in the affiliated colleges of the Universities. A second body, namely the Bihar State University Commission was also set up with effect from March 1, 1962 to coordinate the activities of all the Universities in the State.

Students are taught through their mother-tongue upto Class VII in ordinary schools and up to class VIII in basic schools. Hindi is the medium of instruction from class VIII to XI. Teaching of Hindi as compulsory subject begins from Class IV. From January 1959, English is being taught as a compulsory subject from Class VI.

The percentage of literacy in the State as a whole is 18·40.

Total direct and indirect expenditure on all recognised institutions (including expenditure on direction and inspection from all sources) amounted to Rs. 24,94,72,584 during the year 1961-62.

(*For more details like number of institutions, etc. see the main article on Education.*)

### Law and Order (1964)

The police force is under an Inspector General of Police. There is a policeman to every 1,308 of the population.

The High Court at Patna consists of one Chief Justice and 13 puisne Judges with one additional Judge. On the Criminal side of the subordinate Judiciary there are Sessions Judges and Additional Sessions Judges, Assistant Sessions Judges, Stipendiary and honorary magistrates. For the administration of civil justice there are District Judges, Additional District Judges, Subordinate Judges and Munsiffs.

**The Rourkela steel plant which has started production has a capacity of one million tons a year.**

## SMALL & COTTAGE INDUSTRIES

**Small and cottage industries with their locations in brackets are: Biscuit Factory (Cuttack, Berhampur, Rourkela), Steel (Parlakhimedi, Cuttack), Salt (Ganjam, Puri, Cuttack), Fire Bricks (Rajgangpur, Baranga, Jharsuguda), Foundry (Tapang, Berhampur, Dhanmandal Rourkela, Baripada, Sambalpur, Balasore), Wood work (Cuttack, Bhubaneswar, Baripada, Jharsuguda), Tannery (Baud and Titlagarh), Footwear (Puri, Cuttack), Roofing tiles (Cuttack, Puri, Balasore, Ganjam, Sambalpur) ; Radio Manufacturing (Cuttack, Rourkela), Glazed wall Tile (Baranga, Rourkela), Agricultural implements (Cuttack), Cycle parts, Tin containers (Parlakimedi, Cuttack); Railway-sleepers (Rairangpur, Dhanmandal and Sambalpur); Boats and Launches (Cuttack) ; Sports Goods (Cuttack) ; Mathematical Instruments (Berhampur); Aluminium Utensils (Rourkela, Puri); Cashew nuts and Oil (Puri); Watch making (Berhampur); Leatherbag (Rourkela); Ice factory (Rourkela, Cuttack); Hard boards (Cuttack); Paints (Cuttack); Bucket (Cuttack, Jaipur).**

**Handloom, Hides and Skins, Salt manufactures, Horn works, Bell metal, Potteries, Filigree, Blacksmithy, Carpentry, Tailoring, Cane Works, Soap making, Trunk manufacturing and Paddy husking, Eri rearing, Rope-making, Toys, Bamboo works, Mats, Weaving, Spinning, Flaying of hides and horns, Tasar rearing, Stone carving, Insense and Perfumery, Golden Grass Products, Ivory works, Brass fish-work, Applione works.**

**A number of small and cottage industries have been started under the Panjayat Samiti Industries Programme for 1962-63 and 1963-64. The following are the different categories with their number of units : Crystal Sugar units 7 ; tile units 21 ; carpentry units 10 ; blacksmithy units 10.**

**1963-64 : Sugar units 4 ; tile units 3 ; rice mills 3, saw mills 8 ; oil mills 8 ; aluminium utensils unit 1 ; rice hullers 3; bucket industry 1 ; carpentry unit 1 ; deep sea fishing 1, and cold storage 2.**

**1964-65 : Saw mills 2 ; rice mills 8 ; sugar 2; stone crushing 1 ; tile 4 ; tile with brick kiln 1 ; hume pipe 1 ; rice huller with oil expeller 2 ; wood screw ; aluminium 1 ; jute twine 1 ; bucket-cum-trunk 1 ; light engineering 1 ; hinges 1 ; wire nail manufacturing unit 1 ; oil mills 2.**

## MINERALS, METALS

**Orissa's mineral potential is enormous. Her reserves of Iron Ore, Manganese Ore, Chromite Limestone and Graphite are among the very best in India. The minerals which are worked in large quantities include besides those stated above, Coal, Dolomite Galena, Fire clay and China Clay. Deposits of Bauxite, Vanadiferous Magnetite, Kyanite, Galena, Asbestos, Soapstone and Mica also occur in the State.**

*Location :—*

*Iron Ore :*—Badampahar, Gorumahisani, Hatisikhli, Thakurani, Joda, Bolani, Sakradihi, Pipokri*, Gandhamaradan*, Jhiling, Tomka, Daitari* and Hirapur*. Total estimated reserves : Over 8,000 million tons.

*Manganese Ore :* Thakurani, Joda, Bamebari, Gurda, Kalaparbat, Siljora, Dalpahar, Bhutura, Korra valley and Kuttinga. Total estimated reserves : over 20 million tons of all grades.

*Chromite :*—Baula—Nuasahi, Saraubil, Sukraugi, Bhimtangar, Kaliapani. Total estimated reserves : Around five million tons.

*Coal :*—Talchir (Deulbera, Dera, Talchir, S. Balanda) and Rampur (Hingir—Rampur and Orient collieries) are the two coal fields of the State producing non-coking coal. The reserves in those fields may be of the order of several thousand million tons.

*Limestone :*—Birmitrapur, Hatibari, Purnapani, Lanjihera, Dungri,* Umpavalle, Kottameta—Nandiveda*. The total reserves may exceed 500 million tons.

*Dolomite :*—Birmitrapur in Sundargarh district.

*Graphite :*—Sargipali, Matupali, Dharuakhaman, Bamuni, Sigjhran, Loitera, Densurgi, Tumudibandh, Majhibhelum, Kariguda and Athamalik.

*China Clay :*—Khola, Joshipur, Chanachbani and Jamkesar.

*Fire Clay :*—Belpahar, Talabira, Darlipali, Jaganath Prasad, Gopalpur* and Ratansara.

*Bauxite :*—Gandhamaradan Plateau, Kahipur Tiluk, Khariar, Karlapat plateaux. Total reserves : About two million tons.

*Vandiferous Magnetite :*—Huasahi, Betai, Rangamatia, Betharan, Kumardubi, Hatichar, Kesam, Majurbeka.

## PORTS

*Paradeep :* **With the concurrence of Government of India and the Planning Commission, the project for the development of Paradeep into a modern deep-sea port has been included in the State's Third Five Year Plan. The target fixed for this Project is to build up Port facilities at Paradeep capable of handling 2 million tons of traffic in iron-ore by October 1965. The main items of work to be completed by the target date are construction of Breakwater, dredging of approach channel, entrance channel and the turning basin, construction of one iron-ore berth, installation of necessary ore handling equipment capable of loading 2,500 tons per hour, acquisition of maintenance dredger and construction of necessary staff quarters buildings and services such as water-supply arrangements, drainage schemes and construction of roads inside the Port area, etc., etc.**

**125 residential and 11 non-residential buildings have been completed, the breakwater has gone up to a length of about 1,800 feet, the extension of the Taldanda canal to the Port area joining the Atharbanki creek has been completed ; the bridges over Atharbanki and the road to the Port for the movement of the construction materials has also been completed.**

**The Port is expected to be commissioned in October 1965.**

* Indicates occurrences which have not been worked.

*Chandbali & Gopalpur Ports :* Provision for providing additional port facilities at Chandbali Port and for reviving the activities at Gopalpur Port at an estimated cost of Rs. 4·80 lakhs and Rs. 1 lakh respectively for the introduction of regular coastal shipping, has been included in the Third Plan and steps are being taken by the State Government to execute all the schemes for development of Chandbali and Gopalpur Ports.

## AGRICULTURE

The latest available position (1963-64) is as follows. The first figure in brackets shows the area in acres, and the second the yield in tons :

Rice (106,47,000 ; 42,40,000) ; Wheat (38,000 ; 8,000) ; Jowar (18,000 ; 4,000) ; Maize (34,000 ; 7,000) ; Bajra (14,000 ; 2,000) ; Gram (66,000 ; 13,000) ; Tur (10,000 ; 22,000) ; Other kharif pulses (3,58,000 ; 76,000) ; Other rabi pulses (15,57,000 ; 3,16,000) ; Ground nut (1,41,000 ; 69,000) ; Linseed (46,000 ; 5,000) ; Sesamum (2,55,000 ; 27,000) ; Rape and mustard (1,48,000 ; 16,000) ; Cotton (4,000 ; 670 bales) ; Jute (1,35,000 ; 3,60,000 bales) ; Mista (31,000 ; 71,000 bales) ; Sugarcane (1,00,000 ; 1,92,000).

## LAND REFORMS

Some of the important steps taken under Land Reforms include Estate Abolition, abolition of Hereditary Village Office System in the district of Ganjam, abolition of village office system in ex-State areas and reorganisation of Tahsils. About 3 lakhs of rent-free estates have been vested in Government by blanket notification under Orissa Estate Abolition (Amendment) Act, 1963, and the claims of the intermediaries are being finalised by holding Camp Courts and spot visits.

Provisions of the Orissa Irrigation Act, 1959 came into force from June 1, 1961 in all the districts of the State except in the old districts of Cuttack, Balasore and Ganjam. From June 1 1963 water rates were levied in the districts of Cuttack and Balasore under the provisions of the Orissa Irrigation Act, 1959 and from July 1, 1963 in districts of Ganjam.

## FORESTS

The total forest area of the State is estimated to be 25,358·21 square miles which account for 42 per cent of the land area.

The major portion of the forest area is covered by protected forests, Khesra forests and ex-zamindari and private forests. Sixty per cent only is well-demarcated and supports forest growth of reasonable value. Even within the demarcated forests 80 per cent of the available species are utilised as fire wood. At the beginning of the Third Plan they were yielding a revenue of about Rs. 3 Crores. With proper planning and investment the revenue is expected to go up. During the Third Plan, survey of forest resources, demarcation of more forest areas, plantation of fast growing species, development of forests of Commercial importance, improved methods of logging, farm forestry, afforestation and enrichment of depleted forests and provision of better communication facilities and wild life protection have been taken up.

The Forest Corporation, set up in 1962, continued its work of exploitation of forest resources of the State satisfactorily.

Sal is the most important species in the State. The other important timber species are Bija, Sissoo, Kusum, Simul, Bandhan, Gambhar, Champa, Teak etc. Bamboos occur extensively in the State and besides meeting the local requirements for various purposes, feed the various paper mills. Kendu leaves bring in a substantial revenue to the State.

The forests occur in all the thirteen districts of the State, but their distribution is rather uneven in the coastal districts, like Puri, Cuttack and Balasore.

Total revenue from the forest for the year (till Sept. 30, 1963)—42·71 lakhs.

Total expenditure on the State forests during the year —Rs .15 lakhs.

## LAND RECLAMATION

Reclamation of saline inundated lands in the foreshore of Chitka lake, taken up during the Second Plan period, continued its work in the Third Plan. The target of the Third Plan is to reclaim 8,000 acres of saline inundated areas of Cuttack, Puri, Ganjam and Balasore districts.

Reclafmed land : 10,286·27 acres in reclamation centre.

Destumped area and waste land (fit for cultivation) : 1,371·75 acres. Total : 11,598·02 acres.

Till the end of December 1961, 8,448·27 acres of the reclaimed lands had been settled with displaced persons, leaving a balance of 3,149·75 acres.

**Resettlement of Landless Workers :—** Under the scheme for resettlement of landless workers 8 farming societies were organised in the Second Plan period and financial assistance in the shape of loan and subsidy was given to these societies for meeting reclamation cost, cultivation expenses and managerial subsidy. In the Third Plan period these societies are to be given subsidy according to the revised pattern and a provision of Rs. 2 lakhs has been made. Out of these 8 Societies, 2 Farming Societies at Lachhida and Lahanda in Sambalpur district were taken up outside the Pilot project scheme during 1962-63. These societies were continued in 1963-64.

**Settlement of Landless Agricultural Labourers :—** A new scheme for settlement of landless agricultural labourers in compact blocks of land of 250 acres has been taken up under the centrally sponsored programmes. Government of India provide assistance at the rate of Rs. 1,250 per family towards reclamation and resettlement. The entire cost of reclamation is treated as grant to the landless agricultural labourers and shared between Government of India and the State Government equally. 75 per cent of the resettlement cost is shared by Government of India and the remaining 25 per cent is loan.

In 1964-65 it was proposed to cover an area of about one lakh acres. After the survey was completed the work of settlement was to begin.

## TRANSPORT

Position in 1962 :
Total mileage of roads : 6,795.
Mileage of metalled roads : 2,225.
Mileage of unmetalled roads : 4,570.
Total mileage of railways in the State : 898 (1962).
Total mileage of water-ways : All the canals and some of the rivers are also navigable (767).
Number of aerodromes : 2 (Bhubaneshwar and Jharsuguda). Airstrips : 15, out of which nine are in working condition.
Number of passenger service buses : 1,217.
Number of goods-carrying trucks, lorries : 8,090.
Number of motor cars : 7,766.

During 1963-64 upto the end of Sept. 1963, 137 miles of existing roads had been improved, 16 miles of new roads constructed, 14 bridges completed and work on 21 new bridges was taken up.

### State Transport
(as on 31st March 1962)

Transport has been nationalised in the State from 1-1-48.

Name of Transport Authority : The State Transport Services, Orissa.

Operates passenger transport service in the districts of Sambalpur, Sundergarh, Bolangir, Kalahandi, Koraput, Keonjhar, Mayurbhanj, Dhenkanal, and Balasore and on the north of the Mahanadi river.

Capital invested (Progressive) : Rs. 85·11 lakhs (subject to audit).
Number of routes covered : 211.
Number of goods vehicles owned : 7.
Total number of passengers carried : 1,08,97,865.
Total volume of goods carried : 3,60,514 mds.

| | Rs. |
|---|---|
| Total expenses of authority | 110·1 lakhs (subject to audit) |
| Total revenue .. .. | 144·00 lakhs (subject to audit) |
| Profit (Net) .. .. | 33·9 lakhs (subject to audit) |

Number of men employed after nationalisation : 2,587.
Total mileage : 98,07,895 (1962-63).
Number of passenger vehicles owned : 454 (1962-63).

### Orissa Road Transport Company Ltd.

The Orissa Road Transport Company came into being with effect from the 1st January 1951 with the participation of the State Government, Central Government and members of the public.

Out of the paid-up capital of Rs. 30,00,725 the State Government and Central Government own shares to the extent of Rs. 23,36,300 and Rs. 6,00,000 respectively. Shares to the extent of Rs. 63,700 are held by the public besides forfeited shares of Rs. 725. The State Government's shares work out 78 per cent of the total paid up capital.

The State Government have received Rs. 17,96,654 in shape of dividends up to the end of 1962-63 including dividend of Rs. 2,33,630 for 1962-63. A similar amount was expected during 1963-64.

The Orissa Road Transport Company is at present operating their services in the districts of Ganjam, Phulbani, Puri and a part of Cuttack district (to the South of River Mahanadi).

Capital invested : Rs. 29,99,925.
Total mileage covered : 51,75,024.
Number of routes covered : 80.
Number of passenger vehicles : 182.
Number of suburban bus services : Nil.
Total number of passengers carried : 77,76,105.
Total expenses of authority : Rs. 54,54,046.
Total revenue : Rs. 81,72,412.
Profit : Rs. 27,18,366.

## CO-OPERATIVES

Position as on June 30, 1964.

Total number of Co-operative Societies (including State Co-op. Bank : 11,246.

Total membership of all types of societies : 14,89,628.

Paid-up Share Capital : Rs. 708·60 lakhs.

Total agricultural credit advances including loans advanced by Grain Golas : Rs. 776·86 lakhs.

Total working capital : Rs. 4,779·25 lakhs.

The Orissa State Co-operative Bank is one of the biggest organisations in the co-operative banking channel. Its financial particulars are given below :

Working Capital : Rs. 654·01 lakhs.
Deposits : Rs. 223·14 lakhs.
Paid-up Share Capital : Rs. 46·44 lakhs.
Reserve and other funds : Rs. 17·91 lakhs.
Net Profit for the year 1963-64 : 7·42 lakhs.

## PUBLIC HEALTH

Position in 1964.

Commonest diseases in State and mortality from each of these in 1964 : Cholera (attacks 1,047, deaths 458) ; Small-pox (attacks 906, deaths 204) ; Fevers (including malaria etc.) 1,08,787.*

Allopathic Hospitals 176 ;* Allopathic Dispensaries 296 ;* No. of Allopathic beds 7,484 ;* Maternity Homes 3 ; Maternity Centres 32 ; Maternity & Child Welfare Centres 34 ; Primary Health Centres 178 ; Family Planning Clinics 124 ; No. of Doctors registered 1,847 ; No. of Doctors employed 800 ; No. of Nurses registered 699 ; No. of Nurses employed 420 ; No. of Midwives registered 487 ; No. of Dais registered 334 ; No. of Health Visitors (employed) 111 ; No. of Ayurvedic Hospitals 3 ; No. of Ayurvedic Dispensaries 121.

* Figures for 1963.

## EDUCATION (1962-63)

| | Primary Schools | Middle Schools | High Schools | Higher Secondary Schools |
|---|---|---|---|---|
| Number of Schools .. .. | 22,222 | 1,992 | 516 | 13 |
| Total enrolment .. .. | 14,46,714 | 1,36,418 | 1,25,608 | 5,991 |
| Number of Teachers .. | 42,116 | 6,734 | 6,493 | — |
| Total direct expenditure (Rs.) | 3,50,13,174 | 9,65,66,169 | 1,35,57,715 | 10,51,179 |

(See under article on education for other particulars).

## LABOUR, HOUSING

**Position in 1962:**

Names of industries in which minimum wage is fixed: Rice Mill, Flour Mill and Dal Mill, Tobacco (including bidi and gudakhu making) manufactory, road construction, building operations and stone breaking or stone crushing, Public Motor Transport, employment in agricultural operations and employment under Local Authority (excepting Gram Panchayats, Anchal Sasan and Notified Area Councils).

The minimum rates for wages in respect of the following scheduled employments were revised with effect from 26-11-1960: (1) Rice Mill, Flour Mill or Dal Mill, (2) Tobacco (including bidi making and gudakhu making) manufactory, (3) Agricultural operation, (4) Road construction or building operation and stone breaking or stone crushing within the notified area of Rourkela.

The following employments have been added to Part I of the Schedule appended to the Minimum Wages Act 1948—Salt pans, printing presses, tile and brick making, private road transport, hotels, eating houses and restaurants, distilleries, shops and establishments, metal industries, cinema industry, saw mills, handloom and hosiery.

Number of registered factories: 721.

Average daily number of workers in registered factories: 27,557.

Average number of workers employed daily in the mines: 36,434.

Average monthly earnings of industrial workers: Rs. 79·70.

Number of Trade Unions in the State: 120.

Total membership of trade unions: 76,221.

Number of Labour Welfare Centres: 46 (34 managed by private bodies and 12 managed by State Govt.).

Number of houses built under Subsidised Industrial Housing Scheme: By private enterprises: 1,513. By Government: 1,174.

Number of houses constructed under the Low Income Group Scheme upto the end of Dec. 1962: 1,287.

Number of Houses completed under the Middle Income Group Housing Scheme upto June 1962: 101.

## POWER AND IRRIGATION

**Power:**—The Electricity schemes may be divided in two parts, namely, generations of electricity and construction of power projects on the one hand and transmission and distribution of power to consumers on the other. The former are in the direct charge of the State Government while the latter are the responsibility of the State Electricity Board.

The more important schemes of generation:

(*i*) Hirakud Stage II.

(*ii*) Talcher Thermal Station, and

(*iii*) Balimela Hydro-Electric Project.

**Hirakud Stage II:**—At Hirakud, during the Third Plan period the fifth and sixth units have been commissioned. At Chiplima the first and second units were put to commercial use in July and February, 1962 respectively. The third unit was completed in September, 1963. With the commissioning of this set, Stage II of Hirakud Project was completed. It has now a scheduled capacity of 270 MW and is capable of supplying 121 MW of firm power.

**Talcher Thermal Scheme:**—The Talcher Thermal Scheme envisages setting up of four units of 62·5 MW each at Talcher. Of 259 MW generated 230 MW will be available for sale. This station will be interconnected with Hirakud Grid on the one hand and Machkund and Balimela systems on the other. It will draw coal from the coal mines operated by the National Coal Development Corporation at Talcher. The present programme is that the first of the four units will be commissioned in Nov., 1965, with subsequent units coming up at intervals of three months thereafter. The estimate of the Scheme is Rs. 30·35 crores. A provision of Rs. 9·3 crores has been made in the 1965-66 Plan for this scheme.

**Balimela Hydro-Electric Project:**— An agreement was reached between Governments of Andhra Pradesh and Orissa on 4th September, 1962, regarding the construction of the dam on river Sileru at Balimela for generation of electricity. The total estimated cost of the dam is Rs. 24 crores. The share of Andhra Pradesh has been pegged at Rs. 12 crores. The cost of the power portion is estimated at Rs. 21·83 crores. This project will have a capacity of generating 360 MW of power or 135 MW of firm power at 100 per cent L.F. The tail water will subsequently be used for irrigating about 2·4 lakhs acres of land in the Malkangiri Motu plains. An amount of Rs. 9·7 crores has been provided in the Third Plan.

**Rural Electrification:**—The progress of rural electrification in Orissa was very slow up to the end of the Second Plan. By the end of the Second Plan period the total number of places electrified were 176. The rural electrification scheme of the Third Plan provides for an outlay of Rs. 3·35 crores for electrifying 400 villages.

**Balimela Transmission Schemes:**—Rayagada-Talcher 220 KV Transmission line is a part of the Balimela Transmission system. The object of this scheme is to link up the Talcher Thermal Station with the Balimela Power-House. This scheme will provide the essential link between all the power systems, Talcher Thermal and the hydel systems of Hirakud, Machkund and Balimela.

**Transmission and Distribution Schemes:**—Transmission and Distribution Scheme includes all the 33/11 KV lines which are being laid in the State. The Third Plan provision is Rs. 6·03 crores. This programme is to meet the needs of Block industries, Panchayat Samiti industries, other Small scale industries and lift irrigation. By the end of 1963-64 expenditure on this programme was Rs. 3·95 crores. The anticipated expenditure for 1964-65 was Rs. 1·6 crores. A provision of Rs. 47·12 lakhs has been made for 1965-66.

**Talcher Transmission Scheme:**—Under the Talcher Transmission scheme a double circuit 132 KV line is being constructed between Talcher and Jaipur Road and a 220 KV line between Talcher and Joda. The total cost of the scheme is Rs. 4·95 crores. An amount of Rs. 4·32 crores has been provided in the Plan. Work is proceeding according to schedule.

## IRRIGATION

(See also tables under 'Irrigation').

At present the following existing irrigation projects are providing irrigation facilities to the extent mentioned against each (in acres): Rushikulya canals 1,64,400; Mahanadi Delta canals 2,00,000; Hirakud Dam Project (canals) 2,77,793; High Level Canal Range III 40,000; Jaipur Canals 35,465; Haldia and Baldia Projects 18,000.

**Hirakud Dam Project (Stage I):** The project is complete. By this multi-purpose river valley project, irrigation potential for the entire ayacut of 3·8 lakh acres was created by Oct., 1960. The actual utilisation upto the end of 1963-64 was 2,77,783 acres khariff and 1,07,653 acres rabi.

The total culturable commandable area of the Hirakud Canal system is 3·8 lakh acres, out of which 3·2 lakh acres are cultivated at present.

**Mahanadi Delta Irrigation Scheme:** The execution of this project is in full swing. Upto the end of 1963-64, a gross area of 3,93,780 acres of land received irrigation facilities out of which khariff area was 3,00,570 acres and rabi area was 93,210 acres.

The project cost will be about Rs. 34·34 crores and on completion it will irrigate 7,77,000 acres in Cuttack and Puri districts in addition to the existing 2,00,000 acres of irrigated land under existing Delta Canals in Cuttack district. With 167 per cent of intensity, the gross irrigation after completion will stand at 16,08,000 acres.

**Salandi Project:** The works on main dam, spillway and barrage of canals and distributaries are in progress. By the end of the Third Plan 7,000 acres of gross potential will be created and 4,000 acres will be utilised. On completion, it will irrigate 1,13,000 acres of land.

**Anandapur Barrage Project:** This is a new scheme and finds a place in the Third Plan. It is under investigation.

**Medium Projects:** Salki project is expected to be completed in the first year of the Fourth Plan and Joro-Harbhangi by the end of the Fourth Plan. Other medium projects are likely to be completed by the second year of the Fourth Plan. In Salki project, the head works right side canal with distributaries have been completed and an area of 25,430 acres of land is now being irrigated.

Under Hiradharbati project, irrigation potential for 6,000 acres has already been created and irrigation is being given to these areas. During 1964-65, additional potential for 4,500 acres was expected to be created and utilised. Under Dhanoi project, potential for 8,000 acres is expected to be created during 1965-66, out of which utilisation would be 6,000 acres. The Bahuda project is likely to irrigate about 4,000 acres by June, 1966.

By the end of the Third Plan, an additional area of 55,000 acres of land was expected to be irrigated from the medium projects under construction.

Some of the important medium irrigation projects are given below. The estimated cost in rupees lakhs and the area in acres to be irrigated on completion respectively are given in brackets:

Bahuda State I (57·39; 26,100); Joro-Harbhangi (366; 80,250); Pitamahal (46·29; 12,000); Hiradharbati (31·37; 14,750); Salia (227·36; 26,750); Salki (143·34; 45,000); Dorjang (372·36; 24,000); Dhanoi (113·85; 12,540); Gudohado (105; 10,880); Budhabudhiani (100·74; 8,700).

## COMMUNITY DEVELOPMENT

(See under article on Community Development projects.)

## PANCHAYATS

Panchayati Raj has been introduced in the State since 26 January 1961 with three tier system of administration. Gram Panchayats

existed in the State. Panchayat Samitis were constituted with area co-terminus with the area of a Block. Zilla Parishads have been constituted with area co-terminus with the area of a district. There are 2,358 Gram Panchayats, 307 Panchayat Samitis and 13 Zilla Parishads in the State.

The Gram Panchayat is the main executive agency of all developmental programmes in its area. The Panchayat Samiti is responsible for planning, execution and supervision of all the development programmes including that of Community Development and Tribal Development Block programmes. But the Zilla Parishad is a supervisory body and it is responsible for coordinating the Block plans and to prepare a consolidated plan for the district.

The higher tier has powers to supervise the activities of the lower tier but the power of supervision shall be exercised so as to guide and assist the lower body in discharging the functions assigned to it. An officer of O.A.S. (I) rank has been appointed as Executive Officer of the Zilla Parishad. The Block Development Officers are the Executive Officers of the Panchayat Samiti. Both the Executive Officer of the Parishad and the Executive Officer of the Panchayat Samiti are under the administrative control of the Chairman of the Zilla Parishad and the Chairman of the Panchayat Samiti respectively. The Parishad or the Samiti have no separate income of their own. They get all grants from Government and from All India Bodies for those schemes which are transferred to their control and management. Primary Education has been transferred to the control of the Panchayat Samiti for management.

The income of Panchayats in Orissa through pisciculture in 1962-63 was Rs. 5·9 lakhs, about 22 per cent of the total income from non-tax sources of the panchayats in the State.

### BUDGET 1965-66

(*See State Budgets*)

## UNIVERSITY OF AGRICULTURE AND TECHNOLOGY

Bhubaneswar.

*Chancellor :* Dr. A. N. Khosla, Governor, Orissa.

*Vice-Chancellor :* M. C. Pradhan, M.A., B.L., Dip-in-Edn. (Edin.).

*Registrar :* N. R. Patnaik, I.A.S. (Retd.)

*Comptroller :* Y. Pasayat, B.A.

*Constituent Colleges :* Utkal Krushi Mahavidyalaya, Bhubaneswar ; Orissa College of Veterinary Science and Animal Husbandry, Bhubaneswar ; College of Basic Science and Humanities, Bhubaneswar.

*Colleges on way of establishment :* College of Agricultural Engineering ; College of Home Science.

*Degrees awarded :* B.Sc. (Ag.) ; M.Sc. (Ag.) ; B. V.Sc. & A.H.

### BUDGET FOR 1965-66

*Income :* Rs. 37,44,000 ; Expenditure Rs. 41,67,400.

## UTKAL UNIVERSITY

Cuttack 1.

*Chancellor*, Governor of Orissa.

*Vice-Chancellor*, Commandant Col. Dr. P. K. Parija, Padma Bhushan, O.B.E., D.Sc., M.A. (Cantab.), I.E.S. (Retd.), F.N.I.

*Registrar*, G. C. Rath, M.A., Dip-in-L.Sc.

*Deputy Registrar*, D. P. Baral, M.A., Dip. Ed.

Affiliating-cum-Teaching University.

Subjects for Post-graduate teaching and Research : Oriya, Sanskrit, Philosophy, English, Economics, History, Mathematics, Physics, Chemistry, Botany, Geology, Psychology, Political Science, Statistics, Anthropology, Commerce and Zoology.

The medium of instruction at the University stage is English

Number of colleges affiliated to the University : 63.

Number of teaching departments under its control : 16 including University College of Engineering, and M. S. Law College.

Annual income (including Government grants, donations and endowments during the year 1963-64) : Rs. 1,41,18,445.

# TRIPURA

***Capital :*** **Agartala.**

**Area : 4,116 sq. miles ; Population (1961 Census) 1,142,005 (males 591,237 ; females 550,768). Rural population 1,039,008 ; Urban 102,997. Density 277 per sq. mile. No. of females per 1,000 males 932. Percentage increase since 1951 : 78·63. Percentage of literacy 22·2.**

**Number of towns : 6.**

**There are only one District—Tripura, one municipality and Panchayat.**

**The Territory is divided into ten administrative Sub-Divisions—Sadar, Khowai, Kailasahar, Dharmanagar, Sonamura, Udaipur, Belonia, Sabroom, Kamalpur and Amarpur.**

**Sadar Sub-Division is divided into ten Tahsils —Sadar, Puranagartala, Bamutia, Mohanpur, Simna, Ishanchandranagar, Kamalasagar, Takarjala, Bishalgar, Charilam.**

**Khowai Sub-Division is divided into four Tahsils—Khowai, Kalyanpur, Asharambari and Teliamura.**

**Kailasahar Sub-Division is divided into three Tahsils — Kailasahar, Fatikroy and Chomanu.**

**Dharmanagar Sub-Division is divided into five Tahsils—Dharmanagar, Brajendranagar, Kurti, Kanchanpur and Longai.**

**Sonamura Sub-Division is divided into five Tahsils—Sonamura, Kathalia, Bakshanagar, Dhanpur and Matinagar.**

**Udaipur Sub-Division is divided into two Tahsils—Radhakishorepore and Salgarh.**

**Belonia Sub-Division is divided into seven Tahsils—Belonia, Rajnagar, Radhanagar, Puranrajbari, Sidhinagar, Rishyamukh and Muharipur.**

**Sabroom Sub-Division is divided into five Tahsils—Sabroom, Manu, Amilghat, Samarendraganj and Gorakapa.**

**Kamalpur Sub-Division is divided into two Tahsils—Kamalpur and Kulai.**

**Amarpur Sub-Division is divided into three Tahsils—Birganj, Omphi and Dumboornagar.**

## GEOGRAPHY

Cut off from the rest of India and surrounded on three sides by East Pakistan with an international boundary of 528 miles, it forms an almost isolated pocket connected with the main land by a 125 mile access road through the hills to the border of Cachar District in Assam. Very recently a railway line has been extended upto Dharmanagar town, the northern most subdivisional headquarters of this Territory. Agartala, the capital of this Territory, is situated to the east of Calcutta at distance of 197 miles by air & 1,050 miles by land route through the Assam rail-link.

## ADMINISTRATION

The administration of this Territory is carried on by the Chief Commissioner. The Government of Union Territories Act, 1963 came into force from 1st July 1963. With the enforcement of the Act, a Legislative Assembly has been setup for the Union Territory of Tripura and a Council of Ministers has been formed with effect from 1st July 1963, with the Chief Minister at the head to aid and advise the Chief Commissioner in the exercise of his functions in relation to matters with respect to which the Legislative Assembly of the Union Territory has power to make laws. The Council of Ministers consists of the Chief Minister and another Minister. Besides, there are three Deputy Ministers. The Ministers are assisted by the Chief Secretary, Development Commissioner, Two Secretaries, one Deputy Development Commissioner, seven Deputy/Under Secretaries and one Assistant Legal Remembrancer. The Principal Engineer, the Director of Education and the Director of Rehabilitation also act as Ex-Officio Secretaries for their respective Departments.

Tripura is a one District Territory with one District Magistrate & Collector. In addition, there are three Additional District Magistrates and Collectors and one Senior Deputy Magistrate. For administrative purpose the Territory has been divided into ten Revenue Sub-divisions each being under the charge of an Additional Sub-Divisional Officer (recently designated as Sub-deputy Collector) with the exception of Khowai Sub-division which is under a full-fledged Sub-Divisioal Officer (recently designnated as Deputy Collector). The other nine Sub-Divisions have been grouped into three Zones, each being under a Zonal Sub-Divisional Officer (recently designated as Deputy Collector).

The Court of the Judicial Commissioner is the highest Judiciary in this Territory. There are one District and Sessions Judge, one Additional District and Sessions Judge, one Subordinate and Assistant Sessions Judge, one Additional Sub-Judge and eight Munsiffs having a separate court for each. Four Munsiffs have been vested with the powers of Magistrates.

Popular Ministry consisting of Chief Minister and one Minister.

Budget for 1965-66 : *See under "State Budgets"*

## ECONOMY

The Agricultural wealth of the Territory consists of rice, jute, cotton, tea and fruits, while its forests yield timber, firewood and charcoal. Paddy is the main source of revenue. Area in '000 acres under the crop and production in '000 tons respectively are : Winter rice : 282·50 ; 113·32 ; Autumn rice : 161·50 ; 57·27 ; Summer rice : 10·00 ; 3·35 ; Pulses : (Khariff) : 1·15 ; 0·21 ; Rabi Pulses : 3·20 ; 0·57 ; Fibres : Jute : 29·50 ; 81·12 ; Mesta : 33·00 ; 74·25 ; Cotton : 17·00 ; 6·29 ; Rape & Mustard : 9·90 ; 1·66 ; Sesmum : 8·40 ; 1·41 ; Sugarcane : 7·20 ; 9·62 ; Potato : 6·00 ; 15·00 : Area & Classification of Area (1962-63) : Total geographical area of the Territory : 26,34,240 acres ; Area under forest : 15,70,000 acres ; Total cropped area : 6,59,000 acres ; Net area shown : 5,61,500 acres.

## EDUCATION

Number of schools/colleges and total number of students during 1963-64 (as on 31st March, 1964).

Total No. of Pre-Primary schools-358 ; total No. of Primary schools (Basic and Non-Basic)—1,333 ; Total No. of Middle Schools (Basic and Non-Basic)—136 ; Total No. of High/Higher Secondary Schools—49 ; Total No. of schools for professional and special education—555 ; (Agricultural Trg. Institute—1 ; Nursing Trg. Centre—1 ; Industrial Trg. Centres—4 ; Music Schools—2 ; Schools for Oriental studies—23 ; Social Workers Trg. School—1 ; Adult Social Education Centres—504; Hindi Prachar Centre—19 ;) Total No. of students in schools for General Education (including Pre-Primary Students)—1,62,621 (Boys—1,02,939 and Girls—59,682). Total No. of students in Colleges for General Education—1,777 (Boys—1,336 and Girls—441).

Total No. of students in Colleges for professional and special education—532 (212) Boys—405 (29) and Girls 127 (183).

Total No. of students in Polytechnics—253 (Boys—253). Total No. of students in Schools for professional and special education—17,004 (1,203) Boys—11,757 (784) and Girls—5,247 (419).

N.B.—Figures within bracket indicate the number of students reading in these schools, but belonging to other educational institutions.

## CO-OPERATIVE

State Co-op. Bank 1, Land Mortgage Bank 1, Service Societies 150, Multipurpose Societies 185, Large-Sized Societies 25, Small-Sized Societies with un-limited liabilities 12, Small-sized Societies with limited liabilities 17, Farming Societies 8; Non-Agricultural Credit Societies 9, Apex Marketing Societies 1, Primary Marketing Societies 14, Purchase & Sale Societies 26, State Consumers Societies 1, Primary Consumers' Societies 32, Fishery Societies 6, Milk Supply Societies 2, Housing Societies 2, Processing Societies 6, Non-Agricultural Non-Credit Societies 16, State Coop. Union 1, Supervising unions 2, Weavers' Societies 66, Other Industrial Societies 78.

## INDUSTRIES

The Industries in the Territory include cottage and small Industries like handloom weaving, carpentry, blacksmithy, bid making, soap making, basketry, pottery, manufacture of footwear and other leather goods, fruit canning etc. But efforts have now been initiated for starting large industries and other organised small industrial units. A licence has been issued by the Government of India for the establishment of a 15,000-spindles Spinning Mill in Tripura. Feasibility studies for setting up a paper plant in Tripura has also been completed during this year. Preliminary actions are also being taken for setting up a jute mill, plywood factory, a sugar factory, powerlooms on decentralised basis and forest and agro-based industrial complexes.

**Total cattle 4,94,960 ; buffaloes 42,564; horses and ponies 1,097 ; sheep 3,351 : goats 1,57,815 ; other livestock 35,218 ; total poultry 7,57,295 (1961 census).**

**The fishing population may be reckoned as 2,500 families.**

## TRANSPORT

**Total length of roads is 1,242 Km. out of which metalled 170 Km. and black topped 430 Km. There is a new railway link to Dharmanagar Most of the rivers in the Territory carry country boat traffic. There are four aerodromes in this Territory.**

**Tripura is linked with Assam through the Assam-Agartala road. There are no big irrigation works in this Territory.**

## ELECTRICITY

The source of power in the Territory is from diesel stations located at Agartala Dharamnagar, Kailasahar, Udaipur and Khowai. Two more diesel stations one at Ambassa and the other at Bagafa are in the process of being established. The aggreegate installed capacity of the generating stations is 1,753 Kw which is expeeted to increase to 3,128 Kw by the end of the Third Plan. By the end of Third Plan power facilities are expected to be provided to 40 localities.

## LAND REFORMS

**With a view to providing for the abolition of intermediaries, regulation of rights of owners and tenants, fixation of ceilings on existing holdings and future acquisitions and prevention of fragmentation, The Tripura Land Revenue and Land Reforms Act, 1960 was passed in 1960 and had received the assent of the President. The Administration has made the rules called "The Tripura Land Revenue and Land Reforms Rules, 1961", "The Tripura Land Revenue and Land Reforms (Allotment of Land) Rules, 1962", "The Tripura Land Revenue and Land Reforms (Amendment) Rules, 1962" and "The Tripura Land Revenue & Land Reforms (Amendment) Rules, 1963." The provisions of the Act are being gradually implemented. The provision regarding acquisition of intermediary estates has been implemented throughout Tripura.**

## EMPLOYMENT EXCHANGE

**Figures for 1963 (upto December) : Number of registrations 7,933 ; No. of vacancies notified 1,603 ; No. of candidates whose particulars**

were submitted to employers 10,331; No. of candidates placed 594; No. in the waiting list in the Live Register 5,633.

Employment Market Information Programme :—Employment Market Report for the quarter ending Sept., 1963 had been prepared in which 102 Establishments in the private sector and 75 Establishments in the public sector responded.

Total No. of employees : 15,569. (5,660 private sector ; 19,909 public sector).

*Rehabilitation :* The number of refugees :— 3,74,000 (1961); Expenditure incurred Rs. 72 lakhs.

*Tribes :* 38 Tribal Colonies have been set up for Jhumias (shifting cultivation) at various places and the people are gradually taking to settled cultivation. A sum of Rs. 15·73 lakhs had been spent on these schemes upto 1962-63. Betterment of ex-servicemen and labourers is also receiving due attention.

### HEALTH

Dispensaries 92; No. of beds 761; No. of doctors 164; No. of nurses 187; V. D. and Skin Clinic 1; Eye Clinic 1; T.B. Chest Clinic 1; Leprosy Clinic 1; Dental Clinic 1; Family Planning Centres 13.

### PANCHAYAT

The U. P. Panchayat Raj Act, 1947 was extended to Tripura and the Tripura Panchayat Raj Rules were framed thereunder in 1961. Thus the work of setting up Panchayats in Tripura was started in the Third Plan period.

Total No. of Gram Panchayats : 215. Nyaya Panchayats are also being established simultaneously with Gram Panchayats. Village Volunteer Forces have been organised and Defence Labour Banks organised in Gram Panchayats.

---

# UTTAR PRADESH

Area : 113,454 square miles.

Population : 7,36,72,906 (1961 census).

Males : 3,86,64,463 ; Females : 3,50,88,451. Density : 384 per sq. mile. Percentage of increase 16·54 from 1951 Census.

Capital : Lucknow.

Uttar Pradesh is a member of the Central Zone of which the other member is Madhya Pradesh. The headquarters of the zone is at Allahabad.

Number of Districts : 54 ; Tahsils : 231 ; Antarim Zila Parishads : 51 ; Municipalities : 137 ; Town Areas : 274 ; Notified Areas : 37 ; Panchayats : 72,333 ; Villages : 1,11,742.

There are eleven revenue divisions under 11 full-fledged commissionerships namely Meerut (Hqrs. Meerut), Allahabad (Hqrs. Allahabad), Varanasi (Hqrs. Varanasi), Lucknow (Hqrs. Lucknow), Agra (Hqrs. Agra), Gorakhpur (Hqrs. Gorakhpur), Faizabad (Hqrs. Faizabad) and Rohilkhand (Hqrs. Bareilly), Jhansi (Hqrs. Jhansi), the Kumaon (Hqrs. Nainital) and Uttarakhand (Hqrs. Lucknow).

Names of the eleven revenue divisions with the districts comprising each :

*Meerut Division :* Dehra Dun, Saharanpur, Muzaffarnagar, Meerut, Bulandshahr.

*Agra Division :* Aligarh, Agra, Mainpuri, Etah, Mathura.

*Allahabad Division :* Farukhabad (Fategarh), Etawah, Kanpur, Fatehpur, Allahabad.

*Rohilkhand Division :* Bareilly, Bijnor, Budaun, Moradabad, Rampur, Shahjahanpur, Pilibhit.

*Jhansi Division :* Jhansi, Jalaun (Orai), Hamirpur, Banda.

*Varanasi Division :* Varanasi, Mirzapur, Jaunpur, Ghazipur, Ballia.

*Gorakhpur Division :* Gorakhpur, Deoria, Basti, Azamgarh.

*Kumaun Division :* Naini Tal, Almora, Garhwal (Pauri), Tehri-Garhwal (Narendranagar).

*Lucknow Division :* Lucknow, Unnao, Rae Bareli, Sitapur, Hardoi, Kheri (Lakhimpur).

*Faizabad Division :* Faizabad, Gonda, Bahraich, Sultanpur, Pratapgarh, Barabanki.

*Uttarakhand Division :* Uttar Kashi, Chamoli, Pithorgarh.

(*See under "Population" for area and population of Tahsils*).

### DISPUTE OVER BOUNDARY

Mr. C. M. Trivedi, a former Punjab Governor, was appointed as arbitrator by the then Prime Minister, Mr. Nehru to settle the border dispute between Uttar Pradesh and Bihar. As a result of the adjustment of the boundaries, U. P. gets 119 villages and Bihar 73 under the Trivedi Award. Fifteen villages which were forming part of Bihar State have been opted for U. P. and 22 U. P. villages were preferred to go to Bihar. Since 1950 to 1964 jurisdiction over another 48 villages has changed due to river action. According to the arbitrator they should remain in that State to which they belonged in 1950. The Survey of India was expected to fix the boundary pillars, which were to be maintained by the respective States.

### RETIREMENT AGE

The State Government has raised the retirement age of the employees to 58.

### PANCHAYATI RAJ

In pursuance of the policy of 'democratic decentralisation' of power embodied in the Report of the Committee on Plan Projects popularly known as Balvantray Mehta Committee, Panchayati Raj has been established in this State. Accordingly a three-tier structure of local bodies, *viz.* Gaon Sabhas, Kshettra Samitis and Zilla Parishads at village, block and district levels respectively is being built up.

The Gaon Sabhas were already functioning under the U.P. Panchayat Raj Act, 1947. Kshettra Samitis were constituted under the U.P. Kshettra Samitis and Zilla Parishads Adhiniyam, 1961. Zila Parishads came into being on June 30, 1963 in the State and replaced the Antarim Zila Parishads. With the establishment of this institution, the process of Panchayati Raj has been completed in the State. These different bodies shall in addition to discharging the local governmental functions, also have the responsibility of preparing plans of development and executing them in their respective areas themselves.

### AGRICULTURE

Main food crops : Wheat, barley, gram, rice, juar, bajra and maize.

Main cash crops : Sugar-cane, linseed, rape seed, mustard, groundnut, til, cotton and jute.

Figures are for 1959-60. Latest available :

Total foodgrains (cereals and pulses) production (1959–60) : 1,32,22,667 tons.

Production of individual food crops in tons for 1959–60 : Rice 24,25,509 ; Wheat 32,41,640 ; Barley 14,62,220 ; Juar 5,81,848 ; Bajra 6,09,362 ; Maize 10,13,326 ; Mandua 87,785 ; Sawan 69,941 ; Kodon 1,69,363 ; Kakun 2,923 ; Kutki 959 ; Gram 14,86,514 ; Peas 11,90,911 ; Arhar 7,43,503; Masur 73,000 ; Urd 55,975 ; Moong 4,064 ; Moth 3,824 ; Potato 8,52,024; Sugar-cane 3,22,31,865 (in terms of cane).

Production of individual non-food crops in tons for 1959–60 : Til 79,635 ; Groundnut 1,78,490 ; Rapeseed and Mustard 6,91,578 ; Linseed 1,28,448 ; Castor 1,253 ; Total oilseeds 10,79,404 ; Cotton 64,574 bales of 392 lbs. ; Jute 91,504 bales of 400 lbs. ; Sann-Hemp (for fibre) 21,952 ; Tobacco 13,439 ; Indigo (for dye) not available.

Position as in 1959–60 : (*Latest available*) :

Area of State in acres : 7,29,78,929.

Area cultivated : 4,23,40,909 acres ; Area uncultivated : 3,06,38,020 acres ; Area cultivated more than once : 1,13,64,053 acres.

Area under wet cultivation : 1,27,33,616 acres ; Area under dry cultivation : 2,96,07,293 acres.

Area under food crops : 5,01,35,749 acres ; Area under non-food crops : 35,69,213 acres.

Area under individual food crops (in acres) for 1959–60 : Rice 1,02,50,770 ; Wheat 95,78,829 ; Barley 45,60,999 ; Juar 22,51,804 ; Bajra 26,60,449 ; Maize 26,97,526 ; Mandua 4,77,751 ; Sawan 4,85,806 ; Kodon 9,97,962 ; Kakun 27,612 ; Kutki 10,775 ; Gram 66,56,914 ; Peas 23,59,896 ; Arhar 16,31,402 ; Masur 4,67,694 ; Urd 4,23,321 ; Moong 30,993 ; Moth 36,582 ; Potato 2,95,427 ; Sugar-cane 29,43,715 ; Other fruits and vegetables 5,00,639 ; Other food crops 7,88,883.

Area under individual non-food crops (in acres) for 1959–60 : Til ((Sown pure) 1,93,038 ; Groundnut 4,57,658 ; Rapeseed and Mustard (Sown pure) 3,17,253 ; Linseed (Sown pure) 1,74,697 ; Castor 5,798 ; Cotton 1,60,244 ; Jute 32,704 ; Sann-Hemp (for fibre) 1,71,108 ; Sann Hemp (for manure) 71,354 ; Tobacco 42,869 ; Opium 25,249.

Area possibly available for further cultivation through reclamation measures (for plains only) : 73,09,373 acres.

Total forest area of State : 93,79,158 acres.

Three types of trees are planted in the State : (*a*) Fruit trees ; (*b*) Fuel trees and (*c*) Timber trees.

Area of plantation and new orchards in 1959–60 : 23,211 acres.

Number of plantation : (*i*) Fruit trees 16,94,836 ; (*ii*) Fuel and Timber trees 11,31,317.

The total loans sanctioned by the Central Government to the State Government from 1955-56 to 1961-62 for financing expenditure on flood control schemes amounted to Rs. 11·55 crores, the amount for 1961-62 alone being Rs. 80·20 lacks.

### LIVESTOCK

The following figures are for the period ending June 1962 : No. of Cow bulls (at stud) 7,206 ; No. of Buffalow bulls (at stud) 2,244 ; No. of rams (at stud) 1,467 ; No. of bucks 1,076 ; No. of boars 365 ; No. of Horses and donkey Stallion stands 37 ; No. of circle laboratories 7 ; No. of Central laboratory 1 ; No. of Veterinary hospitals 717 ; No. of Stockmen centres 1,039.

*Cattle Breeding :* Intensive cattle breeding work was done during the year throughout the State. At all the 14 State Cattle Breeding Farms, pure bred cattle and buffaloes of the allocated breeds were maintained in each of the 9 cattle breeding zones of the State. A total of 11 cattle breeding extension centres are functioning where

30,444 cows were served naturally by the bulls and 19,613 animal castrations and 1,87,634 inoculations performed.

The Key Village Scheme was implemented to bring about all round development in the State. 83 Artificial Insemination Centres were established in the State under Key Village Scheme, 40 functioning with the financial assistance from the Government of India while the remaining 43 were run entirely at the expense of the State Government.

New Artificial Insemination Sub-centres were established in 100 Development Blocks. During the year 1961-62 the following operations were carried out in the areas covered with the scheme. (1) Insemination: 1,51,603; (2) Castration: 53,041; (3) Inoculations: 7,68,512.

In addition to the above about 1,747 calves were under subsidy during 1961-62.

At the close of the year there were 9 sheep farms and 21 stud Ram centres and 3 sheep and wool extension centres in the hills and one sheep farm and 13 stud Ram centres in the plains. Besides these, 45 sheep and wool extension centres were functioning in the State.

*Disease Control:* No. of outbreaks of animal contagious disease during the year: 2,152; 2,252 villages involving 43,367 were affected by these outbreaks.

No. of veterinary hospitals in the State: 717; No. of indoor patients treated during the year 8,617; outdoor patients 23,49,153.

No. of cattle inoculated against Rinderpest: 42,72,604.

In order to eradicate the menace caused by the stray and wild cattle in rural and urban areas the Animal Husbandry Dept. launched the scheme of licensing of cattle, rounding up of stray cattle (under this a total of 3,230 animals were dealt with) and catching and taming of wild cows (under this 693 animals were caught and tamed).

*Position* 1962: *Fisheries:* No. of fry and fingerlings collected from the old and newly tapped spawning grounds and stored in nurseries 4,71,11,221.

Departmentally 125 tanks covering an area of 68,411 acres were stocked with 49,46,459 fingerlings of major carps. About 1,275 maunds of fish were netted out.

Export of fish from 14 selected centres of the State: 1,49,694 maunds. Quantity of fish sold to the public: 304 maunds valued at Rs. 13,868.

50,46,910 fingerlings were distributed to private pisciculturists, Gram Samaj, community projects, extension blocks and other interested parties at subsidised rates. One fishermen co-operative marketing and development union was organised at Bareilly.

*Poultry Development:* No. of State Poultry Farms at the close of June 1962: 10; No. of Poultry Demonstration units in hills 15; No. of Poultry Extension Centres 21; No. of Farm birds issued 59,407 (approximately); No. of Farm eggs issued 4,40,684 (approximately).

*Central Dairy Farm, Aligarh:* During the year 1962 a total quantity of 2,23,088 litres of milk was collected and sold.

Quantity of dairy products produced: Butter 1,97,467 kg.; cream cheese 1,860 tins; Ghee 65,292 kg.; Lunch cheese 183 kg.

The Bacon Factory at the farm produced fresh pork sausages 4,033 kg.; Sausages in tins 46,737 tins; Ham 11,379 tins; Bacon pork 3,861 kg.; Smoked Ham 2,173 kg.; Cooked Ham 11,956 kg.; Back Bacon 10,160 kg.; Streaky Bacon 3,139 kg.; Luncheon meat 29,600 tins; Pork in Brine 265 tins; Skinless Sausages 3,111 tins; Tongue Sausages 97 tins; Pickled Ham 70 kg.

## FOOD & CIVIL SUPPLIES

Foodgrains distribution through fair price shops remained in force. The number of fair price shops in the State in March, 1964 was 11,138.

The releases of foodgrains from the Government stocks during the financial year upto March 31, 1964 were: wheat 2,74,359 tonnes; rice 1,32,053 tonnes.

During the financial year 1963-64, the State Govt. obtained from the Government of India 3,37,057 tonnes of wheat.

The purchases of rice were made through the levy system. The total purchases during the financial year upto March 31, 1964 were 1,16,898 tonnes for State Government and 49,775 tonnes for the Govt. of India.

Under the U.P. Sugar Dealers' Licensing order, 1962, all persons engaged in the sale of sugar in quantities exceeding 50 quintals at a time are required to take licences.

## LAND TENURE

With the vesting of zamindaris, following the enforcement of the U.P. Zamindari and Land Reforms Act, 1950, on July 1, 1952 in 48 out of the State's 51 districts, estates of nearly 20 lakh zamindars were taken over resulting in direct contact with 12,800,000 Kisans. The area of land taken over from intermediaries is about 6 crore acres. There are now only a few tracts where Zamindari has not yet been abolished.

Liquidated zamindars retain such of Sir, Khudkast and groves of which they have become Bhumidhars.

The new land tenures under the U.P. Zamindari Abolition and Land Reforms Act are: Bhumidhar, Sirdar and Asami.

The main features of the Zamindari Abolition and Land Reforms Act are: Extinction of intermediaries' rights; Payment of equitable compensation; Payment of rehabilitation grant to ex-intermediaries who paid land revenue upto Rs. 10,000 per annum; Undisturbed possession of land by actual tillers of soil and conferment of greater rights upon them; Undisturbed possession by every person of his house, well or grove; No landlord-tenant system to be in force in future *i.e.* prohibition of sub-letting except in restricted cases of disabled persons; Prevention of uneconomic holdings; restriction on future acquisition of land by way of purchase or gift by Bhumidars already holding 12½ acres or more land; and ownership of all common land in the village community with powers of land management.

Every ex-intermediary (ex-zamindar) is entitled to compensation at the rate of eight times his net assets. In addition, every ex-intermediary, whose annual land revenue did not exceed Rs. 10,000 would be given rehabilitation grant at a graduated specified scale.

The abolition of zamindaris released 4,54,42,000 acres, that is, 96·8 per cent of the total land holdings, in the State. Two classes of cultivators, *bhumidhars* (owners of land) and *sirdars* (wielders of the plough), enjoy different rights.

Of the alienated lands, nearly ten million acres of waste land were made over to the village communities for management. Another 2,400,000 acres of waste land and private forests were handed over to the Forest Department for development.

The final zamindari abolition compensation payable to ex-intermediaries is assessed at Rs. 69·53 crores. Upto the end of Dec. 1963, compensation to the tune of Rs. 66·24 crores (approximate) had been paid to them of which a sum of Rs. 49,90,66,350 was paid in 2½ per cent interest bearing transferable 40 year bonds and the balance in cash. In addition, a sum of Rs. 2,51,250 has been paid in stock certificate.

Rehabilitation grants payable to ex-intermediaries have been estimated at about Rs. 70 crores. Upto the end of Dec. 1963, grants totalling about Rs. 55·75 crores had been paid, of which Rs. 53,37,81,950 were paid in 25 years non-interest bearing transferable bonds and the balance in cash.

The State Government are also paying compensation to former landholders of adhivasis who were declared as sirdars in 1954. Their number is about 38,11,973. The amount of compensation payable to their erstwhile landholders is estimated at about Rs. 13 crores. Till the end of Dec. 1963, compensation on this account amounting to Rs. 9,78,07,352 has been paid to them in cash and Rs. 29,23,500 in bonds.

The first step under the U.P. Urban Areas Zamindari and Land Reforms Act, 1956, was taken in 1961, when the notification under Section 8 was issued vesting all the agricultural areas in 167 urban areas in the State from July 1, 1961. Zamindari has by now been abolished in 332 urban areas.

The State Government have also enacted legislation to impose ceiling on land holdings and to acquire on payment of compensation surplus land with a view to providing for a more equitable distribution of land by making it available to landless agricultural labourers, cultivation on cooperative basis, conservation of part of available land resources to increase food production and building up to reserve stocks against lean years by carrying on cultivation on modern scientific lines in State-owned farms. The ceiling area applicable to a tenure-holder having a family up to five members, is 40 acres of fair quality land. In the case of a family having more than five members, every additional member will be allowed eight acres of fair quality land subject to a maximum of 64 acres of such land for the entire family. As a result of imposition of ceiling, it is estimated that about two lakh acres of surplus land will be available for distribution among the landless.

Upto March 1964, the total area finally declared surplus under Section 14(1) of the Act stood at 1,43,714 acres, out of which possession was taken over of 1,07,633 acres out of which an area of 44,339 acres was temporarily settled. Compensation was finalised in 783 cases involving an amount of Rs. 14,34,335, out of which Rs. 4,35,452 were paid in cash.

*Consolidation of holdings:* Operations under the scheme are being carried out in 105 tehsils of 38 districts of the State, comprising 38,968 villages having a cultivated area of about 162·57 lakh acres. Till Jan. 31, 1964 the scheme of consolidation had been completed and chaks transferred in 29,307 villages. The scheme affected 37,65,412 tenure holders who held 2,84,14,660 plots, which were transformed into 49,14,384 chaks.

*Bhoodan:* Land gifts amounted to 4,34,052 acres at the end of March 1963 out of which 1,81,100 acres had been distributed by the Bhoodan Committee.

## IRRIGATION

Area irrigated by State Irrigation works (1962–63): 93,00,321 acres.

Number of tube-wells energised and brought into operation till March 1963: 7,125. Area irrigated by tube-wells 20,03,759 acres; by canals 72,96,562 acres (including canals, lakes, tanks and bundhies).

Total additional area brought under irrigation from State irrigation works of the first and second plans during 1962–63 was 42·6 lakh acres.

Names of irrigation projects in execution with the area in thousand acres which will be irrigated, total cost in lakhs of rupees and probable date of completion wherever available, respectively within brackets:

803 miles extension of Sarda Canal (176·00; 49·00; 1956–57); 1,062 miles extension of Sarda Canal (176·00; 116·56; 1956–57); Pratapgarh Branch (extension of Sarda Canal) (47·41; 73·71; 1958–59); Transkalyani project (extension of Sarda Canal) (47·10; 81·61; 1956–57); Sarda Sagar, Stage I (167·40; 479·49; 1959–60); increasing capacity of Upper Ganga Canal (89·00; 15·85; 1957–58); Belan and Tons Canal (101·50; 294·09; 1958–59). Lalitpur Dam (43·00; 54·10; 1956–57); Shahganj Distributory (19·95; 18·69; 1956–57); Rangwan Dam (93·00;

117·18; 1956–57); Saprar Dam (42·00; 96·18; 1956–57); Nagwa Dam (67·30; 72·06; 1957–58); Kabrai Lake (4·80; 23·23; 1956–57); Chandra Prabha Dam (35·00; 87·71; 1957–58); Naugarh Dam (86·00; 132·97; 1959–60); Naraini Gandak Pokhra Canal (50·50; 92·11; 1960–61); Banganga Canal (22·00; 43·10; 1957–58); Afzalgarh Canal (10·00; 16·63; 1957–58); Arjun Dam (26·00; 114·99; 1956–57); Ahraura Dam (21·93; 59·02; 1956-57); Gandak Canal (713·82; 1,515·69; IV Plan); constructing 40 miles channels in Dhampur distributory (14·08; 6·69; 1963-64).

**Continuing Schemes :** Names of the schemes not mentioned in the above list with the irrigation benefits in thousand acres and probable or actual date of completion respectively within brackets: Matatila Dam (409·58; 1963–64); Ramganga Multipurpose project (1,706·10, spillover to Fourth Plan); Sarda Sagar Stage II (185·15; 1962–63); Nanak Sagar (132·72; 1962–63); Meja Reservoir (52·38; 1965–66); Kwano Pumped Canal (21·23; 1962–63); Dohrighat Pumped Canal (118·80; 1962–63); Tanda Pumped Canal (67·90; 1961–62); Remodelling Eastern Yamuna Canal (22·00; 1961–62); Remodelling Agra Canal (27·40; 1961–62); Balmiki Reservoir (15·50; 1961–62); Jirgo Reservoir (64·00; 1961–62); Tumaria Reservoir (40·00; 1962–63); Upper Kahjuri Reservoir (18·00; 1961–62).

### Minor Irrigation (1965).

The State Govt. has launched an intensive drive for construction of private minor irrigation works and has offered various types of incentives to farmers.

The State bids fair this year in minor irrigation.

Against 84,973 masonry wells constructed in the first three years of the Third Plan, as many as 91,246 wells were expected to be completed during 1965.

The State Govt. has sanctioned an intensification of minor irrigation programme in the areas not covered by crash or intensive minor irrigation programme by giving loan upto Rs. 2,000 for the construction of masonry wells allowing 25 per cent subsidy on the loan. Loan up to Rs. 400 is also allowed for repair of old wells, upto Rs. 500 for boring wells, upto Rs. 650 for Persian wheels, upto Rs. 6,500 for pumping plant, upto Rs. 10,000 for private tube wells and Rs. 5,000 for construction of 'bundhis' with a subsidy of 25 per cent and Rs. 2,500 for repairing old 'bundhis'.

Under the crash programme 50 per cent subsidy is given on the construction of wells and borings and 25 per cent on water lifting devices and tube wells.

Under the Third Plan the target under minor irrigation included those of construction of 2,35,978 masonry wells, boring of 1,21,345 wells, installation of 1,33,898 Persian wheels and 12,948 pumping sets. During the preceding three years 84,973 masonry wells were constructed, 41,992 wells were bored, 57,391 Persian wheels and 7,275 pumping sets were installed. During the fourth year of the Third Plan, upto Nov. 1964, 37,498 wells were constructed, 12,991 wells bored, 16,970 Persian wheels and 2,804 pumping sets installed. By the end of 1965, 91,246 masonry wells would have been completed, 42,971 wells bored, 44,045 Persian wheels and 5,126 pumping sets installed. For the year 1966, it is proposed to construct 1,00,000 masonry wells, bore 48,000 wells, and install 35,000 Persian wheels and 20,000 pumping sets. Under the Third Plan a provision of Rs. 24·32 crores of loan was made and Rs. 17·74 crores were spent in the first three years. At the end of the Third Plan, it is expected the total expenditure would come to Rs. 46 crores, and the area covered by the irrigation work would be 96·99 lakh acres of land.

*Drainage and floods :* 446 miles of marginal embankments completed, 4,329 villages raised completely and 512 partially. 718 miles drains completed, 60 miles roads raised, besides protection to a number of towns and wide-scale flood surveys and discharge observations, upto March 1961. Total area benefited from Flood Works upto the end of II Plan was 10·72 lakh acres.

Names of certain irrigation systems with the total area irrigated during 1962-63 : Upper Ganga Canal 17,90,724; Lower Ganga Canal 13,77,758; Eastern Yamuna Canal 5,16,077; Agra Canal 3,88,497; Batwa Canal 3,74,099; Ramganga Canal 18,722; State Tube wells 19,88,854; Banganga Canal 6,941; Sarda Canal 15,10,275; Rohilkhand Canal 53,288; Ghagra Canal 40,959; Ken Canal 2,50,760; Canals in Tarai Division 50,315; Canals in Kumaon Division 7,710; Dhasan Canal 95,088; Belan Canal 46,293; Doharighat pumped Canal 46,130; Chakia and Chandauli Canals 1,97,173; Lakes and Tanks 62,023; Bundhies 19,015; Rampur Canal 52,068; Dun Canal 29,384; Total area irrigated 89,22,223; Minor irrigation and other systems 3,78,098. The grand total of area irrigated during 1962-63 was 93,00,321 arcres.

Total irrigation potential created by Plan projects upto March 1963 : 117·6 lakh acres.

Total utilisation of irrigation potential anticipated up to March 1963 was 108·9 lakhs acres.

**Community Projects :** The Community Development programme covers over 62,000 villages. During the year ended March 31, 1961, 92 new pre-extension blocks were opened in two series. Seventy-one pre-extension blocks, opened last year had entered Stage I. Nine shadow blocks of border districts were also converted to Stage I blocks without being given the pre-extension stage, as a special case, in order to give particular attention to the development activities in the blocks of the border areas. Thirty-five intensive development blocks had completed their extended period in the intensive development phase and were converted to Stage II.

The total number of the blocks of various types functioning in March 1961 was 598, covering approximately 60·6 per cent of the total area, about 54·6 per cent of the total population and 63·2 per cent of the rural population of the State. The percentage figures do not include the coverage achieved by the pre-extension blocks.

Details of the over-all position of functioning blocks in the State on March 31, 1961 were : Stage I blocks 391; Stage II blocks 96; Intensive Development blocks 19; Pre-extension blocks 92.

(See main article "Community Development Projects".)

### POWER

Total installed capacity in State till March, 1963.

| | | |
|---|---|---|
| (a) Hydel Unit of U.P. State Electricity Board .. | 2,70,415 | kW |
| (b) Rihand Project of U.P. State Electricity Department .. .. | 2,50,000 | kW |
| (c) Kanpur Electric Supply Administration .. | 79,500 | kW |
| (d) Licensees .. .. | 77,965 | kW |
| Total .. .. | 6,77,880 | kW |

Total installed capacity of the power stations under the Hydel Unit of the U.P. State Electricity Board and Electricity Department till March 1963 : 6,05,415 kW.

Total effective capacity of power houses under the Hydel Unit of the U.P. State Electricity Board and Electricity Department till March 1963 : 3,31,470 kW.

Total production of the U.P. State Electricity Board and Electricity Department during 1962-63 : 1,68,04,01,932 units.

The following are the names of power houses in operation in March 1963 showing their location iand nstalled capacity in kW within brackets.

Palra Hydro (Bulandshahr : 600); Bhola H. (Meerut : 2,700); Nigrajni H. (Muzaffarnagar : 5,000); Chitaura H. (Muzaffarnagar : 3,000); Salawa H. (Muzaffarnagar : 3,000); Sumera H. (Aligarh : 1,200); Mohammadpur H. (Saharanpur : 9,300); Pathri H. (Saharanpur : 20,400); Tehri H. (Tehri : 50); Khatima H. (Naini Tal: 41,400); Bageshwar H. (Almora : 20); Chandausi Thermal (Moradabad : 9,600); Harduaganj Thermal (Aligarh : 1,00,000); Sohwal T. (Faizabad : 19,500); Mainpuri T. (Mainpuri: 10,000); Rampur T. (Rampur : 4,200); Mau T. (Azamgarh : 15,000); Gorakhpur T. (Gorakhpur : 15,000); Moradabad Diesel (Moradabad : 600); Aligarh Diesel (Aligarh : 2,100); Tundla D. (Agra : 200); Lhaskar D. (Saharanpur : 50); Meerut D. (Meerut : 850); Saharanpur D. (Saharanpur : 250); Bahraich D. (Bahraich : 3,234); Dhakrani D. (Dehra Dun : 2,424); Pauri D. (Garhwal : 137); Hamirpur D. (Hamirpur : 211); Mahoba D. (Hamirpur : 331); Aligarh Sudamapuri Diesel (Aligarh : 200); Hapui Diesel (Meerut : 300); Lohia Head Diesel (Naini Tal : 1,780); Bhadoi Diesel (Varanasi : 3,328); Mau Diesel (Azamgarh : 900); Sohwal Diesel (Faizabad : 750); Palra D. (Bulandshahr : 400); Ghaziabad D. (Meerut : 5,380); Mainpuri D. (Mainpuri : 750); Gorakhpur D. (Gorakhpur : 3,090); Matatila D. (Jhansi : 404); Banda D. (Banda : 275); Rihand (Mirzapur : 2,50,000); Kanpur (Kanpur : 79,500).

The following generation schemes are included in the Third Five Year Plan besides those which have been commissioned already and shown above.

They are included in the table given below :

**Projects Under Execution**

| Name of Power House | Installed Capacity in kW. | District | Cost in lakhs of rupees | When started | Completion |
|---|---|---|---|---|---|
| Yamuna Hydel : | | | | | |
| Stage I .. .. .. | 84,750 | Dehra Dun .. .. | 6,238.15 | 1961–62 | 1966–67 |
| Stage II .. .. .. | 3,60,000 | | | | 1971–72 |
| Matatila Hydel .. .. .. | 30,000 | Jhansi .. .. .. | 823.00 | 1960–61 | 1965–66 |
| Ramganga .. .. .. | 1,65,000 | Moradabad .. .. | 1,931.77 | 1962–63 | 1971–72 |
| Obra Thermal .. .. .. | 2,50,000 | Mirzapur .. .. .. | 2,300.00 | 1962–63 | 1967–68 |
| Obra-Hydel .. .. .. | 1,00,000 | Mirzapur .. .. .. | 1,059.00 | 1961–62 | 1967–68 |
| New Thermal at Kanpur .. | 64,000 | Kanpur .. .. .. | 681.61 | 1962–63 | 1965–66 |
| Sixth Unit at Rihand .. .. | 50,000 | Mirzapur .. .. .. | 78.58 | 1962–63 | 1965–66 |
| Harduaganj Stage III .. .. | 1,00,000 | Aligarh .. .. .. | 1,190.00 | 1963–64 | 1966–67 |
| Hill Schemes .. .. .. | 12,000 | Almora, Nainital, Tehri Garhwal | 73.67 | 1962–63 | 1965–66 |

## LARGE-SCALE INDUSTRIES

Important industries of the State: Sugar, Edible Oils, Hydrogenated Oil, Tobacco products, Industrial Machinery, Machine Tools, Electrical Machinery and Electrical Accessories, cycle and cycle parts, Foundries, Iron Rolling and Foundries, Leather Tanning and Leather goods, Woollen Textiles, Cotton Textiles, Glass and Glass Bangles, Jute Textiles, Paper, Straw Board, Electric Lamps, Chemicals, Fertilizers, Distilleries and Breweries, Rayon, Match, Rosin and Turpentine, Cement etc.

In the public sector, the State Government runs two projects namely, Government Cement Factory, Churk, district Mirzapur and the Government Precision Instruments Factory, Lucknow. The production capacity of the cement factory is 1,400 metric tons per day. The factory produced 3,90,425 metric tons of cement during 1963-64. Another Cement Factory is being set up at Dalla with an investment of Rs. 6 crores in order to utilise the vast belt of lime stone available near Chopan at Kajrahat and Dalla Billi. The capacity of production of this factory would be 1,200 metric tons per day. The Government Precision Instruments Factory, Lucknow, which has produced 43,113 water-meters and 459 microscope in the beginning of the Plan period, is expected to produce 1,08,000 water-meters and 900 microscopes by the end of 1965-66. During 1963-64, the Factory produced 51,844 water-meters, 401 microscopes and 950 Pressure gauges. A Research-cum-Design Centre, as a non-commercial organisation, has been set up in the premises of the Factory where designs for the production of precision instruments and proto-types of various items of manufacture would be evolved. A licence has been obtained from the Government of India for setting up an Optical Instruments Factory and land for the same has been acquired. The factory is expected to employ 500 persons and to produce goods worth Rs. 40 lakhs per year.

Under the Central Sector Projects, the Anti-Biotics Factory at Rishikesh which is being set up at a cost of Rs. 20 crores is expected to start production by the end of 1965. The Fertilizer Factory, being set up with an investment of Rs. 27 crores, is expected to start production by the end of 1965. Considerable progress has been made in the setting up of the Heavy Electrical plant at Ranipur, Saharanpur and the production is expected to start by the end of 1965-66. Hydraulic turbines, Generators and Heavy Electric motors would be produced in the factory. The production has already started in Diesel Locomotive Factory, Varanasi and the production target is expected to reach 54 engines by the end of the Third Plan period. In the Singrauli coal fields, where large deposits of coal are available, mining of coal is expected to start by the end of 1965, which will help the setting up of a Thermal Plant at Obra having a capacity of 250 mega watts. Large number of ancillary units are expected to come up around these big projects.

The U.P. State Industrial Corporation has so far (Oct. 1964) under-written shares of 11 units valuing about Rs. 171·50 lakhs. Out of these, 5 units have already gone into the market. Besides, industrial areas are being developed at eight places viz., Ghaziabad, Bareilly, Hardwar, Lucknow, Varanasi, Kanpur, Mirzapur and Gorakhpur. 1,300·75 acres of land at Ghaziabad, 367 acres at Bareilly, 20 acres at Hardwar and 33 acres of land at Lucknow have already been acquired.

REMINGTON RAND OF INDIA LTD.

Phone: 24380.

Grams: "REMINGTONS"

The Corporation has also received a licence for the production of 36,000 tons of magnesite every year. A mining lease has also been granted for developing the large deposits of lime stone at Kajrahat. It is proposed to produce 500 tons of lime stone every day and to develop lime burning industry in the area.

Two large industrial estates were set up at Kanpur and Agra during the Second Plan period. Out of 97 units constructed and allotted at Kanpur Industrial Estate, 78 factories have gone nto production. At Agra, out of 121 units, 115 have been constructed and 6 plots have been given on rent (Oct. 1964).

49 licences were granted during 1963-64 under the Industrial (Development and Regulation) Act. Since the inception of Third Plan, 52 licensed units have already gone into production, which include the following industries: Metallurgical; Transportation; Industrial Machinery; Machine Tools; Mechanical Instruments; Fertilisers; Chemicals; Textiles; Sugar; Fermentation; Glass and Ceramics; Food and Vanaspati.

Some of the important lines of manufacture into which the licensed units have started production are A.C.S.R. Conductors (Ghaziabad), Sugar Mill Machinery (Allahabad), Electric Meters (Ghaziabad), Sugar in Co-operative Sector (Sarsawan, Saharanpur), Breweries and Malt Extract (Ghaziabad), Synthetic (Rubber Bareilly), Aluminium Ingots (Mirzapur), Railway Wagons (Ghaziabad), Fertilizers (Unnao), Electrodes (Modinagar), Calcium Carbonate (Rishikesh), Auto Parts (Ghaziabad), Machine tools (Bareilly) and Cement (Mirzapur), expansion project of Churk Cement Factory. The Camphor Factory at Bareilly, first of its kind in India, has also since gone into production. Besides, the following projects have started production:—Railway Wagon Plant at Kanpur; Milk Power Factories at Muzaffarnagar and Etah.

*The Aluminium Factory at Pimpri, Mirzapur:* The Aluminium Factory at Pimpri, Mirzapur has a capacity of 20,000 tonnes per annum of aluminium ingots and the licence for the expansion of the production capacity of the unit to 50,000 tonnes was obtained in January, 1963. This unit started production in April, 1963. During 1963, it produced goods worth Rs. 7·64 crores.

At present (Oct. 1964) 71 sugar factories are working in the State which produced sugar worth Rs. 9,635·24 lakhs during 1963. These factories employed 55,201 workers. The concentration of sugar factories is at Deoria (14), Meerut (8), Gorakhpur (50), Saharanpur (5), Basti (4), Gonda (4), Muzaffarnagar (4).

Thirty one textile units are functioning in the State, which produced goods worth Rs. 5,435·74 lakhs and employed 69,067 workers during 1963. Out of these 31 textiles units, twenty four are cotton textiles, 4 jute textiles and 2 woollen textiles. 11 such factories are at Kanpur which is the biggest centre of cotton textile. They produced textiles worth Rs. 3,408·82 lakhs and employed 45,591 persons during 1963.

Hydrogenated oil is being manufactured by three factories in district Meerut, one at Aligarh and one at Kanpur. The factories produced Vanaspati valued at Rs. 1,984·07 lakhs and employed 1,983 persons during 1963.

Engineering units, iron rolling and foundries are mainly located at Kanpur, Ghaziabad, Meerut, Bareilly, Allahabad, Aligarh and Agra. In all, 32 such factories were working during 1963 which produced engineering goods worth Rs. 1,812·67 lakhs and employed 8,676 persons during 1963.

Seven leather tanneries and leather goods manufacturing units are carrying on production on large scale in the State. Kanpur is the biggest manufacturing centre of leather goods. These are located at Kanpur which have produced goods worth Rs. 6·83 crores and employed 4,196 persons.

There are two large-scale glass and glass product manufacturing units located at Moradabad and Allahabad. These factories produced goods worth Rs. 42·90 lakhs and employed 537 persons during 1963.

## SMALL SCALE AND COTTAGE INDUSTRIES

Some of the important small scale industries of the State are Iron Casting, Brass and Aluminium utensils, Locks and Cutlery, Agricultural implements, Industrial Machinery and Machine Tools, Cycle and Cycle parts, Edible Oil, Khandsari, manufacture of Shoes and Boots (Leather), Leather Tanning and Finishing, Fine Pharmaceuticals and Chemicals, Glass and Glass Products including Glass Bangles, Tube Making and Wire Drawing.

Out of 2,633 registered (reporting) units at the end of 1963 in the State, 2,367 come under the category of Small-Scale Industries. These industries contribute 28 per cent of the total value of production and give employment to 38 per cent of the total number of persons engaged in all the registered factories.

Important cottage industries of the State are Handloom, Gur, Leather Tanning, Leather Shoes, Durries and Carpets, Brasswares, Calico Printing, Cane Bamboo Articles, Yarn Spinning, Ghani, Pottery, Wood Working, Locks etc. Besides this, U.P. is famous for its handicrafts such as artistic handloom fabrics of Tanda (Faizabad), Mau Nath Bhanjan (Azamgarh), Etawah, Sandila (Hardoi), Ghazipur, Varanasi, Meerut, Allahabad, Zari goods of Agra and Lucknow, Varanasi, Bareilly, Calico Printing of Farrukhabad, Lucknow, Bharatganj (Allahabad), Pilkhuwa (Meerut), Mathura, Wooden Toys of Bareilly, Dehra Dun, Varanasi, Ivory Articles of Lucknow and Varanasi, Pottery of Khurja and Chunar, Tarkashi of Mainpuri, Ebony goods of Nagina, Silk Brocades of Varanasi, Carpets of Mirzapur and Bhadohi, wood carving of Saharanpur, Marble articles of Agra, Horn goods of Sambhal (Moradabad), Artistic brass and copper-ware of Varanasi and Moradabad.

The number of registered handlooms in the State at the end of the Second Plan period was about 2,69,000 out of which 1,92,500 were in the co-operative fold. The number of looms registered by the end of 1963-64 was 2,88,431 (2,01,930 in co-operative fold and 86,601 out side co-operative fold). On June 1964, the number of textile co-operative societies was 1,573 and their membership stood at 1,26,905. At present (Oct. 1964) 596 production-cum-marketing societies, 187 sale depots, 66 Dye-Houses and 4 Silk Dye-Houses are functioning all over the State. During the first three years (till March 1964) of the Third Plan, 334·85 million metres of handloom cloth was produced under the powerloom scheme. Two yarn preparatory factories have been set up at Khalilabad and Tanda. The Co-operative Spinning Mill, Etawah has since gone into production.

The total number of Industrial Co-operatives in the State is 4,717 with a membership of 1,95,374 persons on June 30, 1963. For Quality Marking of goods so far (Oct. 1964) 31 inspection depots are functioning in the State and goods worth Rs. 300·63 lakhs have been quality marked during 1963-64. Under the Training-cum-Extension Scheme 3,000 trainees have been benefited till the end of March, 1964. One Electroplating Plant is already functioning at Kanpur while another Plant is being set up at Moradabad. 51 Industrial Estates were sanctioned for the 3rd Plan period out of which 5 have been deferred. In the remaining 46 estates, land has been taken in 45 cases and construction work started. The construction of 9 estates has been completed and other steps are being taken to provide power and development facilities.

Five Rural Industries Projects have already been set up under a Centrally sponsored programme at Ghazipur, Mau-Ranipur (Jhansi), Tarikhet (Almora), Poolpur (Allahabad), and Deoband (Saharanpur).

A sum of Rs. 41·397 lakhs has been provided in the budget for 1964-65.

In accordance with the recommendations of the Joint Study Team, programme for intensive development of Industry has been launched in four eastern districts of U.P., viz., Jaunpur, Ghazipur, Azamgarh and Deoria. The existing schemes are being accelerated and new schemes are being introduced in the Village and Small Scale Industries sector at a cost of Rs. 76 lakhs in the remaining period of the Plan.

(*For sugar industry see article "Sugar Industry."*)

## TRANSPORT (31-3-1964)

Total mileage of roads : 38,062.

Mileage of metalled roads: 15,180 under the P.W.D. and 1,716 under District Boards.

Number of passenger service buses : 3,863 (excluding roadways vehicles). Number of goods carrying lorries, trucks : 14,179. Number of taxis : 532.

Fleet of motor vehicles (roadways fleet): Passenger buses 3,359; trucks 192 ; taxis 84.

The State owns a transport service under the name of U. P. Government Roadways, managed as a Government Department with the Transport Commissioner as the head,

The State is divided into eight regions namely Agra, Allahabad, Bareilly, Kumaon, Gorakhpur, Kanpur, Lucknow and Meerut. Each region is in the charge of a General Manager.

The U.P. Road Transport Service (Development) Act, 1955, provides for the grant of compensation to the displaced operators who were not provided alternative routes.

The headquarters of the Transport Commissioner is Lucknow.

Capital invested : Rs. 14·89 crores (1962-63).

Number of routes operated 767. Mileage of routes : 44,440. Road mileage covered: 10,019.

By the end of the Second Five Year Plan it was expected to cover 6,964 miles of roads in the State.

Total kilometres covered (1963-64): 20,54,60,667.

Number of vehicles owned by authority on Dec. 31, 1963 : Buses : 4,018 ; Trucks : 15,525 ; Taxis : 595.

Number of nationalised city bus services : 59.

Cities where Roadways operate city bus services : Kanpur, Allahabad, Bareilly, Lucknow, Varanasi and Agra.

Names of places where suburban bus services operate : Mathura-Vrindaban, Fatehgarh-Farrukhabad and Dehra Dun-Premnagar-Clement Town.

Names of inter-State routes operated by the Government Roadways : Varanasi-Bhabua, Allahabad-Rewa, Agra-Gwalior, Dehra Dun-Ambala and Hardwar-Pehowa.

Roadways have 56 depot workshops and regional workshops undertaking maintenance and repairs of Roadways fleet. There is a Central Workshop at Kanpur undertaking heavy repairs, reconditioning of engines, chassis, manufacture of bus bodies and batteries, etc. in addition to training of technical personnel.

Special tourist buses have been provided to carry tourists to places of interest and scenic beauty.

Number of passengers carried by Roadways buses (1963-64) : 17,83,37,648.

Total revenue (1962-63) : Rs. 12,95,35,180.

Profit : Rs. 212 lakhs approximately (1962-63).

No. of persons employed (March, 1964) 23,485.

Rates of bus fare for lower class : 2·5 paise per passenger per kilometre.

Goods service has not been nationalised.

The U. P. Government proposes to nationalise 4,000 miles of road transport during the next five years to bring a total of 14,000 miles of road transport under nationalisation by 1971.

## CO-OPERATION

More than 65,216 co-operative societies having almost 51 lakh families as members operated in the State till June 30,1962. The loan sanctioned by the co-operative institutions has increased from Rs. 4 crores to 38 crores. The total working capital of the movement is Rs. 138·98 crores of which Rs. 37·17 crores are its owned capital consisting of shares and reserves.

The Reserve Bank of India sanctioned credit limits to the extent of Rs. 16·81 crores without any guarantee from the State Govt. The primary societies increased their owned funds from a sum of Rs. 3·99 to 12·72 crores during the second year of the Third Plan. The rise in the owned funds of the Central Bank and co-operative banks reached Rs. 9·47 crores from Rs. 3·1 crores, while the owned fund of the co-operative banks was Rs. 6 crores.

As many as 19,035 service cooperatives now function in the State. They distributed loans to the tune of Rs. 17·46 crores and handled large quantities of fertilizers. Nearly 1,600 seed stores distributed over 25·75 lakh maunds of seed on *sawai* to cultivators till June 30, 1962.

(See main article "Co-operative Movement").

## HOUSING

Under the Subsidised Industrial Housing Scheme during the Second Five Year Plan Government had sanctioned construction of about 25,500 tenements at an estimated cost of Rs. 799 lakhs. Out of this 23,040 tenements had been completed and a sum of Rs. 716 lakhs utilised for the purpose.

During the Third Plan period, an allocation of Rs. 300 lakhs has been approved for the scheme and the number of tenements expected to be completed is 7,830. Out of this 2,080 tenements have already been completed and a sum of about Rs. 70 lakhs utilised for the purpose. Government have also sanctioned construction of 1,692 new tenements at Lucknow, Kanpur, Govindpuri and Bareilly under phase VII of the scheme at an estimated cost of Rs. 70,73,200. A sum of Rs. 41·5 lakhs was spent during 1963-64. For 1964-65, Rs. 35·08 lakhs have been provided in the budget.

**Low Income Group Housing Scheme** Under the Low Income Group Housing Scheme, during the First Plan period a sum of Rs. 1·4 crores was disbursed as loans to various local bodies, U.P. Cooperative Bank, Educational and charitable Institutions and Government servants and 710 houses were completed. During the IInd Plan period loans amounting to Rs. 3·9 crores were disbursed and 6,229 houses were completed. An allocation of Rs. 300·00 lakhs has been made for the Scheme during the Third Five Year Plan. During 1961-62 a sum of Rs. 51·314 lakhs was disbursed to the local bodies, U.P. Cooperative Bank and the Educational Institutions. 944 houses were completed during that year. During 1962-63 Rs. 54·153 lakhs were disbursed to the executing agencies. During 1963-64, an expenditure of Rs. 41·5 lakhs was incurred under the scheme and for 1964-65, Rs. 46 lakhs have been provided in the budget.

**Slum Clearance Scheme :** This scheme was taken up in Kanpur, Lucknow, Agra, Varanasi and Allahabad in 1957 and loans and subsidy to the extent of Rs. 186 lakhs were sanctioned to the local bodies of these towns during the II Plan period for construction of 6,950 tenements in the above mentioned towns and development of 17 plots at Lucknow. The financial assistance was in the shape of 50 per cent loan and 50 per cent subsidy in respect of Kanpur and for other places it was 62½ per cent loan and 37½ per cent subsidy. Contribution of the State Government in the above assistance was to the extent of 25 per cent in the shape of 12½ per cent loan and 12½ per cent subsidy, the balance being contributed by the Central Government. Upto the end of the II Plan period 4,080 tenements had been constructed.

An allocation of Rs. 300 lakhs has been made for the slum clearance and improvement schemes under the Third Plan for construction of 9,700 tenements and development of open developed plots.

During 1961-62, loans amounting to Rs. 20,60,000 and subsidy amounting to Rs. 2,400,600 were sanctioned to the Municipal Corporations for completion of the spill-over schemes of the II plan. During 1962-63 and 1963-64, Rs. two lakhs and Rs. 0·13 lakhs respectively were spent on the scheme. For 1964-65, Rs. six lakhs have been provided in the budget.

**Regional Planning Scheme :** In order to check the haphazard growth of cities and towns and industrial potential areas and to regulate their development on a planned basis, the Regional Planning Scheme was sponsored by the Government of India in 1962. Under this scheme, the preparation of Master Plans of cities and towns and regional plans of industrial potential areas is envisaged. The expenditure on preparation of Master Regional Plans is to be met by the Government of India in the shape of 100 per cent grant-in-aid. This scheme was taken up in U.P. from Feb. 1962 and preparation of Master Plans for various cities has since been taken up.

**Village Housing Projects Scheme :** It envisages financial asistance to the villagers in the form of loans for the construction/improvement of residential houses in rural areas. During the Second Plan period a total sum of Rs. 31·97 lakhs was distributed for the construction of 3,696 houses in 580 selected villages. Socio-economic surveys in 318 villages had been completed and Master Plan of 503 villages had been prepared. Upto March 31, 1961, 585 houses had been completed and the remaining were either under construction or were to be constructed in due course.

During the Third Plan period it is proposed to disburse loans amounting to Rs. 225 lakhs. Under the scheme during the first three years of the Third Plan. Rs. 23·09 lakhs were spent and Rs. five lakhs have been provided for 1964-65.

Other Housing and Land Development Schemes in the State include the Middle Income Group Housing Scheme, Plantation Labour Housing and Land Acquisition and Development Schemes. Middle Income Group Housing Scheme was introduced in U.P. in 1958-59 and during the Second Plan period, loans amounting to Rs. 101 lakhs were disbursed through the U.P. Cooperative Bank and various local bodies for construction of houses. During the 3rd Plan period upto March 31, 1964, loans amounting to Rs. 127 lakhs have been released to the various local bodies and U.P. Cooperative Bank for disbursement or for construction of houses. The Land Acquisition and Development Scheme was introduced in 1959-60 and a total sum of Rs. 265 lakhs was disbursed to various local bodies for large scale acquisition of land for the implementation of various housing schemes upto March 31, 1964. The Sweepers Housing Scheme is also becoming popular amongst the local bodies for providing housing accommodation to their sweeper employees.

## MEDICAL AND PUBLIC HEALTH

*Vital Statistics :*

Death Rate (per thousand) 8·8 ; Birth Rate (per thousand) 15·00 (1962).

Total number of deaths from : Cholera 988 ; Plague Nil ; Small-Pox 11,753 ; Malaria 23,860 (1962).

Number of Civil Hospitals and Dispensaries : 1,594 (1962).

Allopathic 865 : Indigenous 651 (1962).

Maternity & Child Welfare Centres 2,070 ; Maternity Houses 7 (1963).

Number of patients treated in State Hospitals and Dispensaries : Indoor 8,86,593 ; Outdoor 2,06,56,497 (1961).

Number of beds in State Hospitals: 27,294 (1963).

Number of operations performed in State-owned hospitals and dispensaries: 2,15,43,095 (1961).

Number of Doctors in Government Service: 2,056 (April 1964).

Number of Doctors registered in U.P.: 9,221 (1963).

Number of Nurses: 3,143 (1963).

Number of Registered Vaids and Hakims: 39,150 (1963).

Number of Vaids and Hakims in Government service: 734 (1963).

Number of Ayurvedic and Unani dispensaries: 1,074 (1962).

State budget on Medical Department: Rs. 6,51,22,844 (1963-64).

State budget on Public Health (1963-64): Rs. 2,91,60,600.

With the assistance of the W.H.O. and UNICEF, 200 child welfare centres have been opened since 1947.

Number of T.B. Sanatoria: 12; T.B. Isolation Hospitals 5; T.B. Clinics: 42. Total number of beds in the T.B. Sanatoria and clinics: 2,006; T.B. Wards 22 (1963).

Number of leprosy asylums: 18.

Number of beds: 1,561 (1963).

One study and treatment centre at Dehra Dun and 8 subsidiary centres at Gorakhpur, Basti, Varanasi, Bahraich, Moradabad, Kheri, Barabanki and Azamgarh also function in the State under Government of India's Pilot Project Scheme for control of leprosy. Also there are 3 leprosy clinics at Kanpur, Varanasi and Deoria and 2 mobile leprosy units at Hamirpur and Jhansi.

A venereal disease hospital functions at Chakrata in Dehra Dun District. No. of V. D. Clinics 5 (1962).

Number of women's & Dufferin hospitals under Govt. supervision: 170 (1963).

The Employees' State Insurance scheme is in operation in Kanpur, Lucknow, Agra, Saharanpur, Allahabad, Varanasi, Rampur, Aligarh, Hathras, Bareilly, Shikohabad, Modinagar, Ghaziabad, Mirzapur and Sahjanwa in Gorakhpur District, Meerut, Firozabad, Moradabad, Jhansi, Izatnagar, Roorkee, Hapar, Mathura, Dehra Dun, Churk, Silapur, Ghazipur and Hirangaon.

From November 1959, families of workers insured under this scheme are also being provided medical treatment. The total number of dispensaries opened under the scheme has since risen from 40 to 76 including nine mobile dispensaries (Sept. 1964).

Under Family Planning Scheme 70 urban and 695 rural family planning clinics were opened till the end of Aug. 1964. In addition, 10 mobile family planning clinics and 6 mobile vaccination teams were also set up.

67 National Malaria Eradication units are functioning in the State.

## LABOUR

Total number of registered factories in the State 2,947 of which 2,629 have submitted returns (1961); Daily average number of the workers as per returns submitted 3,27,263.

Total no. of women workers 29,776 (1962).

Industries in which minimum wage is fixed: Rice, Flour, or Dal Mills, Tobacco (including Bidi making), Manufactory Cinchona Rubber, Tea or Coffee Plantation in Dehra Dun District only, Oil, Road Construction or Building operations, Stone Breaking or Stone Crushing, Lac Manufactory, Tanneries and Leather Goods Manufactory, Public Motor Transport and Woollen Carpet Industry.

There occurred 96 strikes till June, 1963 involving 1,88,954 workers resulting in a loss of 5,07,804 man-days.

The industrial lay-offs claimed another loss of 11,04,925 man-days and involved 57,289 workers. The number of the lay-offs was 1,391 in 1963.

State Govt. Acts for the welfare of the labourers:

(1) U.P. Shops and Commercial Establishment Act (1947), (2) U.P. Industrial Disputes Act, (3) U.P. Maternity Welfare Act, (4) U.P. Sugar and Alcohol Industry Labour Welfare and Development Fund Act, (5) U.P. Industrial Housing Act (1955).

Trade Unions: 1,102 (March 1964).

Labour Welfare Centres: 70 (March 1964).

Under subsidised Industrial Housing Scheme 20,690 houses were constructed till Dec. 31, 1963. Under the sugar factory labour housing scheme, 1,538 houses were constructed in 62 sugar mills at a cost of Rs. 45,54,186.

Provident Fund Scheme covers 1,80,488 employees in 1,454 factories. Employees' State Insurance Scheme has been enforced in 28 industrial towns, covering 3,15,460 employees. On Dec. 31, 1963, the number of living old age pension holders was 10,539.

Number of employment exchanges and that of Industrial Training Institutes, both run by the Directorate of Training & Employment are 51 each.

The Directorate also runs schemes for collection of employment market information and vocational guidance.

*Social Welfare Department:* The Department runs a scheme for women welfare in 39 districts, looks after the administration of Suppression of Immoral Women and Children's Institution Act and Probation Acts, runs a couple of centres for youth and child welfare.

The department runs five homes at the State level and 21 centres at the district level for the after-care treatment of destitute persons, both men and women.

The Samaj Kalyan Samiti Scheme is one of the most important schemes of the Department run for creating community consciousness in urban people in all district level quarter cities.

*Community Development:* As many as 876 development blocks have covered the rural population of the State. Schemes for the agricultural and industrial development of the rural population are being implemented by these blocks. The Government machinery at the block level is now under the complete control of the elected block presidents who have been vested with statutory powers.

## EDUCATION (1961-2)

Total number of Basic Primary Schools 46,533; total enrolment; 42,13,036; total number of teachers 1,05,738.

Total number of Senior High Schools 4,439; total enrolment 5,79,100; total number of teachers 23,607.

Total number of Higher Secondary Schools 1,858; total enrolment 9,79,978; total number of teachers 37,862.

Total number of Universities 9; total enrolment 33,940; total number of teachers. 2,303.

Total number of Degree Colleges 142; total enrolment 71,642; total number of teachers 3,789.

Total number of Sanskrit Pathshalas 1,059; total enrolment 40,644; total number of teachers 4,545.

Primary education upto class VI was made free from 1957–58.

Compulsory education for boys introduced in 95 municipalities; for girls in the whole area of ten municipalities; and 1,687 villages.

Budget for education in 1962-63 was Rs. 25,95,30,400 while budget for 1963-64 was Rs. 27·92 crores.

## JUDICIARY

The scheme of separation of Executive from Judiciary, which is one of the directive principles of the Constitution, was started in 1949. It was gradually extended to other districts, and now the scheme is in operation in all the districts of the State, except in the seven hill districts of the Kumaun and Uttarkhand Divisions.

Letters patent appeals against the appellate jurisdiction of the single judges have been abolished by the U.P. High Court Act, 1962.

## BUDGET (1965-66)

(See *State Budgets*)

## U.P. FINANCIAL CORPORATION

(See *State Corporations*)

## UNIVERSITIES

### Agra University

*Chancellor:* Governor, Uttar Pradesh (*Ex-officio*).
*Vice-Chancellor:* Dr. Ranjan, M.Sc., D.Sc., F.N.I.
*Registrar:* R. S. Agarwal.
Affiliated Colleges 135; Students 56,085 (approx.)

**U. P. Agricultural University**
Pant Nagar (District Nainital).

This University set up on the model of the Land Grant Colleges of U.S.A., aims at developing rural leadership and competence.

The University, which is the first of its kind in the country, has four constituent colleges and one school of basic sciences & humanities — an Agricultural College, a College of Animal Husbandry and Veterinary Sciences and a College of Agricultural Engineering and Technology and a Post-Graduate College. The University provides comprehensive education on Agriculture and allied subjects on the basis of an integrated system of teaching, research and extension. The first batch of students was admitted in July 1960. It has a capacity to train 325 candidates per year for undergraduate and 60 for Post-graduate studies—25 per cent of the seats being specifically reserved for students from outside the State.

**Budget (1964-65)**

### AKHIL BHARAT SARVA SEVA SANGH
Sadhna Kendra, Rajghat, Varanasi.

The Sangh was founded consequent on a resolution passed at a meeting of the representatives of several constructive work organisations (formerly working under the guidance of Mahatma Gandhi) held on March 13, 1948 at Sevagram (Wardha). The Sangh was originally formed as a federation of these organisations. Later, several of these organisations merged themselves into the Sangh, which has thus become the chief executive organ for constructive work. The objects of the Sangh are as follows :

To establish a social order free from all exploitation and based on the principles of Truth and Non-violence, and with this object to foster village mindedness in the citizens of India.

The programme includes various constructive work items like communal harmony, Khadi, removal of untouchability, basic education, relief to the poor (by securing employment, living wage, security and unemployment benefit, educational and medical facilities), research in hand spinning and weaving.

The Sangh believes in decentralisation of authority whether economic or political in the political sphere. It has faith in direct democracy which it calls 'Gram Swaraj'. The village is accepted by the Sangh as the basic unit for political organisation and economic self-sufficiency.

At present the Sangh is concentrating on the Gramdan, Sarvodaya Patra and Shanti Sena movement started by Acharya Vinboa Bhave, a close associate and disciple of Mahatma Gandhi.

Literature about Bhoodan, Gramdan, Sampattidan and other Dan Yajna movements can be had from Sarva Seva Sangh, Publication Division, Rajghat Kashi (Banaras) ; or Nava Jeevan Prakashan Mandir, Ahmedabad ; or Sarvodaya Prachuralaya 24, Srinivasapuram, Tanjore, South India. The Sangh also publishes one weekly paper namely Bhoodan Yajna (Hindi) two fortnightly papers namely Bhoodan Tahrik (Urdu) and Bhoodan (English) and two monthlies Sarvodaya (English) and Nai Talim (Hindi). Sarvodaya Press Service (SPS) is also run by the Sangh with its branches at Calcutta, Kashi, Indore, Poona and Baroda. Nearly 100 papers are served by SPS by news in Hindi, English and Marathi.

The Sangh has a general body consisting at present of 300 members, unanimously elected by Lok Sewaks, or their respective districts. The Executive organ of the Sangh is known as the Prabandh Samiti of 25 members. It has a president, a Secretary, one Joint Secretary and four regional Secretaries and a Treasurer. The Sangh has a Board of Trustees who hold the property of the Sangh in trust.

The Sangh has sponsored "Gandhian Institute of Studies" which conducts researches in various subjects relating to Gandhian philosophy as well as bringing it nearer to the scientific methods and technique of present day social sciences and vice-versa. It is situated at Rajghat, P.O. Sarva Seva Sangh, Varanasi-1.

Shanti Sena Mandal is doing peace work in the country in general and in border areas in particular on half of the Sangh. There are nearly 12,000 Shanti Sainiks throughout the country. Shanti Sena Mandal has decided to observe 30th January Death Anniversary Day of Gandhiji as "Peace Day" (every year) all over the country.

Four well known associations which merged into the Sarva Seva Sangh are : All India Spinners' Association ; All India Village Industries Association ; Go-Sewa Sangh and Hindustani Talimi Sangh.

### ARCHAEOLOGICAL MUSEUM
Dampier Park, Mathura.

**This Museum was established in 1874.**

Almost the entire collection is from Mathura and its neighbourhood. There are about 15,000 antiquities consisting of sculptures, terracottas, inscriptions, coins, seals and sealings, bronzes and paintings from 5th Cent. B.C. to 19th Cent. A.D. Majority of objects are of Kushana and Gupta periods (1st Cent. A.D. to 6th Cent. A.D.). Railing pillars with *Jataka* stories and beautiful female figures, portrait sculptures showing some of the Kushana Emperors such as Wema Kadphasis and Kaniskha, Buddha and Jina figures of the Kushana and Gupta age, Brahmanical divinities like Siva, Vishnu, Surya, Karttikeya, Indra, Balarama, Lakshmi etc., Naga, Nagis and Yakshas are some of the excellent exhibits. Mathura terracottas constitute a fascinating branch of study. These include figures of mother-goddesses, foreigners, *Dampatis*, various gods and goddesses, moulds for such figures, exquisitely carved decorative wall panels and birds and animal figurines scientifically arranged in a newly organised Terracotta Gallery. There are also modelling and photographic sections.

*Curator*, Dr. N. P. Joshi.

(Lajpat Rai Road, Allahabad 2.)

*President :* Dr. B. N. Prasad, Ph.D., D.Sc., F.N.I., F.N.A.Sc., M.P., Padma Bhushan.

*Vice-Presidents :* Prof. N. R. Dhar, D.Sc., F.R.I.C., F.N.I., F.N.A.Sc., I.E.S., (Retd.) ; Prof. P. Maheshwari, D.Sc., F.N.I., F.B.S., F.A.Sc., F.N.A.Sc.

*Honorary Treasurer :* Prof. S. N. Ghosh, D.Sc., F.N.A.Sc.

*Foreign Secretary :* Prof. R. N. Tandon, M.Sc. Ph.D., D.I.C., F.A.Sc., F.N.I., F.N.A.Sc.

*General Secretaries :* Prof. M. D. L. Srivastava, D.Sc., F.N.A.Sc. ; Dr. B. S. Chauhan, Ph.D., D.Sc., C.H.Z.S., F.A.Sc., F.Z.S.I., F.N.A.Sc.

### NATIONAL CHAMBER OF INDUSTRIES AND COMMERCE, U. P.

(G. G. Industries Post Office, Agra.)

*President :* K. P. Bhargava.

*Vice-Presidents :* B. N. Sarin, N. L. Potdar.

*Secretary :* M. M. Agarwal.

### NATURE CURE RESEARCH ASSOCIATION

Incorporating

### NATURE CURE COUNCIL OF MEDICAL RESEARCH

52-57, Gwynne Road, Lucknow.

Dr. S. J. Singh, *Founder-President* ; Dr. M. M. Bhamgara, *Vice-President* ; Dr. Mrs. R. K. Sahney, *Secretary*.

### NATURE CURE RESEARCH HOSPITAL

52-57, Gwynne Road, Lucknow, U.P.

*Director :* Dr. S. J. Singh, M.A., B.Sc., N.D. (London), F.N.F.U. (Ceylon), M.N.T.S. (Eng.).

### NORTH INDIA CHRISTIAN LITERATURE SOCIETY

18, Clive Road, Allahabad.

*President :* M. G. Shome ; *Treasurer :* Dr. M. A. Sadique ; *Secretary :* Rev. Paul Das.

### NUMISMATIC SOCIETY OF INDIA

P. O. Banaras Hindu University, Varanasi 5.

*Chairman*, P. J. Chinmulgund, I.C.S. ; *Gen. Secy.*, Dr. A. K. Narain, M.A., Ph.D. (Lond.), F.R.N.S. ; *Treasurer :* Dr. Rai Govind Chandra, M.A., Ph.D. (Paris).

### RAMAKRISHNA MISSION SEVASHRAM

Aminabad, Lucknow.

Has a charitable dispensary with X-Ray, Dentistry, Physiotherapy and T.B. Clinic. Treated 2,55,684 patients during 1962-63 free of charge, without any distinction of caste, creed or colour. Conducts regular religious and philosophical discourses daily. Has a library and reading room with over 8,500 volumes and about 30 periodicals and 8 dailies.

### SARVODAYA SAMAJ

Sadhna Kendra, Rajghat, Kashi.

The Samaj is not an organization in the accepted sense of the term. After the death of Mahatma Gandhi constructive workers from all over India met in a conference in March 1948 at Sevagram in Wardha. They decided to form a voluntary brotherhood of all who believe in the ideal of truth and non-violence.

The Samaj has, however, an executive organ, the Sarva Seva Sangh with its Headquarters at Kashi, Varanasi, U.P.

Loksevaks of every district form the district Sarvodaya Mandal and elect their representative for the All-India body, who again elect the president for a term of three years. The President nominates his executive (for three years), which is called the Prabandh Samiti. All the elections and decisions of the Sangh are unanimous. Apart from the President the Sangh has a Secretary and five Joint Secretaries and a Treasurer. The Sangh has a board of Trustees who hold the property of the Sangh in trust.

Moreover the Sangh has its Khadi Gramodyog Gram-Swarajya Samiti with its headquarters at Tirupur, Madras State, to co-ordinate and propagate Khadi and Village Industries throughout the country. Similarly the Krishi Goseva Samiti with its headquarters at New Delhi works for the furtherance of agriculture and improvement of the cattle wealth. The Prayog Samiti or the research department has its headquarters at Sabarmati Ashram, Ahmedabad, and works for the constant improvement of the Ambar Charkas.

It insists on the purity of the means as that of the ends.

For the achievement of the aim, the following programme is followed :

Communal harmony (fellowship between followers of different faiths and sects) ; Removal of untouchability ; Abolition of class distinctions ; Prohibition ; Promotion of khadi and other home industries ; Village sanitation ; Basic Education ; Equality of status and rights, for both men and women ; Health and hygiene ; Development of provincial languages ; Removal of provincialism ; Propagation of Hindustani as the national language ; Economic equality ; Development of agriculture ; Organization of labour ; Welfare of aboriginals ; Organization of students ; Service of leprosy patients ; Relief-work ; Cow protection ; Naturopathy, etc. Also engaged in promoting and organising Bhoodan, Gramdan and Shanti Sena Work all over the country.

The deliberations of the Samaj are of an advisory nature and not mandatory in any way.

### SHAHJAHANPUR MERCHANTS' CHAMBER

Shahjahanpur.

*Director :* Janki Prasad ; *President :* Deoki Nandan Mehrotra ; *Secretary :* Lakshmi Narain.

### SHEILA DHAR INSTITUTE OF SOIL SCIENCE

University of Allahabad, 2-D, Bell Road, Allahabad.

**THE SUGAR TECHNOLOGISTS' ASSOCIATION OF INDIA**
Kalyanpur, Kanpur (U.P.).

*President :* S. K. Somaiya ; *Vice-Presidents :* J. M. Saha, Bansi Dhar, S. C. Gupta ; *Hon. Secretary :* S. L. Saxena ; *Hon. Treasurer :* J. P. Shukla ; *Hony. Editor :* S. Mukhorji.

**THE TANNERS' FEDERATION OF INDIA**
14/69, Civil Lines, Kanpur.

*Chairman :* Mohammed Yaqub ; *Vice-Chairman :* R. Poulter ; *Secretary :* R. K. Mehra.

**TEXTILE ASSOCIATION (INDIA) REGD.**
(U.P. Branch)
14/1, Civil Lines, Kanpur.

**THEOSOPHICAL SOCIETY**
(Indian Section)
(Kamachha, Varanasi 1.)

*General Secretary :* Smt. Radha S. Burnier.
National Journal : *The Theosophical Review.*

**TRADERS CHAMBER OF UTTAR PRADESH**
Meston Road, Kanpur.

*President :* V. S. Rastogi, F.R.S.A. (London). *Vice-President :* Thakurdas Jashnani ; *General Secretary :* Umesh Chandra, M.A. ; *Jt. Secretary:* K. N. Nigam ; *Treasurer :* R. C. Raizada.

**THE U. P. AUTOMOBILE ASSOCIATION**
32-A, M. G. Marg, Allahabad.

*President :* B. Mukerji.
*Hony. General Secretary :* D. S. Pande.

*President :* K. N. Khanna ; *Vice-President :* Krishan Kapur ; *Genl. Secretary :* K. K. Agarwal.

**U.P. BARBED WIRE MANUFACTURERS' ASSOCIATION**
58/4, Birhana Road, Kanpur.

**U.P. BISCUIT MANUFACTURERS ASSOCIATION**
84/67, G.T. Road, Kanpur.

**U. P. CHAMBER OF COMMERCE**
15-197, Civil Lines, Kanpur.

**U.P. GLASS MANUFACTURERS' SYNDICATE**
Shikohabad.

*President :* C. B. Mital ; *Secretary :* R. C. Paliwal.

**U.P. GOVERNMENT APPROVED PRINTERS' ASSOCIATION**
Suraj Press Lane, 60, Gautam Budh Marg, Lucknow.

**U. P. GUR AND KHANDSARI ASSOCIATION**
Alamgiriganj, Bareilly.

*Working President :* J. S. Agrawal, M.L.A. ; *General Secretary :* K. L. Shaukla ; *Secretary :* R. P. Agrawal.

**U.P. INDUSTRIAL ESTATE MANUFACTURERS' ASSOCIATION**
5, Industrial Estate, Kanpur.

*President :* S. Ujagar Singh Bhasin ; *Sr. Vice-President :* Moti Lal Jain ; *Jr. Vice-President :* Raj Kumar Dikshit ; *Genl. Secretary :* K. K. Agarwal ; *Treasurer :* Bodh Raj Anand.

**U.P. SMALL SCALE INDUSTRIES ASSOCIATION**
106/377, 'P' Road, Kanpur.

**UPPER INDIA CHAMBER OF COMMERCE**
(Post Box No. 63, Kanpur.)

*President :* P. K. Sahgal.
*Vice-President :* A. H. West.
*Secretary :* Bhagwat Dayal, I.F.S. (Retd.).

**THE UPPER INDIA SUGAR EXCHANGE LTD**
51/58, Collectorganj, Kanpur.

**UTTAR PRADESH PUBLISHERS' ASSOCIATION**
21, Sheo Charan Lal Road, Allahabad 3.

**UTTAR PRADESH TUBERCULOSIS ASSOCIATION**
1, A. P. Sen Road, Lucknow.

*Chairman :* C. B. Gupta, M.A., LL.B. ; *Hon. Secretary :* Dr. M. M. S. Siddhu. M.B.B.S. ; *Hon. Jt. Secy. :* Capt. H. N. Shivapuri ; *Asstt. Secretary :* J. N. Mehrotra, B.Sc., LL.B. ; *Hon. Treasurer :* K. P. Srivatsava.

**VARANASEYA SANSKRIT VISHVA VIDYALAYA, VARANASI**

Teaching-cum-affiliating. Has the richest collection of Sanskrit Manuscripts. Has taken up the work of compilation of Bibliography of Sanskrit and allied subjects. Publishes rare Sanskrit texts and books on Sanskrit learning.

*Chancellor :* Governor of U.P. ; *Vice-Chancellor :* Surati Narain Mani Tripathi ; *Registrar :* Ram Naresh Mishra ; *Treasurer :* Dr. Rai Govinda Chandra ; *Librarian :* Dr. Subhadra Jha ; *Director of Research Institute :* Bal Deva Upadhyaya.

**VIJAI BEOPAR CHAMBER LTD.**
New Mandi, Muzaffarnagar.

*Chairman :* Deep Chandra.
*Vice-Chairman :* Gulshan Rai.
*Secretary :* Trilok Chand.

**THE VIJNANA PARISHAD**
The Vijnana Parishad Bhawan, Thornhill Road, Muir College Buildings, Allahabad 2.

Scientific—Hindi Science Academy of India for Propagation of Science in Hindi.

Publishes a popular monthly magazine "Vijnana" containing articles on scientific subjects in Hindi. Publishes a quarterly research journal "Vijnana Parishad Anusandhan Patrika" containing scientific subjects in Hindi. The academy has by now brought out more than sixty books on scientific subjects.

*President :* Prof. B. N. Prasad, M.P., Padma Bibhusan.

**VIVEKANANDA LABORATORY, ALMORA.**

**WESTERN U.P. CHAMBER OF COMMERCE**
MEERUT CANTT 17.

*President :* Raizada Seth K. N. Modi ; *Senior Vice-President :* Seth Sultan Singh Jain ; *Junior Vice-President :* K. C. Elhance ; *Secretary:* R. K. Jain.

**THE YOGA-VEDANTA FOREST ACADEMY**
The Divine Life Society, Sivananda Ashram, Sivananda Nagar Post, *via* Rishikesh.

*Nature of Body :* Dissemination of knowledge and spiritual uplift of mankind ; teaches art of attaining health and longevity through Yoga ; gives training in the practice of the Synthesis of Yoga.

*Founder of the Academy and Founder of the Divine Life Society :* Late Swami Sivananda ; *President :* Swami Chidananda ; *General Secretary of the Divine Life Society and Principal of the Yoga Vedanta Forest Academy :* Swami Krishnananda.

---

# MAHARASHTRA—(*Contd.*)

## IRRIGATION

Total area irrigated : 22·62 lakh acres.

Below are given particulars about projects in operation.

Bhatghar Dam and Nira Canals :—on Bhatghar, Poona Dt. Completed in 1938, irrigates 1,55,482 acres in Poona, Sholapur and Satara Dts. The cost of the scheme is Rs. 7·20 crores.

Khadakwasla Dam and Mutha Canals System :—on Khadakwasla in Poona Dt. Completed in 1897, irrigates 11,469 acres in Poona. Cost of scheme Rs. 70·42 lakhs.

Bhandara Dam and Pravara Canals System :—on Bhandardara in Ahmednagar Dt. Completed in 1926, irrigates 65,912 acres in Ahmednagar. Cost Rs. 1·62 crores.

Darana Dam and Godavari Canals System :—at Darana in Nasik Dt. Completed in 1916, irrigates 69,117 acres in Ahmednagar and Nasik Dts. Cost Rs. 3·51 crores.

Chankapur Tank and Girnal Canals :—at Chankapur in Dt. Nasik. Completed in 1910, irrigates 10,348 acres in Nasik. Cost Rs. 21 lakhs.

Gangapur Dam :—at Gangapur in Nasik Dt. Stage I was to be completed in 1963-64, would irrigate 45,000 acres in Nasik. Cost Rs. 3·66 crores. Stage II would be completed in the Third Plan ; would irrigate 19,000 acres in Nasik. Cost Rs. 94·61 lakhs. Out of the total estimated cost of the project a sum of Rs. 4·95 crores was spent till March 1963.

The following table shows particulars about some of the bigger projects under construction.

| Project. | Location. | When started. | Date of completion. | Area to be irrigated. (Acres). | District benefited. | Estimated cost. Rs. in lakhs. | Amount spent upto 31-3-1964. Rs. in lakhs |
|---|---|---|---|---|---|---|---|
| Vir. | Vir, Taluka Purandar, Dt. Poona. | 1956 | 1965 | 66,000 | Satara and Sholapur. | 541·13 (Revised anticipated) | 410·70 |
| Warna. | Chandoli, Taluka Shirala, Dt. Sangli. | — | Not fixed | 20,000 | Kolhapur and Sangli. | 163·25 | 26·38 |
| Ghod. | Chinchani, Taluka Sirur, Dt. Poona. | April 1954. | 1965 | 60,800 | Ahmednagar and Poona. | 556·15 (Revised anticipated) | 504·74 |
| Girna. | Panzan, Taluka Nandgaon, Dt. Nasik. | 1958 | 1967-68 | 1,41,350 | Jalgaon. | 1,319·32 (—do.—) | 814·17 |
| Mula. | Baregaon Mandur, Dt. Ahmednagar. | 1957 | 1973 | 2,10,000 | Ahmednagar. | 1,616·00 (—do.—) | 408·10 |
| Karwand. | Pimparala Village, Taluka Sirpur, Dt. Dhulia. | 1964-65 | 1967-68 | 11,200 | Dhulia. | 147·55 | 31·50 |
| Bor. | Bori, Taluka, and Dt. Wardha. | 1958 | 1966 | 33,000 | Wardha. | 212 | 212·94 |
| Nalganga. | Sanglad Khurd and Budruk, Taluka Malkapur, Dt. Buldana. | 1958 | 1967 | 21,600 | Buldana. | 207·31 (—do.—) | 306·02 |
| Katepurna. | Vastipur village, Taluka and Dt. Akola. | 1958 | 1968 | 24,640 | Akola. | 233·32 | 90·96 |
| Bagh. | Sirpur Village, Taluka Gondia, Dt. Bhandara. | 1958 | 1969 | 60,000 | Bhandara. | 584·28 | 47·42 |
| Dina. | Regree village, Taluka Gadchiroli, Dt. Chanda. | 1958 | 1968 | 30,500 | Chanda. | 226·01 | 52·89 |
| Itiadoh. | Gothangaon village, Taluka Sakoli, Dt. Bhandara. | 1958 | 1970 | 74,500 | Bhandara and Chanda. | 692·02 | 42·59 |
| Purna. | Sidheshwar, Taluka Hingoli, Yeldari, Taluka Jintur, Dt. Parbhani. | 1957 | 1966-67 | 1,52,000 | Parbhani and Nanded. | 1,491·00 (Revised anticipated) | 928·88 |
| Manar. | Warwant, Taluka Kandhar, Dt. Nanded. | 1959 | 1965-66 | 25,000 | Nanded. | 223·08 | 203·35 |

**Medium and Minor Projects**

The medium and minor irrigation projects also play a very important part in the development of the State.

In the First Plan 16 medium projects were started. Another 16 projects had been taken up in the Second Plan. This included Kurnoor Project which was treated as Major in II Plan but medium in Third Plan. The work of remaining Major Projects of II Plan viz. Khadakwasla Project Stage I is also being accelerated. Rs. 38 crores were provided in the Second Plan for these spill-over and new works. It is expected that when completed and fully developed these schemes will bring an additional area of 12,09,140 acres under irrigation. In the First Plan 291 minor irrigation works were completed at a cost of Rs. 40·11 lakhs.

These works have brought an additional area of 47,040 acres under irrigation. In the Second Plan as many as 212 minor irrigation works including 135 spill over projects from the First Plan have been completed. By the end of Second Plan additional irrigation potential of 1,41,270 acres was created.

**Major and Medium Projects**

In the Third Plan, in all 27 new major and medium irrigation projects were included in addition to the 49 spill over schemes, for a total outlay of Rs. 69·06 crores which included flood protection works, extension and improvement survey and investigation of major and medium irrigation projects.

Out of the schemes which were under execution in the Third Plan, as many as 33 were physically completed and have started yielding benefits.

By the end of the Third Plan, an additional area to the tune of 4,46,350 acres was likely to be benefited by these major and medium irrigation works. An additional irrigation potential of 1,08,000 acres will be created at the end of the Third Plan.

The names of the major and medium projects and the proposed outlays for 1965-66 respectively for each were as follows: Vir, Rs. 15·27 lakhs; Karwand, Rs. 29·00 lakhs; Girna, Rs. 179·00 lakhs; Ghod, Rs. 26·00 lakhs; Mula, Rs. 210·00 lakhs; Bor, Rs. 34·00 lakhs; Dimanadi, Rs. 30·00 lakhs; Nalganga, Rs. 8·00 lakhs; Bagh River, Rs. 50·00 lakhs; Katepurna, Rs. 42·00 lakhs; Mohasangvi, Rs. 0·01 lakhs; Purna Rs. 204·22 lakhs; Manar, Rs. 8·66 lakhs.

Outlay for minor irrigation works for 1965-66 is Rs. 495·76 lakhs.

THIRD PLAN SCHEMES: New major and medium irrigation schemes being and likely to be undertaken in Third Plan are as under:—

*Western Maharashtra:* Bhima Irrigation Scheme, Upper Tapi Project Stage I, Krishna River Project, Godavari Project Stage I (Karanjwan), Kukdi Project Stage I, Kal River Projects Irrigation Tank at Malangaon and Storage, in Upper Girna Catchment.

*Vidarbha:* Pus River Project, Upper Wardha Project, Morna River Project, Gyangapur River Project, Managarh Tank Project, Sangrampur Tank Project, Wunna River Project and Khuni River Project.

*Marathwada:* Kayadhu River Project, Jayakwadi (Sindaphana) Project Stage I and Ghirni River Project.

## EMPLOYEES' STATE INSURANCE SCHEME

The following particulars show the position as on Dec. 31, 1963 in relation to the Greater Bombay and Vidarbha Region where the scheme is in force.

Total No. of insured workers: 8,22,028 (Bombay).

Total number of panel doctors: 1,607 (1,141 Allopathic, 466 Ayurvedic and Unani).

Total attendance at the Insurance Medical Practitioners' dispensaries during the year 49,79,694 in respect of I.P.s and 19,17,955 in respect of family members.

Total number of general beds sanctioned: 780.

Total T.B. beds sanctioned: 620.

Number of diagnostic centres: 11; number of ambulances: 3.

Number of persons X-Rayed: 32,214.
Number of Screening done: 11,678.
Number of approved chemists: 136.
Number of E.S.I.S. Medical Stores: 4.
Number of costly drugs: 241.

In Greater Bombay, including the talukas of Kalyan, Thana and Bhiwandi, the benefits of the E.S.I. Scheme have been extended to cover the families of over 7,00,000 of insured workers from Jan. 1962. This would afford cover in case of sickness and maternity to all their family members, old and young.

The Rs. 167-lakh Mahatma Gandhi Memorial Hospital for industrial workers covered by the E.S.I.C. in Bombay started functioning from March 29, 1962, has a total bed strength of 642.

In the eight districts of Vidarbha the scheme has so far been implemented in three towns: Nagpur, Akola and Hinganghat.

Number of Insured Persons covered under the scheme as on 31-12-1963: 48,954.

Number of family units registered: 44,000.

Number of family members under benefits: 75,929.

Total number of Insured Persons treated as on 31-12-1963: 6,87,961.

Diagnostic and special treatment is provided at the Mayo Hospital and the Medical College Hospital, Nagpur.

General medical treatment is provided under the service system, that is, in the State Insurance Dispensaries.

The number of beds reserved in Nagpur: 80 (includes 25 T.B. and 10 maternity beds); in Akola 5, in Hinganghat 6.

In addition to the above five, five more T.B. beds are reserved in the T.B. Sanatorium at Buldhana, for Akola and 5 T. B. beds for Hinganghat at Mayo Hospital, Nagpur.

The Employees' State Insurance Scheme has been extended to the families of insured workers at Nagpur, Akola and Hinganghat on Dec. 22, 1960, May 1, 1961 and Oct. 19, 1961 respectively.

The Scheme has been extended to Sholapur with effect from 17th Nov. 1963 and to Poona from 15th Aug. 1965.

The Offices concerned are:

1. Employees' State Insurance Corporation, Bombay Regional Office, Colaba Causeway, Bombay 5.
2. Administrative Medical Officer, the Employees' State Insurance Scheme, Maharashtra State, 103, Sion, Bombay 22.
3. Administrative Medical Officer, Employees' State Insurance Scheme, Vidarbha Region, Nagpur.
4. Administrative Medical Officer, Employees' State Insurance Scheme, Western Maharashtra Region, Poona.

# EDUCATION—(*Contd.*)

## UNIVERSITY EDUCATION

Position on 31st December 1963 :—

No. of Universities : 55.

No. of Institutions deemed to be Universities :† 7. Arts, Science & Commerce colleges 1,418. Total no. of students (excluding Intermediate Board of Education in U.P.): 11,84,697. No. of professional colleges : 693.

Figures as on March 31, 1963 :

No. of Colleges 1,938 (university colleges 133 ; affiliated colleges 1,805). These figures do not include colleges under Intermediate Boards. Number of Arts, Science and Commerce colleges 1,283 (university colleges 73 ; affiliated colleges 1,210).

The total number of Women's colleges that came up in 1962–63 was 24 thus raising the total of such colleges to 235.

Total enrolment of students in the universities and colleges rose to 12,72,666 which showed an increase of 10·5 per cent *i.e.* 1,17,266 over the enrolment for 1961–62. Out of 12,72,666 about 2.23 lakhs were women students. Total number of teachers in the universities and colleges : 66,370 including tutors and demonstrators but exclusive of teachers in intermediate colleges.

The Third Plan allotment, for development of University Education, to be placed at the disposal of Univ. Grants Commission, was Rs. 37 crores. This is exclusive of the allocation for Engineering and Technology at the Universities.

The policy in regard to university education is largely the one recommended by the Indian University Education Commission which made a report in 1949. (This report is summarized in a previous edition.)

There is now a University Grants Commission. (See also the note below.) Its duty is to take such steps as it thinks fit for the promotion and co-ordination of university education and for the determination and maintenance of the standards of teaching, examination and research.

The U.G.C. continued its grant giving activities during 1963–64 and grants were released not only for development schemes in the various fields under Humanities, Science and Technology, but also assistance was given to universities and colleges towards the implementation of minor projects like establishment of Students Aid Fund, Hobby Workshop, construction of Health Centres, Non-resident student centres, purchase of library books, etc.

*Admissions :* The U.G.C. has suggested to the universities that for the present, as a first step, the minimum age of 16 might be prescribed for admission to the first degree course in arts, science and commerce. A majority of the universities have accepted the suggestion.

### Universities

There are in all 62 universities in India. The University Grants Commission has appointed a committee to prepare a broad outline plan for the new Universities to be established during the Third Plan period, taking into account the requirements of the country and the resources available for the purpose.

The Central Universities are four : Aligarh, Banaras, Visva Bharati and Delhi.

It may be mentioned here that for purposes of employment under the Central Government the degrees and diplomas of various institutions besides the universities mentioned below are recognized.

Among the institutions are : Gurukul Vishwa Vidyalaya, Hardwar; Jamia Millia Islamia, Delhi; Kashi Vidyapith, Varanasi ; Gujarat Vidyapith (degrees awarded during 1920-22) ; Tilak Maharashtra Vidyapith, Poona (degrees awarded prior to 1932) ; Tata Institute of Social Sciences, Bombay ; National Council of Rural Higher Education ; and Qaumi Vidyapith, Lahor degrees awarded upto 1927).

The names of the Universities with the names of Vice-Chancellors are given below :—

*Agra University.*—Dr. Ranjan.
*Aligarh University.*—Dr. Nawab (Mirza Ali Yar Khan) Ali Yavar Jung Bahadur, B.A. (Hons.), (Oxford.), Padma Bhushan.
*Allahabad University.*—R. K. Nehru.
*Andhra University.* (Waltair).—Dr. A. L. Narayana, M.A., D.Sc., F.I.P.
*Andhra Pradesh Agricultural University* (Hyderabad) : O. Pulla Reddy, I.C.S. (Rtd.).
*Annamalai University* (Annamalainagar).—Dr. C. P. Ramaswami Aiyar.
*Banaras Hindu University.*—M. C. Bijawat, (Acting).
*Bangalore University.*—T. V. Janakiraman.
*Bhagalpur University.*—Dr. B. N. Singh.
*Bihar University* (Muzaffarpur).—Dr. P. L. Srivastava.
*Bombay University.*—P. B. Gajendragadkar, M.A., LL.B.
*Burdwan University.*—B. K. Guha, I.C.S. (Retd.).
*Calcutta University.*—Bidhubhusan Malik.
*Delhi University.*—Dr. C. D. Deshmukh.
*Gauhati University.*—M. N. Goswami.
*Gorakhpur University.*—Prof. Madan Mohan.
*Gujarat University* (Ahmedabad).—Lalbhai Ratanji Desai, B.A., B.T., T.D. (Lond.).
*Indira Kala Sangeet Vishvavidyalaya* (Khairagarh).—P. N. Chinchore, M.A.M. Mus.
*Indore University.*—H. S. Kamath.
*Jabalpur University* (Jabalpur).—Dhirendra Verma.
*Jadavpur University* (Calcutta 32).—Dr. T. Sen, Eng. (Munich), M.I.E. (Ind.).
*Jammu & Kashmir University* (Srinagar).—T. M. Advani, M.A., LL.B.
*Jawaharlal Nehru Krishi Vishwavidyalaya, Jabalpur.*—Dr. J. S. Patel.
*Jiwaji University, Gwalior.*—S. S. Bhandarkar.
*Jodhpur University.*—Dr. Ram Behari.
*Kalyani University.*—Dr. S. N. Das Gupta.
*Kameshwar Singh Darbhanga Sanskrit Vishwavidyalaya* (Darbhanga). Mahamahopadhaya S. V. Sohoni.
*Karnatak University* (Dharwar).—D. C. Pavate, M.A. (Cantab.).
*Kerala University* (Trivandrum).—Samuel Mathai.
*Kurukshetra University* (Kurukshetra).—Bhool Chand.
*Lucknow University.*—Dr. A. V. Rao.
*Madras University.*—Lt.-Col. Diwan Bahadur Sir A. Lakshmanaswami Mudaliar, B.A., M.D., LL.D., D.Sc., D.C.L. (Oxon), D.Litt., F.R.C.O.G., F.A.C.S.
*Magadh University.*—Zawar Hussain.
*Maharaja Sayajirao Univ. of Baroda.*—Dr. C. S. Patel, B.A., M.Sc. (Bom.), Ph. D. (Leeds.).
*Marathwada University* (Aurangabad).—Dr. N. R. Tawde ; B.A. (Hons.), B.Sc. (Bom.), M.Sc. (Bom.), Ph.D. (Lond.), F. Inst. P., F.N.I., F.A.Sc.
*Mysore University.*—Dr. K. L. Shrimali, M.A., Ph.D.
*Nagpur University.*—P. P. Deo.
*North Bengal University* (Siliguri).—B. N. Das Gupta.
*Orissa University of Agriculture and Technology* (Bhubaneswar).—M. C. Pradhan (President).
*Osmania University* (Hyderabad).—Dr. D. S. Reddi. M.A. (Oxon.).
*Punjab University* (Chandigarh).—Suraj Bhan, M.A. (Pb.) ; M.A. (Lond.).
*Patna University.*—Dr. K. K. Datta.
*Poona University.*—Vacant.
*Punjab Agricultural University* (Ludhiana).—P. N. Thapar.
*Punjabi University* (Patiala).—Kirpal Singh Narang.
*Rabindra Bharati* (Calcutta).—H. Banerji.
*Rajasthan University* (Jaipur).—Dr. Mohan Sinha Mehta, M.A., LL.B., Ph.D., Bar-at-Law.
*Ranchi University.*—Sarangdhar Sinha.

*Tata Institute of Social Sciences* (Bombay): Vice-Chancellor : M. S. Gore.

The following are some of the major Schemes, being implemented during the Third Plan period out of assistance from the University Grants Commission.

(1) Institution of permanent Chairs or Lecturerships named after Dr. Rabindra Nath Tagore in selected Universities ; (2) Setting up of Film Clubs in Universities ; (3) Schemes for teaching languages of other regions ; (4) Research in Social Tensions ; (5) Research in Social Welfare ; (6) Collection, preservation and utilisation of manuscripts in university libraries ; (7) Scheme for publication of approved research or learned research works ; (8) Extension work by University teachers ; (9) Establishment of Priority Presses in Universities ; (10) Construction of staff clubs-cum-guest houses ; (11) Development of Museology in Indian Universities ; (12) Development of Department of Archaeology in selected universities ; (13) Development of Linguistic Studies in universities; (14) Establishment of Advance Centre of Studies ; (15) Organisation of Summer Institutes and Seminars ; (16) Establishment and improvement of Central Workshops in Universities ; (17) Development of Post-graduate Education in Science subjects in selected affiliated Colleges ; (18) Scheme for setting up Industrial Estates in selected universities ; (19) Construction of Gandhi Bhawans in selected universities ; (20) Scheme for scholarships for study of regional languages ; (21) Grants to affiliated Colleges for :—(*a*) Non-Resident Students' Centres (Maximum

† Indian Agricultural Research Institute, New Delhi ; Indian Institute of Science, Bangalore ; Indian School of International Studies, New Delhi ; Jamia Millia Islamia, New Delhi ; Gujarat Vidyapeeth, Ahmedabad ; Kashi Vidyapeeth, Varanasi and Gurukula Kangri Vishwavidyalaya, Hardwar.

Rs. 35,000); (*b*) Hobby Workshops (Maximum Rs. 20,000); (*c*) Construction of Hostels (50 : 50); (*d*) Extension of Libraries, including purchase of books (2/3 : 1/3); (*e*) Extension of Laboratories and purchase of equipment after taking into account the assistance that may have been given or may be given under the Three-Year Degree Course Scheme (2/3 : 1/3); (*f*) Construction of staff quarters (50 : 50); and Revision of salary scales of teachers in Universities and affiliated colleges.

Under a programme jointly sponsored by the Gandhi Smarak Nidhi and University Grants Commission, Gandhi Bhawans are to be set up in universities to promote and facilitate the study of Gandhiji's ideals and his way of life. Initially, construction of Gandhi Bhawans is to be undertaken in nine universities including Delhi, Kerala, Allahabad, Andhra, Karnatak, Mysore, Punjab, Nagpur and Rajasthan.

The total cost of the building at Delhi University, which has been designed by Stein, Chatterjee and Polk, architects, is estimated at Rs. 1,60,000 which will be shared between the Gandhi Smarak Nidhi and University Grants Commission.

The main object in establishing these Bhawans is to provide within the university campus a suitable place to keep Gandhian literature; to hold study classes and discussions on the life, ideals and work of Mahatma Gandhi; to arrange for lectures on these topics and to encourage students to undertake such items of constructive work as can be done inside or close to the campus, which will reflect the ideas and methods of work indicated by Mahatma Gandhi.

The University Grants Commission has selected 39 colleges from 17 universities, which fulfil the prescribed conditions, for introducing the scheme of hobby workshops.

The universities are: Agra, Andhra, Bombay, Calcutta, Delhi, Gauhati, Gorakhpur, Gujarat, Kerala, Madras, Mysore, Nagpur, Punjab, Poona, Rajasthan, Saugar and S. V. Vidyapeeth.

So far, assistance has been given for the establishment of 13 workshops in universities and 68 in colleges. During 1962-63, the U.G.C. paid Rs. 1,82,840 to colleges and Rs. 29,767 to universities for the establishment of hobby workshops.

**Medium of Regional Languages in Universities**

The progress made so far (Aug. 1962) in respect of imparting education through the medium of the regional languages in the universities:

Out of 58 universities, 34 provided facilities for teaching through the medium of Hindi or regional languages. Students of these universities were allowed to answer question papers in Hindi or in the regional languages.

Four universities — Agra, Banaras, Jabalpur and Vikram — offered courses in Hindi up to M.A. and M.Com. standards. Seventeen universities — Aligarh, Allahabad, Bhagalpur, Bihar-Delhi, Gorakhpur, Indra Kala Sangeet, Kurukshetra, Lucknow, Magadh, Osmania, Patna, Punjab, Rajasthan, Ranchi, Varanaseya Sanskrit Vishwavidyalaya and Saugar — provided facilities for examinations in Hindi up to the degree level.

Thirteen other universities — Bombay, Burdwan, Calcutta, Gujarat, Kalyani, Madras, Marathwada, M. S. University of Baroda, Nagpur, Poona, Sardar Vallabhbhai Vidyapith, S.N.D.T. and Visvabharati—permitted the use of regional languages for instructions up to the degree level.

Twelve universities — Andhra, Annamalai, Gauhati, Jadavpur, Jammu and Kashmir, Karnatak, Kerala, Mysore, Roorkee, Sri Venkateswara, U.P. Agricultural and Utkal — continue to provide teaching examination through the medium of English.

Information on the medium of instruction was still awaited from 12 universities — Agricultural University, Ludhiana, Punjabi University, Patiala, Jodhpur University, Jodhpur, Rajasthan Agricultural University, Udaipur, Rabindra Bharati, Calcutta, North Bengal University, Siliguri, K. S. Darbhanga Sanskrit University, Indian Institute of Science, Bangalore, Indian Agricultural Research Institute, New Delhi, Indian School of International Studies, New Delhi, Gurukula Kangri Vishwavidyalaya, Hardwar and Jamia Millia Islamia, New Delhi.

Thirteen universities had adopted Hindi as the medium of instruction in different courses, the names of which are Banaras, Bhagalpur, Bihar, Indra Kala Sangeet Vishwavidyalaya, Jabalpur, Jodhpur, Lucknow, Magadh, Patna, Ranchi, Sardar Vallabhbhai Vidyapeeth, Saugar and Vikram.

## AWARDS—(*Contd.*)

Prokash Karmakar, J. Sultan Ali, Ambadas, D. K. Das Gupta, Bal Chhabda, Surya Prakash, Ram Singh Bawa, M. K. Bardhan, K. S. Kulkarni and P. V. Janakiram have been selected for Lalit Kala Akademi awards for 1966.

Eleven artistes have been selected for the Sangeet Natak Akademi awards and five for the Akademi fellowships for 1964-65. The awards include 3 for dance and four each for drama and music.

Twenty five master craftsmen have been selected for the National Awards in 1966.

## CIVIL AVIATION

During Jan.–June 1965, I.A.C. flew 16,402,275 kilometres, carrying 6,45,817 passengers, 11,051, 823 kilograms of cargo and 4,674,636 kilograms of mail. Air India flew 8,326,843 kilometres with 102,287 passengers, 3,863,928 kilograms of cargo and 452,025 kilograms of mail during Jan.-June 1965.

## COLOMBO PLAN

The fourteenth annual report of the Colombo Plan for Technical Co-operation in South and South-East Asia, shows that total expenditure in 1964–65 on the provision of experts, training places and technical equipment rose to £39,500,000 compared with £36,400,000 the previous year.

Training places provided rose from 4,551 in the previous year to 4,920, bringing the total number of trainees who have acquired specialised training since the plan began to 37,966.

A record total of 1,186 experts took up new assignments in the year, and technical equipment to the value of £14,700,000 was provided. This brought the cumulative expenditure for equipment to £84,500,000.

Member countries are: Australia, Britain, Canada, Ceylon, India, New Zealand, Pakistan, Cambodia, Laos, America, Vietnam, Burma, Nepal, Indonesia, Japan, Philippines, Thailand, Malaysia, Singapore, Bhutan, Korea, Afghanistan and the Maldive Islands.

## FOOD CORPORATION

Mr. K. T. Chandy has been appointed Chairman, Food Corporation of India with effect from Feb. 1966 in place of Mr. T. A. Pai, who had resigned.

## INSURANCE

New business completed by Life Insurance Corporation during the first seven months of 1965-66 amounted to Rs. 291 crores, showing an increase of Rs. 18·75 crores over the corresponding period last year.

Foreign business amounted to Rs. 3·86 crores.

The number of policies issued stood at 5·97 lakhs. For the same period the number of people insured during 1964-65 was 5·69 lakhs.

## MINES AND MINERALS

The total foreign exchange earned by India through the export of ores and minerals (including those from Goa) during January-April 1965 was Rs. 287 millions against Rs. 280 millions during January-April last year, showing an increase of Rs. 7 millions.

The value of imports of ores and minerals amounted to Rs. 65 millions during January-April 1965 against Rs. 50 millions in the corresponding period last year.

## MISCELLANEOUS INDUSTRY

The Government of India have not accepted the recommendation of the Tariff Commission for continuance of protection to the Ball Bearings Industry beyond Dec. 31, 1965.

## POPULATION

According to a United Nations report issued in Nov. 1965, India's population was 471,624,000 in mid-1964.

# MERCHANT NAVY TRAINING BOARD

Commerce House, Ballard Estate, Bombay 1.

At present there are six training establishments in India for the training of Merchant Navy personnel. These institutions are run by the Government of India. The Dufferin was set up in 1927. It provides a pre-sea training course of 2 years for navigating cadets. The annual output of the Dufferin is 80. Efforts are being made to replace the existing training ship by a new one when the annual intake is proposed to be increased from 80 to 125. The Directorate of Marine Engineering Training was set up in 1948. It provides a four years pre-sea course for engineering cadets. Its present intake is 100 cadets per annum but efforts are being made to increase it to 150 before long. The Nautical and Engineering College provides post-sea instructional courses for both navigating and engineering cadets and apprentices who are preparing for Ministry of Transport Certificate of Competency Examinations. There is no limitation as to the intake of this institution and all cadets who have completed their pre-sea training followed by requisite sea service and apprentices who are otherwise eligible to appear for certificate of competency examination are granted admission in the College. The Training Ship Bhadra, the Training Ship Mekhala and the Training Ship Naulakshi are ratings training establishments. The first two were started in 1950 while the third one was started in 1955. These institutions provide a three months' course for deck, engineroom and saloon ratings. The Government are presently considering a proposal to extend the period of training to four months to intensify the training of ratings. The combined monthly intake capacity of these institutions is 140 trainees but the actual number of admissions is varying from time to time, according to the needs of the industry. Till 31st March 1965 the Government have spent about 5·31 crores on all these institutions and about 26,000 candidates have been trained in them, since 1947.

In 1959, the Govt. of India set up the Merchant Navy Training Board, an advisory body comprising the representatives of Parliament, shipowners, seafarers, Port Trusts, Chambers of Commerce and Government, for advising Government on all matters pertaining to the training of Merchant Navy personnel. The Board is reconstituted every two years and the term of the present Board expires by July 1967. The Principal, Nautical and Engineering College, Bombay is the Member Secretary of the Board and its address is C/o Nautical and Engineering College, Hay Bunder, Tank Road, Bombay 33.

With a view to focussing attention of general public on the problems connected with the life and service of seafarers, and the role they play in promoting the economy, it was decided to observe National Maritime Day on the 5th of April every year, commencing from the year 1964. The celebrations of the year 1965 which is the year of International Cooperation, are very significant in that foreign diplomats, foreign shipping interests and other non-Indian interests connected with the Shipping, participated in the celebrations.

# ALL INDIA CORPORATIONS—(*Contd.*)

## THE INDUSTRIAL FINANCE CORPORATION OF INDIA

(Head Office: Reserve Bank Building, 6, Parliament Street, New Delhi.

Authorised Capital: Rs. 10 crores; Issued and Paid-up Capital: 8·35 crores.

Board of Directors: A. Baksi (Chairman), S. Ranganathan, S. S. Shiralkar, Charat Ram, S. R. Vasavada, M. V. Jathur, K. C. Mittra, B. K. Dutta, S. D. Srinivasan, Smt. Raksha Saran, P. S. Rajagopal Naidu, N. A. Kalyani.

C. A. Subrahmanyam (General Manager), C. D. Khanna (Secretary), Baldev Pasricha (Comptroller).

The effective rate of interest charged on both rupee loans and sub-loans in foreign currencies—U.S. Dollars, Deustche Marks and French Francs—is 8 per cent per annum.

Total assistance sanctioned by the I.F.C. upto 30th June, 1965 is Rs. 226·96 crores in respect of 774 applications from 390 industrial units out of which assistance to the extent of Rs. 156·37 crores had been disbursed. Total assistance outstanding on 30th June 1965 aggregated Rs. 117·15 crores.

During 1964-65, 134 applications aggregating Rs. 33·44 crores were sanctioned to 98 industrial units. This was made up of rupee and foreign currency loans of Rs. 26·03 crores, underwriting of Rs. 4·59 crores and guarantee for deferred payments and for loans from abroad of Rs. 2·82 crores. The quantum of assistance disbursed during the year was Rs. 31·92 crores out of which cash outgoings amounted to Rs. 21·96 crores. The corresponding figures for the preceding year were Rs. 21·88 crores and Rs. 17·99 crores respectively.

The gross income for the year was Rs. 612·56 lakhs as against Rs. 507·28 lakhs for the preceding year. Deducting interest of Rs. 342·02 lakhs on borrowings and other expenses of Rs. 28·33 lakhs, the gross profit was Rs. 242·21 lakhs from which a sum of Rs. 110·79 lakhs was provided for taxation. The net profit, for the year, came to Rs. 131·42 lakhs as against Rs. 125·44 lakhs for the preceding year.

---

# STATE CORPORATIONS—(*Contd.*)

## ORISSA INDUSTRIAL DEVELOPMENT CORPORATION

(A Govt. of Orissa Undertaking)
Bhubaneswar.

The Industrial Development Corporation of Orissa Limited has been registered as a Public Limited Company with an authorised capital of Rs. 50 crores in March, 1962.

All the shares in this Company are held by the Government of Orissa and their nominees.

During these three years of its existence the Corporation has taken up a number of projects. These projects are intended to lay a firm base of the heavy and medium industries by utilisation of raw material resources and skills available in this State. At present the Corporation has two running industries—(1) Kalinga Iron Works and (2) Hirakud Industrial Works.

The Kalinga Iron Works at Barbil in the district of Keonjhar is engaged in the manufacture of superior foundry grade pig iron. The existing plant has a noted capacity of 30,000 tonnes of pig iron per annum. The expansion programme taken in hand would increase the production capacity to one lakh tonnes per annum. The expansion programme provides for conversion of a part of the pig iron for the manufacture of 36,000 tonnes of Spun Pipes and 6,000 tonnes of special castings and generation of 12 MW of power by utilising blast furnace gases.

The Hirakud Industrial Works, taken over from the Government of Orissa in November, 1962 is a structural and fabrication workshop and is engaged in the manufacture of small machines like Pug Mills, Tile Presses, Rice Hullers, Crystal Sugar Plants, Machinery and equipments required for rural industrialisation, sheep-foot rollers, Pen-stock head gates, Irrigation Canal Shutters, screw rods and fabrication of high tension electric transmission line towers.

The Hirakud Workshop has also got a railway siding over a distance of 8 miles approximately connected to Sambalpur station with Hirakud.

This siding handles the Railway traffic for the Hirakud Industrial Works, The Indian Aluminium Company and the Government of Orissa.

In addition to the running Units stated above, the Corporation has taken up a number of major industrial projects like establishment of a Cement Factory, Re-rolling Mill, an Electrical Cable Industry, Ferro-Chrome Plant, a Mangalore Pattern making Tile Factory. At present, these are under erection and construction.

The Corporation is contemplating to promote two subsidiary Companies—one for the manufacture of Industrial Grade Salt and a Power Tillers Plant. A complex unit to manufacture low temperature Coke, Pig Iron, Nitrogenous Fertiliser and many other by-products, Vanadium Pig Iron and Ferro Vanadium. The Corporation will also be the State Government's agency to plan and execute the Panchayat Samiti Industries by putting up a Plant for the manufacture of building boards out of the rice straws and an Engineering Industry.

*Chairman:* D. L. Purkhayastha, I.A.S.; *Secretary:* A. K. Biswal, O.A.S.

---

# GOVT. INDUSTRIAL UNDERTAKINGS—(*Contd.*)

## GARDEN REACH WORKSHOPS LTD.

**43/46, Garden Reach, Calcutta 24.**

Garden Reach Workshops were originally established in 1916 as a partnership Company combining the interests of The Rivers Steam Navigation Co. Ltd., and The British India Steam Navigation Co. Ltd. Successors to the partnership Company, Garden Reach Workshops Private Ltd., were acquired in April 1960 by the Government of India in the Ministry of Defence.

The site of Garden Reach Workshops covers 64 acres with a river frontage of half a mile and offers slipway and dry-dock facilities for inland water craft up to 2,000 tons and building berths for shallow-draft vessels up to 1,200 tons launching weight. Repairs to deep sea vessels are handled in the stream and in dry-docks and repair berths allotted by the Commissioners for the Port of Calcutta.

The Workshops are fully equipped to undertake marine repairs of all descriptions and having modern Machine Shops and Foundries. The Workshops have become an important industrial unit in the field of general engineering, especially in connection with the manufacture of overhead Travelling Cranes, Deep Well Turbine Pumps, Colliery Haulages and Chain Conveyors. Other established activities include production and repair of electric motors up to 50 H.P., complete electrical contracting, pattern-making, chain-testing up to 100 tons, saw-mill and timber processing and vitreous enamelling of cast iron etc. Complete servicing facilities are available for M.A.N. Diesel Engines.

The Workshops have a development programme which includes the manufacture of ROAD ROLLERS of 8-10 ton capacity and ROTARY-VANE AIR-COMPRESSORS of 160 cfm, 250 cfm, 340 cfm and 600 cfm. It is expected that both these products will be in the market during 1966. The programme also envisages the setting up of facilities for the construction of Coastal Ships and the construction of dry dock within the Workshops for repair of ocean-going ships.

The Workshops employ approximately 5,000 workmen throughout the year and proper attention is also given to the training of apprentices, for eventual absorption by the Workshops and other industrial units.

**The Company has made a profit of Rs. 12·89 lakhs in 1964-65 after providing for normal depreciation.**

**Repairs, new construction and engineering sales for the year under review amounted to Rs. 268·69 lakhs.** The company repaired a total of 488 ocean ships during 1964-65.

## HINDUSTAN CABLES LIMITED

**Ministry of Industry and Supply**
**Govt. of India.**

**(P. O. Hindustan Cables,**
**Rupnarainpur Rly. Station,**
**Burdwan Dt., West Bengal)**

Hindustan Cables Ltd. is the only organisation in the country engaged in the manufacture of various types of telecommunication Cables and wires. It is a public sector organisation under the Ministry of Industry and Supply, Govt. of India.

Envisaged soon after the independence of the Country, the factory, situated near Chittaranjan, first went into production in September, 1954. Technical collaboration was provided by Messrs. Standard Telephones & Cables, London.

### Local Exchange Cables

The first line of manufacture was for Dry Core paper insulated lead sheathed and steel tape armoured underground telephone Cable ranging from sizes 20 pairs to 1,000 pairs. This type of cables still forms the basic product of the Company. These cables are primarily intended for local exchange systems as also for tool working.

Commencing with a modest production of 180 Kilometers in 1954-55, the Company manufactured over 3,300 Kilometers of this type of Cables during the financial year ending on 31st March, 1965. It is expected that in the year 1965-66, the production of this type of Cables may reach 4,000 Kilometers.

### Co-axial Cables

In late 1960, Hindustan Cables Limited set up a manufacturing unit for production of 2 core ·375 PDWI Co-axial Cables suitable for 960 channel long distance working. This unit was set up to fit in with the Indian P & T Department's ambitious plan to link up the major trunk centres in the country with a Co-axial Cables network. The production during the financial year ending on 31st March 1965 reached 366 Kilometers.

The capacity has been further added by the Company which will enable it to step up its production of two tube Co-axial Cables to 1,200 Kilometers a year. Besides this ·375 type Co-axial Cables, a plant for the manufacture of ·163B Small Co-axial Cables, a plant for 300 channel long distance workings has been set up recently and regular production has also commenced.

### Plastic Cables and Wires

The Company has also lately gone into production of a few varieties of Plastic insulated Cables and wires required by the P & T Departments and other users for Telephone Communication. Some of these are suitable for underground use and some others for indoor and overhead outdoor use. The Company manufactured over 4,700 Core km of these products in 1964-65.

### Expansions

To meet the rapid increase in the demand of telecommunication Cables in the Country and to achieve self-sufficiency by the end of the 4th Plan period, the Company has already taken up schemes for further expansion which include the setting up of additional manufacturing capacity as below :—

(*a*) Setting up of an Aluminium sheathed Telecommunication Cables Project of capacity of 1,000 km per annum.

(*b*) Expansion of capacity at Rupnarainpur to 8,000 km per annum for underground Telephone Cables.

(*c*) Setting up of a second factory elsewhere at the rated capacity of 8,000 km per annum for underground Telephone Cables.

### General

With the factory, the township is also fast growing. Rupnarainpur, situated only 150 miles away from Calcutta, is rapidly developing into an Industrial Complex. The Company employs more than 2,000 people at present who work round the clock to meet the ever increasing demand for telephone Cables.

The Company runs its own township which is developing rapidly. It has provided several welfare and other amenities. To cite a few, it provides free education in the Company's schools to children of lower grade employees. Free tiffin and uniforms are provided to all school going children. The Company actively assists the Employees' Co-operative Society which supplies ration and food stuffs, general provisions etc. and runs a fair vegetable shop and a laundry.

The Company also assists the employees recreational club as also the Women's Organisation which look after several welfare matters. The Company has also opened a cinema hall and regular film shows are running on there.

Hindustan Cables is thus developing fast and growing into one of the premier industries of the country and as one of the most successful public sector undertakings, has been recognised through Presidental Awards for three consecutive years, 1960-61, 1961-62 and 1962-63.

## HINDUSTAN STEEL LIMITED

**P. O. Hinoo, Ranchi.**

**(Under the Ministry of Steel and Mines)**

*Board of Directors :* M. S. Rao (*Chairman*); Michael John ; K. L. Ghei ; P. L. Tandon ; T. S. Krishna ; Dr. B. R. Nijhawan ; T. R. Gupta ; H. Bhaya (*Secretary*) ; H. R. Rakshit (*P.R.O.*).

**Hindustan Steel (Private) Limited was incorporated on 19th January, 1954 as a private limited company with an authorised capital of Rs. 100 crores with the object of establishing a steel plant at Rourkela in Orissa State.**

**With effect from the 1st of April, 1957, the Bhilai and Durgapur Steel Projects were also transferred to the management of Hindustan Steel (Private) Limited. The authorized capital was increased to Rs. 800 crores.**

**In March 1959 this was renamed Hindustan Steel Ltd.**

**In April 1963 the Board of Directors was reconstituted as the posts of functional directors were abolished. Now, excepting the Chairman, all the directors are part-time directors. The** Chairman functions as the chief executive of the Company.

### Finance

**The company has now an authorised capital of Rs. 600 crores, out of which the subscribed capital upto 31st March, 1965 is Rs. 528 crores. In addition, the company has drawn from the** Central Government a total loan of Rs. 357 crores upto the end of 31st March, 1965.

PROFIT : After providing Rs. 38·7 crores for depreciation and Rs. 18 crores for interest, Hindustan Steel has made a net profit of Rs. 2·14 crores—an extraordinary achievement in view of the introduction of higher rate of depreciation from the year and runaway increase in the cost of transport, stores and different services etc. An additional provision of depreciation alone has reduced the margin of profit by Rs. 5·5 crores. However, the net surplus of earnings before depreciation and interest this year is Rs. 58·84 crores, about Rs. 12 crores higher than 1963-64. Besides, the stock in trade is valued at Rs. 20·6 crores. So far HSL has generated a cash surplus of Rs. 90 crores which has been utilised for expansion and for provision of full working capital and to that extent relieved the pressure on the public exchequer.

The profit was possible due to intensive cost reduction efforts and success in maximising production against heavy odds. For example, besides the additional effort needs for exceeding the rated capacity of the various units of the three steel plants, the expansion work continuously tends to hamper day-to-day production due to limitations of the general services, like transport, power and gas supplied etc. as there have to be shared between the units under production and the work under construction.

The sales during the current year have improved by Rs. 18 crores—from Rs. 186·5 crores in 1963-64 to Rs. 204·8 crores in 1964-65. In term of foreign exchange saving it can be said that it is exactly the cost of Bhilai Steel Plant at the million-tonne stage.

### Performance

The most heartening feature of this year's result is the performance of Rourkela — it had earned a net profit of Rs. 3·5 crores. It is all the more remarkable, because one of the Blast Furnaces was shut down for part of the year for relining.

The increase in the earning of Rourkela was the result of a great upsurge in production. Both in plate mill and cold rolling mill, production

reached and crosses 100 per cent of the rated capacity, in the hot strip mill it was 95 per cent and ingot steel 98 per cent. The output of pipe plant was only 34 per cent of the rated capacity due to lack of orders, otherwise the result of Rourkela would have been much better.

Bhilai also has shown a profit of 50 lakhs. However, its production figures were impressive. In pig iron it was 106 per cent of the rated capacity, in billet mill 132 per cent of the rated capacity, in rail & structural mill 99 per cent and merchant mill 117 per cent of the rated capacity.

Durgapur contributed Rs. 53 lakhs to the profit of the company. Compared to last year its production also showed remarkable progress. Production of pig iron was 102 per cent of the rated capacity, ingot steel 99 per cent, merchant mill 100 per cent, sleepers 111 per cent and section mill 98 per cent and wheel & axle plant 80 per cent of its rated capacity.

The Coal Washeries of the Company has also contributed Rs. 23 lakhs. But the Fertilizer Plant, which was transferred to Hindustan Steel Ltd. by the Fertilizer Corporation of India last year suffered a loss of Rs. 2·6 crores. This was mainly because the Fertilizer Plant could not be operated to its full capacity, due to non-availability of gas for various reasons. The Fertilizer Plant, however, would be worked to its full capacity when the new Coke Oven Batteries which are being built come up. By taking this loss into account, the total profit of Hindustan Steel was reduced from Rs. 3·76 crores to Rs. 2·14 crores. However, all in all 1964-65 was a great year for Hindustan Steel.

**Production**

During the year under review, production of ingot steel rose to 3,116,000 tonnes, a 6·9 per cent rise over the previous year, saleable steel has gone upto 2,316,000 tonnes, an increase of 7·2 per cent over the previous year.

PRODUCTION (1964-65)

in tonnes

| | Bhilai | Rourkela | Durgapur | Total | |
|---|---|---|---|---|---|
| *Production* | | | | | |
| Hot Metal | 12,57,000 | 13,13,300 | 9,86,000 | 35,56,000 | |
| Ingots Steel | 11,31,000 | 10,06,000 | 9,79,000 | 31,16,000 | |
| Saleable Steel | 9,07,000 | 7,21,000 | 6,88,000 | 23,16,000 | |
| Tar Products | 50,900 | 49,700 | 45,000 | 1,45,600 | |
| Benzol Products | 11,500 | 3,700 | 5,500 | 20,600 | KL |
| Sulphuric Acid | 13,400 | 15,800 | — | 29,200 | |
| Amm. Sulphate | 15,600 | 18,100 | — | 33,700 | |
| Calcium Amm. Nitrate | — | — | 1,81,300 | 1,81,369 | |

**Training**

The following table indicates the number of engineers and operatives who were sent abroad for training and have since returned to take up their training in different steel plants upto 31st March 1965.

| Countries | Engineers | | Operatives | |
|---|---|---|---|---|
| | Sent | Returned | Sent | Returned |
| U.S.S.R. | 434 | 418 | 387 | 387 |
| U.S.A. | 576 | 576 | 4 | 4 |
| U.K. | 322 | 322 | 62 | 62 |
| W. Germany | 128 | 128 | 33 | 16 |
| Australia | 122 | 108 | 17 | 17 |
| Canada | 75 | 33 | 22 | 7 |
| Japan | 16 | — | — | — |
| | 1,673 | 1,585 | 525 | 493 |

In Feb. 1962, the company started its own Management Training Institute—the first of its kind among the public sector projects. Executives of all levels from the three steel plants, coal washeries and other units of the company will receive their training in this Institute. About 735 Executives have been trained so far (Sept. 1966 in this Institute in the various courses.

The total number of graduate engineers, senior and junior operatives and artisans trained so far, till December 1964 in the Technical Institutes of Rourkela, Bhilai and Durgapur is 6,776.

**Central Designs Organisation**

During the year 1961-62, the Central Designs Organisation prepared a Detailed Project Report including lay-out, technical specifications and estimates for the Rourkela Expansion and also the Project Report for Durgapur Expansion. The Organisation has already prepared the Report for the Fourth Year Plan Expansion of the Durgapur Steel Project and its next task will be the Project Report of the Fourth Plan of Rourkela Steel Plant, and it is also acting as a Consultant for setting up new steel plants in the country.

Bhilai Design Cell, also prepared a Detailed Project Report for the 6th Blast Furnace Complex and its ancillaries with the help of the Soviet Experts. This will form the first phase of expansion in the 4th Five Year Plan.

At present (Aug. 1965), the strength of the Organisation is 490 including 193 Engineers and 77 Design Assistants.

**Bokaro Steel Project**

Bokaro Steel Project is now functioning separately as a new company—Bokaro Steel Limited. (For more details see under Bokaro Steel Ltd.)

**Rourkela Steel Plant**

Hindustan Steels first Steel Plant, Rourkela, set up with financial and technical help of West Germany is in Orissa. The present annual capacity of the Rourkela Steel Plant is one million tons of steel ingots capable of being turned into about 720,000 tons of finished plates, sheets, strips and tin plates.

The plant consists of 3 Coke Oven Batteries of 70 ovens each, a By-product Plant and 3 Blast Furnaces each producing 1,000 tons of pig iron a day. The Steel Melting Shop consists of 4 Open Hearth Furnaces (of 80 tons capacity each) and 3 L.D. Converters (of 40 tons capacity each) which will produce 250,000 tons and 750,000 tons of ingot steel respectively.

Rourkela has its own captive mines at Barsua and Purnapani for Iron Ore & Limestone respectively.

The Limestone from Purnapani quarries is being supplemented from Satna and other sources. Fully mechanised operation of the Purnapani quarries is expected to commence shortly. A scheme for mechanisation of Gatitnagar dolomite quarry is under consideration.

Saleable products: Heavy Plates 200,000 tonnes; Medium Plates & Wide Strips 300,000 tonnes; Sheets and Strips 170,000 tonnes; Tin Plates 50,000 tonnes.

*Expansion:* The Plant is now being expanded to the capacity of 1·8 million tons during the Third Plan. After the expansion programme the output of finished products is expected to increase from 720,000 tons to 1,240,000 tons.

The By-product Plant will deal with 130 tons of tar per day and produce benzol, creosote, napthalene and other products. The By-product Plant being laid out under the expansion programme will handle 35,000 Ncbm per hour of gas to accommodate any further expansion of the Coke Oven Battery.

In addition by-products like benzol, toluene, xylene, solvent naptha, creosote oil, wash oil, anthracene oil, napthalene, crude anthracene, crude phenol etc. are produced.

A Sintering Plant to utilise iron ore fines, coke breeze, limestone chips etc. and designed to produce 5,000 tons of sinter on an average per day of three shifts has gone into production. The second big casting machine forming part of the expansion programme has already been commissioned in 1964. The new units under the Third Plan expansion are nearing completion serially and it is expected that all the units will go into production before the end of 1966.

The total expansion cost of Rourkela Steel Plant will be Rs. 135 crores.

*General Manager:* A. N. Banerjee; *Public Relations Officer:* S. K. Bishnoi.

**Bhilai Steel Plant**

The Bhilai Steel Plant was set up with the help of U.S.S.R. The plant is designed to produce one million tons of ingot steel to be rolled into 770,000 tons of heavy and medium structurals—steel and 300,000 tons of pig iron.

Construction started at Bhilai in the spring of 1957. Production of pig iron began on the 4th of Feb. 1959 and the production of steel on 12th October, 1959.

The Bhilai Steelworks comprise: 3 Coke Oven Batteries with 65 ovens each; 3 Blast Furnaces; 6 Open Hearth Furnaces (250 tons capacity each) for steel making and 4 Rolling Mills, consisting of a Blooming Mill, Continuous Billet Mill, Rail and Structural Mill and a Merchant Mill.

The entire requirements of iron ore and limestone are being met from the plant's own captive mines at Rajhara and Nandini. Both the mines have been mechanised. Dolomite, manganese and quartzite are also being obtained from the plant's captive mines at Hirri, Balaghat and Balod.

Bhilai is drawing its requirement of coal from Kargali/Bokaro & Jharia Coal Fields. Saleable production in tonnes: Rails (Standard gauge) 100,000; Rails (Narrow gauge) 10,000; Heavy Structural 284,000; Crossing Sleepers 90,000; and Billets 150,000.

About 60,000 tonnes of various by-products like coal tar, ammonium sulphate, benzol, toluene, are expected to be recovered annually by treatment of the gases given out from coal during its conversion into coke.

*Expansion :* The capacity of the plant will be expanded to 2·5 million tonnes under the Third Five Year Plan, with the technical and financial assistance of the U.S.S.R.

The expansion of the Bhilai Steel Plant will involve an expenditure of Rs. 178 crores including the cost of township, ore mines and such other ancillary expenditure. One most significant feature in the expansion of the Bhilai Steel Plant is the construction of the Blast Furnace Slag Processing Plant located in the Slag Dump Yard and a cement plant with an annual production capacity of 600,000 tonnes of portland cement.

The expansion of the Steel Plant is proceeding according to schedule. The 4th Blast Furnace, the 4th Coke Oven Battery and Open Hearth Furnaces 7 & 8, the Slag Granulation Plant, Slag Aggregate Plant and the 6th group of Soaking Pits have already been commissioned. It is expected that by the middle of 1966 all of its units will be completed. In the meantime, contract has also been made with the Soviet authorities on 3rd August, 1965 for setting up the 6th Blast Furnace Complex, with a capacity of 1,719 cu.m. and with an annual output of 500,000 tonnes of pig iron, it is expected to go into production by the end of 1967. This Blast furnace meant for 4th Plan, has been advanced so as to meet the rising demand of foundry pig iron in the country.

However its Steel Melting Shop No. 2 comprising one ten tonnes ore furnace and two induction furnaces of 2 tonnes and half tonne capacity respectively has already been commissioned. The Plant is expected to be completed by 1967. However, in 1965 and 1966 some of its units will go into production.

*General Manager :* Indrajit Singh ; *Public Relations Officer :* F. M. Tahilramani.

**Durgapur Steel Plant :** The steel plant at Durgapur in West Bengal is the third one in the public sector set up with the financial and technical help of the United Kingdom. This will produce one million tons of ingot steel to be rolled into about 800,000 tons of light and medium sections and bars, in addition to 350,000 tons of pig iron for internal sale and export. It is proposed to expand the steel plant during the Third Plan to produce 1·6 million tons of ingot steel.

Durgapur has no captive mines of its own. The supply of iron ore is being drawn from Bolani Ore Mines.

Coal is being obtained from Jharia and Boraker Fields and Limestone from Birmitrapur. The plant has its own washery to wash the Jharia coal.

The Plant has the following units : 3 coke oven batteries, 3 blast furnaces, 8 open hearth furnaces, 2 blooming mills, one continuous billet mill, one 24" section mill, one continuous merchant mill, one sleeper plant and one wheel and axle plant.

*Saleable Products in Tonnes :* Heavy Forging Blooms 10,000 ; Forging Bars 60,000 ; Merchant Sections 240,000 ; Sleeper Bars 60,000 ; Light & Medium sections 200,000 ; Wheels & Axles 50,000 ; Billets for sale 150,000.

In the meantime the fifth Blast Furnace complex of Durgapur is being advanced to meet the rising foundry grade pig iron in the country.

In addition, it produces 350,000 tonnes of foundry grade pig iron.

*Expansion :*

After expansion the following additional units will be constructed :

One Coke Oven Battery, one 1,500 ton blast furnace, one 220 ton open hearth furnace, six Soaking pits, one Skelp mill, one sintering plant. Besides, the existing capacity of other units is being expanded.

*Saleable Products in Tonnes :* Forging blooms 100,000 ; Merchant sections 240,000 ; Forging bars 60,000 ; Sleeper Bars 60,000 ; Billets 150,000; Light sections 200,000 ; Forging blooms 30,000 ; Wheels & Axles sets for Railways 500,000 and Pig iron for sale 350,000.

The various by-products include ammonium sulphate, benzole, toluene, xylene, solvent naptha, napthalene, road tar, wood preserving creosote.

The cost of the expansion of the Durgapur Steel Plant will be Rs. 72 crores including the township and other ancillary units. In addition to existing 10,300 houses, the construction of another 5,000 houses has been taken in hand. The construction of the new units under expansion is expected to be completed by 1966. But the fifth Plate Finishing Plant with a capacity of 11,000 per year has already gone into production.

*General Manager :* R. K. Chatterjee ; *Public Relations Officer :* B. K. Basu.

**Alloy Steels Project**

The fourth steel unit of the company—Alloy Steels Project at Durgapur is under construction.

The plant will have an initial capacity of 100,000 tonnes of ingots capable of expansion to 300,000 tonnes of ingots per annum. The initial 100,000 tonnes of ingots will produce 60,000 tonnes of finished steel which would save the country nearly 20 crores of rupees worth of foreign exchange. Nearly 35 per cent of the production will consist of stainless steel. The project is being erected at a cost of Rs. 73 crores.

The product-mix of this plant would be as follows in tonnes : High Speed Steel 2,250 ; Carbon Tool Steel 8,250 ; Allied Tool & Die Steel 4,000 ; Allied Structural Steel 18,000 ; Case Hardening Steel 7,000 ; Ball Bearing Steel 2,500 ; Stainless Steel 18,000.

*Gen. Manager :* Dr. D. P. Chatterjee.

**Coal Washeries**

The company has installed three coal washeries at Dugda, Bhojudih and Patherdih. Dugda is about 30 miles and Patherdih is about 10 miles from Dhanbad, in Bihar. Bhojudih in West Bengal, is about 20 miles from Dhanbad. Dugda I Washery with a capacity of 2·4 million tonnes of raw coal per annum, completed in the year 1962, is supplying washed coal to the steel plants at Bhilai and Rourkela. Bhojudih Washery with a capacity of 1·2 million tonnes, has been in operation since 1962 and has been expanded to 2 million tonnes capacity. The expanded unit has been in operation since the end of 1963. It supplies washed coal to TISCO and Rourkela. The construction of Patherdih Coal Washery has been completed and washed coal from this washery is proposed to be supplied to Indian Iron & Steel Works. Dugda Washery again is being expanded by installing another unit Dugda II, with a capacity of 2·4 million tonnes. It is expected to be commissioned in 1966.

*Sales :*

With the increase in sales, the Sales Organisation of Hindustan Steel Limited is being expanded to provide better facilities to steel consumers and traders in the country. The Sales Office of HSL is at Calcutta with branch offices at Madras, Bombay, Delhi, Kanpur, Bangalore Cochin, Hyderabad and Ahmedabad.

### RADIO & ELECTRICALS MFG. CO. LTD.

Mysore Road, Bangalore-26.

The Company was incorporated in 1946 with the name "Mysore Airmec Ltd." with a capital of Rs. 25 lakhs. The name of Radio & Electricals Mfg. Co. Ltd., (popularly known as Remco) was adopted in 1949. The present authorised capital is Rs. one crore and subscribed capital is Rs. 79,85,900. Sixty per cent of the paid-up capital is held by the Government of Mysore and the remaining forty per cent by the public.

The Company's business operations began with the sale of imported radio receivers and was followed by manufacturing activities for the production of radio receivers, electronic components, plastic insulated wires and cables, electricity meters and water meters. Among the components produced in Remco are (1) all metal parts, (2) mains transformers, (3) audio transformers, (4) I.F. transformers, (5) Coils, (6) wave change switches, (7) Paper Capacitors and (8) electrolytic capacitors. The production of band switches in technical collaboration with Messrs. A. B. Metal Products Ltd., U.K. commenced in May 1958. The principal electronic equipment manufactured in Remco are (1) domestic radio receivers, (2) community receivers and (3) intercommunication sets. Besides these, a large variety of test equipment utilising electronic circuits have also been designed and built by Remco mostly for its own use. The production of transistorised radio receivers will be started in April 1966.

The manufacture of Polyvinyl Chloride covered wires and Cables for use in low tension circuits was commenced in 1948. The production of single phase electricity meters was commenced in 1952 and polyphase electricity meters in 1964 in technical collaboration with Messrs. Tokyo Shibaura Electric Co. Ltd., Japan. The production of electricity meters has registered a rapid rise from 200 meters per day in 1952 to 1,000 meters per day at present. There are over 1·87 million of Remco meters in service in various parts of the country. The Company has been sanctioned a capacity of 2,00,000 single-phase electricity meters and 48,000 polyphase electricity meters per annum. The Company is also producing polyphase electricity meters.

Remco commenced manufacture of multijet inferential type water meters in technical collaboration with Messrs. Aquametro Water Meter Works Ltd., Switzerland in 1956.

# 1966-67 BUDGET PROPOSALS

We give below the Railway Budget for 1966–67 and the Central Government Budget for 1966–67 presented before the Parliament on Feb. 15, 1966 and Feb. 28, 1966 respectively. At the time of writing this, discussions have not concluded. So, only the proposals as they were presented are given.

## RAILWAY BUDGET 1966-67

Net surplus in Railway during 1966–67 is expected to be Rs. 22·19 crores according to the Budget estimates presented before the Parliament by the Railway Minister on Feb. 15, 1966.

The freight on goods will rise by 3 per cent as a result of a surcharge provided in the Railway Budget for 1966–67. There will, however, be no change in passenger fares. Manganese-ore and iron-ore meant for export and high-rated goods have been exempted from the surcharge.

### Relief For Some Commodities

The Railway Minister has reduced the freight rates on certain commodities of common use. The decrease in rates for distances up to 500 km., 800 km., 1,000 km., 1,500 km. and 2,000 km., respectively, per tonne is :

SUGAR : Rs. 6·10, Rs. 9·10 ; Rs. 8·50 ; Rs. 6 and Rs. 1·40.

HYDROGENATED OIL : Rs. 10·70 ; Rs. 15·70 ; Rs. 15·60 ; Rs. 13·70 and Rs. 8·70.

GHEE : Rs. 10·70, Rs. 15·70, Rs. 15·60, Rs. 13·70 and Rs. 8·70.

BETELNUTS : Rs. 10·70, Rs. 15·70, Rs. 15·60, Rs. 13·70 and Rs. 8·70.

Cigarettes : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10 ; Rs. 16·50 and Rs. 11·70.

CIGARS (Country) : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10 ; Rs. 16·50 and Rs. 11·70.

CIGARS (imported) : Rs. 12·20 ; Rs. 17·90 ; Rs. 17·80 ; Rs. 15 and Rs. 8·80.

TOBACCO (country) : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10 ; Rs. 16·50 and Rs. 11·70.

CONFECTIONERY : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10 ; Rs. 16·50 and Rs. 11·70.

TEA : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10 ; Rs. 16·50 and Rs. 11·70.

BISCUITS : Rs. 12·20, Rs. 17·90, Rs. 17·80 ; Rs. 15 and Rs. 8·80.

MEDICINES : Rs. 12·20 ; Rs. 17·90, Rs. 17·80 ; Rs. 15 and Rs. 8·80.

RUBBER : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10 ; Rs. 16·50 and Rs. 11·70.

HARDWARE : Rs. 12·20 ; Rs. 18·10 ; Rs. 18·10; Rs. 16·50 and Rs. 11·70.

HABERDASHERY (miscellaneous small wares) : Rs. 12·20 ; Rs. 17·90 ; Rs. 17·80 ; Rs. 15 and Rs. 8·80.

## ESTIMATES AT A GLANCE

(Rupees in Crores)

| | 1964–65 Actuals | 1965–66 Budget | 1965–66 Revised | 1966–67 Budget |
|---|---|---|---|---|
| Gross Traffic Receipts .. .. .. .. | 660·85 | 716·00 | 741·80 | 795·33(A) |
| Working Expenses Net .. .. .. .. | 433·45 | 457·84 | 482·04 | 508·68 |
| Depreciation Reserve Fund .. .. .. .. | 83·00 | 85·00 | 85·00 | 100·00 |
| Pension Fund .. .. .. .. | 11·50 | 12·00 | 12·00 | 13·50 |
| Net Miscellaneous Expenditure .. .. .. | 14·79 | 16·02 | 16·52 | 17·47 |
| TOTAL .. .. .. .. | 542·74 | 570·86 | 595·56 | 639·65 |
| Net Railway Revenue .. .. .. .. | 118·11 | 145·14 | 146·24 | 155·68 |
| Payments to General Revenue (B) | | | | |
| (i) Dividend .. .. .. .. .. | 92·43 | 103·40 | 103·75 | 133·49 |
| (ii) In Lieu of Passenger Fare Tax for States | 12·50 | 12·50 | 12·50 | — |
| NET SURPLUS .. .. .. | 13·18 | 29·24 | 29·99 | 22·19 |

(*A*) This includes Rs. 18·10 crores expected as additional revenue as a result of the adjustments proposed in freight rates.

(*B*) The dividend to general revenues from 1966–67 is in accordance with the 1965 Convention and is calculated at 5·5 per cent on the element of dividend-paying-capital up to 1963–64 and 6 per cent on capital provided by general revenues thereafter. The payment of a dividend on the basis of the enhanced new dividend rates with effect from 1966–67 will absorb the two separate payments that are now being made as dividend and as a special payment of Rs. 12·5 crores for transfer to the States. The increase in the dividend liability under the new basis is of the order of Rs. 7 crores in 1966–67, the benefit of most of which will go to the States, which will receive an average of about Rs. 18 crores in all each year during the Fourth Plan from the railway dividend as against Rs. 12·5 crores each year in the Third Plan.

## CENTRAL BUDGET 1966-67

### CAPITAL BUDGET

| | | | |
|---|---|---|---|
| Receipts .. .. .. .. .. .. | 2166·24 | 2162·86 | 2160·50 (+) 92·12 (=) |
| Disbursements .. .. .. .. .. | 2083·30 | 2247·86 | 1952·50 |
| | | | (=) Effect of budget proposals |

A medley of concessions to the corporate sector and small income earners has been matched more or less evenly by flat increases in direct and indirect taxation over a wide field in the new budget proposals for 1966–67 presented to Parliament on Feb. 28, 1966 by the Finance Minister, Mr. Sachin Chaudhuri. The budget also converts for the first time the excise duty into a regulator of demand in the economy.

The expenditure tax and the 12·5 per cent tax on bonus issues as also the tax on the notional gain in the value of bonus shares have been abolished. The rate of surtax on profits has been reduced from 40 to 35 per cent. The dividend tax on companies has been modified so that only equity dividend in excess of 10 per cent of the paid-up capital will be attracted.

As against these major concessions of some tangible and considerable value, the effective rates of the basic corporate tax have been enhanced by approximately 10 per cent. Simultaneously, excise duties have been raised on a dozen odd commodities including sugar, cigarettes and textiles, and new duties levied on bleaching agents and synthetic detergents.

### PROPOSALS IN BRIEF

Excise duty on crystal sugar raised from Rs. 28·65 to Rs. 37 per quintal. Corresponding rise on khandsari. Additional revenue Rs. 21·93 crores.

Duty on cigars and cigarettes and unmanufactured tobacco raised by 25 to 30 per cent. Additional revenue Rs. 9·01 crores.

Excise on light diesel oil raised from Rs. 60 per kilo litre. Additional revenue Rs. 5·35 crores.

Duties on cotton yarn and cotton fabrics and rayon and synthetic yarn increased. Additional revenue on cotton yarn Rs. 7·23 crores, on fabrics Rs. 6·3 crores and rayon and synthetic yarns Rs. 50 lakhs.

Excise on sodium silicate and carbon dioxide raised and slab concessions on paper boards reduced ; Additional revenue Rs. 1·46 crores.

Yield from optical bleaching agents and synthetic detergents Rs. 58 lakhs.

Ad valorem 5 per cent duty on motor vehicle trailers by small establishments abolished.

Total additional yield from revision in excise duties Rs. 52·86 crores, including States' share Rs. 10·07 crores.

Income-tax exemption limit for individuals raised from Rs. 3,000 to Rs. 3,500 ; personal allowance of an unmarried individual from Rs. 2,000 to Rs. 2,500 ; and personal allowance of a married individual with more than one dependent child from Rs. 4,300 to Rs. 4,800. Revenue reduction by Rs. 3·5 crores.

Exemption limit for annuity deposits raised from Rs. 15,000 to Rs. 25,000. Reduction in receipts Rs. 7 crores.

A flat special surcharge of 10 per cent of the amount of income-tax and surcharge on earned and unearned income. Additional revenue Rs. 25·6 crores.

Expenditure tax abolished. Loss in revenue Rs. 60 lakhs.

Rates of gift tax revised. Exemption limit raised from Rs. 5,000 to Rs. 10,000, the rate on slab from Rs. 10,000 to Rs. 25,000 reduced from 8 to 5 per cent, and rates on subsequent slabs, up to Rs. 15,00,000, by varying percentages. Existing marginal rate of 50 per cent will operate on slab beyond Rs. 15 lakhs.

Estate duty on slabs Rs. 1 lakh to Rs. 2 lakhs raised from 8 to 10 per cent, Rs. 3·5 lakhs to Rs. 5 lakhs from 15 per cent to 25 per cent from Rs. 5 lakhs to Rs. 10 lakhs from 25 to 30 per cent. Loss in revenue due to changes in Gift Tax Rs. 1·71 crores. Additional revenue from Estate Duty (going to States) Rs. 70 lakhs.

Estates of members of police forces killed in action, like those of members of armed forces, exempt from duty.

Income-tax abolished on national capital gain from equity shareholder holding bonus share. Loss of revenue Rs. 7 lakhs.

General rates of tax on corporate incomes increased by approximately 10 per cent. Yield net of other concessions Rs. 36·70 crores.

12·5 per cent tax on bonus issues abolished (loss Rs. 9 lakhs).

Dividend tax of 7·5 per cent modified to apply in excess of 10 per cent of paid-up equity capital (loss Rs. 4·8 crores).

Company profits surtax reduced from 40 to 35 per cent (loss Rs. 2·5 crores).

Tax for closely-held domestic companies raised from 60 to 65 per cent.

Concessional rate of 25 per cent tax on dividends received by an Indian company with foreign collaboration.

Incentives to tea plantations; newsprint and printing machinery industry also included in the priority category.

Income up to Rs. 1,000 from Unit Trust will be excluded from total income irrespective of other income.

Central sales tax on inter-State sales raised from 2 to 3 per cent. Yield Rs. 19 crores to States annually and Rs. 9·5 crores in 1966–67.

Ceiling on sales tax on goods of special importance in inter-State trade raised from 2 to 3 per cent. Additional revenue Rs. 7·5 crores in next financial year and Rs. 15 crores in one full year.

Following is the table of tax (including surcharges) payable by a married individual with more than one child (resident tax-payer):

| Income before deduction of annuity deposit | Annuity deposit | | Total income | | AMOUNT OF TAX | | | |
|---|---|---|---|---|---|---|---|---|
| | | | | | Wholly Earned income | | Wholly unearned income | |
| | 1965–66 | 1966–67 | 1965–66 | 1966–67 | 1965–66 | 1966–67 | 1965–66 | 1966–67 |
| 4,500 | — | — | 4,500 | 4,500 | 10 | Nil | 10 | Nil |
| 5,000 | — | — | 5,000 | 5,000 | 35 | 11 | 35 | 11 |
| 6,000 | — | — | 6,000 | 6,000 | 135 | 121 | 135 | 121 |
| 7,400 | — | — | 7,400 | 7,400 | 275 | 275 | 275 | 275 |
| 10,000 | — | — | 10,000 | 10,000 | 535 | 561 | 535 | 561 |
| 12,500 | — | — | 12,500 | 12,500 | 910 | 974 | 910 | 974 |
| 15,000 | — | — | 15,000 | 15,000 | 1,285 | 1,386 | 1,285 | 1,386 |
| 18,000 | 900 | 900 | 17,100 | 17,100 | 1,705 | 1,848 | 1,789 | 1,940 |
| 20,000 | 1,000 | 1,000 | 19,000 | 19,000 | 2,085 | 2,266 | 2,245 | 2,442 |
| 24,000 | 1,800 | 18,000 | 22,200 | 22,200 | 2,945 | 3,212 | 3,277 | 3,577 |
| 25,000 | 1,880 | 1,880 | 23,120 | 23,120 | 3,221 | 3,516 | 3,608 | 3,942 |
| 36,000 | 2,700 | 2,700 | 33,300 | 33,300 | 7,435 | 8,151 | 8,665 | 9,504 |
| 40,000 | 3,000 | 3,000 | 37,000 | 37,000 | 9,285 | 10,186 | 10,885 | 11,946 |
| 48,000 | 4,800 | 4,800 | 43,200 | 43,200 | 12,385 | 13,596 | 14,605 | 16,038 |
| 60,000 | 6,000 | 6,000 | 54,000 | 54,000 | 18,185 | 19,975 | 21,685 | 23,826 |
| 70,000 | 7,080 | 7,000 | 63,000 | 63,000 | 23,585 | 25,916 | 28,435 | 31,251 |
| 72,000 | 8,000 | 8,000 | 64,000 | 64,000 | 24,185 | 26,576 | 29,185 | 32,076 |
| 1,00,000 | 12,500 | 12,500 | 87,500 | 87,500 | 39,160 | 43,049 | 47,904 | 52,667 |
| 2,00,000 | 25,000 | 25,000 | 1,75,000 | 1,75,000 | 98,473 | 1,08,292 | 1,18,998 | 1,30,870 |

It will be seen from the figures in the above table that the amount of tax payable under the proposals in the Bill, on incomes below Rs. 7,400, is less than the amount payable in accordance with the rates prescribed by the Finance Act of 1965 (On Rs. 4,500, the tax payable under the Bill is nil, as against the tax of Rs. 10 under the Finance Act of 1965). On an income of Rs. 7,400, the amount of tax payable under the Bill is the same as under the Finance Act of 1965. On incomes above Rs. 7,400, the amount of tax payable under proposals in the Bill is a little higher than under the Finance Act of 1965. On incomes between Rs. 10,000 and Rs. 15,000, the rate of increase over the total income ranges between 0·26 per cent, and 0·673 per cent on earned income of Rs. 25,000, the rate of increase is 1·18 per cent, on Rs. 48,000, 2·52 per cent, on Rs. 60,000 2·98 per cent, on Rs. 72,000 3·32 per cent, on Rs. 1,00,000 3·89 per cent, and on Rs. 2,00,000 it is 4·91 per cent.

# ELECTRIC POWER DEVELOPMENT

(By courtesy of the Central Water and Power Commission, Power Wing.)

IT is estimated that well about 80 per cent of India's power requirements are at present obtained from animal dung, wood, agricultural waste, etc. and from living energy (animal and human effort).

India's requirement of domestic fuel is about 83 million tons in wood equivalent, which is 40 per cent of the total energy consumption in the country.

About industrial energy, about 80 per cent comes from coal; petroleum products account for about 14 per cent and the balance comes from hydro-electricity.

The revised figures in respect of the aggregate generating capacity in kW for 1961-62 and the provisional figures for 1962-63 are given below: 1961-62 : 5,201,883 ; 1962-63 : 5,779,795.

The total installed capacity at the end of March, 1963 was 5,779,795 kW, of which 2,916,300 kW was water power ; 2,536,343 kW steam and 327,152 kW oil power. Out of the total capacity of 6·9 million kW on 31st March 1963, which includes public utilities and non-utilities, electricity supply undertakings in the public sector accounted for 4·3 million kW, public limited companies 1·5 million kW and industrial establishments meeting their own requirements 1·1 kW million.

The *per capita* generation of electric power in India is ridiculously low being 48·9 kW hours during 1962-63 as against 11,700 in Norway, 6,840 in Canada, 5,640 in Sweden, 5,160 in the U.S.A. and 4,248 in Switzerland. The *per capita* consumption in India during 1962-63 was 48·3 kW hours. The latest estimates place the hydro-electric power potential of India at 41 million kW, but only about 3·04 million kW have been tapped so far.

The production and sale of electric power for the years 1961-62 (revised) and 1962-63 were as follows (in million kWh):

| | Generated | Sold |
|---|---|---|
| 1961-62 (revised figures) | 19,669·95 | 16,448·30 |
| 1962-63 .. .. | 22,364·97 | 18,639·021 |

An analysis of electric power consumption in million kWh is given below. The figures in brackets show the percentage of total energy consumption.

| | 1962–63 | 1963–64 |
|---|---|---|
| Domestic or Residential light and small power .. | 1,917·833 ( 10·3) | 2,062·399 ( 9·6) |
| Commercial light and small power .. .. .. | 1,048·594 ( 5·6) | 1,179·716 ( 5·5) |
| Industrial Power .. .. .. .. .. | 13,109·832 ( 70·2) | 15,705·179 ( 73·4) |
| Traction .. .. .. .. .. .. | 723·844 ( 3·9)* | 505·167 ( 2·4) |
| Public lighting .. .. .. .. .. .. | 244·852 ( 1·3) | 244·470 ( 1·1) |
| Irrigation .. .. .. .. .. .. | 1,103·527 ( 5·9) | 1,153·180 ( 5·4) |
| Water Works .. .. .. .. .. .. | 530·539 ( 2·8) | 556·797 ( 2·6) |
| TOTAL .. .. .. .. .. .. | 18,679·021 (100·0) | 21,406·908 (100·0) |

* 1962–63 fig. includes 362·585 mill. kWh used for traction purposes by Railways from their own generation of Bhola Power Station.

The following statement shows the number of electrified towns and villages at the end of 1962–63.

| Population | Number of towns or villages | Number with electric supply | Percentage with electric supply to total |
|---|---|---|---|
| Over 100,000 .. .. .. .. | 75 | 75 | 100·00 |
| 50,000 to 100,000 .. .. .. .. | 111 | 111 | 100·00 |
| 10,000 to 50,000 .. .. .. .. | 1,272 | 1,194 | 93·87 |
| Below 10,000 .. .. .. .. | 5,70,051 | 39,800 | 7·14 |
| TOTAL .. .. .. .. | 5,71,509 | 41,180 | 7·21 |

## INSTALLED CAPACITY

Some individual industries have power-stations of their own. The number of installations and the installed capacity are as follows (as on 31st March, 1964):

| Industry | No. | Capacity (kW) |
|---|---|---|
| Aluminium (Primary) | 4 | 22,832 |
| Aluminium (Secondary) | 9 | 250 |
| Cement (Primary) .. | 26 | 125,514 |
| Cement (Secondary) .. | 28 | 460 |
| Chemicals .. .. | 34 | 22,985 |
| Collieries .. .. | 148 | 269,144 |
| Copper (Primary) .. | 1 | 8,975 |
| Copper (Secondary) .. | 1 | .. |
| Cotton Textiles .. | 324 | 126,472 |
| Ferromanganese .. | 6 | 32 |
| Fertilisers .. .. | 5 | 82,302 |
| Gold .. .. .. | 1 | 6,700 |
| Iron (Primary) .. | 7 | 326,698 |
| Iron & Steel (Secondary) | 39 | 2,455 |
| Jute .. .. .. | 74 | 28,249 |
| Oil & Petroleum .. | 5 | 9,591 |
| Paper .. .. .. | 23 | 75,284 |
| Silk .. .. .. | 10 | 1,480 |
| Soap .. .. .. | 10 | 532 |
| Sugar .. .. .. | 95 | 99,311 |
| Tanneries .. .. | 7 | 737 |
| Wool .. .. .. | 10 | 3,574 |
| Miscellaneous .. .. | 2 | 380 |
| TOTAL .. | 872 | 1,213,957 |

The generating plant capacity (in public utilities) by ownership is as follows:

Capacity (kW)

| | 1961-62 | 1962-63 | 1963–64 |
|---|---|---|---|
| State owned (Public Sector) | 3,861,734 | 4,305,644 | 4,741·709 |
| Companies (Private Sector) | 1,340,149 | 1,474,151 | 1,486·824 |
| | 5,201,883 | 5,779,795 | 6,228·583 |

The number of generating undertakings reckoned on ownership basis at the end of 1962-63 & 1963-64 was distributed as follows:

| | 1962-63 | 1963-64 |
|---|---|---|
| State Government .. State Electricity Board } | 17 | 20 |
| Power Corporation .. | 1 | 1 |
| Municipality .. .. | 20 | 23 |
| Companies .. .. | 99 | 80 |
| TOTAL .. .. | 143 | 124 |

It may be pointed out that in 1962-63, six large cities—Bombay (Tata), Calcutta, Ahmedabad, Kanpur, Madras and Delhi accounted for 23·6 per cent of the country's installed capacity and 27·7 per cent of the generated energy. The total number of consumers at the end of 1962-63 was 5,698,727 in all (Domestic 4,303,230; Commercial 913,760; Industrial 210,588; Public lighting 18,173; Irrigation 252,976).

The State-wise analysis of plant, generation and sales for 1963-64 is as follows:

| State | No. of generating stations* | Installed capacity (kW) | Energy generated (mln. kWh) | Energy sold (mln. kWh) | Capacity in industrial Establishments (kW) | Annual *per capita* consumption (excluding self-gen. industries & railways) (kWh) | Annual *per capita* consumption (including self-gen. industries & railways) (kWh) |
|---|---|---|---|---|---|---|---|
| Andhra Pradesh | 74 | 296,851 | 1,274·648 | 822·345 | 48,255 | 21·88 | 26·32 |

# 'CIPLA'

## INDIA'S TRULY NATIONAL PHARMACEUTICAL CONCERN

**CIPLA** The Chemical, Industrial and Pharmaceutical Laboratories—is among the foremost pharmaceutical manufacturing institutions in India.

**CIPLA** has contributed to the raising of the Indian Pharmaceutical Industry to its present high level.

**CIPLA** has established a tradition for **Quality, Purity** and **Dependability.**

**CIPLA products, as a result of scrupulous care and attention at all stages of manufacture, analytical control, biological testing and standardization, rank among the world's best and have thus gained the approval and the fullest confidence of the medical profession in India and abroad.**

**CIPLA** is always at the service of the Medical Profession and the Nation.

**CIPLA REMEDIES ARE AMONG THE WORLD'S BEST.**

CHEMICAL, INDUSTRIAL &
PHARMACEUTICAL LABORATORIES, LTD.
289, BELLASIS ROAD, BYCULLA, BOMBAY-8.

# J. B. ADVANI & CO. PRIVATE LTD.

ESTABLISHED 1908

## HEAD OFFICE: BOMBAY

IN 1908, three intimate friends, Kanwalsing Pohumal, Vasanmal Kishenchand and Jotsing Harising, formed themselves into a Company called J. B. Advani & Company with a view to specializing in the import of Paper and Printing Materials. This Concern was the first of its kind in Sind. The pioneers, who envisaged a great future for this line of business, opened an office in Karachi. In a very short time their confidence was justified and the venture became a huge success. The markets within reach having been tapped to the fullest extent, a Branch was opened in Bombay in 1921. In spite of the very keen competition that usually prevails in Bombay, which is the premier and largest paper market in India, the Company very soon became one of the leading firms in the line with its business growing in volumes from year to year.

In 1925, the proprietors decided to convert their firm into a Private Limited Company—J. B. Advani & Co. Ltd.—with a capital of Rs. 6,00,000.

In 1925, the management began to explore the Punjab market more energetically with a view to developing the business handled by the Head Office at Karachi and a Branch was accordingly opened in Lahore. This was followed by the opening of a Branch in Madras in 1927, which has made steady progress year by year. Three years later, another Branch was opened, this time in Calcutta. Branches have since been opened in Delhi, Jullundur, Cochin and Visakhapatnam.

The Directors of this Company started a new concern under the name and style of J. B. Advani & Co. (Mysore) Private Ltd. at Bangalore.

After partition of India, the Company's interests in Pakistan were converted into a non-resident company.—J. B. Advani & Co. (Pakistan) Ltd., with Head Office at Karachi and a branch at Lahore.

With its network of branches in all the important centres in India, J. B. Advani & Co. Private Ltd. today reaches every notable consuming centre in India.

The Company has a Paid-up Capital of Rs. 34,50,000. Besides, it has the substantial backing of its Directors and their relatives, and the Working Capital is actually in the vicinity of Rs. 1,00,00,000. The Company, with its branches and its tradition of over half a century as the largest importers of Paper in India with a turnover of Rs. 1,25,00,000 per annum, have since the last few years entered and specialised in machinery trade, dealing in Refractory Products. Arc & Resistance Welding Machinery & Equipment, Machine Tools, Plate & Sheet Metal Working Machinery, Building Machinery, Graphite Electrodes, all precision Machines to manufacture clocks, Time-pieces, watches and parts, bicycle parts, Refrigerator parts, etc. of Swiss and German origin, Gas or Oil fired Furnaces, Printing Inks etc. and is open to take up representation of Indian and foreign manufacturers of Paper and Machinery. The Company also exports, specially Tea, Textiles and Malabar Hill products.

In 1951 some of the Directors jointly started a modern Printing Ink Factory in collaboration with foreign experts at Bhandup, Bombay and today J. B. A. PRINTING INKS PRIVATE LIMITED have their vast clientele spread all over India and the neighbouring countries.

Another enterprise with which they are associated is the one for the manufacture of Welding Electrodes, probably the first major attempt in this field of industry in India. In partnership with the Oerlikon Machine Tool Works (Messrs. Buehrle & Co.), Zurich, Switzerland, the world famous manufacturers of Welding Electrodes, a new company has been floated under the name of J. B. ADVANI-OERLIKON ELECTRODES PRIVATE LTD. with 80 per cent of the share capital subscribed by J. B. Advani & Co. Private Ltd. With an uptodate factory and most modern production line, this factory, situated at BHANDUP (Central Rly.), Greater Bombay, is producing now some of the best Welding Electrodes in the world. They have amongst their patrons, Government, Railways, Shipyards, and Great Steel fabricators of India. A branch factory to manufacture electrodes has been set up in 1961 at Raipur while a new factory with Czech collaboration is set up at Chinchwad, Poona to manufacture Arc Welding Generators. It is now in production.

A third enterprise with which they are connected is the one for the manufacture of Drinking Straws and Waterproof Kraft Paper. Messrs. IDEAL WRAPPERS PRIVATE LTD. have the leading Aerated Water manufacturers and Textile Mills as their patrons. This factory is also located at Bhandup.

Now they have their own factory at Hay Bunder, Sewri, manufacturing Arc Welding Transformers accepted by users as perhaps some of the best, comparable with similar types manufactured in advanced Western countries.

*Managing Directors :*

H. K. MALKANI, L. V. MALKANI, B. J. ADVANI, I. T. MIRCHANDANI, D. J. LALVANI

*Branches :* CALCUTTA — DELHI — MADRAS — JULLUNDUR — COCHIN — VISAKHAPATNAM

Backed by 150 years' experience and sustained by over 40,000 members, the J. K. Organisation continues to forge ahead in diverse fields of activity-dedicated to a self sustained expansion of Indian Economy.

It serves the Nation through the undermentioned Industrial and Commercial Enterprises :—

Cotton textiles, Jute textiles, Woollen textiles, Rayon, Nylon, Metal & Engineering, Aluminium, Paper & Straw Boards, Chemicals, Plastics, Paints, Mines, Food, Oil, Soap & Ice, Exports & Imports, Trade, Commerce and Finance, Banking, Insurance & Trusts. Etc.

*A moving force in national endeavour*

**J. K. ORGANISATION**

ADMINISTRATIVE OFFICES

*Northern Zone :* Kamla Tower Kanpur.

*Western Zone :* J. K. Building Ballard Estate Bombay.

*Eastern Zone :* 7, Council House Street Calcutta

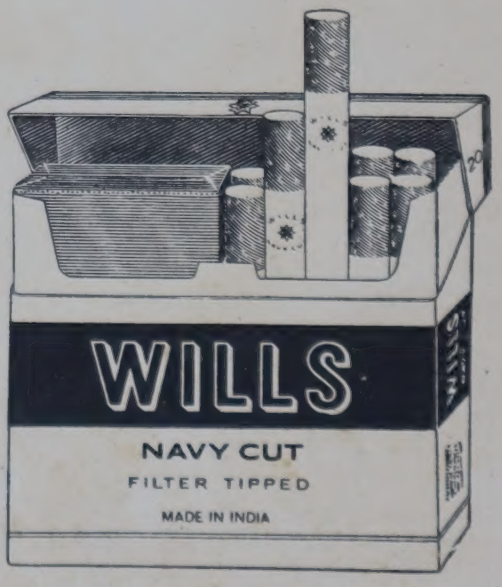
# filter and tobacco perfectly matched

What tobacco men call marriage—the marriage of the right tobacco with the right filter—is what makes Wills Filter Tipped extra special. A filter cigarette as good as Wills is not just a good cigarette with a filter at one end—it is a good *filter cigarette*. The fine tobaccos in Wills are specially blended to match the filter, enhance the taste.

That is why you will find Wills Filter Tipped so satisfying. So many discriminating smokers already have.



*Rs. 1.20 for 20* *60 Paise for 10*

(Local taxes extra)

*they're great...they're Wills*

IWTWF 2422-A

# RAMTIRTH (HINDI MONTHLY)

Editor : **Yogiraj Shri Umeshchandraji**

MORE THAN 160 PAGES PER ISSUE
